DENTON, MARYLAND:

THURSDAY MORNING:.....April 15, 1869.

OUR NEW PRESS.

We have just added to our office one of Gordon's first-class Franklin Job Presses, capable of making 1,000 to 1,500 impressions per hour, and we are now prepared to execute every variety of printing in a very short space of time and in city style. We have long felt the need of such a press, inasmuch as the printing business in this county has a somewhat progressive tendency. Orders for cards, envelopes, circulars, ballads, &c., in large quantities, have been left with us of late, and we naturally shrank from the execution of the work, knowing it would entail a vast amount of wearisome labor upon us. Henceforth such work will be a pleasure to us, and in view of this fact, together with our increased facilities, we shall at once reduce our prices on a par with city offices.

The principles upon which this press is constructed are simple and easily understood. There is no superfluous work about it, and everything moves along without a jar or jolt. It is operated by a man, or boy, and with the greatest ease. With his foot he gives the power to the press, whilst his hands are busily engaged in feeding and taking off the sheets. The ink is distributed and applied by a self-operating process, and the precision with which it is done is an object of wonder. We invite all who have a desire to witness this press to drop in at any time their inclination may prompt them.

In addition to our press, we have purchased a large supply of type of the latest design. We have also purchased borders and flourishes and colored inks, and we can execute any kind of printing that may be desired—from a visiting card to a full-sized sheet. Our work is a sufficient commendation of itself,

Adjournment of Congress.

Both Houses of Congress adjourned on Saturday last in accordance with a previous resolution. President Grant has, however, re-convened the Senate in special session to consider nominations he may have to make.

Another Republican Victory.

Gallant little Rhode Island responded to the call of Connecticut on Wednesday last by achieving a magnificent Republican triumph. Paddleford is elected Governor by about 4,000 majority, whilst the Senate stands 26 Republicans and 7 Democrats; the House 60 Republicans and 12 Democrats.—Surely the people are tiring of Democracy.

Delaware Appointments.

The President has appointed and the Senate confirmed the following gentlemen for the various Government offices in Delaware:

Assessor of Internal Revenue—Gen Danl. Woodall.

Collector of Internal Revenue—J. S. Prettyman.

District Attorney—Anthony Higgins Esq.

Marshall—John M. Dunn.

Maryland Appointments.

The doubt and uncertainty relative to the Maryland appointments was removed one day last week by the nomination of the following gentlemen, all earnest Republicans, to the following positions. They have all been confirmed by the Senate:

Collector of the port—Hon. John L. Thomas.

Surveyor—Edington Fulton.

Naval officer—John Lee Chapman.

Marshall—Ed. Y. Goldsborough.

It is rumored that a change will be made in the Assessorship and collectorship of this District and that Col. Saml. A. Graham, of Salisbury, and Parson McIntire, of Cecil, will fill these positions respectively. We give these as rumors only.

Foreign Missions.

President Grant sent to the Senate on Monday the names of the following gentleman to represent this Government in the foreign courts mentioned:

Hon. J. Lathrop Motley to succeed the Hon. Reverdy Johnson as Minister to England; Andrew G. Curtin, of Pennsylvania, Minister to Russia; John Jay, of New York, Minister to Austria; James R. Patridge, of Maryland, Minister to Nicaragua; Leopold Marktreit, of Ohio, Minister to Bolivia; Wm. A. Pile of Missouri, Minister to Venezuela; Joseph R. Jones, of Illinois, Minister to Belgium; John S. Carlile, of West Virginia, Minister to Stockholm; J. R. Clay (colored), of Louisiana, Minister and Consul General to Liberia; R. C. Kirk, of Ohio, Minister to Bogota; Silas A. Hudson, of Iowa, Minister to Guatemala; Ebenezer D. Bassett (colored) Minister to Hayti.

We clip the following paragraph as illustrative of the feeling which the General Government bears towards its enemies. But notwithstanding such acts of clemency are almost daily manifested, the Government is constantly upbraided by the Democrats for not doing more. We have some of this class in this community, and we trust they will read this paragraph carefully:

A number of Southern citizens, dreading the apprehended oppressions to which they might be subjected after the war, exiled themselves from their native land and sought homes in some of the Southern American States. Many of them went to Brazil, where they are now in great poverty and anious to return. The United States Government has, with a promptness and liberality worthy of all praise, directed Admiral Davis to furnish free transportation on a Government vessel to any of such citizens who may desire to "come home." This is a signal instance of clemency and kindness, and is decidedly in the line of "peace."

THE COUNTY SEAT AS A BUSINESS CENTRE.

There is, perhaps, no more unpleasant task for a public journalist than that of endeavoring to rouse the energies of a people who have been accustomed to run in the smooth groves of long-established usage. A community which has never exercised its latent powers sinks into apathy. It dreads any innovations upon the habits and customs which it or its forefathers established, and it views with indifference the dilapidation which is going on around it.

This is so everywhere where the spirit of conservatism is the governing power amongst those who have the ability to create progression. The old English aristocrat hears with dread the clamor for the extension of the franchise, and the crowned heads of continental Europe look with jealous eye upon the spread of Republican ideas. When the unity of Italy was first agitated few had faith in the measure: yet those few stood bravely to their work, and Italian nationality is to-day a fixed fact.

Our national highway to the Pacific was also considered by many as a mere visionary idea of speculators. Brains and men even starved to death in searching for a practicable route, but to-day only a few miles of the iron track remains to be laid which shall unite the two oceans.

If, then, perseverance and energy can accomplish such great moral and political reforms, how much easier will it be to bring about a reformation in our own county policy! We need a centre in our community. Other sections of the country have such centres, and it is the point from which comes all the life and energy which animates the body politic. It is the place to which weaker places look for aid and counsel. Wherever there is a concentration of business, we can also look for a collection of wealth and talent; but wealth and talent are of little avail if there is a lack ot energy to put the car of progress in motion.

In looking around us for a desirable point where capital and energy can concentrate, we have come to the conclusion that the county town of a county affords superior advantages to all other places. It can be done here with greatest ease and rapidity. Here the nucleus for business is already formed. But the citizens and property-holders of the place must not pursue a narrow-minded policy. They must not be afraid that competition will injure their business. Nor can they expect the town to grow if they hold their building lots at figures a New Yorker might envy Neither will they invite settlers to come amongst us if they expect to pay for a tenement house in a few years by its rental fee. If the business men and property-holders really wish to make Denton the centre of trade and business, they must pursue an enlightened and liberal policy. They must, by their own exertions, induce business men to settle amongst them. They must, by all honorable means, seek to build up the place and wipe out the reproach that has been cast upon us—that it is no use trying to make a lively place out of Denton.

Denton can be made a lively place by proper efforts on the part of its citizens. We have the county around us, and the population of the county is bound to increase.—Those old fields which surround us will, ere long, become fertile, and the waste places be made productive. We fight against nature if we wish it otherwise.

The more we concentrate business, the soooner will the desired result be brought about. Strangers coming here to buy land would be induced more readily to do so if we had a brisk and active county town. They have been used to see it at home, and they would judge the county more favorably if activity would be manifested in what should be the business centre of the county.

Chicago is the great commercial emporium of the West; but if it were not for the centres around which she revolves she would soon lose her prestige. It is the towns of the interior of every State which constitute her real wealth, and is the county towns from and through which the wealth of our Northern commonwealths is derived. It is idle for men to say, "Oh, yes, the North has plenty of capital. Its men are men of means. They are accustomed to business," &c. But how came they to be so? What created that capital? How were their factories built? We answer: by concentration, not of their wealth alone, but of their energies also; and in the main that concentration was begun in their county towns. The people of the surrounding country saw the efforts the citizens of the shire town were making to cause it to be an ornament to the county, and they came unsolicited to the assistance of their fellow-citizens, and to-day many view the small beginnings they made with pleasure. Where the humble pioneer shop once stood the stately, substantial factory has grown upward, and prosperity is seen on every hand.

But to accomplish such a revolution men must bend their energies to the task, invest their money, and devote their time and talents to the accomplishment of the design.—They must take a long pull, a strong pull and a pull altogether. In union only there is strength, and a divided effort will avail but little. If the object is simply to make money, without benefitting others or making any improvement in the county, then the simplest mode of doing so is to invest money where a ruinous rate of interest is received at the expense of the borrower. We then can expect nothing else than to plod along in the old beaten track—the rich growing richer each year and the poor poorer—and in the end bring about a struggle the consequences of which no man can foresee.

The especial attention of gentleman is called to the card elsewhere of the Baltimore Museum of Anatomy, an institution recently established in that city.

PENINSULAR JOTTINGS.

CECIL COUNTY.

—The mumps prevail amongst the juvenile portion of the population of Elkton.

—Shad made their first appearance in the Elkton Market last week and sold from 75 cts. to $1 per pair.

WORCESTER COUNTY.

—Newtown wants a brass band, and some of the musical people are endeavoring to supply the want.

—A series of extra meetings have been in progress in the Newtown Baptist Church for some two weeks with good results.

—The *Record* is satisfied that the fruit crop will be an abundant one, providing the buds are not killed by any unfavorable weather.

DORCHESTER COUNTY.

—The measles continues its afflictions upon the children in Cambridge.

—The experiment of lighting Cambridge with gas has failed through a lack of patronage on the part of the citizens of that town.

—The *News* says that trade supplies the place of money, and that the merchants "get along as well with not enough as with too much money."

SOMERSET COUNTY.

—The Somerset Hotel is now in the occupancy of John S. Hager.

—The colored people are erecting a large school-house in the rear of "Wesley chapel."

—Hydrophobia is prevailing to an alarming extent among the dogs in and around Princess Anne.

—Efforts are being made to organize a lodge of the order of the Knigts of Pythias in Princess Anne.

TALBOT COUNTY.

—We notice that the *Journal* has been changed from a seven to an eight column paper, but without increasing its size. This we consider a great inprovement, for its wide columns looked clumsy and not in good taste.

—The stabling, provender, a quantity of farming implements, and nine head of horses, belonging to Mr. G. A. Skinner near Royal Oak, was entirely destroyed by fire on Monday night week. There was only a small insurance of $100 on each horse. A case of supposed incendiaryism.

NEW CASTLE COUNTY.

William G. Whitely, Esq., has removed his law office from New Castle to Wilmington.

—Delaware College, at Newark, is shortly to be re-opened after a suspension of several years.

—The repairs of the Delaware House are completed, and it is now re-opened to public patronage, under the new lanlord, Cornelius Green.

—The poisoning case mentioned a week or two ago has been ferreted out and the author arrested. It was a negro boy living with Mr. Jarrell, and the poison was "swamp cabbage."

QUEEN ANNE'S COUNTY.

—Messrs. Jno. B. Brown, Jas. B. Palmer and Robt. A. Reamy have been re-elected Commissioners of Centreville.

—Mary Ann Pancoast, originally from New Jersey, was last week arrested at the instance of Senica Senickson, from the same State, who alleged that she had broken in his house the night previous. The officer states that he found Miss. P. lying upon Mr. S.'s doorstep with a buffalo robe over her—her hair disheveled and her clothes muddy and torn. She was willing to accompany the officer. When brought before a magistrate she recounted the cause of her troubles—a child of her's being held by Mr. S. against her will, and undue intimacy, we infer—upon which statement she was set at liberty and Mr. S. compelled to give bail to await the action of the grand jury.

SUSSEX COUNTY.

—Ship-building is being revived in Milford, and three boats are in process of construction.

—The bill for the benefit of the Junction & Breakwater Railroad has passed both houses of the Legislature, and from present appearances the road will soon be completed, a pier built, and a regular line of steamers plying between that point and New York.

—A wealthy farmer named Cornelius Holland was found dead in Lewes on the morning of the 4th inst., and his horse standing near him. He had been indulging in strong drink the night previous and some think he fell from his horse and died from exposure, while others contend that he was foully dealt with. The affair is being investigated.

KENT COUNTY, DEL.

—Wednesday July the 1st has been fixed upon for the commencement of the Camden camp, and it will continue 10 days.

—Jno. Leitz was run over by his team on Tuesday, near Kenton, and instantly killed.

Danl. Cowgill, Sr., and his wife arrived from Florida on Monday week, where they had been spending the winter.

—The telegraph office at Clayton is to be removed from the depot building into a building built for the purpose.

—A thief succeeded in entering the bed room of Mr. Richard Mitchell early one morning last week but was frustrated in his plans by the appearance of Mr. M.

—A man was discovered on Monday, at Clayton on the freight train of the Delaware R. R., in a carriage, which was sewed up in canvass.

ITEMS OF NEWS.

In 1866, the last census, the population of France was 38,067,094.

By direction of the President, a message has been sent by cable, to the Hon. Reverdy Johnson, requesting him to tender his resignation.

The freight railroad tracks on Broad street, Phila., were taken up on Thursday night by a large force of workmen, under order of the city council, thus defeating a project before the State Legislature to extend the time of removal.

The propeller Thames, from New York for Galveston, was burned, off Cape Hatteras, on April 6th. Five men, who put off in a small boat, have not been heard of; but the remainder of those on board, including the captain and four passengers, were saved.

Telegrams to the Philadelphia *Press*, say it is now definitely settled that Hon J. Lothrop Motley will go to England, Governor Curtin to Russia, and General Sickles to Mexico. Mr. Watts will be relieved from Vienna. Mr. Sanford will stay at Brussels, Mr. Dudley as counsel at Liverpool, and Mr. Marsh as minister to Italy.

The Legislature of Indiana met in extra session on Thusday last, new members to fill the places of those who resigned in order to defeat the ratification of the fifteenth amendment to the Constitution having been elected. It is said that the newly elected members will hold their places, and that the amendment will be promptly ratified.

The Markets.

BALTIMORE, April 12.—Wheat in fair demand and market firm. Red at from 170@227 cts. No sales of white. Corn a little higher than last week. White 83@85 cts.; yellow, 85@86 cts. Rye 145 cts. Oats 72 cts.

PHILADELPHIA, April 12.—Wheat unchanged; red at 160@165 cts., amber at 170@175 cts., white at 180@200 cts. Rye steady at 115 cts. Corn is firm; yellow at 89@90 cents, mixed Western 85@86 cts.—Oats firm at 73@75 cts.

To the Colored People of the State.

The colored Republicans of the city of Baltimore and State of Maryland are hereby requested to appoint Delegates to meet in Convention at the Douglas Institute, Lexington street, Baltimore, at 12 M., Whit Monday, May 17th, 1869 for the purpose of organizing Republican Associations in the various towns and counties throughout the State, and the appointment of a State Central Committee, Presidents of the various meetings will please forward a list of their delegates as soon as appointed, and for all information apply to the Secretary of the Executive Committee,

It is said that Calisaya Bark has a peculiar effect upon the liver, and guards the system against diseases by exposure and irregular diet. It is conceeded that the great success of the wonderful PLANTATION BITTERS, which, previous to our late unhappy difficulties, was found in most southern homes, was owing to the extract of Calisaya Bark which it contained as one of the principal ingredients. In confirmation of this we have heard one of our distinguished Physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by PLANTATION BITERS.—We speak advisedly when we say that we know it to be the best and most popular medicine in the world.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

THE BILL REORGANIZING the judicial system of the Government has gone to the President for his approval. It creates nine judicial circuits, in which courts shall be held by circuit judges, and not by associate justices of the Supreme Court, although it does not prohibit them from sitting with the circuit judges in the trial of cases. It adds one more to the present number of associate justices of the Supreme Court, and provides for the retirement of any justice, who shall have attained the age of seventy years and served on the bench for ten years, on pay.—It provides that the salary of circuit judges shall be $5.000 per annum. No appointments can be made under its provisions until after the 1st of December next.

CHILLS AND FEVERS.

LIEUTAUD'S

CELEBRATED ANTIDOTE,

FOR MALARIA AND ANTI-PERIODIC.

A Certain Cure for

Chills and Fever.

This compound is just what it is called, neither more nor less. It is the result of patient chemical investigation, based upon scientific principles. It contains nothing which can injure the most delicate organization; but rather improves the tone of the system, enriching the blood, and imparting strength and elasticity to the nervous and muscular tissues. Exclusively vegetable in its character, it possesses the property (enjoyed by no other article) of neutralizing the baneful, subtle essence of Marsh Miasma, which all chemists and scientific men know causes Chills and Fevers. The author does not deem it necessary to enlarge upon its character, as he is confident that the use of one bottle will arrest and permanently CURE the most protracted case of Intermittent Fever, if taken according to the directions.

N. B.—**$10,000** will be given to any one who will show by chemical analysis the presence of QUININE or any deleterious drug.

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint, DYSPEPSIA, Nervous Debility, JAUNDICE, Diseases of the Kidneys, ERUPTIONS OF THE SKIN, and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with PURE *Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are* entirely different *from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The* TONIC *is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28, 1866.

I consider Hoofland's German Bitters a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.

CAUTION.

Hoofland's German Remedies are counterfeited. The genuine have the signature of C. M. Jackson on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 00 per bottle; Or, a half dozen for $5 00.
Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggists to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the
