THE UNION OFFICE.

The Subscription books of the new bank were closed on Tuesday, with $40,000 of the stock taken in the county. This is considered an excellent showing by the organizers. The organization committee was authorized to secure a charter and the new institution expects to be ready for business in a short time.

Mr. Wm. A. Stewart has an eyeglass that is a curiosity in this section, and in fact to almost any other. The lens referred to has the pupil of Mr. Stewart's left eye photographed on it, clearly and distinctly showing the eye, and reflects all the colors of the rainbow. Drs. Hardcastle and George say they have read of such things, but never saw one before.

We are in a position to offer the readers of the UNION this paper and the Thrice-a-week N. Y. World, for one year for $1.65, or six months for 85 cents. This is a special offer we can make any of our old or new subscribers for a short time. Sample copies of the World will be sent to any address free of charge on application to this office. All orders must be accompanied with the cash.

More New Streets.

The Town Commissioners at their meeting on Monday evening, having taken into the town limits the property east of town heretofore embraced in the Stevens tract, prepared ordinances for several new streets. Sixth street will be extended through the Horsey property to the southern limits of the town, and with the consent of the property owners may be extended until it intersects the public road leading into town. Two new streets, 7th and 8th, will be laid down in the eastern limits and Lowe, Main, Gay and Dry streets will be extended across these streets.

L. B. Towers, as street supervisor, was authorized to grade the new part of main street. The County Commissioners agreed to allow the town board to put out the shells alloted to that piece of road after it is graded, provided the town pays for the hauling. Six new street lamps were ordered, to be used where needed. It was also decided to call a meeting to organize a board of trade.

IMPROVED TRAIN SERVICE.

Beginning yesterday a change in the schedule time of the Q. A. Railroad went into effect, and other changes that are highly pleasing to the public were also made. Since the opening of this road for travel the public have encountered great inconvenience in connecting with the D. and C. Railroad at Queen Anne's station. Each road have run their trains independent of the other to the inconvience of the public to the present time. Now we are to have a better service that the managers of the two roads have gotten together and arranged to connect at Queen Anne's station both morning and evening. Heretofore a hack ride of over a quarter of a mile was necessary when a change of train was made. Now both trains have a station where the two roads cross. The first train west from this station leaves here at 7.12 a. m., and connects with the D. and C. road at the D. and C. junction at 7.29 going north. In the evening to two trains meet at the junction at 6.43, arriving at Denton at 7.01, thus giving the public several hours in Baltimore and Philadelphia. In a few days Postmaster Melvin expects orders to send the morning and evening mail that has heretofore been sent to Ridgely, via Q. A. railroad. He also hopes to continue the two trips each day between Denton and Ridgely, the first to leave here about 9.30 and return at noon. The second trip to start at 1.30 and return about 4 p. m. If the above service is carried into effect we would have facilities for travel and mails, all that could be asked.

Notice To Farmers.

This is to give notice that I am ready to contract with farmers for tomatoes the coming season.

By order of the Board,

W. A. STEWART, Sec'y.

Marriage of S. J. Zackarias.

Mr. Samuel R. Zackarias, of this county, son of County Commissioner D. J. Zackarias, and Miss Rose Stewart Harnish, of Water Street, Pa., were married at the home of the bride yesterday. Mrs. Wm. R. Newton, of Barclay, and Miss Mamie and Mr. O. D. Zacharias, of near Greensboro, sisters and brother of groom, were present at the wedding.

Mr. and Mrs. Zackarias on their return from a ten days tour will reside at Water Street, about seven miles west of Huntington, where they have valuable milling property. We extend the happy couple our hearty congratulations.

Mrs. Newton and Miss Zackarias will return home by way of Harrisburg, where they will visit relatives for a few days.

Mr. Bernard Remembered.

The Journal of last week says: "A number of Mr. J. H. Bernard's Denton friends have given an order to a Baltimore goldsmith for a suitable watch-charm, properly inscribed, with a picture of the Court House upon it, to be presented to that gentleman." Mr. Bernard's friends appreciation of his skill and services all seem to run in the same channel, as the members of the Greensboro M. E. Church choir last Christmas made him a present of a handsome charm, set with a small diamond around which was inscribed: "Presented by the Greensboro M. E. Choir." A short time after being presented with this charm by the choir as a token of their esteem for him as their leader, Mr. Bernard visited Baltimore. While there he was the guest of President Dixon of the Easton National Bank. Mr. Dixon saw the charm and heard its history, and asked if he might have the charm for a day or so. The charm was taken to a jeweler where Mr. Dixon had the other side set with five handsome diamonds and this inscription: "Presented by the Easton National Bank." The charm is a handsome one and is highly appreciated by the owner, and shows, in a small measure, the appreciation the public has for Mr. Bernard in both church and business relations.

Baltimore & Greensboro Steamboat Co.

A Greensboro correspondent to a Baltimore paper last week said: "A new steamboat company has been formed, and will put on steamers to ply between Baltimore and Greensboro, under command of Captain Leonard, of Cambridge. While the boat will carry passengers, it will be used principally for freighting. The company that originated this enterprise is composed of some prominent citizens of Baltimore city and of this county. It is purely a business venture." It looks very much as though it must prove only a business venture We have already more steamers on the river than business, and how another line of boats can be made to pay, is more than we can see. Capt. Brockway, who runs a steamer between Greensboro and Baltimore, could do twice the business that he does and meets all the wants of the public. Between this place and Baltimore we have a daily line of steamers that are all the public can ask for comfort and convenience, at the same time they serve the public at reasonable freight and passenger rates. After we get below Denton there are other lines struggling for an existance, and how another boat, or line of boats, can live on the river, is more than we can see, as there is no complaint against the present service anywhere.

One advantage Capt. Leonard will have on the Choptank is, that he is well and favorably known to the public, having been on the river for years. We wish him success in this new enterprise and would like to see another line of boats on the river if they can be make it profitable.

Pride of Denton Council No. 42, Daughters of America, was instituted Tuesday evening with 29 members by Mrs. F. A. Demarest, State Councilor, and Mr. George Krise, State Council Secretary, of Baltimore. Mr. Krise was accompanied by his wife who assisted with the business. The officers elected and installed are as follows: Councilor, Mrs. Ella Smith, assistant, James Mallalieu; Vice-Councilor, Mrs. Nora M. Wright assistant, M. W. Wright; Junior Past Council, Mrs. Lonie Ramsdell, assistant, Miss Bertha Towns; Recording Secretary, Miss Lola Longfellow, assistant, Herbert Clark; Financial Secretary, Miss Annie Clifton; Treasurer, Miss Mary Driggas; Warden, Miss May Roe; Conductor, Mrs. Fannie Clark; Inside Sentinel, Miss Maggie Murray; Outside Sentinel, Thomas Roe; Trustees: Mrs. Mowbray, Mrs. Towns and Mrs. Shields. A mock initiation was gone through with and much enjoyed by all. The members were much pleased with the exercises and organization.

Laurel Claims Wealth.

Laurel is the largest town in Sussex county. The wealthiest community in the state excepting Wilmington. They have one estate valued at $600,000. Two others over a quarter of a million each. One man worth $300,000. Three others worth from one to two hundred thousand dollars. Several are worth from fifty to one hundred thousand, and a score or two worth from ten to fifty thousand dollars. The wealth of Laurel is greater than that of Seaford, Georgetown and Lewes combined, and in fact more money is handled in Laurel than the rest of Sussex county combined. They have more manufacturing enterprises than the rest of the county and have fifty stores and ten doctors.

Notwithstanding this, Laurel has no bank although there are six bank directors living in the town. These men represent banks at Georgetown, Delmar and seaford.

Mr. A. C. Thomas, of Marysville, Texas, has found a more valuable discovery than has yet been made in the Klondike. For years he suffered untold agony from consumption, accompanied by hemorrhages: and was absolutely cured by Dr. King's New Discovery for Consumption, Coughs and Colds. He declares that Gold is of little value in comparison with this marvelous cure; would have it even if it cost a hundred dollars a bottle.
