LOCAL NEWS.

☞ The Orphans' Court for Caroline Co. will meet on Tuesday, February 14th.

The Editor's Hash.

—More snow.

—Our physicians are idle.

—Denton ought to have a bank.

—Quarterly meeting next Sunday.

—Our restaurants complain of slow sales.

—"Maude" shall have a hearing next week.

—Work has been begun on the new church.

—The Farmer's Club is fast gaining favor with our people.

—J. W. Bryant is enclosing his dwelling by a neat picket fence.

—R. H. Loockerman is in the city purchasing a new stock of goods.

—Parties in Wilmington have a Gift Enterprise on foot in this town.

—The County Commissioners will meet at their office in Denton next Tuesday.

—Parson Hammersley, we are glad to learn, is recovering from his late injury.

—An appeal has been taken on the "snow-balling" case to the Circuit Court.

—The extra meetings in the M. E. Church are still unattended by any success.

—Partial relief from the drouth was afforded by the rain and snow of last week.

—We hear some talk of organizing a Fire Insurance Company in this town. Certainly it is needed.

—The Messrs. Loockerman have dissolved partnership. R. H. Loockerman continues the business.

—The *Royal Oak* arrived at the bridge on Saturday direct from Baltimore. This is the first boat from that city this year.

—Next Tuesday is Valentine day. The practice of sending valentines has fallen into disuse in this community, and it is well that it has.

—We understand that Mr. F. M. Hubbard will open out a new store at Garey & Millington's old stand shortly. The more the merrier.

—The beauty of writing consists in intelligently expressing one's ideas in as few words as possible. We hope our correspondents will observe this rule.

—The vestry of St. Mary's Parish is requested to meet at the office of P. W. Downes, on Saturday evening next, at 7½ o'clock. The punctual attendance of every member is desired.

—Some thief stole some articles of wearing apparel from the clothes line in Mr. Nehemiah Fountain's garden one night last week. They were found a few days afterwards secreted in some bushes on the hill back of Mr. F.'s premises.

—Our confectioners are again out of apples. That must be a strange economy which induces a dealer to allow his stock of wares to run out without attempting to keep up a supply, especially when the article exhausted is one of every day use.

—Mr. Jno. D. Kemp, who for many years was a practioner at the bar of our court, and who is now preparing for the ministry, preached a very acceptable sermon to the Methodist Episcopal congregation in this place on Sunday evening last.

LARGE PARSNIP.—Mr. Geo. W. Collison, residing in the "Neck," left at our office last week a parsnip grown by himself that measured 4 ft. 2 in. in length and 10½ inches around it. This a long parsnip, and we suspect it will be a long time before any one will beat it.

QUARTERLY MEETING.—The fourth and last quarterly meeting for this circuit will be held in the M. E. church, in this town, on Saturday and Sunday next, the 11th and 12th of February. The Elder is expected to be present. The usual quarterly services will be held.

CUT HIS FOOT.—Mr. William Towers, residing in the 4th district, just below Gilpin's Point, cut his foot very badly—report says almost off—whilst chopping wood on Tuesday morning last. We trust the report is greatly exaggerated, and hope Mr. Towers will be able to be about again in a few days. Dr. Hignutt dressed the wound.

LUMBER AND COAL YARD.—Mr. T. W. Fountain has leased the lower wharf, commonly known as "Stewart's Wharf," for the purpose of opening thereon a lumber and coal yard. An enterprise of this character is certainly needed in Denton, and, we believe, will be well sustained.—Mr. F. does not expect to begin business until some time next month.

CONCERT AT PRESTON.—A concert for the benefit of the M. E. Church at Preston came off in the church edifice on Thursday evening last. The exercises consisted of vocal and instrumental music, and so well were the parts performed that universal admiration was elicited. The entire affair was very creditable, was well attended, and, we learn, was quite remunerative.

THE ORPHANS' COURT.—We extract the following from the record of Tuesday:

Wm. F. Palmer, administrator of Thos. Palmer, passed account of sales.

Letters of administration were granted to D. J. Zacharias on the estate of Susan Genn, late of New Castle county, Del., deceased.

John W. Temple, executor of Margaret Sheppard, passed interest account, list of sperate debts and 2nd administration account. Warrant was also issued for sale of the real estate.

Guardian accounts passed: by R. C. Carter, guardian to Arlington and Richard C. Porter, 11th account, by Jno. D. Kemp, guardian to Thomas H. and James T. Dabson, 3rd, 4th and 5th accounts; by Chas. E. Jarrell, guardian to Luther T. and Ella M. Williams, 7th account, and by Levin P. Williams, guardian to Adah H. Robinson, 1st account.

MELTON CORN.—We are in receipt of a package of the celebrated Melton Corn, grown by Jno. W. H. Littell, of Corydon, Ind. It is a beautiful corn and is said to be very productive, ripening in from 90 to 100 days after planting. Samples may be seen at this office. Those wishing to purchase the corn can do so by addressing Mr. Littell, at Corydon, Ind. Price 50c per quart, or 2 quarts for 80c.

CUTTING AFFRAY.—A cutting affray took place between Robert Trice and Robert Willoughby at the new school-house, in White Oak Swamp, on Monday last. They are both pupils of this school, and are still in their teens. From some cause they got into an altercation, when Willoughby was severely cut in the arm by a pocket-knife in the hands of Trice. The wound bled profusely. Although severe it is not dangerous.

HOME FOR FRIENDLESS CHILDREN.—This institution is now open. As the appropriation from the Legislature was intended for the benefit of the whole Shore, the Managers of the Institution desire that every county shall be represented therein. If any one in this county wishes to make application for the admission of children, the Managers hereby request that they shall communicate at once with them. Address, MRS. HENRY C. LAY, Easton, Talbot Co., Md.

LITERARY AND SCIENTIFIC ENTERTAINMENT.—We are glad to announce that Prof. Turner, of American Philosophical Society, has made arrangements to deliver his lecture upon electricity, chemistry, &c., to our citizens. The professor has been travelling throughout the Peninsula, and our exchanges everywhere speak in the most commendatory language of the lecture.—Illustrations will be given, some of which will be amusing, while others will be highly instructive. He will exhibit the kindling of fire with water; boiling water without heat; show how lightning is produced; show how magnetism is connected with galvanism, and many other singular phenomena. We trust he will have a large audience.

THE COURT HOUSE.—This venerable building is gradually falling into a dilapidated condition. The floors in some of the rooms are sinking in the centre, others are ill adapted to the use for which they are employed, and the whole structure begins to show signs of decay. It is sadly deficient in that there is no place to put away records, and these are beginning to show abuse for this reason. There ought to be a fire-proof vault built in which to put away the records, for the building might take fire and destroy every book that has been written since the formation of the county. In fact there ought to be a new Court House, or the present one so remodeled that room and comfort may be attainable in the various offices, and the records be preserved in a better condition.

BUILDING ASSOCIATION.—We understand that another effort is being made to organize a building association in this town. We trust that it will not be allowed to fall through, as did the former effort, but that it will be pushed vigorously. There is not the least doubt of the ability of the town to sustain such an organization, and all that is necessary to insure success is the hearty co-operation of all our citizens. We know of nothing which would give a greater stimulus to the growth of the town; there is certainly nothing more lucrative. A building association is emphatically the poor man's friend, inasmuch as through its agency he will be enabled to build himself a house of his own at a smaller cost than in any other way. We therefore urge our laboring men to take as many shares in it as possible. They may rest assured that they will loose nothing by it, for it cannot dissolve until its time expires, and they will then have at least one dollar and fifty cents for every dollar invested. The profits of the association arise from the monthly sales of the money, and this amount is by no means small.

RAILROAD SURVEY.—Civil engineers were, we learn, recently at work, in the neighborhood of Concord, surveying the route of a proposed line of railroad northward from Federalsburg. We have not been able to learn who the parties were, or by what authority the work was being done, or even the object sought to be accomplished. We suspect however, that it is a survey for the Eastern Shore R. R., running South from Elkton, and terminating at Salisbury. Some are under the impression that it is an entirely new project, designed to connect the Dorchester & Delaware R. R. with the Md. & Del., without reference to any particular road, and thus afford the people of Dorchester county a more direct route to Philadelphia and the North. If the latter supposition be correct, it certainly shows a more comprehensive policy on the part of the Dorchester people with regard to their true interests than they have yet manifested. The Dorchester & Del. road should never have been allowed to deflect from Federalsburg to the Del. road, but should have tapped the Md. & Del. road at Greensborough and thus shortened the distance to the North. We believe such a connecting link will yet be built; and the sooner the people of the two counties are fully awakened to the importance of such connection the better will it be for them.

Overland Immigrants.

Mr. Chester Butler, who bought Mr. Samuel Downes farm, through the agency of Messrs. Mancha & Bro., left his old home in Northampton county, Pa., some time in the month of January, with a span of fine horses to a farm wagon, heavily loaded with household furniture, and a spring wagon attached to the rear of this, on a journey of two hundred and sixty-six miles to his new home in Maryland. He traveled this distance in eight days, and did not trot his horses over three miles in the whole journey.

Messrs Mancha & Bro. tell me that this is the 18th instance of their purchasers moving to Maryland by overland route with their own teams: twelve from Pennsylvania; two from New Jersey; three from New York State, and one from Ohio, who traveled with his three horses over 500 miles.

This is by no means a common way of moving to Maryland, as a great majority come by railroad and water. But if I had a span of horses like Mr. Butler, I too would choose traveling overland in preference to any other way, and I could not leave such noble horses behind. They are certainly fine young match horses, and only three pounds difference in their weight.

MR. EDITOR:—

Thinking a few lines from our place would not prove uninteresting to your readers, I have ventured to send you a few items. We are a live people down here, you may be sure. We would advise you, Mr. Editor, if you pass down this way, to take some one with you who is acquainted with Messrs. Racker, Fido, Mary Ann & Co., or you will be very likely to take a ride in a direction you do not wish to go. (We hope our correspondent don't mean to insinuate that we favor Stack.—ED.)

We have a Lyceum in our town, in successful operation, being largely attended by speakers from this and adjoining Lyceums. On last Thursday evening the following question was discussed: *Resolved*, That Fido, Racker and others were justifiable in arresting Abe Charles. Argued in the affirmative by Job Willoughby and John W. Hignutt, and in the negative by Mr. Taylor. Decided in the affirmative.

I noticed in your last issue a communication from Federalsburg in regard to the snow-balling case here at our school. As you were not at the Burg when the case was tried I thought I would let you know how it "went." Well, the first witness examined was your paper—THE AMERICAN UNION—which, I can assure you, was pretty roughly handled and finally turned down. The trial then went on, and after many things were proven by the plaintiff but much more by the defendant, the following singular verdict was given: one of the boys named in the writ was fined $2, and the other two was cleared but had the costs to pay. It is due the magistrate to say that he was suffering with a severe attack of the *head*-ache.

PHILADELPHIA.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Uterous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long-continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.
