A New and Original Story, Written Expressly for our Columns.

A Frank Acknowledgment,

When, at the time the new Constitution of Maryland was submitted to her people for their ratification, and subsequently during the canvass for members of the General Assembly, we entertained the opinion that the adoption of that Constitution would entail a vast amount of expenditure upon the State, and gave utterance to such opinions through these columns, we were ridiculed from one end of the county to the other and made the object of much Democratic spleen. We foresaw then to what extremes the dominant party would go, and counselled caution and a searching investigation on the part of every voter who would be called upon to ratify or reject that instrument. We even went so far as to produce facts and figures, and with these to elucidate the tenableness of the position which we then assumed. But these efforts were as marks upon the seashore: the wave of political hate and partizan bitterness rolled itself over and obliterated them in its career of retaliation and overthrow of the last remaining landmark of a Republican and progressive form of government. Heedless of consequences, the people followed blindly in the wake of the Democratic party in its mad career, and in less than one year they were called upon to witness the appalling (just expression) and anomalous condition of an exhausted State Treasury. The public coffers had been drained, and even the warrants of the Comptroller could not be paid.

The lapse of time and the full and free operation of the new Constitution by the Democratic party alone has created within that party seeds of discontent, and much dissatisfaction prevails. Not only have the promises of a reformation of abuses and a reduction of State expenditures *not been fulfilled*, but the *reformers* have enacted laws even more obnoxious than those passed by Republican Legislatures, and they have even continued the very identical laws against which they lodged so much complaint.—They have increased the burden of expenditures, and saddled the State with a debt which is hardly proportionate to our available resources. They have falsified every vow made and accepted in good faith, and left undone those things which are necessary for advancement and State honor. Our escutcheon is to-day tarnished with a blot before which the "reign of bayonets" would pale into insignificance.

As a partial vindication of ourself and in support of the correctness of our views on economy in State affairs we append the following truthful extract from *The Denton Journal*, entertaining the hope that those who have been foremost in denouncing us for the same statement in days gone by will perceive its full import:

"The burden of taxes under which the people are groaning demands that something should be done to lessen the load. It is inconsistent to talk about the profligacy and extravagance of another when we are equally obnoxious to a similar charge. Let us then first remove "the mote from our own eye." We all remember the bitter denunciation which the registry law received when incorporated in our statutes by Radical legislation, and yet not only has it been continued by Democrats but rendered decidedly more expensive. All the machinery by which it was enforced by its originators did not cost one fourth the amount now required to carry out its provisions. It is rather comfortable for us to receive every year or two a fat little job of three hundred dollars for printing, before any election can be held, and if the people, who pay the taxes, don't complain we ought to be satisfied. But we have never seen the utility or necessity of this law, especially so far as applicable to the counties, and by its repeal at least $10,000 of useless expense would be saved. We have also an expensive Militia law which could be safely dispensed with.

The Cuban Revolution.

The prospects of the revolutionists in Cuba are brightening, and happier auspices seem now to attend them. Of late, fillibustering expeditions have landed upon the island and effected a junction with the Cubans, thus materially increasing the revolutionary army. New life and energy seems also to have been infused in the revolutionists by their acknowledgment as beligerents by Chili, Peru, and Mexico, and they fight like gallant soldiers in a worthy cause. On the other hand, the Spaniards feel their power fast receeding, and the officers of the Spanish army continue hostilities more with a view to the control of the island than the subjugation of the insurrectionists. A similar spirit pervades the volunteers, and we thus have a triangular contest going on for supremacy. This looks very much as though the revolution was at an end, and that the independence of the island was near at hand.

THE first offerings of new wheat in Baltimore were made on Friday, and brought $2.25.

Partizan Politics in Maryland Public Schools.

The Democratic newspapers of Maryland are having a general rejoicing over the introduction of Onderdonk's abridgement of McSherry's History of Maryland into the public schools of several of the counties by the local School Boards. The exultant utterances in which they indulge impress us with the idea that the Democratic "year of jubilee is come." The public schools of Maryland are henceforth to bear the same relation to the rising generation *politically* as do the Sunday Schools of the various Churches of the land *ecclesiastically*. Roman Catholic Sunday Schools are expected to make, and *generally do make*, Roman Catholics of their pupils; Baptist Sunday Schools make Baptists; Methodist Sunday Schools make Methodists, and upon the same principle, it is fair to argue, and no doubt our Democratic School Boards and newspapers do argue, that Democratic public schools will make *Democrats*.

This "History of Maryland" may be, in the main, for aught we know, a very good book. Not having had time to attentively read and compare it with other and standard works of history, we are not prepared to judge of its accuracy. What we particularly object to is the concluding chapters of the book.

Notwithstanding, in the opinion of the author, Maryland "*had no history during the war*," he is so singularly inconsistent as to attempt to tell us her history during that period. Whatever may be said of the literary merits of the *former* portion of the book; we may safely say that these last chapters fail to come up to the standard of merit and dignity required of an ordinary sensation newspaper reporter, or cross-roads political stump speaker. Just fancy a "Dimekrat" pedagogue, with spectacles across his nose and birch rod in his hand, propounding the question at the bottom of page 242 to his pupils —"What happened while the troops were encamped near the Relay House?" Ans.—"One of Beast Butler's soldiers died of bellyache. The General thought he was *'pizened'* and threatened to *'pizen'* everybody in the neighborhood if any more soldiers died the same way." In this answer, we give the substance of what is said in the book in the language, we suppose, a genuine "Dimekrat" boy, who had been properly brought up, would be likely to employ.

General Lee's inglorious defeat at Antietam is represented, on page 246, as a skillful manœuvre on his part in the following language: "On the 17th, the celebrated battle of Antietam was fought. General Lee, finding himself opposed by so powerful a force, concentrated under General McClellan, *returned into Virginia*."

On the next page, the reader will find the author growing eloquent over the fact that, in 1864, when a large rebel army moved on Beltsville, "the Federal troops posted there, *four hundred in number*, PRECIPITATELY RETREATED WITHOUT WAITING TO FIRE A SHOT!!!

On the same page, the outrageous conduct of Early and McCausland, in extorting *three hundred thousand dollars* from Maryland citizens of Frederick and Hagerstown, as the ransom of their homes, is related with a glow of apparent satisfaction, without a single word of condemnation; and we are told in the next paragraph that "these troops *committed no depredations upon private property!*"

In the last paragraph in the book, it is plainly intimated that the pride of our State was greatly humiliated in not being permitted to join the other Southern States in secession and rebellion; but the author consoles himself and his readers with the reflection that it was the fault of "*aliens!*"

All this in a "*history*" the children of Maryland Union men are to study! We heard a gentleman say, a few days since, that when this book comes into the hands of his boy to study, he intends to tear out and tear in fragments and scatter to the winds all these concluding chapters. He is *right*, and every Republican in the State who has any self-respect, or respect for the truth of history, will do the same.

We think Republican newspapers will render their readers a great service by calling their attention to this outrageously partizan book, and advising them to do with the last chapters as our friend, mentioned above, is going to do—*tear them out!*

Caroline as Good as Any.

For the benefit of that class of persons who are suffering under a disease known as the "Western Fever," we submit the following as a cure.

The Western lands, it is stated, are rapidly becoming exhausted from the production of one class of crops and from the neglect to apply proper manures. The journals of that region assert that the grain-growing districts of Illinois, Iowa, Missouri and Minnesota are yielding smaller crops to the acre every year.

It will appear from the above that Western lands are becoming very much like our own—worn out with constant cultivation and the application of no food for the soil.—Whether here, there or anywhere else, common sense dictates that farming can only be carried on successfully by the application of such manners as will supply the deficency in the land caused by the crop; and we submit that where this treatment is necessarry increased market facilities more than atone for the difference in the quantity of manure. Caroline land always has returned a large per cent. for manures buried in her soil and always will. The only trouble is that a sufficient quantity is not put there.

Eminent New York and Philadelphia physicians claim that the Dubois Missisquoi Powder *cures cancer*. It is advertised in this issue.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price.

NEGLECT.—Emerson. (no doubt a good fellow,) publishes the Denton UNION. We don't like his politics, but we give him the credit of getting up one of the neatest papers on the "Shore." We have heretofore neglected to notice the fact that he has put into operation a "Gordon" machine press, and we sincerely hope he may have as much work as the "little corn-sheller" can do. Send us a specimen, friend, of your visiting cards, and we'll return the compliment.—*Cambridge Democrat & Herald.*

—Why, certainly, neighbor, we will send you our visiting card, and will be happy to have yours in return. But can't you pay us a visit in person? We will take great pleasure in joining you in a tour of inspection through our office, and will also demonstrate to you the superior excellence of our "little corn-sheller." It certainly does "shell out" work to perfection, and this may be the principal reason why we get so much to "shell."

Be Careful What Medicines You Take.

WHEN you are exhausted by over-work of head or hand, and feel the need of something invigorating, don't drink whiskey nor any intoxicating thing, whether under the name of Bitters or otherwise. Such articles give just as much strength to your weary body and mind as the whip gives to the jaded horse, and no more. Alcoholic stimulants are injurious to Nerve-health, and are ALWAYS followed by DEPRESSING REACTION.

DODD'S NERVINE AND INVIGORATOR

is a TONIC and GENTLE STIMULANT which is NOT attended by REACTION. What it gains for you it maintains. When it refreshes body or mind, it refreshes with natural strength that comes to stay. We are not recommending teetotalism in the interest of any faction; but long and extended observation teaches us that he who resorts to the bottle for rest or recuperation, will find, as he keeps at it, that he is kindling a fire in his bones which will consume like the flames of perdition. Turn from it. Take a tonic that will refresh and not destroy. Dodd's Nervine is for sale by all Druggists. Price One Dollar. See book of certificates that accompanies each bottle.

YOU ALL
HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,
AND
HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR
FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for
Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,
and all Diseases arising from a Disordered Liver, Stomach, or
IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with pure Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC *is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best
Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,
Chief Justice of the Supreme Court of Pennsylvania.
PHILADELPHIA, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.
Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,
Judge of the Supreme Court of Pennsylvania.
PHILADELPHIA, April 28, 1868.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a most valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*
Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.

CAUTION.

Hoofland's German Remedies are counterfeited. The genuine have the signature of C. M. Jackson on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 00 per bottle;
Or, a half dozen for $5 00.
Price of the Tonic, $1 50 per bottle;
Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggists to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the
