DENTON, MARYLAND:

THURSDAY MORNING::::::::March 11, 1869.

APOLOGETIC.—A great pressure of advertising has considerably curtailed our usual quantity of reading matter. We hope our patrons will bear with us for a little while, for the "rush" will soon be over. If not, we shall employ some other means to give our usual compliment of reading matter.

The Cabinet.

On Friday last, President Grant sent to the Senate the names of the following gentlemen for confirmation as his Cabinet Ministers:

Secretary of State—E. B. Washburne, of Illinois.

Secretary of Treasury—A. T. Stewart, of New York.

Secretary of War—No nomination, and Gen. Schofield will continue to exercise the functions of that office at present.

Secretary of Navy—Adolph E. Borie, of Pennsylvania.

Secretary of Interior—J. D. Cox, of Ohio.

Post-master General—J. A. J. Creswell, of Maryland.

Attorney-General—E. B. Hoare, of Massachusetts.

The Senate immediately confirmed all the appointments, together with that of Lieut-General Sherman to be General of all the army—vice U. S. Grant, resigned.

Personnel of President Grant's Cabinet.

Mr Washburne, the Secretary of State, is a citizen of Illinois, a resident of Galena, Gen. Grant's old home, though a native of Maine. His early life was spent in a printing office, to which business he served a regular apprenticeship. Subsequently he studied law at Harvard University, and commenced the practice of his profession in Galena, where he continued to reside. He was first elected to the Thirty-first Congress, and has served in every Congress since then, and was elected a member of the Forty-first Congress, just opened. Throughout this time, covering a period of fourteen years, his wholé course has been consistent, and his fellow citizens have had just cause to be proud of him. He had acquired the sobriquet of "Father of the House."

Mr. A. T. Stewart, the Secretary of the Treasury, is the merchant prince and millionaire of New York City. Commencing life with nothing but his own energy, he has, by close application to business, amassed a fortune second to none in New York.—The executive ability with which he has managed his own affairs has forced his nomination upon President Grant, and the general impression is that the selection is a most prudent one.

Mr. Adolph E. Borie, the Secretary of the Navy, is a retired merchant of Philadelphia, who accumulated large wealth in the importing and shipping business. Mr. Borie is of German parentage, a zealous member of the Catholic Church, and was educated at St James' College, Baltimore. He bears the reputation of being a gentleman of much culture and ability. During the war he was among the most earnest Union men of Philadelphia, being Vice President of the Union League, and an active promoter of all the patriotic object undertaken by that efficient organization in behalf of the Goverment.

General J. D. Cox, of Ohio, the Secretary of the Interior, served during the rebellion under General Sherman, with bravery and distinction. After the war he was elected Governor of Ohio. During the Stanton imbroglio General Grant wished General Cox to accept the position of Secretary of War, the Senate being willing to confirm him, and thus end the struggle. General Cox, however, was unwilling to accept the position under the circumstances. He is a thoroughly staunch Republican, and a man of ability.

Judge E. B. Hoare, the Attorney General, is the present Chief Justice of the Supreme Bench of Massachusetts. Though he has not been prominently in politics, he has been thoroughly identified with the Republican party. As a lawyer he has a high reputation at the Massachusetts bar. His brother was elected to the present Congress from the Worcester District of Massachusetts.

The Post-master General, Mr. Creswell, a citizen of Elkton, this State, is so well known that it is needless for us to say one word in his behalf.

The entire Cabinet is thoroughly Republican, and the country may justly congratulate itself upon having the Legislative and Executive branches of the Government in accord.

IT IS CLAIMED that there is a provision in the Constitution which incapacitates Mr. A. T. Stewart for the Secretaryship of the Treasury. Various rumors are afloat as to what will be the probable action of the President in this case. The one most current, and which seems to be pretty generally believed, is, that Mr. Stewart will resign and that Mr. Boutwell will be called to the position. This will give two members of the Cabinet to Massachusetts—hence it is thought that Mr. Hoare will resign, he having signified his willingness to yield to any arrangement which will relieve the administration of embarrassment. Edwards Pierrepont or Lyman Tremaine, of New York, will succeed him.

THE season for transplanting fruit trees, etc., is now at hand. Persons throughout our county, who contemplate planting this Spring, will find it to their interest to visit the Choptank Nurseries, where a full selection of everything in their line can be had.

President Grant's Inaugural.

On our fourth page we print the inaugural address of President Grant in full, and ask a careful perusal of it by our readers.

This address of President Grant's is not dissimilar to all his other specches and letters—brief and to the point. It is eminently characteristic of the man. A man of few words at all times, he speaks volumes by his acts. He makes no boasts or promises, other than that he will discharge the duties of his office with fidelity, leaving time to fulfil the wisdom of the course he will pursue. But he is explicity clear upon all points. Our national debt he considers the honorable consequence of the war, and our refusal to pay it a crime second only to treason. This debt we must pay without eqivocation.—When we borrowed it, it was gold to us, and we must pay gold unless the contract expressly stipulates to the contrary. The repudiator of a single farthing of the debt is unfit to occupy any place under the Government. He is in favor of building railroads to the Pacific, but is opposed to issuing bonds for that purpose—until we resume specie payment. We must no longer promise to pay a gold dollar until we receive a gold dollar. We must resume specie payments as soon as we can. With other nations he would deal as equitable law requires one individual to deal with another. The question of suffrage is one calculated to agitate the country so long as any class of citizens are disfranchised, and he therefore is in favor of settling it now by the ratification of the Fifteenth Article of Amendment to the Constitution.

But it is unnecessary that we should dwell upon these points. They are clear to every mind, in their simple state, and we refer our readers to the address.

Still Further Testimony.

Another evidence of the manner in which our efforts to present a real live newspaper are appreciated is contained in the following extract from a letter to the *"Denton Journal,"* of last Saturday. Our vanity overreaches our natural modesty and tempts us to lay the extract before our readers:

"Among other evidences of waking up to the necessities and advantages of "the situation," I am pleased to notice that your neighbor, the *Union*, shows unmistakable signs of prosperity. The editorials and selections, I think, are improved, and the gentlemen who wield pen and scissors for that establishment understand their vocation better. It has grown to be a dignified, well conducted journal, and I see little of that acrimony and vituperation in its columns so prevalent in county papers; I sincerely hope that it will continue to advance in all that tends to make, and to keep it a first class weekly. We can now congratulate ourselves upon having two of the best county papers in any State."

Now, friends, our labors in the past are but an earnest of what we would do if we but received sufficient encouragement. We desire to live within our means, and to do this requires that we shall lay aside all antipathy to manual labor, and become our own foreman. This we don't at all object to: we like to work, and if we employed fifty journeymen we should work equally as hard as we now do. All we ask is that a sufficient amount of patronage be extended to us as will permit us to devote more of our time to the editorial duties of our paper.—This can easily be done; and if our friends would but exert themselves it could be done right speedily. If each subscriber will send us one new name we will be able to accomplish what we desire. Any great increase of subscribers would cause us to put into our office increased facilities. We could lessen the time of our manual labor and thus devote more of our time and attention to the interests of our county. We trust, therefore that each subscriber will send us one new name at least. We promise they shall be amply rewarded for their trouble.

Hon. John A. J. Creswell.

The selection of this gentleman by President Grant, for a position in his Cabinet, is not only a personal compliment to Mr. Creswell, but a just acknowledgment of his talents—his sturdy Republicanism—his past political record—and a high appreciation of his past services in this State and elsewhere. His appointment to this distinguished position gives entire satisfaction to his own party, and we believe a large majority of the Democrats who know Mr. Creswell are highly gratified at his good fortune. We notice, however, a few, who learn nothing from the experience of the past and who look into the future with forebodings of evil, who would much rather have seen what they term a *"conservative"* occupying the position. We think President Grant could not have selected, from all the talent of the country, a more competent gentleman for the position of Post-master General. He is "the right man in the right place."

The Latest News.

Rives Pollard, has been acquitted——A resolution, calling an informal meeting of delegates from the several counties of the Peninsula so as to ascertain the sense of the people relative to Peninsular union, has passed one branch of the Delaware Legislature——It is thought Congress will adjourn in 30 days, though the Senate may continue beyond the expiration of that time in executive session.

Schuyler Colfax becomes President of the Senate by virture of his election to the Vice-Presidential office—this being a part of his duties.

The Execution of the Chesapeake Murderers.

Friday last was the day set apart for the execution of the murderers of the captain and mate of the pungy *Brave*, on the 30th of March last, in Tangier Sound, Chesapeake bay. The names of the murderers were: Frank Rounds, Geo. W. Bryan, Lindsey C. Wells, and Chas. W. Densley. Each made a confession of his guilt upon the scaffold, and warned those present to beware of imbruing their hands with blood, lest a similar fate might overtake them.

At twenty minutes till 2 o'clock, the sheriff pulled the spring, and all fell together, and received, in each case, almost instant death, except that of Wilson.

In the case of Wilson, however, the knot struck immediately under his chin, and it was soon apparent to all that he was only suffering slow process of strangulation. He breathed quite freely, and soon gave forth most harrowing groans, struggling fearfully. He raised his feet nearly to the height of his head, and it was soon evident that he was striving to get upon the scaffold. His hands clutched eagerly for help; at one moment he seized the shroud of Rounds and in that way tried to help himself up. Presently he got his right elbow and hand on the edge of the trap door, and, making another desperate struggle, threw his pinioned feet upon the scaffold, and in a moment more was lying extended upon the floor, the rope supporting the upper part of his body across the opening.

Horror seized upon those around at this sight. The Sheriff's humane feelings were not equal to the task, and he stood irresolute, but the jailor ran up the steps and after a momentary struggle with the wretched man, succeeded in pushing him off and tightening the knot around his throat, thus actually strangling him; death soon followed, and, to the great relief of all, the terrible scene was brought to a close.

BEFORE taking a final leave of the White House, Andy Johnson sent up a parting wail in the shape of a farewell address. He seems to entertain grave doubts as to the future of the country, unless he is at the head of the administration, and proceeds, at some length, to read a little gratuitous advice to his successor, based upon his pocket constitution and his flag of thirty-four stars. He recites the difficulties which have beset him on every hand—the restraints thrown around him to prevent his usurping the judicial powers of the Government—the offers tendered him to become dictator, and his magnanimous refusal to accept the same. Now this is all veritable stuff, and will fail to have its desired and designed effect upon the intelligent American people. His crimes are too great to be washed away with such an ablution as he has prepared. His connivance at fraud by his zeal to pardon forgers, counterfeiters, &c.; his encroachments upon the constitution of his country; his betrayal of confiding friends; the ill effects of his administration—all conspire to render him obnoxious to a free and independent people: and he now turns his face towards Tennessee less respected than when he sought that State in days of yore to prosecute the trade of his choice.

THAT PORTION of President Grant's inaugural, wherein he says he will, "upon all subjects, have a policy to recommend, but none to enforce against the will of the people," is a severe thrust at Andrew Johnson, and one which, we doubt not, caused the blush of shame to tinge his cheek as he read it. Thanks to the Gods! we have once more a President and people acting in concert.

WONDERFUL.—Henry W. Burr, No. 49 West 14th Street, while on a visit to the West, was attacked with severe illness from drinking impure water. Life was despaired of, and it was thought that he must die.—His wife was immediately sent for, and in a day or two was at his bedside. Having herself seen the beneficial results from the use of PLANTATION BITTERS, she insisted upon their being administered to him, which was done, in quantities prescribed by the attending physician. The result was almost as if by magic, and in one-half hour from the time they were given her husband was out of danger, and by a moderate use of them three or four times a day, he was soon able to resume his journey to his home. This is but one case of many thousand that we know of.

YOU ALL
HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,
AND
HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR
FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for
Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,
and all Diseases arising from a Disordered Liver, Stomach, or
IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imagining of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters with PURE *Santa Cruz Rum, Orange, &c. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The* TONIC *is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best
Blood Purifiers
ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.
Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.
Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,
Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a most valuable and reliable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*
Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.

CAUTION.
