DENTON, MARYLAND:

THURSDAY MORNING, APRIL 16 1885

AT a sale of imported Jersey cattle of a superior class in Baltimore on Tuesday the highest price paid for one animal was $405.

THE circuit court for Somerset county met on Monday and there seems to be no doubt that Captain John Williams will be indicted by the grand jury for killing Otto Meyher.

THE Maryland State Temperance Alliance will hold its twelfth annual meeting in Baltimore on Tuesday and Wednesday, 21st and 22d of April, 1885, in the Oratorio Hall, on Howard street, near Franklin, commencing on Tuesday at 10 o'clock A. M.

"A POOR man's fight and a rich man's war" was the catch-phrase of the struggling Confederates in the last hours of their defeat; and, now that through the vicissitude of time their victorious enemies have been routed, there seems to be no change in the situation. The men who fought at the polls as they fought in the field in 1864 get nothing but the consolation of having done their duty, while the rich, who have made no sacrifices, come forth to seize their reward.

DURING his first month in office Post master General Vilas commissioned four hundred and fifty Postmasters and prepared more than one hundred Presidential commissions for approval. It would seem, therefore, that the old Postmasters are not going very rapidly, to be sure: and those applicants who are waiting on the anxious seat for a post-office must needs be patient. A large lot of patience is mighty good stock for a man who wants a post-office to have on hand all the year around.

Kent Island & Harrington R. R.

Messrs. Taintor and Safford, of New York, were before the Merchants and Manufacturers' Association of Baltimore last week in the interest of the contemplated Chesapeake and Delaware Bay railroad, soliciting the endorsement by the association of that project. The matter was referred to the committee on transportation for investigation. The road in question is to extend from Kent Island to Harrington, Delaware, and to connect at that point with the Delaware road to Rehobeth, Lewes, Ocean City and Franklin City, and if constructed will place Cape May and Ocean City within four hours of Baltimore, and Rehoboth within three and a half hours. Messrs. Taintor and Safford, together with the Old Dominion Steamship Company, are interested in the Ocean City and Franklin City branch. A few years ago they got an enabling act through the Maryland Legislature authorizing the City of Baltimore to endorse their bonds for $600,000, and their appearance before the association was to get it to take steps toward hurrying up the action of the City Council.

Clothed in its Right Mind.

The Prohibition party, called to meet in Baltimore city the latter part of this month, has issued its pronunciamento and is preparing for an aggressive state campaign. In issuing the call the committee speaks of the future as follows:

"It is full of encouragement. The local elections that have taken place since the national campaign closed, and especially recently, have in many places more than doubled and trebled the Prohibition vote at the late national election, whilst more temperance legislation has been obtained in the various states in the way of enactment of laws requiring scientific temperance to be taught in the schools, the submission of constitutional amendments, local prohibition and otherwise, than has been obtained for three times the length of time in any period since 1856. Miss Willard president of the W. C. T. U., and other leaders best posted, not only assert, but prove their assertions. So much for the doleful prophecies of our enemies, and the weak-kneed professed friends of prohibition, to the effect that the good cause had been set back 20 years by reason of that fatal election of last fall."

Mrs. Garfield to Marry.

The Presbyterian congregation at Westfield, Lawrence county, were surprised and delighted this week to learn that their pastor, Rev. William M. Taylor, was to be married to the widow of President Garfield. He is about 50 years of age, with black hair and whiskers slightly tinged with gray. His eyes are sparkling and he is of medium height. He is a son of ex-Judge Taylor, of Lawrence county.

Mr. Taylor became acquainted with Mrs. Garfield many years ago. His first wife was Miss Packer of Hiram, Ohio, who was an intimate friend and companion of Mrs. Garfield. They went through Hiram College together and graduated in the same class at the time President Garfield was at the head of that institution. After both had married they kept up a friendly intercourse, and, by this means, Mrs. Garfield and Mr. Taylor became acquainted. One year ago last July Mr. Taylor and wife visited the parents of the latter at Hiram, Ohio. While there she died suddenly of heart disease. Mrs. Garfield extended her sympathies on the sad occasion, and she and Mr. Taylor frequently met thereafter on the occasion of his visits to Hiram.

Mr. Taylor now visits the home of Mrs. Garfield frequently, and in a delicate way his congregation have been made to understand that the marriage will take place some time during the summer. The groom, while not an eloquent preacher, is a man of scholarly attainments and much endeared to his congregation.—*Philadelphia Press.*

A Lively Corpse.

The Republican party is not dead. The defeat of the Democrats in Chicago and Cincinnati demonstrates this fact. When Blaine was defeated it seemed as if the sun of Republicanism had set forever. The future looked dark, and upon the mind of every loyal Republican there settled the conviction that the party, in stepping out of power, had stepped out never to return. But there is now a reaction. Next to New York City, Chicago was the most impregnable of all Democratic strongholds, and yet it has fallen. Cincinnati was also a strong Democratic centre; and yet the prestige of a new administration failed to rescue it. This result not only demonstrates a reaction, but it proves conclusively that, although eclipsed, the future of Republicanism is as bright as at any period in its history.

Even in the hour of its defeat it was stronger than in 1876, when it polled but 4,035,768 votes, and stronger than in 1880, when it polled but 4,454,416 votes; for its vote in November, despite the Prohibition defection, was 818,213 more than in 1876, and 397,565 greater than in 1880. This, at least, shows no signs of dissolution, and these April triumphs will direct attention to the fact.

The loyal republicans of the land will look upon these results and be encouraged. Their defeat in November was but the work of an unfortunate combination of circumstances, and, with proper organization, they can within the next four years retrieve their losses. The administration, by the use of its machinery, may do its utmost to prevent this, but within the breast of Republicanism there is a living principle. It is but necessary to remember this and be faithful. Success is sure to follow.—*Baltimore Herald.*

Bullets Follow A Lover.

Some time ago a young man named Johns began visiting the daughter of a prominent real estate man in the northwestern section of Baltimore city. His attentions were distasteful to her parents, and she was forbidden to receive him. The conduct of the young man in other matters finally caused his father to place him on board the United States ship New Hampshire. He left the city and took his proper place on the vessel, and a few days ago a despatch was received by the commander stating that the mother of Johns was ill and asking a leave of absence for him. The leave was granted at once and Johns returned to Baltimore From the action of the young lady at home on Thursday evening the father suspected something was wrong, and determined to discover if his suspicion was correct. He followed her out McCulloh street, and at the corner of Mosher Johns was seen to accost her. As soon as they met her father approached them and was observed by Johns, who commenced to run. The father followed and fired three shots in rapid succession from a revolver. By that time Johns had reached Division street and escaped. The young lady denies that she sent the despatch which brought Johns back to Baltimore. The father is said to be still on the war-path, and the deck of the New Hampshire is a much safer place for the young man than the neighborhood from which he beat such a hasty retreat.

Perverse Woman.

Science declares that smelling-bottles are conducive to red noses. Now, of all things under the sun a woman most abhors it is a red nose, but, nevertheless, instead of abandoning the bottle, her natural perversity will add several inches to its length and increase the quantity and frequency of the inhalations.

The fact is science has lost its grip, and that, too, through failure. Science declares against tight lacing, and, despite the repeated warnings, the female sex in general has been lacing for centuries, and, to judge from the present stock, there is no diminution in the quality, size or personal beauty of the descendents. High-heel shoes have been tabooed time and time again, yet high-heel shoes are still in vogue, and the average female spine is just as firm and graceful as in the days when shoes were unknown and big feet was the basis for human understanding. And so it has been with numerous other innocent practices to which our mothers have been addicted.

If science supposes for an instant that woman will release her grip on the smelling-bottle because it produces a nasal discoloration, science has not profited by its past experience. She simply does not believe science, and until her nose begins to assume the hue of a strawberry she will continue her luxury should every doctor in Christendom rise in expostulation.

Mrs. Garfield.

SHE DENIES WHAT SHE CALLS THE "CRUEL RUMOR" OF HER MARRIAGE.

Mrs. Garfield has written a letter to her brother-in-law, Mr. C. O. Rockwell, concerning the rumors that have been going about lately of her intention to marry again. She says:

This cruel rumor, which seems to have been afloat for two or three months, did not reach me till three days ago. Nothing that has ever been said about me has so hurt and offended me as this; the deepest humiliation of it is that so many are ready to believe it. * * * To me it seems just as much an insult to be asked whether it is true as it would be were the dear General still here. That any one can think me capable of being false to his memory seems like being regarded criminal. A dignified denial by my friends, I suppose, can do no harm. Still it hurts me to feel that any denial is needed.

Capt. B. F. Bradley, Riverton, Md., says in the year 1884 he used Powell's Prepared Chemicals on corn, and thinks it is the best and cheapest fertilizer on the market. The price of Powell's Prepared Chemicals is only $6.00 per bbl.—a sufficient quantity to make one half ton complete fertilizer. Brown Chemical Co., manufacturers, Baltimore, Md.

Cure for Felons.

Saturate a bit of wild turnip the size of a bean with spirits of turpentine and apply to the affected part. A sufferer who has tried the above plan says it relieved the pain at once. In twelve hours there was a hole to the bone and the felon was destroyed. The turnip was removed, the wound was dressed with healing salve, and the finger soon became well.

Excellence.

When we are studying and pursuing excellence, we are insuring durability; and the more thoroughly the idea of durability enters into our work and guides our lives, the more valuable will be the one and the nobler and happier will be the other.

A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "28 Cedar St., New York, Oct. 28, 1882.

"*Gentlemen:* My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect—being now able to do a good day's work, although 73 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the bowels, and thus restores vitality and strengthens the whole system.
