American Union.

J. H. EMERSON, EDITOR.

DENTON, MARYLAND:

THURSDAY MORNING, MAR. 11, 1880.

The "UNION" is the leading newspaper of the county. It is taken by all the leading Merchants, Professional and business men of the county. It circulates extensively among our farmers and it is the object of the publisher to make it an indispensable necessity in every household.

GOV. HOYT, of Pennsylvania, says the unit rule adopted by the Harrisburg Convention is entirely artificial. It can only bind the delegates at large; but those from the districts are no sense obliged to observe it, which many of them will not do.

JUDGE TAFT, who was Grant's Attorney General, is prominently named for Vice President on the third-term ticket, as, being an Ohio man, it is supposed that he could pick up some strength for the boom in that state, where it sadly needs reinforcements.

OF the twenty-one men who have occupied the presidential chair, but five had middle names, and Sherman is the only candidate now talked of who has not a middle name. Some people might construe this fact as a favorable omen of the Sherman boom.

SAN FRANCISCO is the only city in the United States in which there was not a decrease in the number of bankruptcies in 1879 as compared with former years. This tells of the effects of Kearneyism with a force that the volume of sand lot rhetoric cannot outweigh.

THE Greenbackers should gratify the country by letting it know something of the lives and public services of Stephen Dillaye and B. J. Chambers, whom they have nominated for President and Vice President. We don't want to elect men without being acquainted with them.

THE Baltimore *American* of Tuesday says: "The President's message to Congress yesterday leaves no doubt as to his position on the inter-oceanic canal question. Our commercial interests, our unity, peace and safety demand that when such a canal shall be built it shall be under our exclusive control. In this position there is little doubt the President will have the hearty support of Congress and the people.

THE Chicago *Tribune* publishes interviews with a great number of leading Wisconsin Democrats, and it appears that Mr. Tilden is no longer a favorite candidate with them.—Nine tenths of them are outspoken for Senator Bayard. Neither Hendricks nor Judge Davis can rally many supporters. "It now looks," says the *Tribune*, "as if Mr. Bayard may safely calculate on twenty votes from Wisconsin.

THE New York *Graphic* speculates thus:—"Mr. Tilden is rich. The Democratic party is poor. A presidential campaign costs money. Rich Democrats are not liberal. Mr. Tilden will spend money if he is a candidate. He will not spend a cent if he is not. And besides all this, there is a shrewd suspicion that if Mr. Tilden is not the Cincinnati nominee his friends in New York will "knife" the person that is. Mr. Tilden's position is a peculiar one. He may be beaten in the Democratic National Convention, but his opponents should not ignore his strength.

GENERAL GRANT has been revisiting his famous Mexican battle fields, and, it is to be presumed, has passed a pleasant time at these historic places. The Mexicans have treated him with the greatest courtesy, and express themselves delighted with the friendly interest which he has shown in the republic. They look up on him as the greatest of Americans, and the first of living generals. Such honors have been accorded him in nearly every country on the face of the globe, and with these, if he is wise, he will rest content. They are not his best friends who seek to rekindle his ambition with the offer of the presidential nomination.

SENATOR LOGAN'S speech on the Fitz John Porter case was notable for the appeal he made to the ex-Confederate soldiers in the Senate.—He told them that "it is in very bad taste for you to ask us to restore to the army the men who failed us. You ought not to allow yourselves to be placed in such a position. You dealt with your disobedient officers; let us deal with ours. It is not because of any feeling or of any desire to call up the past that I say to you that you are the last men in the world to aid in the restoration to the army of the men whom we have kicked out. If they are to be restored, let them be restored by us. It does not come with good grace for the majority in the Senate to begin now to put back the men whom we kicked out for misconduct."

THE leading candidates for the Republican nomination for President at the present time are Grant, Blaine and Sherman. The instruction of delegates for Grant in the important States of Pennsylvania and New York gives him a decidedly good send-off, although it can not be denied that a large and enthusiastic minority of delegates in both of the conventions in the above mentioned States showed an emphatic preference for Blaine. While Grant is booming, if it be a boom, it should not be forgotten that in 1876 every reasonable supposition pointed to Blaine as the likely candidate, but the nominee was then Mr. Hayes and not Mr. Blaine, so that the boom for the latter prior to the convention did not avail him when that body met. It may be that the Grant boom now will fail of its purpose in the same way. However that may be: there is unquestionably a feefing hostile to the nomination of Grant, on the part of many whose Republicanism cannot be questioned, and the further fact is noticeable that they are ready to unite upon Blaine, if by so-doing, Grant can be defeated. The Sherman boom is hardly felt yet, although it may be that when Ohio is heard from, and the Southern States send their delegates, that he will come forth with no uncertain sound. His strength at present seems to be an uncertain quantity, but within the last four years we have had so many instances of accomplishments by Ohio men that it is difficult now to conjecture just what Sherman will be able to do.

The probabilities point to the nomination of either Grant, Blaine, or Sherman by the Republican convention, but politics are so uncertain that the wise are inclined to wait until the deciding vote is taken, and so, it may be, that we shall all wake up some fine morning and find that the nominee is neither of the above eminent gentlemen, but instead, Garfield or Washburne, or some other lesser light.—*Wilmington Daily News.*

—The local option bill which has been reported by the special committee on temperance at Annapolis, provides for submitting the liquor question to the voters of the people of fifteen counties, among which are Hartford and Cecil. A clause in the bill gives the right to recover at law exemplary damages for injury to individuals by the sale of intoxicating drinks.

OUR WASHINGTON LETTER

From our own Correspondent.

WASHINGTON, D. C., March, 27, 1880.

Another Democratic blunder! The other day Washington was startled by the announcement that the Public Printer had furloughed nearly all his help, and must stop work of all kinds except printing the Congressional debates. His appropriation was exhausted and he could not exceed that without violating the law.—What was the cause of so early an exhaustion of this fund? The extra session, and the starving out political game of the Democratic party. The Democratic majority had not the sense to pass a deficiency bill early in the session, as asked for by the Public Printer, and in that way to cover up their tracks in a measure.—The Bourbon leaders are very unhappy at this result of the affair, because it is calling attention to the uselessness of their extra session, as well as its extravagance.

Post Master General Key and his assistant Brady are not gaining an enviable reputation by their assumption of right to override the law prohibiting them from exceeding their appropriations in expenditures. Their testimony before the Post Office Committee shows that they have willfully disregarded the law, and they will not get all they asked for as a deficiency.

Well here it is the close of the first week in March, when Randall said Congress would be ready to go home, and yet no important business has been done. The new rules have just been adopted in the interest of Democratic partisans, and now I suppose the Democrats may consent to give a little attention to the important appropriation bills.

Mr. Wood brought up his bill for refunding the debt at 3½ per cent. yesterday, and made a speech in its favor. Mr. Gellette, Greenbacker of Iowa, presented a substitute, which provides that all the debt which becomes due within two years shall be paid and not refunded, and the way he would pay it would be by issuing a large amount of silver coin. The bill also provides for returning the bank notes and substituting government money. There many who say now that the new refunding bill can become a law at this session.

Senator Logan has been made a very able speech against the restoration of General Fitz John Porter, and it is said that many Democrats have revised their opinions on the question since he has shown it up. By the way, I see the name of General Logan quite generally used as probable candidates for Vice President in case Senator Blaine should be given the first choice, Illinois or Indiana will undoubtedly claim second place on the ticket. LEO.

Arguing for Prohibition.

A temperance meeting was held at Hoy Tabernacle, Baltimore city, on Sunday night last under the auspices of the Maryland State Temperance Alliance, Robert T. Smith presiding. The speakers were Robert D. Morrison and Col. Hoy. Mr. Morrison said the State of Maryland was sick, and that the Maryland State Temperance Alliance intended giving it a great big allopathic dose of prohibition. It is claimed that a big license will put out all the small grog shops, and that if the license is made sufficiently large it will clear out all, even the larger ones. Reference was made to a petition recently sent to Annapolis in favor of prohibition, which, Mr. Morrison said, would be of great weight, as it was signed by a large number of prominent business men. The question of prohibition was not, as claimed by many, a republican political move, and should be submitted to the people for their votes. The speaker said he was a democrat, though he might be called a "sore-head," as he did not always vote the straight out ticket. Of the six counties under local option rule five have democratic Senators and Delegates at Annapolis. Cecil county has a full delegation of democratic representatives. There is a fair prospect of the addition of eight new counties to prohibition. Mr. Morrison thought that if the state profits by the sale of liquor, she should pass a law to exempt a man from penalties for crimes he might commit while under the influence of drink. He told an anecdote of a man who, when fined for being drunk, told the magisirate that the State wanted to make profit at both ends, by licensing the seller and fining the man who drank the liquor.

Disastrous Storm in the West.

A terrific storm, accompanied by thunder and ligutning, did great damage in Cleveland, Ohio, on Friday morning last. Many chimneys, signs and trees were blown down, walls toppled over, and several small frame buildings were wrecked. The Cleveland Female Seminary, on Woodland avenue, was partly unroofed, and a portion of the uppermost wall was torn off. About 70 young ladies were sleeping in the institution, but none were injured. The roof of the new brick wire mill of the Cleveland Rolling Mill Company was uplifted, and one of the walls was thrown in on the workmen, killing Julius Brown and severely injuring several others.

During a heavy storm of wind and rain at Toledo, Ohio, early on the same morning, a chimney of the Buckeye Brewery was blown down, falling on and crushing the engine house; policemen John Hassell and M. F. Doyle and the night watchman had taken refuge. The former two were killed and the latter severely injured. The wind did considerable damage to roofs, freight sheds, &c., and prostrated telegraph lines in all directions.

A terrific tornado passed over Indianapolis on Thursday night. A large number of houses were unroofed, chimneys blown down, trees uprooted, &c. The Central avenue Methodist Church was almost entirely demolished. A dwelling house was lifted from its foundation and carried five or six feet. The inmates of the house escaped with but slight injury. Two or three persons were seriously injured, but, so far as known, no lives were lost.

A violent storm of wind and hail prevailed at Louisville, Ky., early on Friday morning.—So far as has been heard no damage has been done beyond the blowing down of a few fences and signs.

Don't Give Up.

What if you have tried different "put up" medicines in vain. Have you not been equally disappointed in some physicians? Do not consider your case incurable until you have made a thorough trial of Dr. Pierce's Family Medicines. They are chemically pure of uniform strength, and have come into general use by reason of superior merit. In cases of general and nervous debility, consumption, bronchitis, dyspepsia, "liver complaint," scrofulous bunches, ulcers, and eruptions, the Golden Medical Discovery is a speedy and positive cure: while thousands of women, who had for years been bed ridden, have, by the use of Dr. pierce's Favorite Prescription, been restored to perfect health. Thd introduction of these two remedies has revolutionized the treatment of chronic diseases. Patients are no longer depleted and salivated, as the tonic and alterative properties of the Discovery long since demonstrated a better way. Ladies need no longer submit to the use of the caustic and knife, as the Favorite Prescription is guaranteed to cure the diseases and weaknesses peculiar to women. Mrs. Samuel M. Kemper, of Gallandet. Ind., writes, "Your Favorite Prescription and Pleasant Purgative Pellets have saveb my life.',

STRIKES IN THE CLEARFIELD COAL REGIONS.—The question of wages between the coal operators and miners has resulted in a general strike of the colliers throughout Clearfield region. Both stubbornly maintain the position they have assumed, and the prospect for an early or amicable adjustment of the difficulty is anything but bright. The number of malcontent miners at Hontzdale is about 3,000, while those at Irwin and adjacent mining centres will number between 4,500 and 5,000. If the colliers employed by the Pearl Coal and Westmoreland Companies strike, the large army of strikers will be swelled to nearly 20,000 men. The dissatisfied men are holding secret meetings, and it is currently reported that the strike will become a general and widely extended one by Monday next. The knights of labor are working among the discontented workmen, and many have enrolled themselves under the standard of the organization. As the strike extends into the lawless districts, important and exciting developments may be anticipated from the seat of war. A bloody battle between some "Black leg," or non-union, miners and a gang of Mollie Maguires has already occurred near Osceola. Two miners were seriously wounded and one of the Mollies. Other outrages are reported as occurring in the secluded mountain districts.

INDIAN TERRITORY EXCITEMENT.—The Board of Trade hall, at Kansas City, Mo., was filled to overflowing on the 4th inst., to listen to speeches by Col. Boudenot, Hon. B. J. Franklin and others in favor of opening the Indian Territory to settlement. United States Marshal Allen, who had received instructions from Attorney General Devens to be present at the meeting and read the President's recent proclamation against the invasion of the territory, at the opening of the meeting was requested to stand up and execute the order. The assembly was made up and controlled by the best citizens of Kansas City, gathered together to give expression of their views in regard to the necessity of opening up to peaceful settlement the Indian Territory. It had no sympathy with forcible invasion settlement. The meeting adopted a lengthy memorial to Congress, with an accompanying resolution, embracing strong points in favor of opening the territory, and praying Congress to take such action consistent with the best interests of all concerned as will soonest bring about the desired end.

JOHN SMITH FOUND.—The mysterious disappearance of an old colored man named John Smith, which took place on the 5th of last January, has been previously noticed in these columns. He started for his home on the night mentioned, and was never seen alive again. On Thursday last Mr. Chas. Esender, an oysterman, discovered the body of the old fellow lung to the stakes of an old weir on the shore of Mr. Wm. Emory, in Spamard's Neck. It is said that the body was seen floating near Corsica wharf on Wednesday, but not knowing what it was no particular attention was paid to it. How he managed to get to Corsica wharf is somewhat puzzling, but the most probable theory is that he became confused in mind and walked by his home without knowing it, and kept on walking until falling into the water. Esquire Wright, being notified of the recovery of the body, sent Constable Jump who summoned a jury, with James B. Palmer as foreman, viewed the body at Corsica and rendered a verdict of accidental drowning.—*Centreville Observer.*

CURED OF DRINKING.—"A young friend of mine was cured of an insatiable thirt for Liquor, which so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst; took away the appetite for liquor; made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups; I know of a number of others that have been cured of drinking by it."—From a leading R. R. Official, Chicago, Ills.

A Rochester's Physicain's Experience.

R. Caulkins, M. D., of Rochester, N. Y., certifies Oct. 6th, 1879, that he has used the Safe Kidney and Liver Cure in his practice for diseases of the kidneys and liver, and the result has been satisfactory in the extreme. He says: "I would now prescribe the same remedy to all similarly afflicted, and you are at liberty to so state in your testimonials."
