DENTON, MARYLAND:

THURSDAY MORNING:::::::::April 21, 1870.

That "Reaction" Come at Last.

If it be true that "straws indicate which way the wind blows," we should say that the prospect for a complete Republican triumph in Maryland looks encouraging. The seeds of discord have been sown in the Democratic party, and they are bearing fruits even now, and before the ides of next November arrives they will yield an hundred fold. The great Conservative mass of the people, through whose votes and influence the Democracy was elevated to power, are becoming disgusted with the action of their much-promising, but never-fulfilling, allies, and are preparing to leave them in a body. They see the base and ignoble purposes for which they have been used, and are making haste to disclaim any further party alliance or affiliation with the so-called, self-constituted Democratic party. They feel the smart from the blow inflicted by the attempt to ignore them in State Conventions, in party nominations and upon all occasions where public demands or party considerations require a coming together, and they have fully and determinedly made up their minds to endure it no longer.

It was only on Friday evening last that a meeting of disgusted Conservatives was held in the Fifteenth ward of Baltimore city, and, judging from the preamble and resolutions adopted at that meeting, we should say that discord irremediable existed in the Democratic ranks. We give the preamble and resolutions in full that the Conservatives in this county may learn what their friends are doing at the political metropolis:

Whereas, We believe the time has arrived when all citizens and voters of our city and State should express their opinions in reference to the political issues of the day, and thereby indicate their intentions for the future; and, whereas, the Democratic party of Maryland has, by its course of action since it obtained power in our State, proven beyond all question traitorous to the party that put them in office; therefore be it

Resolved by the Conservative voters of the Fifteenth ward in council assembled, That in the future we will not give aid, countenance or support to the Democratic party, but on the contrary will earnestly and heartily support the political party that deals with the living questions of the present and dreams not of the dead past.

Resolved, That the National Republican party of the United States is the party of Progress, Freedom and Justice, and we hereby pledge ourselves to its support.

The meeting was large and enthusiastic, and the resolutions were adopted without a dissenting voice.

The action of the Conservatives in Baltimore is a stunning blow to the Democrats in Maryland, and will, probably, teach Ben. Harris that the "rank and file" of the party does not think as he thinks. It will also put a quietus to the White Man's party movement. It has dampened considerably the ardor stirred up by the supposed triumph in Connecticut, and cast consternation dire into the hearts of the leaders. But it is just what we, and every other Republican, has been expecting. Continued indifference to individual demands and public interests—the piling up of burdens in the way of taxation—have done their work, and soon we expect to see a general severance of ties between the Democrats and Conservatives, and a general passing over to the Republican party.

"So mote it be!"

The McFarland Trial

Still progresses in New York, and each day the weakness of the defence becomes more palpable. The plea of insanity has been overthrown by a mass of testimony which goes to show that McFarland had dogged Richardson's steps for weeks, endeavoring to obtain a chance to commit a murder upon Richardson unawares. The charge of illicit and adulterous communication between Mrs. McFarland and Richardson, attempted to be set up by intercepted letters, will also be exploded, and evidence will be introduced to show that the letters were not written until after a separation had been mutually agreed upon between the prisoner and his wife. The whole trial has more the air of an entertainment, or amusement, for the New Yorkers than an investigation into the guilt or innocence of the accused. This being the aspect the case has assumed, it is quite probable that all the facts will not be brought to light.

THE DENTON *Journal* says, that the emigrants from Henderson district, to the West, are Black Republicans. Let them emigrate, we imagine their room will be decidedly preferable to their presence in Caroline county.—*Snow Hill (Md.) Messenger.*

No doubt of it. The presence of a Union, or Republican, citizen always was detested by men of like ilk with the illiberal and proscriptive author of the above, and no opportunity to stab such Republican citizen is ever permitted to pass. And since the departure of so many Republicans from this county pleases you so well, Mr. Messenger, suppose you pay us a visit and get up a grand colonization scheme, for if you don't your friends here will feel the need of the "room" of these Black Republicans more than ever next fall. Just put that in your pipe and smoke it.

NEARLY all the rum made in the United States is distilled in Massachusetts, and the distilleries are situated around Boston. The Boston Post, in a recent review of the trade in New England rum, says that the greater part of the export is sent to the African coast, and points with pride to the cargo of a recent bark, which consisted of tobacco rum and four missionaries.

—Court begins next Monday.

—Choptank lodge, A. F. & A. M., has subscribed $1000 to build a public building at New Market.

THE new style of postage stamps are now ready for issue, but the Third Assistant Postmaster General has directed Postmasters to exhaust all of the present style on hand before supplying the public with the new, and in no case will they be allowed to make exchanges for individuals. Stamps now in use are not to be disregarded, but must be recognized equally with the new ones. The stamps known as the series of 1861, of which a few are supposed to be yet outstanding, are also to be recognized.—Those issued prior to the rebellion are valueless. Each sheet of the new series contains but 100 stamps. It will be necessary to bear this in mind in order to prevent mistakes in counting, as in the present issue, some of the denominations have 150 stamps to the sheet.

UNIFORM DAY OF ELECTION.—It is proposed to fix a uniform time for the election of Representatives throughout the United States. The bill fixes the first Tuesday after the first Monday of November for such elections. It is to take effect in 1872. Mr. Dawes, of Massachusetts is the author of it. The design is to prevent the frauds arising from voting by persons who migrate to the great cities and from State to State for that purpose.

AT Hoboken, N. Y., the other day an election took place for City officers, and colored men voted for the first time. One of them voted the Democratic ticket, which so elated the white brethren of that persuasion that they talked of running him for Mayor of the city.

Five Atlantic steamers have sailed never to be heard of more. They are the President, the City of Glasgow, Tempest, Pacific, and the City of Boston. Since 1857 some eighty-six ocean steamers have been lost by wreck or fire.

CHIEF JUSTICE CHASE has written a congratulatory letter upon the Fifteenth Amendment. He considers that it does not "impair the real rights of any State," and advises general amnesty.

MEDICINAL.

TO PHYSICIANS.

NEW YORK, August 15th, 1868,
Allow me to call your attention to my
Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo.—Juniper Berries by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,
H. T. HELMBOLD,
Chemist and Druggist,
of 16 Years Experience.

[From the Largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. HELMBOLD; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman,
Manufacturing Chemists,
Ninth and Brown streets, Philadelphia.

Helmbold's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbold's Fluid Extract of Buchu,

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbold's Fluid Extract of Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copavia and Mercury, in all these diseases.

Use Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delecate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. PRICE—$1.-25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.
