We Want the Public to Know

That the UNION has now a circulation larger than that of any other newspaper published in this county, and its list of subscribers is steadily increasing. If this statement is questioned we are prepared to prove it.

The Editor's Hash.

—Pic-nic season is at hand.

—The fifteen puzzle is a thing of the past.

—The early mornings the birds give us concert.

—Ephraim Knowles of Odessa was 100 years old on the 10th inst.

—Strawberries are scarce in our market and are selling at 25c per quart.

—Rev J. D. Mc Faden will preach at Ames' Sunday afternoon at 3 o'clock.

—The Delaware State Fair will be held September 27th October 2d inclusive.

—A Sussex farmer has sold his blackberry and rasberry crop for 6 cents a quart.

—The steamer Highland Light discontinued stopping at Secretary creek on Sunday last.

—Strawberry festivals will soon be in order if the berries were not all ruined by the frosts.

—A Frederica dealer shipped seven car loads of dried fruit from Milford on Thursday of last week.

—Milford as to have go-as-you-please match next Friday and Saturday. Fast footers to the front.

—Mr. J. Thomas Brown has been appointed constable for Hillsborough (sixth) district of this county.

—The population of this country has increased 81,114 by the arrival of emigrants since January 1st.

—It has been decided to hold a camp meeting at Camden, this year commencing on Wednesday, August, 11th.

—Harris' Chapel will be re-dedicated on Sunday next, 23d inst., at 10 o'clock, A M., by Rev. J. E. Smith.

—Dry weather continues. Our streets and roads are very dusty, and the growing crops greatly need the spring showers.

—Rev J. D. Mc Faden will lecture at Bethel Church Thursday evening, May 27th. Subject. "That Long Quer Chinee."

—The Masonic Lodge, of Cambridge, have chartered a steamer and will give an excursion from Baltimore to Cambridge June 1st.

—A seven ton monument is being erected over the remains of the late Bailey A. West and wife, in the Episcopal cemetery, at Lewes, Del.

—A Kent County man has a curiosity in the turkey line. One that has two bodies, four legs and feet, four wings, and two separate heads.

—The people of Queen Anne's have decided to hold a camp meeting the coming summer at Wye. The time is not yet fixed for the commencement.

—The time has passed for the 'Elixirs,' 'Cordials' etc. for the Baby, and Dr. Bull's Baby Syrup is now the established and reliable remedy. Price 25c.

—A farmer residing near Chestertown held over his crop of wheat and sold it last week for five hundred dollars less than he would have realized last fall.

—The season for new produce is now fairly opened in Baltimore, and large quantities of strawberries, peas, cabbage and soft crabs are being received there daily.

—An unclassified animal about three feet high, with fire-like eyes, long, coal-black hair and tail, and fleet as a deer, prowls nightly through the streets of Georgetown, Del.

—On Saturday night last Geo. A. Willington, proprietor of the "Wakeman" House at Bombay Hook, had three calves stolen from his premises. He offers a reward of $75.

—So strong is the temperance sentiment on the Shore that it has even reached Church Hill. Two of its citizens the other day were committed to jail on the charge of public drunkenness.

—The Maryland Steamboat Company has purchased wharves at Medford and Kingston, on the Choptank river, which will be immediately rebuilt and arranged for the purpose of the company.

—As Frank Insley, of Lake's District, Dorchester county, was trying to get into his cart, gun in hand, on Wednesday last, the piece was discharged into his abdomen. Death resulted almost instantly.

—The local option law creates much indignation in Prince George's county among the merchants. Many declare their intention of removing to Anne Arundel county, where their spirits may be free.

—Mr. Edward Milburne, a farmer living at Templeville, ate his breakfast, in apparently good health, and went into his field, and while engaged in breaking clods with a hoe, fell and almost instantly expired.

—If you want to be refreshed go to Chas. H. Blackiston's, where you can get Soda Water of any flavor you desire, and also Ice Cream, the best in the market. Put in your appearance and he will convince you.

—The present dry weather appears to effect latter wheat very seriously, and that on poor ground, whether sown late or early, presents a shocking appearance. The grass crop is also cut short and the prospect for hay is very poor.

—The new Methodist Protestant Church in the town of Felton, Del., will be dedicated on Sunday next, the 23d of May, 1880. Services commencing at 10 o'clock A. M., and will be conducted by Rev. J. E. T. Ewell, of Laurel. The public in general are respectfully invited.

—Mr. W. H. S. Montgomery offers the 'Cool Spring farm near" Ridgely station for sale in to-days issue. This farm contain 151 acres of land, has 1,000 choice peach trees, and abundance of other fruit upon it; good dwelling house, barn, stable, granary, tenant house, &c. See adver.

—The Dover *Delawarean* says: The following remedy for these pests was handed us this morning, and is said to be sure: Take one pint of alcohol and put in what camphor gum it will cut. Then reduce with water one-half; sprinkle the vines lightly, and sure death to all bugs.

—On Sunday John Daugherty and his wife were arrested for drunkness in Wilmington, Del. In their house were found eight children, their ages ranging from ten months to fourteen years. They were suffering from hunger and miserably clad, there not being a shoe in the whole party. They were all removed to the police station, and ravenously devoured the food provided for them.

—After to-day our fisherman must hang up their nets, as the law forbids the hauling of a seine of any description whatever, in the waters of the Choptank river and its tributaries, for the purpose of catching fish, from and after the twentieth day of May in each year to the first of August, under a penalty of a fine of not less than ten dollars nor more than twenty-five dollars.

—Wm. C. Callahan, who was imprisoned in the Centreville jail a short time ago for selling *whiskey's keys*, at Willoughby's shop—or other words for charging a certain price for a key which unlocked the spigot of a whiskey barrel so the customer could get his drink, escaped from jail a few days ago. He is still joined to his idols, however, and was found in Mr. W. I. Gibson's woods, with a bottle in his pocket, fast asleep.

—The Cambridge *Era* says: "Much time and careful investigation was given to the violation of the Local Option Law," and as a result fifty-five offenders are indicted. This only shows what earnest men can do when their hearts are in the right place. The whiskey sellers can easily be driven to the wall if the officers of the law will only do their duty, and the community is to be congratulated that they have at last been favored with a grand jury composed of men who did not fail to do their duty.

—A fierce forest fire broke out on Thursday last along the woodland of Mr. Clement Noble, about a mile south of Denton, and becoming unmanagable, soon assumed an alarming shape, a valuable quantity of ship timber laying in the fires way towards which it was making leaps. The timber belonged to Mr. J. Boon Dukes. In spite of all about one hundred dollars's worth was destroyed. The growing timber destroyed which belonged to Messrs. Noble, Dukes and others, was considerable. The fire originated from new ground clearing. The woods adjoining had an abundance of fallen leaves,, which, being very dry, burnt freely.—About one mile square was destroyed.

—Every little while we read in the papers of some one who has stuck a rusty nail in his foot, or knee, or hand, or some other portion of his body, and that lockjaw resulted therefrom, of which the patient died. If every person was aware of a perfect remedy for all such wounds, and would apply it, all such reports must cease. But, although we can give the remedy, we cannot enforce its application. Some will not employ it because they think it too simple; others will have no faith in it when they read it; while others think such a wound of small account, and not worth fussing over, until it is to late to do any good. Yet all such wounds can be healed without the fatal consequences which follow them. The remedy is simple, almost always on hand, and, what is better, it is infallible. It is simply to smoke the wound, or any bruise or wound that is inflamed, with burning wool or woolen cloth.—Twenty minutes in the smoke of wool will take the pain out of the worst wound; repeated two or three times, it will allay the worst case of inflammation arising from a wound.

—A few weeks ago, as a young lady of Salisbury was getting into a carriage, a sewing-needle was by some means forced into her thigh, but being considered a trifling matter, little or no attention was paid to it at the time. Several days after this occurrence, however, her ankle pained her very much, and on examination it was found that the needle was the cause of it. In her efforts to get it out it broke, and she only succeeded in getting one part (the eye-half) of it out. The poin part remained, and two days after she felt that just below the knee, but was stilll unable to get it out. Two weeks then elapsed and she felt something in her throat, but the obstruction was supposed to be a fish-bone. After several efforts to remove it she at last succeeded and it proved to be the point part of the needle. Thus, in a few weeks time, a common sewing-needle enters a person at the thigh, makes its way down to the ankle, then retraces its steps and goes up the body and comes out at the throat. This may appear to be an incredible story, but it is true nevertheless. It is vouched for by a gentleman of unquestioned veracity.—*Salisbury Advertiser.*

For the Union.

I have learned from authority that cannot be questioned, that the President of the Board of School Commissioners when making his requesition upon the county commissioners for the annual levy for school purposes on Tuesday, May 13th, stated that one of the causes why the schools were apparently so expensive was, "That in a number of instances that had come to his knowledge where men who furnished fuel for the schools had sent in accounts both to the teachers and to himself, thereby, receiving double compensation.

I regret that he made such a statement, unless he had named the individuals who have been guilty of such petty meanness. I regret it because it shows gross carelessness on his part, and because it becomes necessary for my own vindication, that I should publish a statement of the exact amount of money I have received for wood furnished for the last three years, for the following schools each school and year separate which, when compared with the reports for those years does not make a favorable showing.

Get out doors!

The close confinement of all factory work, gives the operatives pallid faces, poor appetite, languid, miserable feelings, poor blood, inactive liver, kidneys and urinary troubles, and all the physicians and medicine in the world cannot help them unless they get out of doors or use Hop Bitters, the purest and best remedy, especially for such cases, having abundance of health, sunshine and rosy cheeks in them. They cost but a trifle. See another column.

Unquestionable.

The *Herald*, Detroit, Mich., says of Warner's safe Liver and Kidney Cure: "Its efficacy in kidney, liver, and urinary disease is so fully acknowledged that it is not worth the questioning. Bona fide testimonials from well known citizens in public and private life are evidences strong enough to convince the most stubborn doubter."

All Indorse It.

The *Recorder*, Americus, Ga., says:—"Clerks, Senators, Representatives, Doctors, Lawyers, Citizens, in public and private life, are testifying by the thousands, and over their own signatures, that a remedy has been found for Bright's disease of the Kidneys and for Diabetes; these are respectively known as Warner's Safe Kidney and Liver Cure and Warner's Safe Diabetes Cure." An Inquiry.

In examining the Reports of the State Board of Education for the year 1878 and '79. I find charges in the table of expenses for building school houses, in this county, that in the year 1878 there were three built, costing in the aggregate, as shown in the table, $1,012.00. That in 1879 there were three built costing $1,065.00. For the year 1878, in the Statement of general disbursements the report shows that there were paid for building school houses $1,522.29, and in 1879 the disbursement account shows that there was $1,823.73 paid making a difference, in the two years of the sum of $1,269.02. Now will the Secretary, Treasures, Clerk, and Bookkeeper of the Board please explain to an anxious and long suffering public what disposition has been made of that $1,269.02. It is a reasonable question, and social ethics demand a frank and candid answer. Inquirer.

Godey's Lady's Book for June

Is a most attractive number, full of good things from cover to cover. First, Darley's exquisite illustration greets us, the naughty urchin, familiar to us all, who creeps "like snail, unwillingly to school,' while his mother chides and his sister smiles, as generation after generation has done since the great poet first described the scene. Then we find in fashion and work department a very large variety of suggestive matter for lady's use. Summer wardrobes and summer employment have the best guides in these pages. The literary department is very fine, fully up to the usual high standard of the magazine. Christian Reid's story increases in interest, and the new serial "Glenarchan" is continued in some most interesting pages. Mrs. E. R. Church contributes one of her excellent articles on the "Women of Our Own Land," and Mrs. H. G. Rowe, a most interesting sketch of the early days of the great Queen Elizabeth, while the stories and poems are varied and entertaining. Every department is well filled with the matter most attractive to those for whose use the Book is designed—the ladies.

THE KENT COUNTY

MUTUAL INSURANCE CO.,

Dover, Del.

Furnishes Indemnity Against Loss by Fire

by its policies insuring Buildings, Furniture, Merchandise, Grain and other contents, Live Stock, and other insurable property, also covering Buildings during erection.

ANNUAL PAYMENTS OF PREMIUMS

are made in advance to pay the losses and expenses of each year, but such payments do not indicate the actual cost of insurance, as the large dividends paid attest, amounting to over $105,000 00, and yet leaving to the credit of its members over $96,000 00.

The Strictest Mutuality

is observed throughout, every member while having the advantages arising from a large Mutual Association is still dealt with in an individual capacity, and at the close of each year the balance due each is shown on our books.

THE LOSSES AND EXPENSES

are borne alike by each member, as in proportion to their payment of interest or premium they are charged with their respective share of the Losses and expenses, and the premium unused is strictly regarded as that of the member and is held to his credit, out of which has arisen the enormous dividends paid by the Company.

At Close of Membership

or at any time within one year therefrom, the member has only to make application for a settlement and whatever remains is paid back to him, without in any way affecting the interest of the remaining members, as he simply takes out that which is his.

Statements or any further information will be furnished on application to the Company or to the following agents:

THE FENCE QUESTION SOLVED AT LAST!

THE undersigned beg leave to inform land owners and the public generally that they have bought the right to manufacture and sell the

"EMPIRE BARB WIRE FENCE,"

on this Peninsula, and they are now prepared to take orders for and put up the same in any part of the Peninsula. This fence is very extensively used in the West and Southwest by railroads, farmers and stock-growers, and always gives universal satisfaction, because it is the

Cheapest Fence

that can be made—the first cost being no more than white pine board, and it is good for 60 or 75 years. It is in no danger from fire—being composed entirely of

Iron and Steel.

Storms nor floods cannot affect it, as it presents so little surface to their force. It affords no shelter for noxious weeds and briars, and will save its cost in

TEN YEARS

in the extra amount of produce grown on the ground that would be taken up by a worm fence or osage hedge. It is a SAFE fence, there being no danger of

STOCK BEING IMPALED,

as they frequently are by sharp-ended rails, broken boards, leaning stakes, &c., and the barbs being so short that should they come in contact with our wire it will prick the skin and turn them back without injury. It is reliable, breachy ing stock turned in a field enclosed with it will always be found there.

This fence is made of

Wrought Iron Posts,

with a spiral screw, (coated with a preparation to prevent rust,) by which they are screwed in the ground where they are anchored by 20 inch anchors; to the posts we attach steel barb wire, making an indestructible fence.

☞Orders for fence for fields, yards, gardens, cemeteries, private grave yards, or for other purposes, promptly attended to. We are prepared to put up or sell any wire barbed or plain fence in the market.
