HON. David B. Hill, of New York, who is to begin political life all over again by serving as a delegate to the State Convention says, "that in the elections of next fall the country is going to receive something of a surprise. What was done in Oregon will be done in almost all the other States in which free silver and populistic doctrines two years ago seemed to sweep the people from political moorings and to bring them into the irresistable current that was flowing toward national populism and repudiation." Mr. Hill also predicts "that the elections throughout the country will show comparitively great Republican and gold standard gains in the States which supported Bryan or gave McKinley a narrow plurality. In other words, the elections of next November will emphasize the verdict which was reached in Oregon, and then we shall hear no more of populism or free silver" This is just the doctrine the UNION has been using for some time past. Free silver with all its delusive charms was not understood near so well in '96 as it is today. Then the farmer found it very hard to make both ends meet. Politicians told the him the dollar had increased in value while wheat and corn had decreased. To the casual observer this looked somewhat plausible. But since the searchlights of facts have been turned on things do not look as they once did to the farmer. He sees for himself that silver and wheat are not unseperable friends, and that the kings of the West only their hand on the farmer's . They loved the farmer only to use him as the cat's paw to open up their silver mines. Within the past two years an era of education has intervened. Free silver as lost its delusive charms and is as it is. The mask has fallen. When lifelong Democrats like Mr. Hill sounds a warning as he does above, it is time for Democrats of the Jef[illegible] class t[illegible] ike and no wise identified with the free silver element.

THE trial of Thos. S. Clark, who was placed on trial in the United States Court on the 14th, for aiding and abetting W. N. Boggs to embezzle the money of the Dover bank, rendered a verdict of guilty on five of the forty-six counts in the indictment. The first three counts under which Clark was found guilty are for violation of the United States Revised Statutes, and the penalty is from 5 to 10 years' imprisonment; the last two counts are for violation of a section, the penalty for which is imprisonment for not more than two years and a fine of $1,000 to $10,000. The conviction of Clark is considered a righteous verdict, except by a Peninsula papers that are endavoring to mix politics in with it. They are having an up-hill work of it as right and truth must and will prevail in cases of this kind. Political lines should be ignored in cases where so much is at stake as here. There is no occasion for expressions of sympathy for Clark as he is a man well on in years and of intelligence enough to distinguish right from wrong, yet the evidence showed that he deliberately made use of the bank's money without any hesitation. By his own evidence he showed that he was familiar with Bogg's shortcomings, and he even bade the teller farewell the day prior to his flight. Thus far justice has been administered to two of the guilty parties and on Tuesday Senator Kenney will be brought to trial. Boggs has already plead guilty, and after the trials of others are finished he will receive his sentence. The story has been told twice in court and the facts are surprising. It has been shown that a systematic raid was made upon the bank, whereby honest men were made to suffer. Now the table is turned.

THIS government last week purchased seven big vessels of B. N. Baker, president of the Atlantic Transport Line, for $4,000,000. These ships are intended to carry troops and food during the war. All of these run between New York and London. These vessels have a carrying capacity of from 5,000, to 8,000 tons. These vessels were all built in England, sail under the British flag and have English commanders.

BISHOP Gilbert Haven said in an editorial in Zion Herald twenty-nine years ago that "Cuba is destined to be a State in the American Republic."

Young potatoes and cucumbers, in all their seductive freshness, are with us again, but they should be handled with care.

THE UNION said two weeks ago that the Republican party had a clear majority in Delaware, and that the Democratic party is rent and torn assunder. We didn't know that we were saying anything to startle any one, but the Milford Herald seems to have been hit. It wants to know where the Republicans get a majority? From the voters, of course. Has the Herald forgotten alread that the McKinley electorial ticket was elected in its state less than two years ago, although two faction in the Republicans party were fighting each other as hard as they were the Democrats? Besides Bryan was down the State telling the voters they were being robbed. If the Republicans can win at such odds what will they do now that they are united? As to their being divided on the money question, we refer the Herald to the Every Evening, the leading Democratic paper in Delaware. The Herald, not satisfied with claiming the State and everything in it, makes a feeble attempt to arraign Mr. Addicks. The Herald has done this on former occasions and boasted of what it was going to do with him, only to take a back seat when the time came for action. If you never saw a jackdaw attack an eagle, watch the Herald go for Mr. Addicks.

SILVER Democrats met with a greater defeat at the Oregon election than was at first supposed. There were four candidates for governor in the field—Republican, Middle-of-the road, Fusion and Prohibition—yet the Republican candidate had an actual majority of 5,469 over all, while his plurality was 10,574. It shows that the free silver fallacy has been set aside by the thinking people. Oregon has emphesized the verdict of '96 and it is reasonable to expect that elections to be held later on will reveal the same change of sentiment. What has happened in Oregon will happen in Kansas and probably in Nebraska. It is amusing to see some of the free silver papers of the Peninsula explaining the reason for their defeat. Of the many given the most popular one is attributed to Mark Hanna; they say he did it. We have credited Mr. Hanna as being a man of marked ability but the free silverites place a higher estimate on his ability to control states than the Republican party has done heretofore.
