DENTON, MARYLAND:

THURSDAY MORNING:::::::::::July 22, 1869.

Hon. Asa Packer has been nominated by the Democrats of Pennsylvania for the Governorship. His competitor is the present incumbent—Governor Geary—and it is believed his election is secured by the nomination of Packer. So mote it be.

The past week has been unusually prolific of railroad collisions and accidents. By a collision—through gross negligence—nine persons were killed on the Erie railroad, in Pennsylvania, on Wednesday. We have also an account of a terrible accident on the Kansas Pacific railroad, on Wednesday, an account of three serious accidents on the Union Pacific railroad, two of them resulting in loss of life and including Mr. John Dwyer, of Emmittsburg, Md., among the victims; and finally, a collision near Peru, Ill., between two freight trains, by which nine cars were demolished. When, oh! when, will railroad corporations be held accountable for so much butchery? The state protects them in all their privileges and franchises, but they seem wholly indifferent to the weekly casualties which occur by a want of system on their part.

The Peninsula and Peaches.

It generally occurs that, when there is a full crop of peaches, the prices are merely nominal in the Philadelphia, New York and Baltimore markets. To remedy this, some of the more enterprising fruit growers are discussing a plan which seems to us to be not only practicable but one which will result in great good to all interested. The plan is this: to construct a large ferry-boat, something similar to the old "Maryland," used in transporting trains across the Susquehanna prior to the erection of the bridge, and with this boat to transfer the fruit unpacked in the cars around New York to the terminii of the numerous railroads centering there. By this means great delay will be avoided, and fruit will reach Bost n and other northern cities in as good condition as it now reaches New York. The other cities of the North will not then depend almost entirely upon the refuse of New York, but will enjoy the rich and much-sought-for produce of this peninsula in the same condition in which it leaves its growers

We don't know that the fruit-growers in this county are engaged in this movement; but if not, we think it would be to their interest to begin at once. The objects to be attained are so great, the plan proposed so feasible, and the success of the plan so well assured, that self-interest alone, if nothing more, ought to constrain every peach grower to throw his weight and influence into the proposed mode of enlarging market facilities, and opening up new fields of trade. The accomplishment of this design would place us as near Boston, comparatively speaking as we are now near New York—not in miles, but in business relationship.

Delaware Association for Criminal Reform.

In some respects, at least, Delaware is ahead of many of her sister States in humanitarian and philanthropic objects. An association, styling itself the "Delaware Association for Criminal Reform," has lately been organized, and an adjourned meeting was held in Dover on the 15th of the present month. The objects of the association, as we glean them from the published report of the meeting, are:

1. To visit the prisons of the State when proper or necessary, inspect their condition, report abuses, and recommend improvements. It is not the design of the Asssociation to interfere in any way with the constituted legal authorities in prison discipline, but only to advise and recommend such improvement as may better secure the retention and reformation of the convicts.

2. To provide, so far as practicable, for the moral and religious improvement of the prisoners.

3. To the extent of their ability, to look after the welfare of the unfortunate families of those incarcerated.

4. To obtain a speedy trial or discharge for those who may be innocently imprisoned, if any such there should be.

The objects of the Association, as thus set forth, are of the most laudable character, and as such cannot fail to take deep root into the hearts and consciences of the Delaware people. It is one step towards the abandonment of that barbaric law which requires that a human being shall undergo such tortures as was inflicted upon criminals in an unenlightened age, and we doubt not will ultimate in the total abrogation of the law. Already some of the leading men of Delaware are enroled as members—men most noted for christian benevolence—and these constitute a nucleus around which will ultimately gather the well disposed citizens of the entire State. Then may we look for a revisement of the penal code of Delaware, and for the consignment to obscurity of her present barbarious punitory laws and their authors and defenders.

Maryland State Agricultural and Mechanical Association.—The old Maryland State Agricultural Society has been revived under this name, recently, and under the management of an enterprising board of directors, grounds have been purchased near Baltimore city, and buildings are being erected. The first annual fair of the Association will commence on Tuesday, the 26th day of October next, and continue four days. The premiums distributed will amount in the aggregate to $10,000. The Pimlico race track is the ground selected, and trials of speed of horses will be a feature of the fair.

The R. R. Meeting on Tuesday.

In obedience to a previous call, the citizens of Denton and the Second election district assembled in the Court House, on Tuesday last, for the purpose of appointing a committee to confer with the President of the Queenstown & Harrington Railway Co., and to ascertain from him upon what conditions the present route of the road could be changed so as to bring it in or near this town. Robt. W. Todd was elected chairman and J. M. Emerson secretary. The objects of the meeting being briefly stated by the chairman, it was, on motion of Mr. Bryant, ordered that a committee of five retire and report business for the meeting. Committee consisted of Messrs. Bryant, Blocksom, Melvin, Tarr and Dewese. The committee reported the following:

Whereas, The President, Directors, &c., of the Queenstown & Harrington R. R. Co., by their energy and perseverence give indications of building the proposed road,—*And whereas*, the citizens of the town of Denton and vicinity are impressed with the importance of having said road to pass through or near the said town. Therefore,

Resolved, That a committee of five be appointed by the chairman of this meeting to wait upon the President and directors of said road to ascertain upon what terms and conditions a diversion of said road to the said town can be obtained.

Resolved, That said committee proceed at once to discharge the duty imposed upon it and report the result of its interview with said President, Directors, &c., and on Tuesday, the 27th inst., to which day this meeting shall stand adjourned.

The chair appointed the following committee of conference: Bryant, Horsey, Redden, Jump and Tarr. After being entertained for an hour or more by speeches from various persons interested in the change of the route, the meeting adjourned to await the result of the interview with Mr. Hambly.

Robt. W. Todd, Ch'm.

J. M. Emerson, Secretary.

The American Agriculturist.—How many of our readers ever saw this most excellent farm journal? Very few, we should say, else more would visit our post offices.—Now we urge upon our farmers the importance of taking a first class agricultural journal, for it will prove an invaluable aid in the cultivation of all kinds of crops. It seems to us that a farmer without *theory* is pursuing an aimless course, and is solely dependent upon chance for his success. We can recommend this journal—The Agriculturist—since it is a monthly visitor to our office, and is always replete with information. Address Orange Judd & Co., New York.

Fruits in the New York Market.—L. Shanley Davis, son of Curtis Davis, of Federalsburg, and a member of the firm of C. W. Dilworth & Co., Commission Merchants, New York, sends us the following as the quotations of fruit on Saturday last:

PEACHES—Hale's Early	$ 8.00 to	12.00
Common	$ 3.00 to	5.00
PEARS—Osborn Summer	$ 5.00 to	10.00
Catlin,	$ 5.00 to	8.00
BLACKBERRIES—Lawton pr qt.	25 to	30
Wilson	25 to	30
Kitattiny.	28 to	30
APPLES per Bbl	$ 3.00 to	5.00
POTATOES per Bbl.	$ 1.50 to	3.00
WATERMELONS per 100.	$35.00 to	100.00

The Democrats of Ohio have nominated General Rosecrans as their candidate for the Governorship. There is some talk, however, of the General's declining the nomination. If he still maintains the views he entertained during the war we dont see how he can do otherwise.

[COMMUNICATED.]

Mr. Editor:

Your correspondent, who signed himself Subscriber, made a very wide mistake when he attempted to correct some of our statements. It is true the plank has been here some time, but a portion has remained on the wharf ever since it was landed; so it is not *all* on the ground yet, and it seems a very difficult matter to get it there. That is some evidence of lack of energy. Another is, the question, whether or not a camp should be held on this circuit, was several times brought up before the public congregation, and they refused to have anything to do with it, and it had finally to be decided by the pastor of the charge himself, the committee appointed for the purpose failing to do so. As a local correspondent we endeavor to gather every item which we think will interest any of the readers of the paper for which we write, and if "croakers" will "get up their backs" about it we can't help it. It is an impossibility to write to suit everybody, for there are those who will not be suited with anything. We are glad to know, however, that there will be a better camp than was expected, although some of the old tenters will not tent.

We had quite a shower a few days ago, which did a great deal of good, although it caught a great many oats down in the field. The farmers, however, did not seem to mind that, so that their other crops were benefitted by a rain. Jimmie.

DODD'S NERVINE DID IT.

New London, Conn., April 26, 1869.

Remembered Friend—I thought it well to wait another week before writing, to see if I continued to improve, as I have been doing for some time, under the treatment of the new medicine, and I am happy to tell you that I am getting better—even faster than when you were here. I commenced the use of DODD'S NERVINE without anybody advising me to it.—When I began with it I could only walk from my bed to the chair. My trouble has been extreme pain in the head, and has lasted over three years. All the medicine I have heretofore taken has failed to give any relief. I am now able to go up and down stairs, and daily improving. I consider the NERVINE the best medicine I ever found, and shall continue its use, for I am confident of entire recovery. I have taken only three bottles, and would not be without it on any account.

Very truly,

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

is entirely vegetable, and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with PURE *Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will hear it said that these remedies are entirely different from any others advertised for the cure of the diseases named, they being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The* TONIC *is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheek, and change the patient from a short-breathed, emaciated weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

Philadelphia, March 16, 1867.

I find "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,

GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.

Philadelphia, April 28, 1868.

I consider "Hoofland's German Bitters" a valuable medicine in cases of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON,

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.*

Yours, very respectfully,

J. H KENNARD,

Eighth, below Coates street.
