American Union.

Thursday Morning, May 13 1880.

We Want the Public to Know

That the UNION has now a circulation larger than that of any other newspaper published in this county, and its list of subscribers is steadily increasing. If this statement is questioned we are prepared to prove it.

THE Orphans' Court of Caroline county will meet on Tuesday, 11th of May.

The Editor's Hash.

—Rain is very much needed at present.

—Potato bugs are booming in this section.

—The good templars hold a county Convention in Oxford on Saturday next.

—Everybody knows how to run a newspaper, but very few how to pay for one.

—The County Commissioners will make no abatements or transfers after May 25th.

—The Riverview House at Oxford has been purchased by Col. Clarence Peters, of Baltimore, for $10,500.

—Mr. H. C. Conard of ther *Morning News*, has been re-elected President of the Wilmington School Board.

—In our advertising columns will be found the local laws for this county, passnd at the recent session of the Legislature.

—To regulate the liver, stomach, and bowels use only "Seller's Liver Pills." Take no other. 25c. a box. All druggists sell them.

—The new Academy at Preston is now completed and ready for occupancy. It is said to be the finest school building in Caroline county.

—The "new drunken law" is being carried out in Centreville and Church Hill and no doubt its good effects will soon be seen in both those localities.

—Miss Allie D. Newnam has just received a new varied stock of Spring and Summer Millinery which she is selling at remarkably low prices. Advertisement in another column.

—A farmer of Snow Hill remarks that "The Legislature did nothing but pass the cussin' law and they wouldn't done that if they hadn't been afraid they'd get a cussin' when they home."

—A large number of our citizens were in Baltimore last week in attendance at the United States District Court as witnesses. Greensborough and Denton were particularly well respected.

—The Maryland Steamboat Company has purchased wharves at Medford and Kingston, on the Choptank river, which will be immediately rebuilt and aranged for the purpose of the company.

—In Somerset county a vote was taken last Tuesday on the repeal of the present prohibition liquor law. The law is kept in force by goodly majorities in every district where it operated before the vote.

—The season of the strawberry festival is approaching. The young man with a slight income and a healthy girl with a substantial appetite must shudder in anticipation, but the inevitable must be faced.

—Remove all cause of irritability and discomfort from the baby, by using Dr. Bull's Baby Syrup, the surest, best and hence cheapest remedy in the world for the diseases of babyhood. Price 25 cents.

—See change of schedule of Chester River Steamboat Company. The Geo. Law and B. S. Ford are now running daily to and from Baltimore, thus giving passengers a splendid opportunity of visiting the city.

—Mr. Wm. R. Emerson offers for sale in another column his steam saw mill and fixtures at Denton Bridge. This mill is in excellent order and has a good run of custom. Here is a fine opportunity for some live energetic man to secure a bargain.

—The new M. P. Church in the town of Felton, Del., will be dedicated on Sunday, the 28th of May, 1880, services commencing at 10 o'clock A. M., and will be conducted by Rev. J. E. T. Ewell, of Laurel. The public in general are respectfully invited.

—Few States are exhibiting as much interest in the Temperance question at present as Maryland, as the recent convention in the city of Baltimore of six hundred members of the State Temperance Alliance abundantly demonstrates. In nine counties in the State, local option will be voted for.

—Capt. C. C. Wheeler, of Hillsborough, has bought of Messrs. I. M. Parr & Son, the freight propellor Ruggles together with five granaries and wharves on the Choptand river. The Ruggles will go on the route about June 1st, and make trips between Baltimore and Hillsborough.

—In an editorial in the Baltimore *Sun* on "The Cost of Publishing Newspapers," the following pertinent and truthful sentence occurs: "Journalism is far more costly at the present time than ever before in its history, and the greater part of the expenses are such that they cannot be curtailed." This should sufficiently indicate to subscribers the need of publishers and the importance of keeping their subscriptions promptly paid.

—The stockholders of the Agricultural Society of the State of Delaware held their second annual meeting at Dover last Tuesday. The president submitted his second annual report and congratulated the officers upon the financial condition of the association. The report of the treasurer showed that the financial results of last year's work netted over three thousand dollars. The time for holding the anual fair has been fixed from September 27 to the 2d of October, inclusive.

—The "catch" of herring at the fisheries in this county has recently been larger than for many years past. On last Monday, Mr. J. F. Wilson made a haul at "Guilder's Hole," on the North East River, which was so large that he was unable to land the seine, and after fishing out enough ro load two pungies, was obliged to lower the cork line and let a large number escape. The number of herring in this remarkable haul was estimated at 400,000, besides 5,000 shad.—*Cecil Whig.*

—The election in Princess Anne, on Tuesday last, was a very exciting one, indeed, and the result was a surprise to both whiskey and temperance men. A barrel of whiskey was sent down from Baltimore and was freely given away, so we are informed, by one Charles Harris, colored. No doubt he was employed to act in this capacity by the leaders in the ranks of the license men, and for such conduct he was allowed the privilege of peeping through the grates. Several other arrests were made. When the polls were closed, the licensemen claimed the victory, and the temperance men conceded them a majority of forty. When the ballots were counted, however, it was found that the temperance men had carried the day by a majority of eighty-one. This was glad news. It not only made the temperance men of Princess Anne happy, but when the result was announced in Crisfield it caused considerable commotion. The news of the supposed defeat of the temperance party in Princess Anne had preceded the true result, and while the temperance men were regretting their defat, a telegram from that Gibraltar of whiskey, turned their sadness into rejoicing.—Good for Princess Anne!—*Crisfield Leader*

—Worcester county is said to have become unintentionally a local option county. The law passed by the last legislature is reported as providing that all applicants for licenses to sell liquor must first be recommended by the grand jury at the term of court next preceding the first day of May. As the time has passed, no licenses can be recommended before next spring. There is considerable anxiety among the tavern-keepers, and they have closed their bars until the true state of affairs can be ascertained.

—An exchange says that the coming summer hat for women will be made of straw. We suppose it will be made not only of straw, but also a little carelessness is necessary to render the "get up" perfect. It will have to be jammed in on the front, knocked in on the back, shoved in on each side, and kicked in on top. Then the rim will be reared up all around to make the whole effort harmonious. It will be trimmed with whatsoever presents itself first to the female trimmer. It will be an economical kind of a hat, as it can be made of a boy's old straw hat, and by running a wheelbarrow over it a few times, and hitching on various-hued articles of wonder and doubt.

Accident.

As Mr. and Mrs. Josiah White were driving into town on Tuesday afternoon last, when opposite Mr. Thomas Urry's, the coupling pole suddenly broke, letting the carriage fall to the ground and throwing Mr. and Mrs. White out. The horse, which was a very spirited one, ran off with the front wheels attached to it, and despite the efforts of parties along the road to stop it, it was not captured until it reached town, when turning the corner of the court house square the wheels colided with a tree, tearing them loose from the horse, when he was soon caught and found to be almost entirely uninjured. Mrs. White was somewhat bruised, while Mr. White was unhurt. The carriage was slightly damaged.

Mr. White seems to have a run of hard luck of late, as it was only last week that he had a pair of valuable mules so badly stung with bees that one of them died next day, and the recovering of the other is doubtful.

For the Union.

Public Schools.

Mr. Editor:—More than four years ago I became convinced that there was a serious leak somwhere in the finances provided by the state as well as those levied annually upon the people of this county by the Board of county commissioners, for educational purposes. The length of time the schools were open in each year, was entirely too short for the amount of money that passed through the hands of the Board of School Commissioners, to be consistent with economy and a faithful discharge of duty. In 1878 I asked the President of the Board of School Commissioners why it was that the schools were not open longer. He replied: "We can't run the schools without money, and the county commissioners will not levy us enough to continue them any longer than they are run." His reply was not satisfactory, and I began to make inquiries in regard to our public schools generally, of nearly every tax payer I met. They were individually and collectively, as much in the dark as myself. We came to one conclusion, however, and that was, the fault was *not* with the county commissioners.

I then consulted with several large tax payers, and other men interested in the cause of public education, as to what was best to be done in the premises. The evidence of wanton waste of the public money as shown by their published reports appeared overwhelming, and we concluded it would be best to make charges against the President of the Board and give him an opportunity to defend his course, as well as that of the Board through the public prints.

Without any ill will, or ill feeling of any kind against any member of the Board, I volunteered to write out the charges, and put them in shape for the press, simply as the representative of a large number of tax payers who honestly believe that they have been wronged by the Board of School Commissioners.

The charges have been made so specific that the President of the Board could not mistake their meaning, sufficent time has elapsed for him to meet them—or at least, deny them, and ask for an investigation. He has done neither, and by his silence, admits that the charges heretofore made are true. I have other and graver charges yet to lay before the public, but for the present shall content myself, with entering the solemn protest of myself individually, and the protest of those I represent, against one cent of money being levied upon the people of this county for school purposes, by the Board of county Commissioners, until this whole matter is thoroughly investigated, and the people are shown just how much money has been dverted from its legitimate channel.

When I volunteered in this cause I volunteered for the war. X.

For the Union.

Fifty Years of Life.

Fifty years to the young may seem a long life, but they who have attained that age it seems but a span. Time and its changes are of a certainty like the thief's stealthy tread; aye, it seems to come slowly, but as it marches on how many cherished idols are broken; how many deep rooted opinions shattered and cast to the fore-winds of Heaven; whilst upon the ruins of the old, new thoughts and new inspirations spring forth.

The past fifty years have been an age of improvement. The plow, the loom, and we may say the anvil have been revolutionized; aye, revolution is written all over these years. The transit or carrying of man, beast and burden has been changed as if by a magicious wand. Why it seems but yesterday that I stood upon the house-porch waiting to hear the stage driver's horn; waiting to see him drive his lumbering coach through town. It does not seem so long ago that I saw men swing the grass scythe from early morn till dewy eve, nor does it seem so long ago that the brown jug and fresh water was carried to the harvesters at every round they made, nor does it seem a great while ago that the wooden flail of the thresher ceased its thump, thump all the winter long, and too when they prepared the bright yellow corn for market. What a fuss and rasping there used to be. Well do I remember the old kitchen with its stone floor and huge fireplace; every man about the house busy at work rasping away as if the fate of the nation depended upon their exertions. In these days of mechanical simplicity how anxious was the farmer and his guide wife about the flax crop; what a whir of spinning wheels during the long winter nights, ceasing only till the bright rosy apples could be crunched, and then the long strips of linen spread out just as soon as the sun began to exert his full powers. How carefully mother used to watch the bleaching; with what pride was the finer stuffs exhibited to some neighbors who were not fortunate to get theirs out to bleach at the right time. Then too the year's candles must be made dirty, greasy work it was to make the tallow-dip, but it must be done—no store to run to to get earth's cheap oil. Tallow-dips were all the go, unless you were rich enough to buy waxen ones or carified whale oil.

The long droves of cattle and horses are a thing of a by gone age; the drover and his saddle bags have disappeared, and the emigrant wagon with the household goods stowed away beneath its canvas cover is a thing of the past.

PARGETTER.

American Farmer for May.

Among the many valuable orignal papers contained in the May No. of the old American Farmer is one "What We May Learn From Certain Weeds," by E. P. Dunnington, Adjunct Professor of Analytical Chemistry at the University of Virginia, which is not only of practical value, but an important contribution to science,—as of the various analyses given, one only has heretofore been made. Several articles on Chemical Manures; the Wool Product in the South; Farming in Germany and France; the discussions of practical Farmers' Clubs; details of Work for the Month; Dairy topics; the Poultry Yard; Diseases of Live Stock; a Home Department for the ladies; an account of the new importation of Percheron Horses, by Mr. Walters of Baltimore, and a variety of other subjects, make up an issue of great interest, which we commend to every farmer and farmer's family. The senior editor, in a personal notice, announces his arrival at his four-score years, which find him in good condition in health and spirits. The Farmer is published by Sam'l Sands & Son, Baltimore, at $1.50 a year, or at $1 to clubs of five.

Get out doors!

The close confinement of all factory work, gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.

Unquestionable.

The *Herald*, Detroit, Mich., says of Warner's safe Liver and Kidney Cure: "Its efficacy in kidney, liver, and urinary disease is so fully acknowledged that it is not worth the questioning. Bona fide testimonials from well known citizens in public and private life are evidences strong enough to convince the most stubborn doubter."

All Indorse It.

The *Recorder*, Americus, Ga., says:—"Clerks, Senators, Representatives, Doctors, Lawyers, Citizens, in public and private life, are testifying by the thousands, and over their own signatures, that a remedy has been found for Bright's disease of the Kidneys and for Diabetes; these are respectively known as Warner's Safe Kidney and Liver Cure and Warner's Safe Diabetes Cure." [may13-3m.

Chester River Steamboat Company.

PIER NO. 7 LIGHT STREET.

Spring Arrangement.

ON AND AFTER MAY 12, 1880,

The Steamer B. S. Ford

Fortify the System

And you are armed against disease. The finest tonic for this purpose is Hostetter's Stomach Bitters, which renders digestion easy and complete, counteracts biliousness, and keeps the bowels in order, and so genial and beneficent are its effects, that not only is the body invigorated and regulated by its use, but despondency banished from the mind.

For sale by all Druggists and Dealers generally. [may6-4w.

WHITELOCK'S VEGETATOR.

This article has for its base, BONES finely ground and thoroughly dissolved, and is so rich

IN FERTILIZING PROPERTIES

as to carry the Wheat through the severest winter; while other manures may produce a good crop of straw there is

Nothing on the Market

that will uniformly bring the same quantity of Wheat per acre.

Apply three-fourths only as much as of other brands.

ALSO FOR SALE,

Peruvian Guano, High Grade Pure Dissolved Bones, Acid Phosphate, very rich.

Examiner's Notice.

WE, the undersigned having been appointed by the County Commissioners of Caroline county to examine and determine whether a new public county road shall be opened, beginning at the turn of the road at the West side of Louis Ward's farm and running in a straight line through the lands of Louis Ward, Daniel Gibson and John Satterfield; thence through the lands of John Maloney and A. Williamson, known as the "James Richardson Farm," until it intersects the county road leading from Burrsville to Concord at the point known as the old Quaker Church.

Notice is hereby given that we will meet at the beginning of the above named road on Monday, the 24th day of May next, at 10 o'clock A. M., for the purpose of executing our commission.—The county surveyor will attend without further notice.

THE KENT COUNTY

MUTUAL INSURANCE CO.,

Dover, Del.

Furnishes Indemnity Against Loss by Fire

by its policies insuring Buildings, Furniture, Merchandise, Grain and other contents, Live Stock, and other insurable property, also covering Buildings during erection.

ANNUAL PAYMENTS OF PREMIUMS

are made in advance to pay the losses and expenses of each year, but such payments do not indicate the actual cost of insurance, as the large dividends paid attest, amounting to over $105,000 00, and yet leaving to the credit of its members over $96,000 00.

The Strictest Mutuality

is observed throughout, every member while having the advantages arising from a large Mutual Association is still dealt with in an individual capacity, and at the close of each year the balance due each is shown on our books.

THE LOSSES AND EXPENSES

are borne alike by each member, as in proportion to their payment of interest or premium they are charged with their respective share of the Losses and expenses, and the premium unused is strictly regarded as that of the member and is held to his credit, out of which has arisen the enormous dividends paid by the Company.

At Close of Membership

or at any time within one year therefrom, the member has only to make application for a settlement and whatever remains is paid back to him, without in any way affecting the interest of the remaining members, as he simply takes out that which is his.

Statements or any further information will be furnished on application to the Company or to the following agents:

THE FENCE QUESTION

SOLVED AT LAST!

THE undersigned beg leave to inform land owners and the public generally that they have bought the right to manufacture and sell the

"EMPIRE BARB WIRE FENCE,"

on this Peninsula, and they are now prepared to take orders for and put up the same in any part of the Peninsula. This fence is very extensively used in the West and Southwest by railroads, farmers and stock-growers, and always gives universal satisfaction, because it is the

Cheapest Fence

that can be made—the first cost being no more than white pine board, and it is good for 60 or 75 years. It is in no danger from fire—being composed entirely of

Iron and Steel.

Storms nor floods cannot affect it, as it presents so little surface to their force. It affords no shelter for noxious weeds and briars, and will save its cost in

TEN YEARS

in the extra amount of produce grown on the ground that would be taken up by a worm fence or osage hedge. It is a SAFE fence, there being no danger of

STOCK BEING IMPALED,

as they frequently are by sharp-ended rails, broken boards, leaning stakes, &c., and the barbs being so short that should they come in contact with our wire it will prick the skin and turn them back without injury. It is reliable, breachy ing stock turned in a field enclosed with it will always be found there.

This fence is made of

Wrought Iron Posts,

with a spiral screw, (coated with a preparation to prevent rust,) by which they are screwed in the ground where they are anchored by 20 inch anchors; to the posts we attach steel barb wire, making an indestructible fence.

Orders for fence for fields, yards, gardens, cemeteries, private grave yards, or for other purposes, promptly attended to. We are prepared to put up or sell any wire barbed or plain fence in the market.
