DENTON, MARYLAND:

THURSDAY MORNING:::November 10, 1870.

THE STATES OF ALABAMA, Delaware, Florida, Illinois, Kansas, Kentucky, Maryland, Massachusetts, Michigan, Minesota, Missouri, Nevada, New Jersey, New York, Rhode Island, Tennessee, Virginia and Wisconsin held elections on Tuesday. Arkansas and Louisiana voted on Monday. In these States 132 members of Congress were to elect, but we have no intelligence of the result up to the hour of going to press.

THE effort to bring about an armistice between the French Government and Prussia as a prelude to peace, has been abandoned, Bismark, in behalf of Prussia, insisting that the French should agree to give up a portion of their territory. This, Thiers and the French Government utterly refused to do, so negotiations were suddenly terminated.

The Provisional Government is still sanguine, and appears confident of yet driving the Prussians from Paris and the country.—They allege that the means of defence and for carrying on the war are constantly improving. The French minister at London says that there are six hundred thousand armed men in and around Paris, and that the fortifications will prevent any bombardment of the city.

THE DEMOCRATIC PARTY is not a party of proscription; o, no! It forbears to interfere with the conciences of men, but leaves them to think and act for themselves. But notwithstanding its *professions*, we have living evidences of proscription right here in our own midst. We know to our own personal knowledge of two cases where Democrats have called on a Republican merchant of this town for their bills, and declared to him their intention of encouraging Black Republicans no more.

We feel sorry for such misguided men, and hope they will yet live to see the error of their way. Just suppose that Republicans, both white and colored, were to refuse to work for these gentlemen, what would become of them? Would not their crops suffer? They cannot do their own work, nor yet can they do without the labor of Republicans. It is a mistake on their part.—Men in America have the privilege of free thought, and we protest against this proscription because they dare to exercise the privileges which the Constitution endows them with.

The Result in Caroline.

The battle has been fought and victory perches upon the Democratic standard.

This result is attributable to many causes, but chiefly to the manner in which the nomination of Mr. Torbert was secured. We knew the dissatisfaction in this county was not confined to a "few individuals," although we had taken no active measures to ascertain this fact, but we must say that it was even more wide-spread that we had ever imagined. Up until the day of election we had never doubted the success of the Republican party in the county, but when we beheld the unanimity of the Democrats and the persistent efforts they put forth to poll their entire strength—saw the absence of so many Republicans and the presence of so many Democrats who had often declared their intention never to "vote with a d—d nigger"—we at once gave up all as lost and quietly awaited the inevitable doom which was to befall us at the counting of the polls.

Good may yet, perhaps, come out of the evil of this campaign. The self-constituted custodians of the party in the Custom House will certainly now see that the people have repudiated their management and defeated their candidate. Seeing this, they will hardly again dare force their "programme" upon the honest masses of the party. But if they do, a similar fate awaits them. Honest men are not to be cheated out of nominations and then whipped in to the support of candidates thrust upon the party against the party will. What few Republicans there are in this State are Republicans from principle; not hangers on to do the bidding of political directors nor to be frightened by any fanciful cry of party expediency. They are men of will, of intelligence, courageous, and understanding the right dare do it at all hazzards. They count not so much the success of individuals as the success of their party, and when men step in to bar the success of their party they withdraw and let the blow fall just where it is needed.

After all, those making the nomination, or by whose instrumentality it was made, must endure the defeat, and we do not know that it matters much. Such seems to be the feeling here.

The Coming Winter.

A correspondent of the Philadelphia *Evening Star* who, last year, in October, foretold the coldest day of last winter, prognosticates that the coming winter will be an "old-fashioned, steady cold one." This prognostication is made from a similar stand-point as that from which the coldest day of last winter was foretold, relying upon observations made during the continued hot summer and up to the present time. He says:

"Your correspondent now states that the coming winter will be an old-fashioned, steady cold winter. The community will be as much put out at its persistent continuance as it was with the constant prolonged heat of the opposite months—coal and other merchants in a warm line of business will reap a rich harvest, while the ice gatherers will have an opportunity to fill their ice houses with an ample supply."

"The skate dealers, the rink managers, also the skaters themselves, will meet with all the success in that line that their reasonable hearts can wish for. But for that class who have not the neccessary means for protection against a severe winters' cold blasts, the suffering among them will be great."

The Election.

A DEMOCRATIC TRIUMPH—REPUBLICANS DEFEAT THEMSELVES—HAMBLETON'S MAJORITY IN THE COUNTY, 257—A PEACEABLE DAY, &C.

The election on Tuesday resulted in a complete Democratic triumph. Every district in the county gave Hambleton a majority, ranging from 134 to 10.

The day passed off very quietly, there being no disturbance at any polls, so far as we can learn. In this (the 3rd) district the best of order was preserved, and no attempt was made to estop any one from exercising the right of franchise.

It had been previously arranged that the Judges should occupy a space in the centre of the main court room, the voters to enter from the lobbies and retire by the main entrance, but from some cause this plan was abandoned on the morning of the election and the judges occupied their usual position—the front window of the Commissioners' room.—As soon as the polls were opened a large crowd of both white a colored voters gathered around the window, and voting went on quite lively until about noon, when the people began to disperse, and by the middle of the afternoon only an occasional voter appeared at the window.

The vote was by no means a full one in this or any of the other districts. Very few white Republicans were out at the election at all, and many of those who were out did not go near the polls. The candidate was personally distasteful to many, and the manner of his nomination was disgusting to many more. To this cause, and this alone, we attribute the defeat of the Republicans—a defeat directly responsible to a few men who have assumed to direct and control the Republican party in Maryland.

The Democratic vote was increased in every district of the county—in this one 88, and in the 5th, 27. We have not the data with which to ascertain their gain in the other districts. The Republican vote was increased of course, and had a suitable candidate to the tastes of the people been presented he would have carried the county by a small majority.

Returns have been received from all the districts, but we have been unable to obtain the poll in each. The majorities in the several districts we apppend, with the poll so far as we have been able to gather it:

Candidates.	Districts. 1st	2d	3d	4th	5th	Total
Hambleton,			469		148	
TORBERT,			335		125	
Dem. maj.,	10	76	134	14	24	257

In the 3rd district the entire colored vote was cast except 16, and in the 5th there was not one lacking, showing that there were but 49 white voters in the 3rd and 75 in the 5th. We present our readers with the Republican vote cast last year for McKellip, for Comptroller, and the colored registered vote in the several districts in order to demonstrate how easy a victory could have been achieved with a duly nominated candidate:

Districts.	McKellip.	Col'd vote.	Total.
1	147	100	434
2		187	
3	133	302	435
4	149	146	295
5	88	50	138
Grand total	517	785	1302

The Democrats are exceedingly jubilant over their victory. The returns from each district was received here with loud and prolonged cheers, and as a grand *finale* the old cannon was dragged from its muddy bed along the river and by two shots proclaimed to the people the triumph they had achieved.

Sambo.

HE VISITS DENTON IN THE DEMOCRATIC GARB—HE IS ENTERTAINED BY DEMOCRATS—HIS MISSION A FAILURE.

On Saturday last two dusky hued individuals might have been seen to enter this town from the western end. They occupied the same vehicle and looked as wise as owls seated on a pine limb.

These colored individuals were from Easton, are Democrats, and were sent, we suppose, to bear fraternal feelings of regard from the Democracy of Talbot to the Democracy of Caroline. At any rate, their business led them to seek Democrats, and with prominent members of that party they "interviewed." The immediate object of their visit has not transpired, but it is very generally belived they came into this county to organize a meeting; but after such a fierce onslaught upon the colored people as Tuesday week, those to whom they were sent deemed it inexpedient to attempt a reconciliation in so short a while. So they were "turned away empty." Next fall, however, we shall expect to see these same colored men received with open arms and to hear them "orate" from the same stand with white Democrats.

These colored men were introduced to one colored man as "Democrats," but this was an exceedingly poor recommendation to the colored men of this county for they are too well "posted." They are well acquainted with the numerous guises assumed by the Democratic party, and they all, with one accord, cry out, "get thee behind me, ye hypocrits."

We have since learned that one of these *distinguished* "colored Democrats" is a notorious thief, who, if he had his just deserts, would have been in the penitentiary long ago.

After all what is Democracy?

THE BALTIMORE EVENING BULLETIN.—A morning edition of this popular little daily is now issued, making three editions in all. The publishers seem to have struck the right chord when they reduced the price and made it an evening paper (it being the old *Clipper* and afterwards the *Commercial*) and the immense popularity it has attained is justly due. We hope the publishers may realize that success with their morning edition which they expect.

TUESDAY'S ELECTION.

DEMOCRATIC TRIUMPHS IN MARYLAND AND DELAWARE — THE REPUBLICANS LOSE NOTHING IN CONGRESS.

Returns from the 1st District elect Hambleton by a heavy majority. Every county in the district is Democratic.

Swann, Archer and Ritchie are certainly elected in the 2nd, 3rd and 4th districts, and Merrick probably in the 5th.

Ponder and Biggs, Democrats, are both elected in Delaware, but by decreased majorites. Riots are reported at Smyrna and Odessa.

Hoffman is re-elected Governor of New York.

The general outlook would seem to indicate that the Republican Majority in Congress will remain about the same as last year, with a probable increase.

[For THE AMERICAN UNION.]

Temperance.

SEAFORD, DEL., Nov. 4, 1870.

The second regular monthly meeting of the "American Temperance Union" was held in the Methodist Episcopal Church, in this town, on Wednesday evening last.—There was a very good attendance on the part of the public, and the exercises throughout were of an interesting and instructive character. We are pleased to state that the society is meeting with the encouragement it so deservedly merits, all apparently manifesting a deep interest in the success of the temperance cause. There is no restriction as to membership; its doors are thrown open as a standing invitation to the public, and to all who feel the necessity and importance of sustaining the moral welfare of their community.

The exercises of the evening were opened by singing the hymn, "Temperance Walks Abroad," after which a prayer, pertinent to the occasion, was made by Rev. Mr. Elderdice, chaplain of the society. The choir then sung, "Hope for the Fallen." Next in order was an essay by Mr. J. F. Pennington, which was well received. Eighteen Reasons why I am a Tetotaler, by Mr. John Hobbs, was delivered in an excellent manner. The temperance song "Touch not the Cup," was then sung by the choir, with musical accompaniment, Mrs. Annie P. Cannon presiding at the melodeon.

Rev. W. B. Gregg, pastor of the church, to whose untiring energy and valuable suggestions the Society owes its origin, then came forward and delivered a brief but able and eloquent address in behalf of the good cause. He reviewed at length the fatal results attending the drinking of alcoholic poisons, and drew a graphic picture of the desolation, destitution and misery emanating from habitual drunkenness. He exhorted his audience to cast their influence against the spreading of the evil; warned the youth to beware of the tempting cup, and counseled them to shun evil and corrupt associates, and closed by reminding the members of the society of the important duty devolving on them, and appealed to the ladies to lend their aid to the work so auspiciously begun.

The temperance song "The Wine Cup," was then sung by the choir, at the conclusion of which the dialogue, Scriptural Catechism, was spoken by Miss Martha Calaway and Mr. Asbury Brown, which was rendered to the satisfaction of all present. The President, Mr. Jno. W. Phillips, then administered the pledge and obligation to two ladies and one gentleman. Owing to sickness, Miss Addie Hazzard, the Editress, was not present, and the papers received during the month were read by E. F. Prettyman, the Sec'y, and Mr. J. F. Pennington. On motion of I. M. Fisher, Esq., the proceedings of this meeting were directed to be published in full, in all papers friendly to the cause.

The benediction was then pronounced by the Chaplain, after which the society adjourned to meet the first Tuesday evening in December, in the M. P. Church. An excellent programme will be arranged for the occasion. An invitation is extended to our friends at home and abroad to be present.

A Daring Robbery.

HIGHWAYMEN ON THE DENTRAL PACIFC RAILROAD—TRAIN ROBBED OF OVER $40,000 IN GOLD.

SAN FRANCISCO, November 5.—The great overland eastern-bound train, on the Central Pacific railroad, was stopped and the express car robbed, between Verdi and Reno, last night, by a band of highwaymen, who boarded the train at Verdi, and, presenting pistols at the heads of the conductors and brakesmen, detatched the express car and robbed it of $40,000 in coin. The robbers escaped, but a party has been organized to give them a hot pursuit.

A dispatch from Reno gives the following further particulars:

"Just as the train was starting from Verdi, three masked men boarded the express car, and five more immediately came to their aid from the rear cars. These five evidently came from the west on the train. Six stopped on the express car, which they detatched from the main train, cutting the signal rope. Two jumped on the engine, and placing a pistol to the engineer's head, commanded him to move on, which he did. Two brakemens endeavored to keep the masked men off the express car, but pistols placed at their heads compelled them to retreat. The conductor rushed forward, but the pistols stopped him. Finding a hatchet, he came forward again in time to see the engine and express cars separated from the train and flying down the track. The robbers then placed the firemen, express and mail messengers in the mail room and locked them up. When six miles from the station they stopped the train and broke open the express boxes and robbed them of $41,600 in gold coin. All the telegraph wires were cut west of Reno."

The assertion made by M. Pietrie, that Louis Napoleon had no investment of capital out of France, has elicited a minute reply from M. Max Pol, who says that his position in Paris qualified him to know of what he speaks. He sums up 63,000,000 francs, equivalent to £2,500,000, or about $12,000,-060, that he knows of. The investments began in 1854, and are in England, Austria, Turkey, Tunis, Mexico, Russia, Spain, Holland and the United States. The largest sum is a $3,000,000 through Jecker, of Mexico. New York comes next, with $2,000,-000, placed through Brown Brothers, and England has a like amount. It is further stated that he owns heavily in real estate in Italy and elsewhere—thus guaranteeing him, with good economy, against a repetition of some of the straits he is said to have experienced before his elevation.

The population of New York city is 924,-613; Philadelphia 657,179.

THE fires in October in the United States, where the loss was over $20,000, amounted in the aggregate to $2,270,500, or a decrease of $522,000 as compared with October, 1869. The heaviest losses were as follows: Block of stores at San Francisco, on October 20th, loss $250,000; saw mills at Minneapolis, Minn., on October 20th, loss 150,000; buildings at Winnemucca, on October 1st, loss $150,000; glass factory at New Albany, Ind., on October 1st; car shops at Providence R. I., on October 1st; flour mills at Poughkeepsie, N. Y., on October 18th; ice company's buildings at Athens, N. Y., on October 19th. The losses at the last mentioned fires were $100,000 each.

Senator Morrill, of Maine, continues very ill, and his physicians report him suffering from complete nervous prostration.

A report of the assassination of the Mexican leader, Placido Vega, at Tepic, has been received at San Francisco.

The prize fight between Allen and Gallagher took place on Saturday near St. Louis, the former winnig easily in five rounds.

Partial census returns from the South are said to show a slight increase in the negro population, but not in proportion to previous enumerations.

The Washington *Star* says that it is believed that the English Mission has been tendered to General Robert Schenck, of Ohio, but the President will not authorize the announcement until the position shall be accepted.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
