MORO PHILLIPS'

GENUINE IMPROVED

Super-Phosphate of Lime.

STANDARD GUARANTEED.

For sale at Manufacturers' Depots,

No. 27 N. Front Street, Philada.,

AND

No. 95 South Street, Balto.,

And by Dealers general throughout the country.

The SOMBRERO GUANO of which MORO PHILLIPS' PHOSPHATE is and always has been manufactured, (and of which he has sole control for the United States,) contains fifty per cent. more Bone Phosphate than Raw Bone, therefore it is more durable.

A large per centage is Soluble, and will immediately yield its nourishment.

The Ammonia it contains is pure and ready to yield its value—not animal matter, capable of yielding its ammonia after decomposition in the soil.

Nothing is spared in its manufacture to render it the most valuable Super-Phosphate and Crop Producer in the market.

Eight years' experience has proved to the farmer that it is durable and can always be relied on as uniform in quality; and the numerous unsolicited testimonials continually received of its use in competition with other Fertilizers, fully attests that it has not been excelled.

PRICE, *$56* PER TON of 2,000 lbs. Discount to Dealers.

CHILLS AND FEVERS.

LIEUTAUD'S CELEBRATED ANTIDOTE,

FOR MALARIA AND ANTI-PERIODIC.

A Certain Cure for

Chills and Fever.

This compound is just what it is called, neither more nor less. It is the result of patient chemical investigation, based upon scientific principles. It contains nothing which can injure the most delicate organization; but rather improves the tone of the system, enriching the blood, and imparting strength and elasticity to the nervous and muscular tissues. Exclusively vegetable in its character, it possesses the property (enjoyed by no other article) of neutralizing the baneful, subtle essence of Marsh Miasma, which all chemists and scientific men know causes Chills and Fevers. The author does not deem it necessary to enlarge upon its character, as he is confident that the use of one bottle will arrest and permanently CURE the most protracted case of Intermittent Fever, if taken according to the directions.

N. B.—$10,000 will be given to any one who will show by chemical analysis the presence of QUININE or any deleterious drug.

jan28-tf N. A. HUTSON.

Calisaya or King's Bark was unknown until the middle of the 17th century. Humboldt makes favorable mention of its febrifuge qualities as an antidote to Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels.

In 1640 it was used by the Jesuits, who alone at that time possessed the secret of its wonderful tonic properties, and it was sold by them for its own weight in silver.

In 1658, eighteen years after, Sir John Talbot employed it with great success in France in the treatment of Fever and Ague. Dyspepsia, Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diarrhœa, etc. In 1679 he sold the secret of its origin to Louis XIV, by whom it was divulged. It is now the all important ingredient in Drake's PLANTATION BITTERS, and preserved as it is in pure St. Croix Rum, makes a tonic of rare merit, and one that should be upon the side-board of every family. Messrs. P. H. Drake & Co., the sole proprietors of the celebrated PLANTATION BITTERS, are the largest importers of Calisaya Bark in America. The Bark is gathered and cured under the immediate supervision of an agent sent out to Brazil, expressly for that purpose, and aside from a few thousand pounds which are sold to the manufacturers of Quinine, is all used in the preparing of these Bitters, to which they are indebted for their wonderful success as a tonic.

The above cut represents the natives in their own native forest gathering the Bark.
