LOCAL NEWS.

☞The Orphans' Court for Caroline Co. will meet on Tuesday, March 7th.

The Editor's Hash.

—Spring opened windy.

—Winter closed beautifully.

—Herrings are being caught in larger quantities.

—Our farmer's are beginning their spring work.

—The spring term of our court is but five weeks off.

—The oven for a second bakery in Denton is about finished.

—Wm. S. Bradley has opened a new drug store at Preston.

—The tree-tops in peach orchards are beginning to grow red.

—Those who moved out on account of the fire have moved in again.

—The Wilmington Conference meets at Dover, Del., next Wednesday.

—Rev. Mr. Harding took final leave of his congregation on Sunday night.

—The post-office at Ennall's Springs, in Dorchester, has been re-established.

—Samples of the Fish Manure advertised in this paper can be seen at this office.

—Our fisheries are looked to for temporary relief from the stringency of the money market.

—The last meeting of the Farmer's Club was well attended. It continues to grow in popular favor.

—R. W. T.'s letter will have to lay over. It came too late. Eaglet's article fails to appear for a similar reason.

—We are compelled to omit several advertisements this week. The omission will be made up in future numbers.

—Denton is an incorporated town but has no Commissioners. Every man is his own sovereign, and very poor ones some of them make.

—The pupils of the colored school in this town will give an exhibition at the school-house on Thursday evening next. Admission, five cents.

—The money order business at the Denton post-office was heavier last week than at any time since the money order department was added.

—An entertainment, consisting of vocal and instrumental music, tableaux, &c., will be given at Harrington this, to-morrow and Saturday evenings.

—The *Journal* office is itself again, and we congratulate our friend, the Dr., upon the improved arrangements he has introduced into the office.

—Persons in this county having business with the Internal Revenue Assessor must transact the same with Capt. Jno. E. Graham, Church Creek, Dorchester county.

—John T. Hand, Esq., editor of the Centreville (Md.) *Citizen*, was in town on Monday and called to see us. He represents business as extremely dull in his county.

—Playing marbles and dragging trails seems to be the principal Sunday amusements for the boys of this town. Parents are entirely too lax in their family discipline.

—Denton is the only County-town anywhere on this Peninsula but what has either a railroad completed or in contemplation. Our people will have to bestir themselves.

—Rev. Robt. W. Todd asks us if we don't think the people of Denton owe him a gold pen for ten years' preaching. Undoubtedly they do. The M. E. congregation ought to present him with a handsome gold pen.

—A bridge on the Delaware Railroad between Dover and Smyrna was burned on Monday night last, and trains were delayed both ways. Up to 12.15, P. M., on Tuesday, the morning train due at Clayton at 8.25, A. M., had not arrived.

—Mr. Robt. A. Nichols requests us to return his sincere thanks to those who so kindly assisted in rescuing his furniture from his burning dwelling, and to those whose anxious solicitude for his welfare has prompted many acts of charity and kindness.

—About as small a piece of business as we have lately heard of was the effort on the part of a certain citizen of this town to interfere and prevent the payment of the full insurance money on the building destroyed by fire on Saturday week. What will not the selfishness and cupidity of some men tempt them to do?

—The Grand Lodge of Good Templars of this State having refused to pledge the support of the order to the *Maryland Good Templar*, published at Preston, Mr. Jas. F. Rowins, the proprietor, has suspended its publication, and started a new local paper in that town called *The Surprise*. It is a sprightly little journal, but we fear will not receive that support which the energy of its publisher merits.

—We fear that ere our paper reaches its readers the spirit will have departed from the body of Mr. Nehemiah Fountain, our oldest citizen, and the only connecting link between the past and present century. He lies extremely, dangerously ill this (Wednesday) morning, with but little hope of recovery. His life has been one of christian experience, and he has long since declared his readiness to depart.

HOMES FOR THE MINISTERS.—The *Delawarean*, published at Dover, where the next annual meeting of the Wilmington Conference takes place, publishes a list of the homes for the members and visitors of the Conference. We give those in which our people are interested: Rev F. M. Collins, with Clayton Wetherby; Rev. J. W. Hammersley, with Jno. D. Burton; Rev. E. G. Irvin, with Henry Sutton; Rev. J. E. Kidney, with Hughett L. Knight; Rev. W. R. McFarlane, with Joseph Tucker; Rev. C. F. Sheppard, with Chas. M. Wharton. R. C. Carter, a lay-member of the Educational Committee is assigned with Thomas Slaughter.

The Farmer's Club.

MEETING ON SATURDAY—ADDRESS BY WM. S. RIDGELY, ESQ.

The Farmers' Club met on Saturday last, at the Court House, and was well attended—better than at any other meeting. At the usual time the President, Alex. Sorden, Esq., called the Club to order, and the proceedings of the previous meeting were read and approved.

The committee to arrange programme for next meeting reported as follows: Discussion—"Is deep plowing of the lands of Caroline Co., in their present condition, consistent with good husbandry?" Disputants—affirmative, J. W. Bryant, Esq.; negative, Thos. F. Garey, Esq.

Next in order was the address of Wm. S. Ridgely, Esq., on "The most economical, as well as the most judicious, way of bringing up worn-out soils." After a brief delay, that gentleman appeared, and proceeded with the duty assigned him. He first enforced the duty of observing carefully and remembering the result of observation by narrating the Spanish tale of Pedro Garcias and the two travellers, and endeavored to impress his hearers with the importance of interrogating nature. The truth is not always gained, he said, the first time, nor the second; but we must keep on asking and experimenting until a satisfactory result has been attained. But we must not content ourselves with merely experimenting. We must inform ourselves with reference to what has been done by others.—The world is a big farm, and has been worked for a long time. Some parts of it have been managed so as to exhibit marked improvement, while others have been desperately mismanaged, and, to-day, require immediate reform to rescue them from hopeless sterility.

Agricultural chemistry, the speaker said, instructs us that there are two sources of plant life—the soil and air. From the former of these, by means of the root, and from the latter, by means of the leaf, all sustenance is obtained, and is conveyed in a fluid state to the leaves, where it is prepared for assimilation, and is redistributed by the channels of the inner bark, and forms the annual growth. Herein must lie the infinite diversity of condition observable in the same field, or garden. The same air has floated over both those stalks of corn, yet one is tall, green and vigorous, while the other is small and produces but a nubbin. And why this difference? It is, because of the relative quantities of organic and inorganic matter contained in each. This quantity is ascertained by burning the plant, when the organic part passes off into atmosphere, while the inorganic part is left behind in the ashes. The speaker illustrated this point by reference to the wheat crop. A crop of 25 bus. per acre would give an average weight of say 1500 lbs. of grain and 3000 lbs. of straw. The ash of the crop of grain would average only about 18 lbs., and that of the straw only 106 lbs., or, 124 lbs. in all; or, to state the case differently, about 36 of every 37 lbs. of the entire crop came from the air, or one in every thirty-seven from the soil. The total amount withdrawn from the soil by the heaviest crops rarely exceeds the one-four thousandth part of its entire weight, but unless that part be there the crop is a failure. Hence the importance of fertilizers, or guano.

The speaker next passed to the consideration of the history of agriculture, and briefly traced it from the old Egyptian days of irrigation to the present time. So late as the 13th century, in England, the poor peasant starved upon his barley-cake, and richer farmers killed their cattle about Christmas time to keep them from starving, so rude were the ideas of agriculture. Yet, to-day, over those same English fields we see nothing but the highest degree of fertility. This result is attributable to thorough drainage, frequent and thorough plowing, thorough cultivation, the direct application of manures, composts and dung-heaps, and, since 1840, of Peruvian guano and superphosphates—especially green manuring—fallow, and a skillful rotation of crops.—Two conditions are requisite to the perfect development of our soil. The former is produced by mechanical agency; the latter refers to its chemical condition. The mechanical agency referred to is thorough drainage, so as to remove the surface water and admit the air. The soil, by this means, becomes more friable and warmer, and crops can be planted earlier in the spring, and will stand the droughts of summer better.

Deep plowing must not be neglected.—The Commissioner of Agriculture for 1867 says in his report that ½ greater production will be given for every additional inch of deeper cultivation. The speaker thought this could be received with several degrees of allowance. The Commissioner further states that the average wheat crop of the United States is 12 bus., while in England it is 28 bus., and attributes this difference to the difference in the depth of plowing.

Green manuring the speaker regarded as one of the most valuable adjuncts in improving our lands, and cited his own experience with the field pea, and oats which he turned under just as they were ripening. He considered the result as a permanent improvement. Lime heavily when you get a good growth of grass upon the land. Lime and clover, after all, are the things for our lands. Plaster is a cheap manure, sowed broadcast. Muck, of the proper kind, is highly recommended, though the speaker's experience had been unsatisfactory. Composts and barn-yard manure should be increased by every available means. "Good manuring," it has been said, "is good farming."

Finally, gentlemen, you will perceive that I would not urge upon you any one mode of improvement. What is one man's meat is another's poison. And he who would treat all soils alike is like the quack doctor who would cure all the ills that flesh is heir to by using one medicine—that is good for coughs and good for corns—good for aches, both of the tooth and stomach—good for the head and good for the joints—good for the lungs and good for the liver; tastes good, and is—*good for nothing!*

[For lack of space we shall have to defer until next week the publication of the experience of the English farmer, Lawes, with the wheat beds.]

INTERNAL REVENUE CONSOLIDATION.—The nine divisions of the First Internal Revenue district of Maryland, embracing the Eastern Shore, have been consolidated into four, as follows: Somerset, Worcester and Wicomico comprises the first; Caroline, Dorchester and Talbot, the second; Kent and Queen Anne's, the third, and Cecil, the fourth. The first is filled by Dr. Levin Collyer; the second by Capt. Jno. E. Graham; the third by Jno. T. Hand, and the fourth by L. E. A. Geary.

PENINSULA FRUIT GROWERS' ASSOCIATION.—The Association met in the Hall of the House of Representatives, at Dover, on Tuesday afternoon, at 2 o'clock, Mr. John P. Cochran, President of the Association, in the chair.

Mr. Brown, from the committee to wait upon the railroad presidents of the different roads leading to New York, reported that the committee yesterday waited upon those gentlemen and had a very agreeable meeting. The committee laid before them the discrepancies which appeared to exist between the Peach Growers and the Railroad Companies in reference to the sliding scale adapted to the carrying of peaches during last season. Mr. Brown says he represented to the companies that if a certain number of baskets were carried over the road the growers would be entitled to a drawback of $51 per car load; whereas in estimating the freight by 16,000 pounds per car load the growers were only entitled to $5. The terms for carrying the crop for 1871 would be $100 per car load from Dover; $90 from Middletown, and $125 from Kingston, without any reference to a sliding scale. He stated that no better terms could be obtained, although a full crop was estimated at 4,000,000 baskets.

It was impossible to make any arrangements to carry peaches by the Breakwater route. Mr. Brown also stated that the P. W. & B. R. R. Co. kept an account of all the expenses of litigations and taxes, and in order to make it up, increased the price of freight.

INSURANCE AWARDS.—Commissioners from the Fire Insurance Companies which sustained losses by the late fire visited town last week, and made the following awards: To R. A. Nichols, the full amount of his insurance, $1,800; Dr. Chas. E. Tarr, $500; Nehemiah Fountain, $75; Wm. W. Lowe, $25—making in all $2,400.—Upon Mrs. Newman's property there was no insurance, and she, consequently, loses all. The companies sustaining the losses are the Cecil Company, of Cecil county, Md., and the Farmers' Mutual, of Wilmington, Del.—the former losing $2,375, while the latter is injured only to the extent of $25.

Marriages.

GRIFFITH—WILSON.—At St. Joseph's Church, in Talbot county, on the 21st ult., by Rev. Father Meurer, Wm. F. Griffith, of Delaware, and Miss Marianna Wilson, daughter of Wm. H. Wilson, Esq., formerly of this town.

Deaths.

HORSEY.—On Tuesday afternoon last, Mrs. Ellen M., consort of Saml. H Horsey, Esq., aged about 47 years.

"A FRIEND OF THE ROAD."
"See how *these* christians (!!) love."

The following letter, in a well known hand, suggests the way in which *brothers* work into each others hands, and exemplifies a love "which worketh no ill to his neighbor." The letter was sent to T. Anderson, Treasurer of Dor. & Del. R. R. It is given *verbatum*:

FEDRALSB Feb 11. 1871

MR T ANDERSON. Sir the time is out for which Sames H. Moore superceeded the debt which the R Road company holds against him the magistrate is waiting orders from you to callect the money D. O. P. Elliott is the officer that has it in hand let him hear from you soon what to do in the matter

(Signed) A FRIEND OF THE ROAD."

This letter was returned to this place, and can be seen. Ask John Francis Elliott, who is "a friend of the Road?"

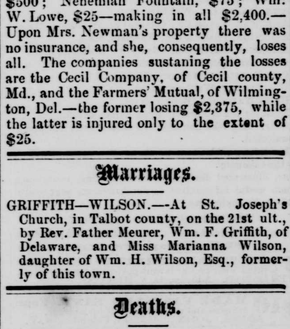

JAS. H. MOORE.

HENRY T. HELMBOLD'S
COMPOUND FLUID
Extract Catawba
GRAPE PILLS.
Component Parts—Fluid Extract Rhubarb and Fluid Extract Catawba Grape Juice.

For Liver Complaints, Jaundice, Bilious Affections, Sick or Nervous Headache, Costiveness, etc. Purely Vegetable, containing no Mercury, Minerals or Deleterious Drugs.

H

These Pills are the most delightfully pleasant purgative, superseding castor oil, salts, magnesia, etc. There is nothing more acceptable to the stomach. They give tone, and cause neither nausea nor griping pains. They are composed of the finest ingredients. After a few days' use of them, such an invigoration of the entire system takes place as to appear miraculous to the weak and enervated, whether arising from imprudence or disease. H. T. Helmbold's Compound Fluid Extract Catawba Grape Pills are not sugar-coated, from the fact that sugar-coated pills do not dissolve, but pass through the stomach without dissolving, consequently do not produce the desired effect. The Catawba Grape Pills, being pleasant in taste and odor, do not necessitate their being sugar-coated. 50 cts. per box.

E

HENRY T. HELMBOLD'S
HIGHLY CONCENTRATED COMPOUND
Fluid Extract Sarsaparilla

Will radically exterminate from the system scrofula, syphilis, fever sores, ulcers, sore eyes, sore legs, sore mouth, sore head, bronchitis, skin diseases, salt rheum, cankers, runnings from the ear, white swellings, tumors, cancerous affections, nodes, rickets, glandular swellings, night sweats, rash, tetter, humors of all kinds, chronic rheumatism, dyspepsia, and all diseases that have been established in the system for years.

L

Being prepared expressly for the above complaints, its blood-purifying properties are greater than any other preparation of Sarsaparilla. It gives the complexion a clear and healthy color and restoros the patient to a state of health and purity. For purifying the blood, removing all chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of pains and swelling of the bones, ulcerations of the throat and legs, blotches, pimples on the face, erysipelas and all scaly eruptions of the skin and beautifying the complexion. $1.50 per bottle

M

HENRY T. HELMBOLD'S
CONCENTRATED
Fluid Extract Buchu,
THE GREAT DIURETIC,

has cured every case of diabetes in which it has been given, irritation of the neck of the bladder and inflammation of the kidneys, ulceration of the kidneys and bladder, retention of urine, diseases of the prostrate gland, stone in the bladder, calculus, gravel, brick-dust deposit, and mucous or milky discharges, and and for enfeebled and delicate constitutions of both sexes, attended with the following symptoms: indisposition to exertion, loss of power, loss of memory, difficulty of breathing, weak nerves, trembling, horror of disease, wakefulness, dimness of vision, pain in the back, hot hands, flushing of the body, dryness of the skin, eruption on the face, universal lassitude of the muscular system, etc.

Used by persons from the ages of 18 to 25, and from 35 to 55 or in the decline or change of life; after confinement or labor pains; bed-wetting in children.

B

Helmbold's Extract Buchu is diuretic and blood-purifying, and cures all diseases arising from habits of dissipation, and excesses and imprudences in life, impurities of the blood, &c., superseding Copaiba in affections for which it is used, and syphilitic affections—in these diseases used in connection with Helmbold's Rose Wash.

LADIES.—In many affections peculiar to ladies the Extract Buchu is unequalled by any other remedy—as in chlorosis or retention, irregularity, painfulness or suppression of customary evacuations, ulcerated or schirrus state of the uterus, leucorrhœa or whites, sterility, and for all complaints incident to the sex, whether arising from indiscretion or habits of dissipation. It is prescribed extensively by the most eminent physicians and midwifes for enfeebled and delicate constitutions, of both sexes and all ages (attended with any of the above diseases or symptoms.

O

H. T. HELMBOLD'S EXTRACT BUCHU
CURES DISEASES ARISING FROM IMPRUDENCES, HABITS OF DISSIPATION, ETC.,

in all their stages, at little expense, little or no change of diet, no inconvenience and no exposure. It causes a frequent desire and gives strength to urinate, thereby removing obstructions, preventing and curing strictures of the urethra, allaying pain and inflammation, so frequent in this class of diseases, and expelling all poisonous matter.

Thousands who have been the victims of incompetent persons, and who have paid heavy fees to be cured in a short time, have found they have been deceived, and that the Poison has, by the use of powerful astringents, been dried up in the system, to break out in a more aggravated form, and perhaps after marriage

Use Helmbold's Extract Buchu for all Affections and Diseases of the Urinary Organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. $1.50 per bottle.

L

HENRY T. HELMBOLD'S IMPROVED ROSE WASH

cannot be surpassed as a Face Wash, and will be found the only specific remedy in every species of cutaneous affection. It speedily eradicates pimples, spots, scorbutic dryness, indurations of the cutaneous membrane, &c., dispels redness and incipient imflammation, hives, rash, moth patches, dryness of scalp or skin, frost bites, and all purposes for which salves or ointments are used; restores the skin to a state of purity and softness, and insures continued healthy action to the tissue of its vessels, on which depends the agreeable clearness and vivacity of complexion so much sought and admired. But however valuable as a remedy for existing defects of the skin H. T. Helmbold's Rose Wash has long sustained its principle claim to unbounded patronage by possessing qualities which render it a toilet appendage of the most superlative and congenial character, combining in an elegant formula those prominent requisites, safety and efficacy—the invariat le accompaniments of its use—as a preservative and refresher of the complexion. Price, $1 per bottle.

D

Full and explicit directions accompany the medicines.

Henry T. Helmbold's Genuine Preparations.

Delivered to any address.
Secure from observation.

Only depots: H. T. Helmbold's Drug and Chemical Warehouse, No. 594 Broadway, N. Y., or to H. T. Helmbold's Medical Depot, 104 South Tenth st., Philadelphia, Pa.
