Epidemic of Scarlet Fever.

Scarlet fever is raging at Reliance, a small burg near Seaford. The school has been closed and many homes have been quarantined. So far it has been confined to six families.

There is no board of health in that town and the physicians of Seaford and Federalsburg are in constant attendance so that the disease may not spread.

Several cases have been reported at Greensboro, also, but these cases are in a mild form. There has been no deaths reported.

He was sentenced to the House of Correction for two months. From the evidence given at the trial, it appears that Thomas, who is about nineteen years of age, was in the employ of Mr. Clough during the year '97. The bargain for his services was made with his father, with whom Mr. Clough alleges he made a settlement in full for the boy. On Thursday the boy went to Mr. Clough and demanded of him a balance he claimed was due him. The existence of any balance was denied, and payment in consequence, was refused. Thomas went to the wood pile, a short distance off, and procured an ax. With that he started toward Mr Clough, saying he would brain him with it unless the money was forthcoming. As the negro approached the house, Mr. Clough secured his gun and fired at him. The man immediately beat a retreat.

The Peach Prospect Good.

Peach growers who have trees and who have looked into the matter are of the opinion that there will be a fair crop of fruit next season. They base their opinion upon the general appearance of the trees, and upon the condition of the weather.

The weather has, so far, been excellent for a good crop of peaches. The greatest source of danger to peach crops is the weather. Cool weather is the best because it prevents buds opening. So long as the buds remain closed there is no danger.

When it is warm the buds open and then fill with water. As soon as it becomes cooler they freeze. This kills the bud. The weather so far has been cool and the buds have been kept back.

Our farmers are keeping a close watch on the trees, and thus far the only trees that have shown any life are those in Mr. H. A. Roe's orchard near the depot. These trees are in no immediate danger, but should this weather continue several days without a cold snap, then their safety might be feared.

A correspondent from Smyrna says: "Fear is expressed that the warm weather of the past few days will do some damage to the peach buds, and thus prevent even a fair crop. The warm weather is forcing the buds, and it is feared they will open so much that there will be danger of them filling with water and freezing."

DEATH OF WM. W. BUSTEED.

W. W. Busteed, editor of the Centreville Observer, died Monday at midnight from hemorrhage of the stomach. Mr. Busteed was born in Tuckahoe Neck, this county, July 18, 1843. His father and grandfather were school teachers, the latter having emigrated. The father, Warner Busteed, was an old time Whig, and as a politician commanded large influence in this county. Wm. W. Busteed received a primary education in the public schools, chiefly at Hillsboro Academy. He afterward took a course in a night school at Easton. While young he developed a fondness for the printer's trade and obtained a situation in the office Public Monitor, in Easton. After a time his brother Robert started the UNION at this place, which he assisted in establishing. In '64, in partnership with Chas. T. Loveday, he bought the Centreville Times and started the Observer. His journalistic career having been peculiarly successful, he had just cause to look back on his early struggles with pardonable pride and self-congratulation.

In October '70 he married Miss Martha Vickers, who died six years ago. One child, Miss Catherine survives him. In politics he was an unswerving Democrat, active and zealous in upholding the tenets of his party.

A Bride at Fourteen.

...Tuesday held a meeting in the interest of Good Roads. Mr. Calvin Satterfield, of Greensboro, presided and H. B. Messenger, of Federalsburg, was chosen secretary. The proposition for the use of wide tires seemed to be highly favored by those present. A committee of eight was selected to attend the Good Roads Convention to be held in Annapolis on Feb. 24th, and also to hold meetings in the several districts and obtain the sentiment of the people in regards to this movement. The committee is as follows: James Green, Lawrence Satterfield, W. C. Todd, R. M. Messick, H. B. Messenger, J. D. Fleming, T. L. Day and W. H. Dean.

Resolutions embracing some of the proposed new theories were passed as follows:

WHEREAS—In the old plan still in practice for repairing the roads there is involved an expenditure of money ranging from $6,000 to $10,000 annually and that a complete outfit of implements, teams etc. with a force of twenty men can be employed at an expense aggregating less than $50 per day, and that the amount of money now expended will employ and pay for the services of such a methodical outfit every day in the year that is fit for road repairs, therefore be it

Resolved: That it is the emphasized sense of this meeting that a radical change be inaugurated and put in practice by the County Commissioners, such as will harmonize with the ideas above set forth.

Resolved: That it is the sense of this convention that the convenience of the people of the county demands the construction of a first class high way from Marydel to Federalsburg via Denton, to be followed by such lateral roadways as in the judgment of the County Commissioners may be most practical.

Resolved: That some practical plan should de devised and put into operation by the County Commissioners for the encouragement of the use of 4 inch tires on the highway.

The Greatest Discovery Yet

W. R. Repine, editor, Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as it is we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial Bottles free at George & Redden's Drug Store. 3
