Death of Capt. Snow.

Capt. James P. Snow, aged eighty years, died at his home in Tuckahoe Neck on Monday night last after an illness of about four weeks. Capt. Snow was a native of Delaware and came to this county about twenty years ago. He was a thrifty and successful farmer and owned a farm in Raynold's Neck from which he moved upon coming to this county. He was a pleasant and obliging neighbor, highly respected and esteemed by all who knew him. Capt. was born the first day of June, and had he lived until Wednesday would have been eighty years old. He was married on the first day of June fifty years ago and will be buried at his old home near Smyrna to-day, June 1st. He leaves a widow, who is past seventy, but no children survive him.

A False Report.

Attorney Walter Sparklin, of Denton, has been in Lewes securing stock for the organization of a national bank. In that town at a meeting last week $20,000 was subscribed and Eastern Shore folks will take a sufficient amount to insure the success of the enterprise.—Del. correspondent to Balto. Sun.

Mr. Sparklin says the above was published without his authority. He also says he was at Lewes last week and a national bank is an assured thing there, and for these reasons it is supposed the report was circulated. Mr. Sparklin has notified the officials of the Peoples National Bank that he has no idea of severing the proposed relation with the new bank. The community at large will be glad to learn that Mr. Sparklin has no idea of leaving this place.

Pastor and People Complimented.

Presiding Elder Baker in speaking of his first official visit here says:

"It was a very stormy night and only the officials of the town church were in attendance. They are a delightful set of men and are entering upon a year of much promise in results, led by the indefatigable Bro. Webster. The salary at Denton ought to be larger, and it would have been this year but for the projected church improvements which will probably cost $2,000.

Of Concord he says: "The attendance was good as was also the reports. This is a growing charge with fine possibilities before it. The salary was advanced $100."

Of Preston the Elder says: "Rev. O. S. Walton is in charge. He has made a favorable impression as a preacher, and there appears no reason why he should not have a very successful year. With such splendid resources as there are on Preston charge it ought to be well up in grade as an appointment."

COURTHOUSE NEWS.

DOINGS OF COUNTY OFFICIALS.

News of the Past Week as Gathered at the County Seat.

Attorneys Dewease and Clark and Sheriff Rice were in Easton on Saturday on legal business.

The County Commissioners on Tuesday authorized John Reinwall to repair the bridge over Linchester river.

Marriage licenses have been issued during the past week at the Clerk's office to R. J. Betts and Mary C. Collins both of Burrsville, and Joseph Pearce and Hannah Bradshaw, colored, both of Marydel.

Traders' Licenses.

Clerk Hobbs has issued Traders' Licenses to the following persons in addition to the list published a short time ago:

W. T. Jarman & Bros., Goldsboro, $2,500.

Bessie Noble, Preston, $500.

Watson Fluharty, Choptank, $1,000.

J. W. Grewell, Greensboro, $1,000

A. T. Covey, Hynson, $1,000.

Berry & Short, Denton, $1,500.

A. T. Andrew, Clark's, $1,000.

Henry Sinclair, Ridgely, $1,000.

W. H. Faulkner, Greensboro, $1,000.

W. H. Goodwin, Henderson, $1,000.

J. Frank Lednum, Preston, $4,000.

Improvements for the New Bank.

On Saturday the masons finished laying the foundation for the large safe in the room in the Masonic building to be occupied by the new bank. The flooring was cut out and a solid brick foundation built up from the ground to the level of the floor of the room. Upon this will be placed a large fireproof safe weighing ten thousand pounds, fitted with a time-lock, burglar alarm and all the latest improvements. Inside of this there will be a smaller burglar-proof safe in which to deposit the cash and valuable papers of the bank.

On Monday morning carpenters, under the supervision of Mr. J. H. Bernard, began removing the front and putting in a new one of more modern design, which gives several feet additional space to the room. In the rear part of the room a directors room and cashier's office will be partitioned off and a counter extending from the front to this room will separate the lobby from the space to be occupied by the teller and bookkeeper.

Hicks on June Weather.

The first storm period extend from 1st to 5th, except rain, hail, lightning with some hard winds and possible tornadoes. Change to cooler, with westerly winds, spreading eastward generally modifying the weather up to or about the 7th or 8th. Reactionary weather conditions about 9th or 10th, growing warmer and ending in storms of rain, wind, hail and thunder. Friday 10th is named as the date on which the heaviest storms are probable. A regular storm period, central on 13th will bring barometer, warmer and more rain and storminess from 12 to 15. A marked reactionary time of disturbances runs from the 18th to the 22nd. The 19th to 22nd will in every possibility bring many showers to most parts of the country with numerous hail storms and magnificent electriet displays at night. Sudden changes to very cool will be noticable after all the storms during the last half of June. We believe that one of the most active storms periods in June will fall between 23 and 28th, central days being 25th to 27th.

Talbot County Count.

Saturday the jury in the murder case of Joseph Wright for killing William Newcomb came into court with vedict of murder in the first degree. The killing occured last August in a store at Big Woods, Kent county, a settlement of negros, about seven miles from Chestertown. The murderer and the victim were both negroes. Wright and some companions went to Kennyville and loaded up on "local-option whiskey," as State's Attorney Urie called it. When they got back to Big Woods they went into the store where Newcomb was, and without any provocation Wright pulled out a pistol and killed his man so suddenly that the pipe he was smoking remained in his mouth when he was dead.

The case was tried in Kent, but the jury did not agree upon a verdict, and it was then removed to Talbot at the suggestion of the State.

State's Attorney Urie, of Kent, and State's Attorney Mullikin, of Talbot prosecuted Wright. He was defended by Harrison W. Vickers and Richard Hynson.

J. Franklin Bateman has moved for a new trial in the case of Ramy against Gen. William Vannort, where a verdict for $2,000 damages was given against Vannort for alledged false arrest and imprisonment.

THE MASONS' BANQUET.

Temple Lodge, No. 175, of Denton, has had a reputation for some time past as being excellent entertainers, but the effort of last Thursday evening surpassed anything of the kind heretofore given by this lodge. This meeting was held in honor of the ladies, at which time several of the Masons' wives and daughters received their first degree in Masonry, and were much pleased with it. Shortly after eight o'clock the invited guests began to arrive at their hall and were received and welcomed by the reception committee, viz.: Judge and Mrs. Russum, Prof. Crouse, Mrs. Elizabeth Pippin, Mrs. G. A. Deakyne, Miss Sallie Stevens and Miss Nellie Johnson. During the entire evening an orchestra from Baltimore enlivened the occasion. At ten o'clock the company was invited to Masonic Hall, where several tables running the length of the hall awaited the Masons and their guests. As the company entered the refreshment hall a most pleasing view met their gaze in shape of bountifully ladened tables with ice cream, cake, bananas, and oranges, while the sweet fragrance of flowers and music added to the general appearance of the surroundings. For two hours the company was assembled at the tables, not eating all this time to be sure, but after having partaken of the good things the company was then treated to something better than viands just at that time. The toast-master, Mr. J. S. Barnhart, called upon Mr. M. B. Stephens, who responded for "Our Lady Guests." Mr. H. L. Cooper, responded to the toast, "Remember the Maine." Mr. A. G. Towers spoke about the "New Woman," and Mr. W. E. West talked on the "Anglo-American Alliance." These toasts were well delivered by these gentlemen and were highly enjoyed by those present. The toast-master also called on several others for impromptu speeches, who responded in a manner highly entertaining. The Milton guests were outspoken in their praise of Temble lodge as entertainers. There was 30 in their company and they said they enjoyed every minute while here. They left after midnight for Milton on a special train. There were present about 200, and after all had eaten the tables looked as if there was plenty left for as many more.

Liquor Law Violations.

For the Union.

There is a move on foot for the suppression of the violations of the local option law in this community. We are creditably informed that there are numerous places in this community where intoxicating drinks can be bought, which, if true (and we have no reason to doubt it,) is in open violation of our local option law and should be broken up. There are enough people in this community who claim to be Christians, who, if they will discharge their duty, can in less than six weeks, get enough evidence against those who sell, either in houses or from bottles in their pockets, to convict the guilty and secure a sentence that would be shuned by others engaged in the business or those contemplating engaging in the sale of the accursed drug. I make this earnest appeal to the conscience of the citizens of this community. Lend a helping hand and by the help of God let us drive out the monster, or some of your children or mine may be entrapped by him. The dear Lord knows I do not desire to get anyone into trouble and I give those engaged in this unlawful business fair warning. You don't know who is watching you, but I do, and should you continue, you will be dealt with according to law. I am well aware of the fact that this will make me unpopular with many, but not with law abiding citizens, and I am perfectly willing to take the consequences.

Now to those who are guilty: I doubt if there is one in the community who loves your souls more than I do and I will do anything in my power, by the grace of God, to help you to a better life. I hope you will heed this warning for we mean business, and here make a special appeal to the ladies of the community to help to put down the monster.

WILLARD H. THAWLEY.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Garton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four Doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was advised to get Dr. Kings New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in all eight bottles. It has cured me, and thank God I am saved and now a well and healthy woman." Trial bottels free at Geooge & Redden's. Regular size 50c and $100. Guaranteed or money refunded. 1

Shall we Observe the 4th?

Some of our citizens are desirous that Denton should deviate somewhat from her customs of the past few years and have a 4th of July celebration in honor of our national independence. It would be particularly fitting at this time to honor our nation. It has been suggested that the day be observed in a patriotic manner with speaking, singing, etc. In the evening have fireworks. As the glorious 4th is only a month off, it is necessary that prompt action be taken, if any at all, along this line. All who favor observing this occasion would do well to call at the offices of Lewis & West and A. G. Towers and discuss the matter.

—The county commissioners and the commissioners of Centreville have made arrangements to pave the walks of the Courthouse Square.

Fruit Crop Prospects.

State Etomologist Johnson has been making some experiments in orcards near Chestertown. His experiments with hydro-cyanic acid gas have thus far proved successful. He was unable to find a single living scale upon any of the trees fumigated, and the physiological effect is very conclusive. Not a leaf or fruit bud has been hurt, even where the gas was generated double time and double strength. Porfesor Johnson was somewhat apprehensive about physiological effects, as no similar experiments had heretofore been preformed. All the trees treated with gas are in full foliage and set full of fruit. Where whale-oil soap was applied, at the rate of two pounds in a gallon of water, the trees are in fine condition and full of fruit.

Pear trees spayed in January with pure kerosene are mostly dead, and where they are alive there are no fruit. From these and other tests the entomologist does not recommend pure kerosene as a spray for trees in orchard or any other place.

An examination of Professor Johnson's experiments in the orchard of Col. W. S Powell, at Annapolis Junction, shows that all trees treated with gas are in fine condition and all the scales are dead, while trees sprayed with pure gasoline and 50 per cent. gasoline and water contain from 62 to 78 per cent. living scales. Every indication points to the gas treatment as the only safe and reliable one. From several hundred experimental tests at the experiment station with the gas on the nursery stock he has determined the limit it can be used and not hurt the tree.

The fruit crop in general on the Eastern Shore is better than the Professor expected. The recent heavy hailstorm did some damage especially to pears and peaches. In most varieties of pears there will be fully 35 per cent. of a crop, while with peaches the crop will be light. The upper part of Delaware the pear crop will be from 50 to 75 per cent., peaches 20 per cent., apples 25 per cent., plums 20 per cent., quinces 50 per cent., strawberries 80 per cent., gooseberries and currants 90 per cent.
