Love's Dream.

As the brightest dreams must fade away,
And dew-drops melt 'neath sunshine ray,
So must this pleasure end;
And yet I hope you e'er will think,
As draughts of priceless joy you drink,
That I am still your friend.

As clouds upon a summer's day
So slowly fade, and pass away,
Our love has paled and waned;
And yet I fain would have you know
That in my heart there still doth glow
A love which once you gained.

You wooed and won my trusting heart;
And, oh! it did such bliss impart
Unto my very soul.
I gave my all—my love—to thee,
And placed for e'er, with trust so free,
My life 'neath thy control.

And through those long and dreary years,
While waiting for thee, oft my tears
Would chase away each smile;
Rise have struggled with my heart,
And bade the gloom from me depart—
I loved thee all the while.

Where'er thou strayed, where'er didst roam,
Far o'er the land 'cross ocean's foam,
I yet to thee was true;
And, when first came unto my ears
This tale, I crushed my doubts and fears,
And still did trust in you.

But now? alas! the tale is told:
You gave your heart for paltry gold,
And left me here to mourn.
And I? I'm but another cloud
Of love, to enter death's dark shroud,
And seek that "endless bourne."

DOMESTIC RECEIPTS.—*Cookies*, four fresh eggs beat with a pound of sugar one hour, the juice and rind of one lemon, one pound of flour, and one half teaspoonful of hartshorn. These cakes must be made in a cold room, or they will be too soft; roll thin, cut them in squares, and impress them with any fancy mold; lay on the pans anise or caraway seed, instead of buttering; let the cakes dry them from twenty-four to forty-eight hours, and afterwarde bake in a very slow oven without browning. They will keep a year.

Rice Pudding.—Wash thoroughly a teacup full of best rice, add half a cup of white sugar, a quart of water, and the same of milk. Bake slowly four hours, stirring occasionally, except the last hour. A cup of raisins is an improvement.

Brown Bread.—One quart Indian meal, one pint rye flour, a small cup of molasses, one teaspoonful each of saleratus and salt, with hot water, thin it enough to pour; bake three hours.

Rye Drop Cake.—One pint of milk, three eggs, one tablespoonful of sugar, little salt, stir in rye flour till it is as thick as pancakes. Bake in cast-iron pans half an hour.

A Bill's Wonderful Adventure.

If antiquarians divide the periods of primeval man into the stone, bone and iron eras, we stand a good chance of going down to posterity as belonging to the advertising age. "Ah!" said a traveled friend of ours, "when I was in Soudan, news came to us that a great chief some days' journey from us had a treasure, a picture of untold beauty. We mounted our camels and went through the burning sands for three mortal days. At last, just as our water-skins were dry, we arrived at the Sheik's tents. He was a superb old man, and after a sheep was killed and eaten, with a traveler's curiosity, I broached the delicate subject. From the bottom of a cedar chest, beneath bournesses and caftans, he disentombed something done up in a shawl. 'See! behold!' he cried; 'this came to me from a strange land. It traveled here from the Nile, in boats. From even further than that.' I was quite excited. Was it some old papyrus, some grand relic of the Pharaohs? I trembled with emotion. With shaky fingers the old man undid the coverings, and exhibited to me a show bill of Dan. Bryant's—the flaring picture of a regular nigger breakdown. 'I cannot sell it to you,' went on the old man, 'it has preserved our stock from murrain this year, and in cases of fever and blindness it works marvelous cures. Blessed be the Prophet.'"

The Pay of the New King of Spain.

The Spaniards have fixed the civil list for King Amadeus at a rate which is very high, considering the depressed condition of the national finances. The allowance to Queen Isabella was 34,000,000 reales, or $1,700,000 of our money; and to her husband and other members of the royal family, 18,350,000 reales, or $917,500; total cost of the Court to the tax paying people 52,350,000 reales, or $2,617,500. Besides this, Spanish royalty had a number of national palaces, rent free, and was exempted from ordinary taxation. The new King of Spain is to have a civil list of $1,200,000 per annum; the heir apparent, an infant, is to be allowed $100,000 a year, and there will be an allowance of $200,000 for the maintenance of the royal palaces. This (says the Philadelphia *Press*) makes a total of $1,500,000 for a young man, his wife, and infant boy. His neighbor, King Louis of Portugal, is allowed 365,000 milreis, or about $410,000. But out of this he pays $70,000 to his wife—refusing a proffered grant, from the funds of the nation—and returns $29,000 per annum, to be devoted for educational purposes. Moreover, and in addition, in January, 1869, the King of Portugal assigned to the national treasury eight per cent. of the annual ineome of the royal family, in consequence of the financial difficulties of the country.

DECREASE OF CHINESE IMMIGRATION.—The last steamer from China brought only sixty-nine Chinese. For some time past the departures of these people from this port have been more than the arrivals. The number resident in this city is estimated to be less by 2,000 than it was a year ago; and the number in the whole State is probably not over 37,000; whereas a year or two ago it was from 40,000 to 50,000. There has been an excess of arrivals over departures for 1870, thus far, of about 7,000; but this excess has not been concentrated in San Francisco, while death and immigration to other States and Territories have reduced the total number in California considerably.—*San Francisco Paper.*

BRIGHAM YOUNG.—A correspondent says he has seen in Salt Lake City, in the theatre, 39 of Brigham's wives and 156 females who were either his wives, daughters, or grand-daughters. Most of the young farmers had only two, many only one wife. He has known, he says, full brothers and sisters forced to marry by Brigham Young. He had seen it stated in some of the papers that Young might soon die. He looked good for 50 years longer, and the writer believed it to be from his strict temperance since early youth. Brigham Young's wives were compelled to do manual labor "to keep the devil out of their heads," in the language of Brigham.

Unanswerable Arguments.

Established facts are silent arguments which neither pen nor tongue can shake, and it is upon established facts that the reputation of Hostetter's Stomach Bitters, as a health-preserving elixir, and a wholesome and powerful remedy, is based. When witnesses come forward in crowds, year after year, and reiterate the same statements in relation to the beneficial effects of a medicine *upon themselves*, disbelief in its efficacy is *literally impossible*. The credentials of this unequalled tonic and alterative, extending over a period of nearly twenty years, include individuals of every class, and residents of every clime, and refer to the most prevalent among the complaints which afflict and harass the human family. Either a multitude of people, strangers to each other, have annually been seized with an insane and motiveless desire to deceive the public, or Hostetter's Bitters, for no less than a fifth of a century, have been affording such relief to sufferers from indigestion, fever and ague, biliousness, general debility, and nervous disorders, as no other preparation has ever imparted. To-day, *while the eyes of the reader are upon these lines*, tens of thousands of persons of both sexes are relying upon the Bitters as a sure defence against the ailments which the present season engenders, and their confidence is not misplaced. The local potions which interested dealers sometimes endeavor to foist upon the sick in its stead, are everywhere meeting the fate that is due to fraud and imposture, while the demand for the great vegetable specific is constantly increasing.

THE purest and sweetest Cod-Liver Oil in the world is HAZARD & CASWELL'S made on the sea-shore, from fresh, selected livers, by CASWELL, HAZARD & Co., New York. It is absolutely *pure and sweet.* Patients who have once taken it prefer it to all others. Physicians have decided it superior to any of the other oils in market.

ALLEN'S LUNG BALSAM,

THE REMEDY FOR CURING CONSUMPTION, COUGHS, BRONCHITIS, ASTHMA, AND CROUP.

As an Expectorant it has no Equal.

It is composed of the active principles of roots and plants, which are chemically extracted, so as to retain all their medical qualities.

MINISTERS AND PUBLIC SPEAKERS,

who are so often afflicted with throat diseases, will find a sure remedy in this balsam. Lozenges and wafers sometimes give relief; but this balsam, taken a few times, will insure a permanent cure.

Will all those afflicted with coughs or consumption read the following, and learn the value of

ALLEN'S LUNG BALSAM.

What the Doctors say.

Amos Woolly, M. D., of Kosciusko Co., Indiana, says, "For three years past I have used Allen's Lung Balsam extensively in my practice; and I am satisfied that there is no better medicine for lung disease in use."

Isaac R. Doran, M. D., of Logan Co., Ohio, says, "Allen's Lung Balsam not only sells rapidly, but gives perfect satisfaction in every case within my knowledge. Having confidence in it, and knowing that it possesses valuable medical properties, I freely use it in my daily practice, and with unbounded success. As an expectorant, it is most certainly far ahead of any preparation I have ever yet known."

Nathaniel Harris, M. D., of Middlebury, Vermont, says, "I have no doubt it will soon become a classical remedial agent for the cure of diseases of the throat, bronchial tubes, and the lungs."

Dr. Lloyd, of Ohio, surgeon in the army during the war, from exposure, contracted consumption. He says, "I have no hesitation in stating that it was by the use of your Lung Balsam that I am now alive and enjoying health."

Dr. Fletcher, of Missouri, says, "I recommend your balsam in preference to any other medicine for coughs: and it gives satisfaction."

DR. A. L. SCOVILL,

who has for many years been known to the public throughout the United States as the inventor of remedies for the lungs, recommends ALLEN'S LUNG BALSAM as surpassing anything that has ever been offered to the public for the cure of lung disease. He has used it in his own family with great success, in the case of his sister, who was supposed to be in the last stages of consumption. This lady is now well, and has been permanently cured by its use.

Physicians who have failed to cure their patients should try this medicine before they give the case up, as we know very many valuable lives have been saved by being persuaded to give it a trial.

DON'T DESPAIR because all other remedies have failed; but try this remedy, and you will not be deceived. It will cure when all others fail.

Directions accompany each bottle.

Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component part are, BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES.

MODE OF PREPARATION.—Buchu, in vacuo, Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used, and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a Tincture, as made in Pharmacopœa, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it wil meet with your approbation.

With a feeling of profound confidence, I am, very respectfully,

H. T. HELMBOLD,
Chemist and Druggist of 19 years' Experience.

Having been often solicited to prepare this Celebrated Oil free from stain, to be used as a common Liniment by families, we have at length succeeded in extracting the coloring properties which have heretofore rendered it objectionable. This Oil possesses the efficient principles of that prepared with dark tinge, and will be found to be one of the best Remedies for almost

all purposes that has ever been before the public. But for animals, in all cases, use the other kind, and always get a half-dollar or dollar bottle, to have enough to be of much service. ☞ Before using, shake the bottle. English and German Almanacs, Vade-Mecums, Show-Bills, Posters and Circulars will be forwarded free, upon application by letter.
