DENTON, MARYLAND:

Thursday Morning, Sept. 14th, 1871.

The Elections.

An election for city officers was held in Wilmington, Del., last week. The result is a decided Republican victory. Mr. Maries, Republican, for President of Council has 450 majority. Mr. Kilgore, Republican, for Treasurer, has over 600 majority. The Republicans have a majority of three in the city council—completely reversing the democratic majority in council last year. This is a Republican gain of over 600 since last election, at which time the democrats carried the city, having a majority of about 200.

On the 5th inst., an election was held in California for Congressmen, State officers, members of the Legislature, &c. The result is another complete Republican triumph. Hon. Newton Booth, Republican, is elected Governor by a majority of 7000. Gov. Haight, Democrat, was elected last year by about the same majority. Now the tables are completely turned. The Republicans elect the three Congressmen.—Last year the Congressional delegation [illegible] Democrats to one republican.—[illegible] Republicans are [illegible] also a majority in [illegible] Majority [illegible] 9th.—[illegible] which insures the election [illegible] ecan to the United States Sen- [illegible] place of Cole, democrat.

Wyoming Territory voted on the 5th al- [illegible] mbers of the Territorial Legisla- [illegible] hor Republican victory is [illegible] Legislature was [illegible] atic. Now, the Re- [illegible] ne ascendant.

[illegible] ger annual election on Mon- [illegible] overnor and State officers, and [illegible] ck to the golden State the echoes [illegible] publican triumph. The Republicans of this State have made a clean sweep, electing every officer on the State ticket by increased majorities.

Thus the tide of Republican ideas and of successful triumph is marching across the continent. The future looks hopeful and the prospects for 1872 loom up gloriously [illegible] grand Republican achievements. Let [illegible] ne, for a moment, be persuaded into [illegible] that the Republican party is dead [illegible].

[illegible] Maryland Militia.

This thing of playing soldier in Maryland is rather an expensive affair to the people, and has drawn from the treasury of the State, hundreds of thousands of dollars.—No one has been benefited by it, save the contractors who have furnished arms, clothing &c., to arm and equip the militia, and the officers appointed under the law, who draw their pay at stated periods, and render no valuable consideration therefor.—Had the same amount of money been expended for educational purposes in the several counties and in the city of Baltimore, the taxes of the people would have been considerably reduced, and a lasting benefit conferred upon the rising generation. As it is, a large amount of money has been uselessly expended. It has been squandered and no practical results have been accomplished.

After expending, perhaps, a million or more of dollars to organize and equip the militia of the State, for which there never has been the slightest cause or pretext, we find nothing has been done, to effect an organization. We are as far off to-day of having an efficient State militia as in 1865, when the question was first brought to notice.

The whole force of the State is guessed to be about 71,000. Admitting these figures to be correct, what do the people of Maryland want with a standing army of 71,000 men in time of peace? They have never yet been of any service to the State and we cannot see the necessity of continuing in existence an organization which is of no benefit to the people, and which continues to be a drain upon the treasury.—The law when first presented, was considered by all reflecting men, whose judgements were not warped by political prejudice, as entirely superfluous, and one if carried out, would add nothing of practical value to our citizens. At the time of its passage it was believed by many persons, an effort on the part of the democrats to prevent the colored men from exercising the elective franchise. If this was really the object of the law, it has utterly failed of its purpose. That colored men do vote, is a fixed fact, and that by the consent, too, of many of the democrats themselves. Then, if the law has failed in its objects and purposes, why not repeal it at once, and thus far, at least, relieve the State treasury of this unnecessary burden. It is a democratic measure, introduced and carried through a democratic legislature; all the officers under the law are democratic—in short, the whole militia of the State, officers and recruits are democratic, and as the democrats are now in the ascendency in the State, and are likely to be a year longer, we call upon them to undo this, the worst of all their acts of legislation since they have been in power. If they will not do it, we pledge them that the Republican party when they come into power, which cannot be many years longer, will do it for them, and that speedily.

Disgusted with Mayor Hall.

The New York Italians are so disagreeably impressed by the refusal of Mayor Hall to review their recent procession, and also by the ill conceived hostility of the Celtic element of the Democratic party, that their principal club, which has hitherto been democratic, now eschews politics. It is estimated that there are five [illegible] housand Italian voters in New York, and [illegible] ite a number of sympathizing Poles. [illegible] t of both these classes have always, [illegible] to, voted the Democratic ticket.

[illegible] English are too thick to thrive; [illegible] ons to a house says their last cen-

A Serious Family Affliction.

The great Democratic family residing in Eastern Maryland, seem to be laboring under some malarious or fatal disease, which if not speedily arrested, will prove fatal in its effects, before the Ides of November next. We believe the disease is of a complex character, and if physicians are not called in very soon, will have seized upon the vitals of the patient and all hope of recovery be lost.

Quite a number of political doctors have been tampering with those thus afflicted, but the patients from some cause, refused their political nostrums and pronounced them humbugs. We now have Doctors Cruikshank, of Cecil, Busteed, of Queen Anne's, Robson and Johnson, of Talbot, and one or two others in the lower counties, who have taken the patients in hand, and after a careful diagnosis of their several cases, will be ready to report, the morning after the election. The Talbot doctors cannot agree as to the best remedies which ought to be prescribed, nor as to the disease or its symptoms. In the meantime the patients are suffering severely. Last week a consultation was had and one Doct. Lloyd, though not a regular practitioner, nor yet a regular graduate from the politico-medical school, presented a prescription which has had the effect to allay the fever for the present and the patients are resting quietly. It appears that these doctors, though skilled in their profession, cannot agree as to the nature of the disease, or the remedies to be applied. One of them was under the impression that blistering was the only thing that could save the patient. Dr. Robson, of Talbot, made a skillful application of this remedy week after week and yet his patients got no better.

But strange to say this blistering process had a powerful effect upon Dr. Johnson and so strangely affected him that he was compelled to put aside his Crawford county nostrums which had become very nauseous to the patients. To add to these complications Dr. Robson charge that Dr. Johnson was a vile imposter, that he had no diploma, and that he was not competent to administer democratic physic or to properly compound them. Here was a difficulty to be overcome. Dr. Johnson's pride had been wounded—his sense of honor insulted. Paper bullets were resorted to. Matters became desperate. Something must be done, and done quickly. The chiefs were called in council and after hours of grave deliberation, Dr. Lloyd administered a narcotic and quiet for the present reigns in Warsaw. How long matters will remain in this condition, remains to be seen, but it will surprise no one if the disease should break out in a more virulent form and prove fatal in its results.

In Cecil and Queen Annes, Doctors Cruikshanks and Busteed, have exhibited more patience and skill in the treatment of the disease and have become so far acquainted with it as to find an appropriate name for it. They denominate it the "*Ring*-worm." That they have "hit the nail on the head," there cannot be a doubt, for the democratic party in New York City are terribly smitten with it and "nigh unto death."—This disease, affects in a terrible degree, the finances of the counties where it prevails. It is damaging the pockets of the people and eating out their very substance. All tax-payers are personally affected by it. In New York City, the extent of the evil counts up into millions of dollars. In the democratic ranks, just now, a mania seems to exist for rings and combinations to swindle the public. It is spreading at a fearful rate into all the States. Minor political clubs and rings, following in the lead of the great Tammany organization in New York, are forming all over the land. The people, we fear, are governed in most instances, by such combinations. It is time that the eyes of the people were opened to such schemes of politicians and a check put to such proceedings. We have rings and political combinations all over this Shore and throughout the State. The democratic party being in power in this State, are more deeply engaged in these things—hence, the schism in their ranks. We have no compassion for the democratic family in the midst of their afflictions, but hope it will work out good for the tax-payers and the people.

The Peninsular Press.

The Chestertown *Transcript* has a leader this week upon the subject, "Hard to Please," in which the editor labors to prove that the "radical party," as he is pleased to term the Republicans, is hard to please.—If the Democrats won't depart the republican party is displeased; if they do depart it is the same, although they profess to see no difference between the "departurists" and themselves. The editor can see nothing in the history of the past to warrant a conclusion that the time will ever come when the black man will be deprived of his vote.

The Cambridge *Chronicle* has a leading editorial in reference to our salutatory and to the terms used in that article in expressing our thoughts concerning Gen. Grant. The editor misconstrues our meaning.—We have never yet, nor never will, while reason sways its scepter over the mind, deify any man or acknowledge him either as potentate, emporer or king. When we used the word realm, we intended to convey the idea that this land of ours is a Republic—not a Republic of territory merely—but a Republic of the vastest proportions—a Republic of mind and thought; of the largest freedom—carried into licenciousness too often, where truth combats error, and each struggling for the mastery, right and truth, guided by an enlightened judgment, must and will solve all our national problems and adjust all our national difficulties. If this country, when we contemplate its greatness; its resources and gigantic minds that govern and shape its destinies, may not be regarded as a Republic—or a realm; where illustrious deeds shine forth and in undimmed splendor illume the pages of American history—then, what land beneath the sun can claim such a title?

But the editor also objects to our using the term *subjects* when we speak of American citizens. But it is here he does us injustice. He would feign make his readers believe that we denominate free American citizens as the *subjects* of Gen. Grant. We had no such idea in mind when we penned the article. We regard all men who owe allegiance to our government, as being bound by the Constitution and laws under which they live. They are under obligations to those laws and are bound to observe and respect them. They are the willing subjects of the government under which they live; for our government forces no man man to take upon himself the title of citizenship. The act of voluntary citizenship implies a willing compliance to all the duties and obligations which it imposes. Hence, we are the subjects of a government, the ascent and consent of all the obligations laid upon its *subjects*, is derived from the people. Gen. Grant, while President of the U. S., is but the Executive to see that all the laws are properly enforced and executed. We are subject to those laws and are therefore an American subject, not to Gen. Grant, but to the government under which we live. If we violate the law, we are subject to its penalties.—If we observe them, we have unrestrained freedom and exhibit the highest type of an American freeman. We hope the editor understands our meaning as to *subjects* of a *realm*—or if he prefers the phrase—a Republic.

State Convention.

The Republican State Convention to nominate candidates for Governor, Attorney General and Comptroller, met in Baltimore city yesterday. Before going to press we have no information as to the results of its deliberations, but presume the Hon. Jacob Tome, of Cecil, received the nomination for Governor.

Republican Nomination.

The Republican State Convention of New Jersey, met at Trenton on Thursday last, and nominated Cornelius Walsh as their candidate for Governor. The election takes place in November next.

Candid—Very.

The only county we know, about which there can be any doubt of Democratic success, is Somerset—and she could be saved, if two or three first class old fogy funerals were to occur there in the next two months. —*Salisbury Advertiser.*

That is right neighbor. Be candid.—Speak the truth. An "honest confession is good for the soul."

THE

NOVELTY CLOTHES WRINGER.

Nothing, except the Sewing Machine, has ever been invented which so much relieves the labor of the household as the Wringer.—But its usefulness does not end here. The saving of clothing is of much greater importance. It is often remarked that articles of fine texture, last twice as long when wrung in a Wringer as when wrung by hand. The NOVELTY has Cog-wheels on both ends. The rolls are allowed to separate freely at either end. These, besides other advantages which it contains, seem to be indispensable to a practical wringer.—*New York Independent.*

THE NOVELTY WRINGER.—Has become an indispensable institution in thousands of families. And we believe its great and increasing popularity is fully merited—for the Novelty evidently possesses all the requisites of a first-class, practical machine. Indeed, after using one for many months in our own family, we are prepared to indorse the Novelty as unsurpassed (the laundress says unequaled,) by any of the several wingers previously tried. —*Moore's Rural New-Yorker.*
