SPECIAL NOTICES.

ETERNAL VIGILANCE

Is the price of health as well as liberty. Be on your guard against poisonous hair dyes.

Cristadoro's Excelsior Hair Dye,

Is the only one that has stood the test of chemical analysis. At the store of the proprietor, 6 Astor House, New York, may be seen the certificate of that able analytical chemist,

PROFESSOR CHILTON,

testifying that it contains no harmful ingredient. On the other hand, in the "Journal of Chemistry" may be found the statement that there are upwards of thirty poisonous hair dyes before the public. Choose the only safe and sure one.

CRISTADORO'S HAIR PRESERVATIVE, as a Dressing, acts like a charm on the Hair after Dyeing. Try it. [my12-1m.

Scrofula Cured by Brandreth's Pills.

Brandreth's Pills penetrate the whole mass of blood, causing the expulsion of impurities. The body feels relieved from a single dose; what then may be expected from twenty? By continuing their use, the whole of the blood in time, becomes purified, and the body reconstructed from good material, and a new lease of life secured.

Sing Sing, March 25, 1868.

My Dear Sir: My daughter, Alice, thirteen years old, has been completely cured of that horrible disease, Scrofula, which for years rendered life a torment; after all medicines and many physicians had been tried, and fai'ed, I commenced giving her your pills. She took them almost every day for three months, constantly improving. She has now entirely recovered. Yours truly,

DANIEL LUTHER.

SUDDEN DEATH.—John Morgan, son of John Morgan, died suddenly at the almshouse a few days ago. He was sitting upright in a chair and fell back dead without a struggle. His disease was the consumption. He had been an inmate of the institution but a short time.

NEW SILVERSMITH.—Through the exertions of Mr. H. Blackiston a silversmith has been induced to locate in our town. He is a gentleman from Baltimore city, and comes well recommended. His card may be found elsewhere. We urge all who need anything in his line to give him a call.

KILLED BY LIGHTNING.—During the storm of Friday last, an ox, a cow and a hog, the property of Mr. Alcaid Flowers, residing near Federalsburg, on the Dorchester side, were killed by lightning. They were feeding in a field, near a pile of straw, when the electric fluid terminated their existence. The straw was burned.

CHURCH AFFAIRS.—The trustees of the M. E. Church held a meeting on Tuesday to devise means to liquidate the indebtedness of the church. At that meeting a resolution was adopted requesting all who had not paid up their subscriptions to call and settle either by cash or note so that the debt could be lifted. This debt has been standing long enough, and it is high time those who have subscribed were paying up.

HAIL STORM.—A heavy storm of wind, rain and hail passed over the upper portion of Dorchester, just outside of Federalsburg, on Friday last, doing considerable damage. Wheat suffered pretty badly by being cut and beaten down. Garden vegetables and the corn that was through the ground also suffered. The track of the storm was narrow, and passed in a south-easterly direction. At Bridgeville, we are told, it was unusually severe.

JUDGES OF ELECTION.—The County Commissioners, at their meeting on Tuesday, appointed the following named persons to serve as Judges at next fall's election:

1st. District,	*4th District.*
R. E. Hardcastle,	Jno. H. Wallace,
R. Jones,	John Blades,
Emory Vane.	Wm. M. McMahan.
2nd District.	*5th District.*
J. Longfellow,	W. E. Liden,
Jas. T. Clark,	Saml. Nichols,
Walter Massey.	Jno. H. Williams.
3rd Distrtct.	
Wm. Wilkinson,	
J. W. Stafford,	
Jno. R. Fountain.	

THE HAY SCALES.—A meeting of the stockholders in the Denton Hay Scales was held at Jump & Ridgely's office on Saturday morning last, at which meeting the location of the scales was determined upon. The site selected was the space immediately in front of the market house. Chas. Stevens was elected keeper. A board of Directors, consisting of Messrs. P. W. Downes, R. J. Jump, C. E. Tarr, H. Blackiston and Wm. Lowe, was also elected. The price per draught, as also the keeper's salary, was left to the Directors, and action by them on these subjects has been postponed until the scales are ready for use. It is expected that they will be completed the last of this week or the first of next.

A WORD OF COUNSEL.—Quite a number of our colored citizens are in the habit of collecting in a crowd around the front door of John Wright's oyster saloon on Saturday night, thereby filling up the sidewalk and compelling passers-by to step out into the street. On Saturday night last this was particularly annoying. We would advise them to desist from this habit. It is by no means becoming to them, and only provokes remarks concerning their lack of politeness and decorum. If they want to meet together in large crowds, which we do not advise, let them step into one of the alleys, at hand, and not block up the main thoroughfare of the town. We hope the more influential of the colored people will see this matter in its true light, and will take measures to have the practice abated.

A CANNING ESTABLISHMENT.—We most heartily second the suggestion of our uptown cotemporary—*The Journal*—that this would be a fine place to start a canning establishment. We have many facilities here for the prosecution of the business, and abundant outlet for the shipment of canned fruits and vegetables. Being right in the midst of a peach growing district, the peaches put up here would have a better flavor than those put up in Baltimore, Philadelphia or New York, because they need not be taken from the trees until they are in the precise condition for canning. This being the case they would command a more ready sale, and would pay well.

But peaches are not the only thing grown here that could be preserved in a green state by this process. We grow nearly all the fruits and vegetables of the tropics, and these could be canned and shipped to Northern markets. The entire summer and fall months would afford abundant fruits, &c., for working up, and the winter and spring would furnish oysters. So the business could be carried on, without intermission, from yerr to year.

There is a vast difference between fruit, &c., canned in a fresh state and when shipped abroad and put up after it becomes dry and withered. Here we have everything at hand, and fruit could be transferred from the trees right into the canns. Other towns on the Peninsula have their canning establishments, and the evidence of their prosperity is contained in the fact that necessity compels an enlargement.

Let Denton have a canning establishment. Who seconds the motion?

Bethlehem Items.

[*From our Correspondent.*]

An effort is being made to organize a temperance society in the temperate little town of Bethlehem. Being at a loss for time, it is proposed to hold it at 4 o'clock on Sabbath mornings.

During the winter Bethlehem had two debating societies—a juvenile society and one by the men. Twenty questions were discussed by the latter society during the term.

The sabbath school was reorganized on Sunday, April 24th, with the following officers: Superintendent, W. W. Knowles; Assistant Superintendent, A. C. Patchett; Secretary, G. W. Mancha; Treasurer, J. E. Phillips; Librarian, W. J. Thomas. The following are the teachers of the school: W. Sisk, J. Waddel, G. W. Mancha, D. F. Waddel, W. G. Bradley, W. Wright, E. Corkran, G. W. Bedden, Mrs. A. Stack, Mrs. W. Eaton, Mrs. V. Stevens and Misses E. Eaton, D. R. Thomas, S. Sisk and Miss E. Edgell.—Every one seems to manifest an interest in the school and it is in a fine and prosperous condition.

A singing school has been organized here. W. L. Nichols is our teacher. We meet every Saturday night. The term does not expire before Jan. 1st next.

The public school is better attended now then it has been at any time during the scholastic year. M.

MEDICINAL.

TO PHYSICIANS.

NEW YORK, August 15th, 1868.

Allow me to call your attention to my

Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo.—Juniper Berries by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu, as prepared by Druggists, is of a dark color It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflamation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of confidence,
I am, very respectfully,

H. T. HELMBOLD,

Chemist and Druggist,
of 16 Years Experience.

[From the Largest Manufacturing Chemists in the World.]

NOVEMBER 4, 1854.

"I am acquainted with Mr. H. T. HELMBOLD; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN,
Firm of Powers & Weightman,
Manufacturing Chemists,
Ninth and Brown streets, Philadelphia.

Helmbold's Fluid Extract Buchu

Is the great specific for Universal Lassitude, Prostration, &c.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues.

Helmbold's Fluid Extract of Buchu,

In affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

Helmbold's Fluid Extract of Buchu and Improved Rose Wash

Will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies, Copavia and Mercury, in all these diseases.

Use Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing.* It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from broken-down or delecate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. PRICE—$1.-25 per bottle, or 6 bottles for $6.50. Delivered to any address. Describe symptoms in all communications.
