The Trustees further report that in their judgment the sum of $2500 will be required for the support of the institution the ensuing year, and therefore recommend the County Commissioners to levy that amount.

Respectfully submitted,
JOHN R. FOUNTAIN, Treas.
Oct. 10, 1867-3t.

FOUTZ'S HORSE AND CATTLE POWERS at ALBURGER'S.

A CARD FROM THE
American Watch Company
OF
WALTHAM, MASS.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce over 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to corret time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that, except watches of the higher grades, European watches are the product of the cheapest labor of Switzerland, and the result is the worthles Ances, Lepines and so called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches Are Made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the company's operations, from the reception of the raw material to the completion of the Watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it.

The Company respectfully submit their watches *on their merits* only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enameled and jeweled cases: but the indispensible requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that except their single lowest grade named "Home Watch Company, Boston," ALL WATCHES made by them

ARE FULLY WARRANTED

by a special certificate, and this warrantee is good at all times against the Company or its agents. ROBBINS & APPLETON,
se19-1m 182 Broadway, N. Y.

Mears' Infallible
(SUGAR-COATED)
AGUE PILLS
NEVER FAIL!

Mears' Wonderful Ague Pills

are unrivalled for the cure of **Chills and Fever.** Hundreds of persons who have been afflicted with this distressing complaint for months, after trying Quinine in vain, have been speedily cured by them.

They are warranted not to contain a particle of Quinine, Arsenic, or any other deleterious drug; on the contrary, they are a most excellent tonic and alterative, promoting the appetite, and renovating and strengthening the system. For a torpid liver, or any bilious derangement, they will be found an excellent remedy—gently stimulating the liver to an increased action—thus removing the most troublesome source of this distressing disease.

Those living in districts where Chills and Fever prevail *should never be without these Pills;* and on the *first appearance* of the symptoms, should take a few, and thus ward off an attack.

They may be taken by old or young, and at any time, without the slightest regard to diet or exposure.

BRISTOL, August 1st, 1866.

This is to certify, that I am acquainted with the formula of Mear's celebrated Fever and Ague Pills, and I have used the same very extensively in my practice, and have never known them to fail when used according to directions; on the contrary, I have succeeded with them, in many instances, after trying Quinine in vain.
E. J. GROOM, M. D.

NEWPORTVILLE, Aug. 1st, 1866.

This is to certify that I am acquainted with the formula of Mear's Fever and Ague Pills, and have no hesitation in pronouncing them a perfectly reliable and sure cure for all forms of this distressing disease, if taken according to directions. RICHARD DINGEE, M. D.

GROVER & BAKER'S
Family Sewing Machines.

THESE Machines are superior to all others for family use, for the following reasons:

They sew with two threads direct from the spools, and require no rewinding.

They are more easily understood and used, and less liable to derangement, than any other machines

They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.

The stitch made by these machines is much more firm, elastic, and durable, especially upon articles that require to be washed and ironed, than any other stitch.

This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty, even upon articles frequently washed and ironed, until they are worn out.

The structure of the seam is such, that, tho' it be cut or broken at intervals of only a few stitches, it will neither open, run nor ravel, but remains firm and durable.

Unlike other machines, these fasten both ends of the seam by their own operation.

With these machines, while silk is used upon the right or face side of the seam, cotton may be used upon the other side, without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk

These machines, in addition to their superior merits as instruments for sewing, execute the most beautiful and permanent embroidery and ornamental work.

The above points of superiority are fully established by the sworn testimony in the recent case before the United States Patent Office, and by letters from all parts of the country.

☞ REV. B. F. BENSON, agent in Denton, will furnish the above machines at Baltimore prices, and will teach those who buy of him to operate them, gratis.

LETTER FROM MRS. T. H. KEMP.

To Rev. B. F. Benson:—

After having fully tested the Grover & Baker Sewing Machine, purchased through your agency, I take pleasure in saying I am delighted with it. My sewing is now an amusement, rather than labor. The work it required me a week to do by hand I now accomplish in two days with my machine. I am decidedly pleased with the beauty, elasticity, and durability of the stitch, as well as the convenience with which the machine may be adjusted to all kinds of family sewings. With the aid of two lessons from you, I learned to use the machine. My experience, and my judgment, incline me to say, you will confer a great favor on any family to whom you may sell. I never was better satisfied with the use of the same amount of money.

Yours truly,
ap11-6m S. E. KEMP.

CLOTHING.

THE undersigned would say, most respectfully, to the community generally, that he keeps on hand an assortment of

Cloths, Cassimeres and Vestings,

to suit the seasons, at his tailoring establishment, No. 58 W. Fayette street, Baltimore, Md. Past experience induces me to say that I can give you as good a fit, and as much for the money, as any in the trade. If you will take the trouble to compare prices, I am sure you will give me a trial. As respects a fit, no one need hesitate; none shall go away without entire satisfaction. I would rather lose the sale of a garment, than a customer should hold me in unfavorable remembrance every time he puts it on. This is no humbug. Those who know me well will subscribe to what I say. My first object is to promote my own interest; the second, yours. Come and realize the fact. Persons furnishing their own goods can have them made and trimmed in good style. Attention also paid to REPAIRING.

L. D. TAYLOR,
No 58 Fayette St., between Calvert & North, one-half square East from Barnum's Hotel.

BERGER & BUTZ'S
'Excelsior' and 'Amoniated,'
Super Phosphates
OF LIME.

FARMERS and dealers are respectfully referred to the above Fertilizers as being prepared in the best manner, thoroughly reliable, and in every way calculated to give universal satisfaction. They are extensively known, being used with great success during the past six or seven years. We are confident that all who buy the above Fertilizers will receive a full return for their outlay, not only upon the crop manured therewith, but even for several years upon grass and other after crops.

R. J. RUTH & CO., AGENTS,
