Local Intelligence.

The Orphans Court of Caroline county will sit on Tuesday, Oct., 8th, 1867.

PUBLIC PASTURE—The *incorporated* village of Denton.

REMEMBER—the Internal Revenue Collector will be in town to day and to-morrow.

DOVER BRIDGE, which, a short time since, was run into and badly damaged by a sail vessel, has been repaired and travel over it resumed.

DIVORCEMENT.—Judge Goldsborough, on the 16th inst., granted a divorce *a vinculo matrimonii* in the case of Susan E. See *vs* James See.

MR. GEORGE COLTON, printer to the late Constitutional Convention, will accept our thanks for a neatly printed copy of the new Constitution.

RELIGIOUS.—Rev. B. F. Benson will preach in the Court House on Sabbath afternoon next, at three o'clock. The public generally are invited to attend.

THE LADY'S FRIEND.—The October number of this magazine is upon our table. It needs no "editorial puffs" as it will commend itself to the ladies by a hasty perusal of its contents. Published at 319 Walnut Street, Phila., by Deacon & Peterson. Only $2 50 a year.

IRON IN THE BLOOD.—When the blood is well supplied with its iron element we feel vigorous and full of animation. It is an insufficiency of this vital element that makes us feel weak and low spirited; all such, by taking the Peruvian Syrup, (a protoxide of Iron) can supply this deficiency, and will be wonerfully invigorated.

A NIGHT SCHOOL.—We understand that Mr. J. W. Conner, principal of Denton academy, will soon open a night school for the accommodation of those whose business requirements exclude them from the benefits of the day school. To our young men this is a rare opportunity.—The long and dreary evenings of winter are fast approaching, and they cannot better be consumed than in the pursuit of knowledge. Many of America's leading statesmen were made such from no better opportunities than these.

ITEMS OF NEWS.

The Secretary of the Republican State Central Committee [illegible] Governor will be elected by forty thousand majority.

The official vote at the election in Tennessee for Governor is as follows: Brownlow, Republican, 74,484; Etheridge, Democrat, 22 550. Brownlow's majority 51,934 The total vote is 97.034, of which the soldiers (much scoffed at as Brownlow's "standing army") cast 818.

General Sickles has received a letter from Governor Orr highly complimentary of many of the former's official acts as Military Governor of North and South Carolina, and expressing the gratitude of the people of those States for what General Sickles had done for them in the discharge of his late duties.

Yellow-fever Blackburn is on his way to New Orleans with a copy of the amnesty proclamation in one pocket and Binckley's constitutional-obedience circular in the other. The Union men of that city are preparing to give him a warm reception, as they threaten to prosecute him for his infamous conspiracy to murder their friends by sending infected clothing to them during the war.

SPECIAL NOTICE COLUMN

DYSPEPSIA.

There is no disease which experience has so amply proved to be remediable by the

Peruvian Syrup,

(a protected solution of the Protoxide of Iron), as Dyspepsia. The most inveterate forms of this disease have been completely cured by this medicine, as ampl testimony of some of our first citizens proves.

FROM THE VENERABLE ARCHDEACON SCOTT, D. D. DUNHAM, Canada East.

* * * "I am an inveterate Dyspeptic of more than 25 years standing.

* * * "I have been so wondertully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

ANOTHER CLERGYMAN WRITES:

"My voyage to Europe is indefinitely postponed I have discovered the "Fountain of Health" on this side of the Atlantic. Three bottles of Peruvian Syrup have rescued me from the fangs of the fiend Dyspepsia."

A pamphlet of 32 pages, containing a history of this remarkable remedy, with a treatise on "Iron as a medicine," will be sent free to any address

A CARD FROM THE

American Watch Company

OF

WALTHAM, MASS.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce over 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthles Ancres, Lepines and so called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches Are Made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the company's operations, from the reception of the raw material to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine [illegible] every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old-fashioned handicraft system They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases: but the indispensible requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents. ROBBINS & APPLETON,
