DENTON, MARYLAND:

THURSDAY MORNING:.....August 26, 1869.

Hon. Joshua S. Valentine has been renominated by the Republicans for the mayoralty of Wilmington, Del.

We see by Saturday's *Journal* that a meeting of the "County Central Committee of the Democratic and Conservative party "will be held in Denton Tuesday next. How much longer do they intend to flaunt such a meaningless and nonsensical name before an intelligent community? The term *"Conservatice"* has been dropped in every other county and State, and here it is continued as a catchpenny. Truly, Caroline, is behind the times.

One of the most potent arguments in favor of deep plowing is the appearance of the corn-fields, thus plowed, at this time. But even these do not escape the drouth. Still they stand it better than ground which is only surface plowed. The roots, striking deep into the soil, afford some moisture; and only in cases of this kind will any kind of a crop be harvested. It is impossible to tell when drouths will prevail, hence it is better to prepare for them by stirring the soil deep, and allowing the roots to extend as far as possible into the ground.

A New Railroad Project.

Mr. Wingate specially authorized by the City Council of Baltimore to examine the route of a proposed railroad from Swann Point, in Kent county, to Salisbury, in Wicomico county, and ascertain its practicability, passed through this place, on Saturday last, on his way to Baltimore from the execution of his commission. In conversation with some of our citizens, he said that the route was not only practible but feasible and that the road, if built, would be self-sustaining.

The route of this road, as at present laid down, passes through or near this town.

We feel glad to know that Baltimore city is at last waking up to the importance of a short and direct communication with the Eastern Shore by means of a railroad. It is a subject which has been agitated time and again, but has failed to enlist the interest or attention of its citizens. And it is only now, through the lack of trade with Baltimore, that this much interest has been enlisted. Gradually decreasing year by year since the establishment of the Delaware road, the opening of so many lateral branches has almost turned the entire trade of the central peninsula, and a great portion of the Western section, also, to Philadelphia and New York; and it is this detraction from Baltimore of the commerce naturaly hers which has awakened her to a realizing sense of the injury wrought her. We trust that the City Council will be so influenced by the report of Mr. Wingate that it will at once initiate measures looking to the construction of the road, and that it will not relax its efforts until the last rail is laid and the iron horse goes leaping back and forth through the Peninsula rendering unto Baltimore the things which be Baltimore's.

The Q. & H. R. R. Difficulty.

Elsewhere will be found the proceedings of the meeting of the Directors of the Queenstown & Harrington R. R. Co., held at Ridgely on Friday last. It will be seen from those proceedings that the Directors have the most unbounded confidence in the President, Mr. Hambly, and have delegated to him full power and authority to resume the work upon the road. That Mr. Hambly is no wise at fault for the suspension of the work the entire circumstances of the case plainly indicate. The whole trouble is with the contractors. They caused the suspension, and why? Simply because the engineer of the road refused to accept the work done by the contractors, it not being in accordance with the contract. Even some of the Directors—plain farmers—could see that the road bed was not in a suitable condition to lay the rails upon it. Mr. Hambly expressed his willingness and ability to pay the contractors so soon as the work was performed in accordance with the contract; but they refused to perform any further work, and wrote to several of the Directors, urging a meeting of that body and the appointment of one of their number as President of the Company, stating that it was impossible to get along with Mr. Hambly. The meeting was called, and the contractors notified in writing of the time and urged to be present. But when the day of meeting arrived no contractors were present. Mr. Hambly however, was there, and made such a plain and explicit showing up of the condition of the road, item by item, the contracts and their specifications, &c., as at once exonerated him from all censure, and satisfied the minds of the Directors that he was acting in a fair and legitimate manner.

The seizure of Mr. Hambly's horses was made at the time he was in Philadelphia, and when he was lest expecting such a thing. He says he had repeatedly called on Mr. Macklin for his bill, but he (Macklin) had never rendered it, saying he did not want the money. Mr. Hambly however, paid $50.00, and would have paid the entire bill had it been presented. Upon his explanation of the matter, Mr. Carter offered to release the property, but Mr. Hambly placed in his hands the amount of the claims against him.

We learn that it is the intention of Mr. Hambly to propose a renewal of work to the present contractors, but in case of a refusal, to let out a new contract to other parties. A gentleman from Pennsylvania has even already offered to undertake the work, and the delay will be only temporary. May the good workk go on.

Dr. Paul Shœppe, who first forged a will, bequeathing all the property of a wealthy old lady named Stinnecke, to him and afterwards poisoned her, and who was subsequently tried and condemned by the Circuit Court for Cumberland county, Pa., was refused a new trial last week, and sentenced to be huug by the neck till dead upon such day as the Governer shall determine.

We are sorry to learn that the Denton *Union* has had the misfortune to break its press so seriously that it cannot be repaired, and will be compelled to get a new one.—Better try a "Newberry," friend Emerson.—*Cecil Whig.*

A "Newberry," friend Ewing, costs one thousand dollars, and this is a big sum for a Caroline editor—more, we think, than all the editors put to gether could muster. If we get any kind of a press, we shall feel thankful. Our delinquents are so slow in responding to our appeals for aid that we could scarce pay for the rollers necessary to operate a "Newberry."

At a meeting of the Board of Directors of the Queenstown and Harrington Railway Co., on the 20th inst., the following members being present—R. C. Carter, A. P. Sorden, Jno. F. Dawson and Jas. K. Saulsbury—it was unanimously

Resolved, That, having examined the affairs of the Queenstown & Harrington Railway Company, and heard the reports of the President, officers and engineers, our confidence in the integrity of the Company, and its ability to finish the road to Ridgely, and eventually to Kent Island, is unimpaired.

Resolved, That we have undiminished confidence in our President and other officers, and request them, if necessary, to relet the road and hold the contractors—Barry and Sheaff—responsible for all damages that may accrue from their failure to perform their contract.

On motion of A. P. Sorden, the Secretary of the Board was directed to have the preceeding resolutions published in each of our county papers.

Wm. S. Ridgely, Sr., Sec.

Preston.

Sunday afternoon we rode out to the colored people's camp, going on in the woods of Joshua Johns, and had the pleasure of listening to a very good sermon from Rev. John Q. Dennis, of Easton circuit. In the morning, Rev. Wesley Parker, of Salisbury circuit, preached a very fine sermon—those who heard it say it was an able and excellent one. The ground, though never before used for the purpose, is a very good one, the trees being mostly oak; good water and very convenient. Every arrangement is made for the comfort and accommodation of visitors, there being an oyster saloon, and a bread tent, which serves out all that is usually needded on such occasion. The grove is well seated, and all those who deem it worth while to go, can be furnished with comfortable seats. They seem to be well supplied with ministerial aid, and we understand more ministers yet are expected. It is given out that, on Tuesday, Bishop Wayman will preach. If he does, we presume there will be a great many out to hear him. Sunday being too warm, and the roads too dusty for people to go to Concord, a great many white people were out, and seemed to be interested in the services. A block of seats was reserved for them, which was a mark of great appreciation for their presence, on the part of the colored folks. The camp promises to be one of unusual interest, and all would do well to make a visit in its neighborhood during the week. We presume it will break on Friday, as that was the original intention. One feature we cannot help noticing. There were several covered wagons and carts, which reminded one of the good old times when white and black had their camps together; and it does us good to see those representations of the time when a white man was not ashamed to be seen in company with a colored one; when the black man could sit and listen to the Word from the lips of the same preacher as the white one; when our colored brethern met and put their tents up on the same ground that we did, and when their voices were heard on the same ground as ours, sending up their prayers and petitions to high heaven. May the time soon come, when history's page shall no longer say that this nation is guilty of containing a people, to whom it allows no equal privileges even as far as franchise is concerned.

The crops in this vicinity have, and still are, suffering terribly from the effects of a long and continued course of dry weathe.—If a rain does not soon come, and one that will be felt, the farmer will be but poorly provided for during the another year; and even if it should come at once, the corn crop will not be much benefitted, though one farmer says if a good shower should come now, nearly all the dry blades would turn green; but we doubt it. An instance worthy of notice occured a few days ago. A gentleman walking out in his orchard, and picking up several apples found they were actually baked, as if they had been put in a stove and cooked, and they had not been lying there long, either. That is an evidence of pretty *hot* weather. Even the trees are beginning to look like fall weather—their leaves turning yellow and falling away. Saturday, if there had not been a good breeze blowing, the heat would have been almost insufferable. As it was, some say it was one of the warmest days we have had this summer.—The thermometer stood at 100° in the shade. It is very good weather for drying fruit, those who have any, and persons are taking advantage of it.

Mr. Gifford, living in Poplar Neck, a few days ago, set fire to a hornet's nest, and the fire getting away burned over a field, and destroyed a number of rails, though it did no damage otherwise.

Important to Tax Payers.

Col. S. A. Graham, Assessor of Internal Revenue for (this) the First Congessional District of Maryland, has received the following important letter from Commissioner Delano:

Treasury Department,
Office Internal Revenue,
Washington, August 6, 1869

To Sam'l A. Graham, Esq., Assessor 1st Dist, Md., Salisbury, Md.

Sir—Instances have come to the notice of the Commissioner of Internal Revenue where Assessors and their Assistants instead of requiring parties in returning their incomes to specify, as the law requires, their several sources of income and a statement of their losses, if any, have acceptedr eturns so general in their character as not to show the basis upon which they are made. This is wrong and tends not only to the detriment of the public interests but also to the disgrace and other injury of individuals.

In a case tried at a recent term of the U. S. Court the return made by the defendant showed that he had received as profits from the purchase and sale of real estate about twenty-five hundred dollars, when, in fact, as established by the evidence, the profits derived from this source were nearly seven thousand dollars. But in his defence he proved satisfactorily to the jury that his losses in fact reduced his actual income to the sum of twenty-five hundred dollars. If the Assessor had performed his duty under the law, in this case, and refused to accept the return until made in full uniformity with its provisions, the Government would have been saved the expense and the defendant the mortification of a trial, when upon the face of the return an apparent fraud had been practised, when in fact the party had returned his full income.

The Commissioner wishes to call your especial attention to this subject, and respectfully to remind you that it is your duty to reject all returns of income that do not show item by item, the various sources from whence the income is derived, and where losses are claimed; a full and definite statement of the same and in such and all other cases, when doubt exists as to the accuracy of the return, the party making it must be put under oath and his statement taken in writing.

You will please furnish each Assistant Assessor in your District with a copy of this circular, and enjoin upon him a strict observence to its requirements.

Very respectfully,
C. Delano, Commissioner.

The Water Supply in Philadelphia.—The protracted drought has had the effect of lessening the water supply in Philadelphia to a limit not experienced for many years. The Philadelphia *Inquirer*, of Friday, says:

"As in all probability the only water supplied to the city after Saturday next will be furnished by the Spring Garden or Schuylkill works and the Kensington or Delaware works, the public interest is naturally directed to these works. It must be borne in mind, however, that that portion of the city supplied by the Fairmount reservoir, and which constitutes about three-fourths of the entire city, will not be benefited worth speaking of by the Schuylkill or Kensington works. Rain! Rain! Rain! is the only thing that will help the Fairmount reservoir water consumers; not slight summer showers, or even passing storms, but a soaking, drenching, regular old-fashioned wet spell, is what is wanted, and what will doubtless be prayed for next Sunday from every pulpit in the city."

YOU ALL

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC,

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or anything like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, Stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fulness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the Sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate disease of the Liver or Digestive Organs, combined with impure blood.

Hoofland's German Bitters

Is entirely vegetable, and contains no liquor. It is a compound of Field Extracts. The Roots, Herbs, and Barks from which these extracts are made are gathered in Germany. All the medicinal virtues are extracted from them by a scientific chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

Hoofland's German Tonic

is a combination of all the ingredients of the Bitters, with rum, Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in cases where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others prescribed for the cure of the diseases named, th se being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC *is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.*

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These Remedies are the best

Blood Purifiers

ever known, and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order; keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no disease will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

Philadelphia, March 16, 1867.

I find "Hoofland's German Bitters" to be an invigorating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action, in the system.

Yours truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania.

Philadelphia, April 28, 1868.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir:—*I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system and especially for Liver Complaint, it is a valuable and safe preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above cause.*

Yours, very respectfully,
J. H. KENNARD,
Eighth, below Coates street.
