J. Thomas Butler, an elocutionist and dramatic reader of prominence, a graduate of Philadelphia, will give an entertainment Friday evening, at Masonic Hall, Denton. The public should patronize this entertainment as its proceeds go to John Wesley M. E. church. For particulars see advertisement and posters. Tickets on sale at George & Reddens.

Mr. R. M. Collins, the new merchant from Milton, has erected a neat sign in front of his store which announces to the public that he is doing a "spot cash" business. Since he opened in the building opposite the bank the store has been improved by putting in a new glass front and now presents a very attractive interior to persons passing on the street.

Mr. and Mrs. T. Pliny Fisher gave a birthday party Saturday evening in honor of Wilson Saulsbury, it being his 16th birthday, and was attended by a number of his friends. The evening was pleasantly spent in games and social intercourse, etc. At 10 o'clock refreshments were served. All expressed themselves as highly pleased with this reception given by Mr. and Mrs. Fisher.

Christ Church, Denton, was filled to overflowing on Sunday evening to hear Bishop Adams' sermon and to witness the confirmation of eight persons. The Bishop preached an able sermon that was full of thought for after reflection. The confirmation and laying on of hands was also an impressive service. The advise given the new members was logical and sound and worthy of emulation.

Richard T. Corkrane, who resides near town, has had a sick cow that has been the centre of attraction for many who never have had an opportunity of seeing one before, if we can judge anything from the 200 people or more said to have gone to see her on Sunday. Her cowship could not stand this marked attention paid her from this town and surrounding country, and therefore rather than pass through such another day and satisfy the morbid curiosity of the public, died early Monday morning.

Messrs. T. L. Day, John M. Swing and David M. Swing, of Ridgely, give notice to-day that they have formed a co-partnership and will do business the coming season at Ridgely and Queen Anne's station. These gentlemen are so favorably known that a large business is assured them.

Mr. Fred. R. Owens, on Saturday, forwarded to Chairman Scott, his resignation as a member of the State Central Committee for this county. The large and increasing law practice of the firm of which Mr. Owens is a member made this action necessary. Mr. Owens has made an efficient and wide-a-wake committeeman and the splendid results of last falls election were due in no little degree to his persistant and untiring efforts in behalf of the Republican ticket. His successor has not as yet been named.

As heretofore announced, a council of Jr. Mechanics was instituted at Greensboro on Wednesday evening of last week. The council takes the name of the town and is No. 191. Green; vice-councilor, Lawrence Satterfield; recording secretary, J. H. Vansant; assistant, G. F. Dill; financial secretary, W. B Massey; treasurer, Winder Goldsborough; conductor, George Wooters; warden, George Holmes; inside sentinel, James Rich; outside sentinel, J. W. Grunwell; chaplain J. C. Russell; trustees, B. F. Jackson, Warren Vansant and C. H. Kelley.

The New Bank a Certainty.

Ten thousand dollars additional stock for the new bank was subscribed on Tuesday, making $35,000, and the books will be closed next Tuesday. The entire stock of $50,000 could have been secured on Tuesday but it was decided to hold the books open for another week in order that several parties in the county who desire to subscribe may have the privilege of doing so. The promotters say very little trouble has been encountered in securing the necessary amount of stock and very little difficulty is anticipated in getting the new institution on a paying basis, and after next Tuesday, active preparations for opening for business will be begun.

Board of Trade for Denton.

A Board of Trade for our town has long been advocated by the UNION and many of our citizens. The matter now seems to be taking shape and it is hoped that in the near future the business interests of the town will be looked after by an organization of this kind. Many other towns on the peninsula already have the lead on us in this particular but there is no reason why we should longer remain in the rear. There are business interests and business facilities, of importance to the town and its citizens that will not be looked after except by an organization of this kind. Would it not be a good idea for the Town Commissioners to take some action in this matter? We are informed that there are parties looking for a mill-site that could probably be induced to locate here at once.

E. T. Moore, Trustee, to J. B. Fletcher, 4th district property, 161 acres, $320.

Improvements at the Depot.

The spirit of improvement among our business men is still manifested in the new buildings and dwellings that are going up. Messrs. House & Ubler, on the South side of the railroad track at the depot have erected a long line of sheds where they have stored a supply of building material of all kinds. Heretofore it has been necessary to send to the city for anything in the line of mill work or finishing lumber, but these materials can now be found at their lumber and coal yards, where a more complete line will be put in as soon as the building season opens. A snug little office and a set of platform scales have been completed this week and they are now prepared to open their coal yard in connection with their lumber business.

On the opposite side of the track a large two-story building is being erected for the ice plant of L. B. Towers. The frame is already up and the foundations for the vats and engine and boiler are being put in. Mr. Towers has, we understand, secured a large boiler with which he anticipates doing other work in addition to running his ice plant. He is contemplating starting a canning factory, and may also furnish power for a basket factory which Mr. W. H. Irwin contemplates putting up in the spring. Mr. Towers has a carload of lumber on the side track for the completion of his new building.

The Town Commissioners have placed a number of street lamps in the new part of town. Carpenters and plasterers are this week finishing the new dwellings of P. H. McShane and C. W. Collison on Gay street.

Along Main street, as well as at the depot, improvements are still going on. Mr. W. E. Murphy, on Monday began the foundation for his new dwelling which will be a comfortable and handsome building. Carpenters have also resumed work on the new M. P. Church and if good weather continues the outside will soon be completed.

DENTON-FEDERALSBURG R. R.

The bill presented in the General Assembly of Maryland by Mr. Redden a few days ago, and signed by twelve prominent gentlemen before named, asking for the incorporation of the Denton-Federalsburg Railroad, is a matter that should intest and receive the co-operation of the entire county, whether it passes in their immediate neighborhood or not. This bill states that the company, at any time after the passage of this act can organize by calling a meeting of the subscribers to the capital stock of $10,000 or more shall be subscribed, which meeting shall elect a board of Directors of said company for one year. The total capital stock to be issued must be $200,000 in shares of $25 each, and may be payable in land, material for construction and use of said railway, and services or labor necessary for said company. This road has the option of using either steam or electricity for power. This bill also gives the company the priviledge to start at Denton or five miles east thereof, on the Queen Anne's railroad, extending thence in a southerly direction to Federalsburg, or to a point within eight miles of that place, to a junction with the Cambridge and Seaford railroad. The County Commissioners will be empowered to subscribe for capital stock of this road to the amount of $8,000, which subscriptions shall be payable in bonds of this county, to be issued as the construction of the work advances, provided the voters of this county may so decide at the election next fall. While this vote would be taken at a general election, it would be divorced from politics and stand on its own merits. Should this measure go through and receive the approval of the people, the Commissioners will be authorized to issue bonds of $500 each, bearing interest at 4 per cent., and payable in 50 years, with coupons attached which shall be receivable in payament of any county taxes, and will be exempt from taxation.

The above is a general outline of the proposed bill and we see no reason why it should not pass the Legislature and receive the Governor's approval. In connection with the proposed road, Denton and Federalsburg have some interests at stake. The bill says to start "at Denton or a point five miles east thereof and end at or within eight miles of Federalsburg." Denton will endeavor to have the road start from this point and will use every effort to that end. We want a direct road to this place because it will be worth dollars to us as a town, to say nothing of the convenience. But as we pointed out some weeks ago the county's interests demanded that this road should start from Greesboro and not Denton. The needs of the county is a road from Greensboro to Federalsburg or that vicinity, and nothing short of it will supply the needs of the public.

Federalsburg in bidding for this road will naturally encounter more difficulty than we would on account of its connecting with the Cambridge and Seaford road only at that point. Some say Hurlock would be the place for this road, as there it would connect with the B., C. and A. Railway, as well as the Cambridge and Seaford road. These are questions the public can discus later.

The proposed bond issue of $60,000 for building a road from Greensboro to Federalsburg expires by limitation the first of next month. In fact it is practically dead now as the contract between the county and the Pennsylvania Company is that the road should be in operation at that time. This was a very liberal offer on the part of this county, and our taxpayers are congratulating themselves on their happy escaps from such a burden of taxation. It is more than probable this county will never make another proposition like it again.

To Complete the Q. A. Railroad.

The cause of the two months delay in completing the Queen Anne's railroad from Lewes station across the meadows to the bay shore has been removed and the work will be commenced immediately. The contract was awarded to Messrs Wade, Burns & Co., as soon as they completed the new road to Lewes, but for some cause unknown to the public it was not commenced. It is now learned that United States Engineer Smith of Wilmington refused to allow the company to cross the proposed route of the Inland Waterway canal. The agreement reached is not known.

Preparing for Conference at Lewes.

The conference committee of Lewes, is busily engaged in making all preparations for the entertainment of that body. The work of assigning homes will be completed this week. The Ladies' Aid Society has put a Brussels carpet on the church costing nearly $300.

The church has been thoroughly cleaned after the recent renovation, and is now ready for the annual meeting of the Wilmington M. E. Conference, which begins on March 23. The members of the church have made arrangements to entertain 250 visitors.

For the Union:

The imaginary badge which was so elaborately described in last week's UNION, and which reflected so much credit to the designer and correspondent, needs some repairs to render its completion. We think latin mottoes very pleasing, but correct english is far more preferable. Had we had opportunities to have visited some of the Southern states, among rich aristocrats, probably our "cooing days" e'er this would have been over. We wish to inform your correspondent, that when wearing a badge is suggested by our own Social, we will not depend on an outsider for past sentimental designs. L. B.

Money due the State.

The Baltimore American says the total amount due the state from both city and counties on September 30th last, a portion of which has since been paid, was $685,551.06. The appended table will show that those counties which have the treasurer system collect and return a larger percentage of taxes than those which have the district system. The figures given are from the comptroller's last report, and are up to and including September 30th inst.

OBITUARY.

STOKELEY Near Shepherd's church, on Tuesday, March 1st, Sallie, infant daughter of Elwood and Lina Stokeley. Age, one year and eight months.

Call not back the dear departed,
Anchored safe where storms are o'er;
On the border land we left her,
Soon to meet and part no more.

Far beyond this world of changes,
Far beyond this world of care,
She shall find our missing loved one,
In our Father's mansion fair.

Weep not for little Sallie,
Her little spirit's fled;
She sweetly sleeps with Jesus,
Among the silent dead.

I take these little hands said He,
And lay them on my breast,
Protection they shall find in Me
In Me be ever blest.

Oh, mother's arms so empty;
Oh, mother's heart so lone,
The Savior's arms are holding
The lamb you call your own.
