American Union

J. M. EMERSON, EDITOR AND PROPRIETOR.

DENTON, MARYLAND:

Thursday Morning, February 23, 1871.

WANTED.

An active boy, of good moral training and industrious habits, to learn the printing business. Applications received until March 1st., and all applicants must appear in person. There will be a vacancy in this office after the 8th of March.

J. MARION EMERSON.

February 23d, 1871.

THE UNITED STATES SUPREME COURT has affirmed the constitutionality of the cotton tax.

THE PUBLIC ANXIETY, growing out of the non receipt of intelligence from the Tennessee, was quieted on Monday by the arrival of the mail steamer North America from St. Thomas. The Tennessee reached St. Domingo on the 2nd inst., having stopped six days at Samana Bay.

M. THIERS has been elected to the Chief Magistracy of the French nation, and in an address to the National Assembly foreshadowed somewhat of the policy which will be pursued under his administration. He enforced the necessity of peace by dwelling upon the disasters and sufferings which had been caused by the war and the German invasion, but announced that the terms would be courageously discussed with the Prussians, and would only be accepted if consistent with the honor of France.

[Written for THE UNION.]

Observations of a Physician.

No. III.

Mr. Editor :—

We were speaking in our last communication of some of the causes of disease, and of an error which we conceive to exist in many localities with regard to the liver and and its derangements; of the abuse of the common preparations of Mercury, together with some hints and suggestions for modes of treatment which we humbly conceive are too much neglected by us all, and wholly by a certain portion of the profession and people.

It would be foreign to the purpose of this article to enter in detail, upon the matters treated of, or to lay down specific plans of treatment; but to inculcate certain general principles, which we conceive it concerns the people to understand.

There are other evils prejudicial to health and longevity which, notwithstanding their importance, we can only glance at in passing. Of these we would enumerate improper food, villainous cooking, the modern abomination of stoves without adequate ventilation, ill ventilated sleeping apartments upon ground floors, the abuse of ardent spirits and tobacco; all of which causes annually swell the numbers of that pale caravan that is constantly moving to "that mysterious realm where each shall take his chamber in the silent halls of death."

In connection with bathing, as a therapeutical and hygienical means of restoring health, we have frequently wondered what the people supposed water was made for. The ocean and rivers are full of it, and the clouds drop it down; it was evidently intended by the Creator as a great purifying agent, to wash not only our clothing, but our bodies inside and out. It is the great vehicle in which is conveyed to the organs of assimilation the materials that make up the various tisues of the living body; and it is also the vehicle which conveys out of the body the various excrementitious matter in the wear and tear of the vital machine.

Many people seem to imagine, with the old woman in Sam Slick's story, that they have no further need of water applied externally after they are christened, and, accordingly, carry about them, on their person, in their houses and in their clothing, not only the impurities constantly escaping from their bodies, by sensible and unsensible perspiration, and the foul air emanation from their lungs, but many are so ambitious of ownership of the soil that they even carry large quantities of dirt upon their persons. No wonder they are sick—the wonder is they survive from month to month amid such accumulations of filth, foul air and general violation of the laws of health.

In this hasty communication we have merely glanced at some of the evils with which we are afflicted. Allow us to ask, in conclusion, is there no remedy? We answer, yes. Let information, in the shape of lectures, popular treatises upon Hygeine, Physiology and Pathology, or the Laws of Health and Disease, be widely diffused among the people. Let intelligent physicians everywhere make themselves heard, not only in the modes hinted at, but at the bed-side, so that their influence and power may be felt and acknowledged to the utter confusion and dismay of the ignorant and unprincipled charlatans, who, too long, have reveled in a harvest of ill-gotten gain from a deceived and injured people.

We have penned these epistles with no unkind feelings toward medical men.—Many of them we know to be intelligent, conscientious and self-sacrificing; but in this portion of the world, at least, they lack organization and that courage which is inspired by united effort in a common cause. Let me beseech them to organize for the conflict, and success will ultimately crown their laudable effort.

To the people let me say, beware of ignorant, boasting, knavish doctors, and the whole pack of quacks, and panaceas of every kind whatsoever. Learn the laws of health and observe them. Let bath-tubs, be their construction ever so simple, be introduced into every house,—religiously practice cleanliness, sobriety and temperance in all things; eat wholesome food, properly cooked; learn once and forever the great truth that Medicines are designed merely to aid natural processes, and that we live, more and have our being by the observance of the laws of health and not by drugs.

If any of you who many read these lines have, in your midst, an intelligent and honorable physician, learn to esteem him at his real worth. Listen to his counsels, and do not, at your peril, suffer him to live in want or neglect, lest he shake off the dust of his feet as a testimony against you; remove to more favored climes and turn you over, as you deserve to be, to the tender mercies of the vultures of the healing art.

OLD PHYSICIAN.

PENINSULAR JOTTINGS.

DORCHESTER COUNTY.

—The material used in printing the *Intelligencer* has been sold to a Mr. Morgan for printing a paper in Salisbury.

—The oyster business in the lower part of the county is dull.

—Millard & Co., oyster packers, are putting up a new building to meet the requirements of their business.

KENT COUNTY, MD.

—The scarlet fever is very prevalent in some neighborhoods of the county.

—The Crawford-Vickers controversy still fills the Chestertown papers. The editors had better fill the space thus uselessly, and often indecently, consumed with fresh local news of the county.

—The river steamers are now running regularly.

WICOMICO COUNTY.

—Geo. W. Parsons is putting a steam engine in his saw-mill.

Two youths were capsized while sailing in the river on Thursday last but were rescued before either were drowned.

—A new paper to be called *The Bachelor* will shortly appear in Salisbury. It will be edited by three bachelors.

—A new auction house has been opened in Salisbury.

KENT COUNTY, DEL.

—A young man of Felton has invented a new corn dropper.

—An exemption law of $1,000 has been circulated in the county. Such a law would render the Sheriff's business extremely dull.

—Gamaliel Garrison died very suddenly at his residence near Smyrna, on Monday night week.

—Ex-Governor Causey died at Milford on Friday last.

QUEEN ANNE'S COUNTY.

—Wm. T. McClyment and J. O. Raisin are having a new dwelling erected on the lot formerly owned by Capt. Ross, near "Dandy Hall," Centreville.

—P. F. T. Blake has been elected Vice-President on the part of Queen Anne's in the Md. Sunday School Union.

—A colored man named Floory was recently lodged in jail for stealing saddle skirts to half sole his boots with.

—The *Observer* thinks that the voting directly for candidates at primary meetings would put a stop to log rolling at conventions. Why not simply vote for persons indiscriminately for office without reference to nominations? This would prove as efficacious to prevent log rolling as the *Observers* suggestion.

TALBOT COUNTY.

—A military company numbering 42 members has been organized in St. Michaels.

—Dr. Pindell recently sold his farm in Bay Hundred to a New Jersey gentleman for $19,000.

—David B. Griffith an Easton merchant died recently.

—Jas. Perry Grace, of Easton, died at St. Clement's school last week.

—A terrapin 71 years old is on exhibition at the Brick Hotel, Easton. Mr. C. B. Carroll, of that town, recognizes it as one upon which a friend of his carved the initial letters of his name in the month of August, 1800, while they were boating on the Delaware river, above Bristol. This is a remarkable coincidence.

—Gibson W. Wright, one of the oldest and most respected citizens of Trappe district, died last week.

CECIL COUNTY.

—A colony to emigrate to one of the Territories is forming in Elkton.

—A man answering to the description of one of the murderers of a policeman in Philadelphia was arrested in Elkton last week.

—A new M. E. Parsonage is building at Zion.

—Geo. Oldham, of Zion, lost three horses from lung fever last week.

—The Octoraro Forge property, at Rising Sun, has been sold to a Philadelphia firm for the purpose of locating a paper mill there.

—A boy named Bishop stabbed a boy, who was sitting with him, at the same desk, in a Port Deposit school, named Boyd, in the abdomen one day last week. Boyd is lying in a critical condition.

NEW CASTLE COUNTY.

—The election in the new 10th ward of Wilmington resulted in a Democratic triumph. Of course; the ward was created for that purpose.

—The congregation of Asbury M. E. Church, Wilmington, has resolved to tear down that edifice and erect a new one.

—Judge Hall has so far recovered as to be able to walk out.

—The *Commercial* repudiates the idea advanced by a New York daily that there is not a "single establishment in America capable of constructing the iron hulls of ocean steamers." There are two such establishments in Wilmington.

—St. George's hundred has been divided into two election districts.

—The Middletown Bank is having a new safe built at a cost of $2,000.

—The Bakers' Union, of Wilmington, has purchased a site on the corner of 4th and Walnut where they purpose erecting a flour commission house.

THE PATRIDGE-EATING WAGER.—The $500 bet of a Washington man named Henderson, that he will eat a partridge a day for thirty days, is not understood unless the terms are known. The *Star* says that he eats whatever else he likes, the only stipulation being that he shall consume one partridge per day between the hours of nine and ten A. M. The hardship in the case is in the fact that though a single partridge is very good eating, it becomes a most repulsive article of food when repeated daily for any length of time. In France it is a somewhat common wager to bet against the performance of pigeon-eating of this kind; and some five or six years ago a narrative written by a Frenchman of his physical sufferings—the nausea, fever and prostration—endured in undertaking the experiment attracted considerable attention from the medical fraternity.

THE WAY "to minister to a mind diseased" is to take Peruvian Syrup, a protected solution of the protoxide of iron, which gives strength and vigor to the whole system, restores the digestive organs to pefect health, thereby restoring the mind to its natural vigor.

Scissorinktums.

—The New Jersey Legislature has ratified the XVth Amendment.

—Wm Quinn was acquitted of the charge of killing Wm. H. Moore in Baltimore last July, on Monday.

—A ball at Gov. Bowe's residence, which was to have come off last Thursday night, was postponed owing to a death in the family.

—Gov. Alcorn, who has been elected to succeed Senator Revels in the United States Senate from Mississippi, declares his intention of declining the office.

—The City Railway Company of Baltimore have been enjoined against salting their tracts after a snow storm in a penalty of $20 for each square so salted.

—Arizona advices are filled with reports of Indian outrages. Col. Woolsey is preparing to lead a party of one hundred men against the Indians of Pima county.

—Another accident occurred on Hudson River Railroad one night last week by which one car was totally demolished and a number of others injured. Several persons were severely hurt, but none killed.

—Hon. J. Wiggins, ex-mayor of Wilmington, Del., has been arrested in West Virginia by the Freedmen's Bureau for alleged frauds on colored bounty claimants, and taken to Wilmington for trial.

—The joint committee on finance of the West Virginia Legislature have made a report showing a deficit in the State treasury of over $92,000, in consequence of which several important appropriations will entirely fail, and all will have to be reduced.

—The Secretary of War is in receipt of a letter from the commanding officer of Fort Dodge, Kansas, stating that a general outbreak of hostilities on the part of the Cheyennes and Arrapahoes is expected early in the spring, and that the object points of attack will be the frontier settlements of Kansas.

—Hon. C. C. Bowen, member of the House of Representatives from South Carolina, has been acquitted of the charge of bigamy for which he has been on trial for some days last week before one of the Washington Courts. He had scarcely been released before he was rearrested on another charge of a similar character, a third marriage being alleged in the accusation.

—Dr. Schœpe, in whose behalf a petition for pardon, signed by several thousand citizens of Cumberland county, Pa., is shortly to be presented to Governor Geary, and whose case has caused considerable interest all over the United States, has lately resigned all his claims upon the estate of the late Miss Stinnecke, of Baltimore, (for whose murder he was convicted,) arising from a will which this lady had left in his favor, for benevolent and charitable purposes.

AN AMERICAN EXPLORER OF THE NILE.—The son of the Hon. Moses H. Grinnell, now in Africa, has been exploring the cataracts of the Nile in an iron boat of 150 tons, drawing three feet of water. His letter, dated on New Year's day, written at Komska, Nubia, describes the ascent of one of the cataracts, which was accomplished by a force of 200 men hauling upon four ropes. Seven letters written by this gentleman, and posted on the banks of the Nile, have reached their destination. They are carried a distance of 400 miles by relays of boys, each of whom goes ten miles, with the letters strapped about his waist in belts. Mr. Grinnell is accompanied by his wife.

THE EARTHQUAKE.—It has been thought that the recent earthquake did not visit Philadelphia, but either it or somebody very like it must have hit Oak Hall, if we may judge from the upheaving of mountains of fine clothing there, and the swallowing up of low prices, which has been noticed at Wanamaker & Brown's.

The Markets.

BALTIMORE, Feb. 21.—Wheat firm. White 160@200c, red 150@210c. Corn active, at 83@85c for white, and 76@79c for yellow. Rye 85c. Oats 58@59c.

PHILADELPHIA, Feb. 21. Wheat dull. White 180@185; amber, 162@164. Corn also dull. Yellow, 79@80c; Western mixed, 77@78c. Rye steady at 108@110c. Oats also steady at 60@63c.

NEW ADVERTISEMENTS.

CARD OF THANKS.

I return my sincere thanks to those who labored to save my office and contents during the fire on Saturday last. A large portion of my library and many valuable papers, chiefly those pertaining to Bankrupt cases pending before me, are missing. Any information relating to them will be thankfully received.

feb23-1t. GEORGE M. RUSSUM.

COPARTNERSHIP NOTICE.

WILMINGTON, February 1st, 1871.

H. D. Cranor is admitted to an interest in my business from this date.

W. M. KENNARD.

The name and style of the firm will be

W. M. KENNARD & CO.

Thankful for past favors, we respectfully solicit a share of patronage from our friends and the public.

feb23-2w W. M. KENNARD & CO.

CLEAR AND HARMLESS AS WATER!

NATTAN'S

Crystal Discovery.

The following letters speak for themselves:

Washington, Nov. 4, 1870.

Mr. Arthur Nattans: Dear Sir—After a very thorough and impartial trial of your Crystal Discovery for a month, I feel compelled to acknowledge its very great superiority over any other article now in use for the purpose designed— the speedy restoration of the color and growth of the hair, and no one using it according to directions can fail, I am convinced, to attain this much desired result to perfection. The simplicity of the preparation and its entire cleanliness affords a new opportunity to the vast numbers utterly disgusted with the poisonous nostrums in use.—Having a large number of my personal acquaintances who use your preparation with equal success, I cordially recommend Crystal Discovery to all persons desiring to use anything of this kind. Very respectfully,

P. DOYLE, 701 I street, N. W.

Washington, D. C., July 25, 1870.

Mr. Arthur Nattans: Dear Sir—It affords me pleasure to say that I have used your Crystal Discovery with perfect success. Having tried many others, I find yours superior to any I have heretofore used, and I cannot too highly recommend it as a rapid promoter of the growth of the hair, and by a few applications restoring it to its original color. It is perfectly clean and free from any objectionable matter.

Very respectfully yours, R. W. SILVOY,

K st., bet. 4th and 5th. N. W.

Alexandria, Va., Sept. 10, 1870.

Mr. Arthur Nattans: Sir—I have great pleasure in testifying to the excellence of your Crystal Discovery for the Hair. My back hair is remarkably long and thick, and became prematurely gray, (this being hereditary.)—eight days it resumed its natural color, chestnut-brown, coloring every hair. I like your preparation for its purity, pleasant odor, and freedom from all mineral and poisonous substances, as well as its other excellences. I will recommend it to my acquaintances.—

Very respectfully, MISS L****

Even the most incredulous must be convinced, by such proffs as the above, from persons well known in Washington. The originals are open to any one wishing to see them.

ARTHUR NATTANS,

Inventor and Proprietor,

Washington, D. C.

To whom address all orders.

For sale by Chas Stevens, Denton Md.

NEW ADVERTISEMENTS.

BEAUTY!

A HOME!!

AND FORTUNE!!!

PREMIUM SALE

OF THREE HANDSOME

NEW STEEL ENGRAVINGS!

A GIFT WORTH FROM

$1.00 TO $25,000

Given with Each Engraving!

We have obtained the entire control of the following engravings, which we offer at the low figures of

$2.00 EACH!

Although they are really worth $5.00 each.—They are 19x24 inches, and each is a gem of art.

LURLEY:

A legend of the Rhine. A female of rare beauty sits on the shore of the river, where the rocks are the most dangerous, and with her song and music charms the unwary sailors to near her, when they meet a watery grave.—The subject is full of life, full of emotion, and is altogether a success.

THE DISINHERITED!

A young man, through the wiley influence of some one of the household, is deprived of a share in his father's house. Having but sorrow as his lot, he departs, and from a neighboring hill he takes his last look and farewell to the scenes of his younger and better days. The heart fills with deep sorrow in examining this subject so well drawn.

THE CHILD CHRIST!

A child with human body and dress, angelic face and divine eyes, is represented so well that words cannot tell half its worth.—We do not think that any engraving has yet reached the excellence of this, in touching the heart and lifting it away to a higher world. The eye never tires to look. The more it is seen, the greater the desire to look again and again.

Also a correct lithograph likeness of

Gen. STONEWALL JACKSON,

The best, largest and handsomest ever published, 19x24 inches, worth $5.00, which we will sell on the same terms, for $2.00. It is truly a gem of art.

A FORTUNE FOR YOU!

With each engraving, till we have sold 50,000 copies, we will give FREE one share or ticket, entitling each shareholder to one of the following gifts. Read on and remember that every ticket holder will positively get one of the following, which will be distributed by a drawing

AT DENTON, Md.

The LaPierre Hotel,

DENTON, MARYLAND,

Containing twenty-six rooms, and furnished throughout, with all modern conveniences, plenty of outbuildings, stabling for thirty horses, including all outfit, stock, &c., worth cash $25,000.

WANAMAKER AND BROWN'S OAK HALL.

PHILADELPHIA.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative *Pill*. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends; and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel nor any deleterious drug, they may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings** they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression** a large dose should be taken as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Dr. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.,

Sold by Chas. Stevens, Denton; Hugh Duffey, Hillsborough; J. E. Lobstein, Greensborough, and all druggists and dealers in medicine everywhere. [no3-1y
