The meetings promise great interest.

Concord camp will begin Friday, and there is every indication for a successful camp meeting, as no camp was held here last year. The ground is one of the finest in the country, the location being delightful. The place has been gotten into order and a number of new tents erected, owing to the enormous demand for them. Several families from Baltimore and Ellicott City will tent there. There will be two noted evangelists in charge besides many ministers.

Mrs. L. B. Towers took a two horse load of her lady friends to Chilton's camp Tuesday evening on a straw ride. The party consisted of 23 ladies and was a most enjoyable trip until they were returning when two young bloods from the West side drove up behind them and endeavored to drive their horse into the wagon. When remonstrated with for their course they cursed and swore. If justice is meted out to these two men they will be brought to a Justice of the Peace and made to answer for this crime.

Sunday Schools Picnic.

Nearly six hundred persons, including the Sunday Schools of Harrington and the M. E. and M. P. schools of this place, went by special train to Queeenstown on Thursday where they enjoyed an all-day picnic. Many persons not members of the schools improved the opportunity offered of spending a pleasant day as their fancy dictated. Those who desired could lounge beneath the cool shade while others went sailing, fishing, crabing or bathing. More than 300 tickets were disposed of at this place. The train consisted of six coaches and a baggage car and arrived at Queenstown about 10 o'clock Many of the boys and men were compelled to stand in the aisle from Denton to Queenstown owing to the crowd. Returning the train left Queenstown between 5 and 6 o'clock and after a quick run arrived at Denton before dark. Each individual or party selected their own amusement and very few returned at night who did not say they had spent a very pleasant day. One thing was specially noticable, that the contents of well-filled lunch baskets began to disappear with unusual rapidity shortly after 11 o'clock. The superintendants and teachers of the schools deserve the thanks of all for the perfect manner in which the affair was managed.

Denton Station Robbed.

Sometime during Sunday night or early Monday morning the Q. A. R. R. depot at this place was broken into and robbed of $50.28. An entrance was gained through a window, it being fastened by an ordinary sash catch. After gaining admission to the office the thief forced the money drawer and obtained the above named amount. Neither the window catch or lock on the drawer were difficult to force, and the robbery must have been accomplished in a very short time. This is the second time within a year that this depot has been broken into. The other robbery was committed by a boy and he was soon discovered. In this case no clue to the perpetrator has been made. Agent Anderson has been in the habit of leaving money there and has felt safe in doing so. This is one of the principal depots on the road and should be provided with a safe. It is generally known that a large amount of money is handled daily at this depot, and occurrence of this kind are liable to be frequent. It is not likely, however, that any one will get another haul like the one just made, as Agent Anderson, will take no more chances of this kind.

Large Real Estate Sale.

One of the largest sales of real estate in this county for sometime, was that of the late Andrew B. Roe, at Greensboro, Saturday. No. 8, a 13 acre lot, to Carrie and Sallie Roe, Blanche Rickards and Katherine R. Emerson. No. 9, Greensboro town property, was sold to Dr. G. W. Betson and and Annie Orrell. No. 10, Greensboro town property, was sold to Jho. F. Jarmsn. No. 11, town lots in above named town was sold to Sallie S. and Carrie Roe.

A Narrow Escape.

During the thunder storm Sunday, Mr. and Mrs. Jas. D. Wilson, residing at the Brick Mills, were seated at a window in the front of their house watching the storm. Suddently both of them left the front of the house and went to the back. They had scarcely reached there when the lightning struck between windows where they were sitting, tearing off the weather boarding and entered the room, knocked the desk between the windows out of position, tore off plastering and filled the room with smoke and dust. Mrs. Wilson had a paper in her hand before she left the room which she laid in the chair she was sitting in, found it scorched. Had they remained in the front of the house a few minutes longer it is likely both would have been killed. Why both of them left the room at the same time and when they did, they can't explain. No particular damage was done to the house. Mr. Wilson received a slight shock.

Hick's Forecast For August.

Moon will be full and in perigee on the 1st, and at the same time we pass the crisis of a regular storm period Look for extremely warm weather at opening of August. The barometer will fall to low readings, and many active summer storms will transpire from the 1st to the 3rd. Change to cooler will be natural about 3rd to 5th. On and near the 6th and 7th there will be a reaction to storm conditions. From the 11th to 15 is a regular storm period, during which many blustering summer storms will be natural. We do not think that heavy and general rains are to be expected in August. Look for reactionary storms about 18th and 19th. Another regular storm period runs from the 22d to the 25th Look at that time for extreme warmth, ending in storms with thunder and wind. Much cooler nights will follow. The 29th and 30th are reactionary storm centres. Warmer, with bluster and rain.

Discovered by a Woman.

Another great discovery has been made, and that to, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severe tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discoved a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at George & Redden's Drug Store. Regular size 50c and $1.00. Every bottle guaranteed. 4

Sunday at Chilton's Camp.

The first Sunday at Chilton's camp was not so large as in former years, yet the grove was well filled with carriages and hacks, which represented a good number of persons in attendance. As Concord camp will begin tomorrow the prospect of even a smaller attendance need not be surprising. The services commenced with an early prayer service, followed by other services. At 10:30 a. m. the Rev. A. D. Melvin, president of the association, preached. In the afternoon Rev. T. O. Crouse, of Harrington, preached, and in the evening Rev. Louis Randall, of Dover, preached. The singing was fine under the management of Mr. T. H. Jarman, of Greensboro. A cornetist was also present which added much to the music. The most unpleasant feature of the day was the heavy rain in the afternoon which dampened the ardor of some for a time, but the good effect of the much needed rain more than compensated for that.

Camps Then and Now.

We are again in the midst of camp meetings. They form a connecting link that holds us to a past age with which we now have little in common. They exist now rather as pleasant landmarks that our fathers sat up. Their practical value as aids in the active propagation of religious truth is doubtful. The church does not require this once potent agency. The camp meetings, however, may still be a valuable factor in society. The opportunity to enjoy ten days of invigorating camp life under proper moral discipline should not be lightly valued. People who tent at these camps would not otherwise get away from home. They make a fine healthy outing for overworked persons who need the change. The camp meeting has become a sort of church picnic where good morals and religi[illegible] feeling prevail.

Was the Dog Mad?

Friday morning a strange acting dog was seen on the streets, but at first little or no attention, was paid to it although it seemed possessed to fight with other dogs. The longit remained in town the more anxious it appeared to fight and would tackle any dog, even if it was ever so much larger than itself. Later in the morning, those who watched it concluded it must be mad, as its actions were so strange, and shot it. Now those who have dogs are somewhat exercised, for if the dog was mad we necessarily will have many in this place as nearly every dog in the centre of town is siad to have been bitten by him. A precaution, at least, should be taken by owners of dogs bitten by the strange one.

SCHOOL EXAMINER APPOINTED.

On Tuesday the new School Board met at their office in the Court House and organized. The board consists of Thos. W. Jones, H. Franklin Stevens and Henry C. Fisher. Mr. Jones was selected president. The main business that came before the board was the selection of a School Examiner. At first it appeared to be the pleasure of the board to ratify the appointment of the old board, which, when finding two years ago that its party was going to be in the minority, at once set to work looking after its interests in the same old way, not caring whether it was legal or not so the party carried its point, and appointed M. B. Stephens for four years, something unheard of in the history of the board. It is nothing new for the Democrats to make laws of this kind and then endeavor to enforce them. In this case it was unnecessary as Mr. Stephens has never had stronger supporters than two of the present board. This board, however didn't accept the work of their predecessors as final but went to work and reappointed Mr. Stephens to succeed himself to be sure that the work was well done. This vote also clearly showed where Mr. Jones stood. It was also stated some weeks ago that an agreement had been made whereby the present incumbent would surely be retained. Be that as it may we leave the public to draw their own conclusions, but this much was done openly and above board on Tuesday. Mr. Jones not only stood shoulder to shoulder with his Democratic friend in the board, but nominated Mr. Stephens for two more years, who is one of the staunchest and most unyielding Democrats in the county, to the most lucreative appointment. He can be relied upon fifty-two weeks in the year for solid party work. In the face of these facts Mr. Jones has disappointed and displeased the Republicans of the county by the course he has taken. Mr. J. T. Carter, the principal applicant and choice of most all the leading Republicans of the county, was ignored by two of the board, notwithstanding he had largely signed petitions that went before the board but didn't have any more weight with it than that much blank paper, although they had the endorsement of professors and learned men who were well acquaiated with Mr. Carter and considered him qualified for the position of School Examiner. Let Mr. Jones' defense in this case be what it may, it must be admitted that the removal of Mr. Stephens has been universally asked for by the Republican party, and by his nominating and voting for Mr. Stephens' retension in office is against the wishes of the party at large. Mr. Stevens goes on record as voting for Mr. Carter and stood by it. If Mr. Jones has isolated or estranged himself from his party, he has done so with his eyes open.

POSTOFFICE APPOINTMENTS.

The Democrats at Chestertown are becoming alarmed lest they lose their postmaster, whose turn of office expired last May. The case there is similar to the one in Denton, so far as wanting their turn of office extended. A Chestertown correspondent to the Baltimore Sun, says: "Mr. James A. Shaw was appointed postmaster by Mr. Cleveland for a term of four years, commencing in May, 1894. After filling out about eighteen months of his term Postmaster Shaw died and Mr. Joseph N. Wheatley was appointed his successor "for a term of four years, commencing April second, 1896," and has bonded for four years in the Fidelity and Deposit Company of Maryland at Baltimore. The present official has made a most satisfactory record and no disposition has been shown demanding his removal by the patrons of the office who are members of the Republican party, certainly none from members of his own party, while his friends insist with strong reason that he shall be allowed to fill out the full term of his appointment as shown by his commission. On the other hand, some republican leaders and the cundidates for the place claim that Mr. Wheatley's term expired last April when the original term of Mr. Shaw would have closed had he lived to fill out the term of his appointment. Petitions are going the rounds, but in many cases Democrats are refusing to sign these papers."

It is not necessary to say that the above correspondent is a Democrat and has taken the same view of the situation, but nevertheless it bristles with inconsistencies. Mr. Cleveland had no right to appoint a postmaster for a time any longer than his own. After the death of Mr. Shaw his successor's appointment was good for no more than the unexpired term of Mr. Shaw. This the Republicans have consented to and that is all they should. It is customary in all unexpired terms to fill the vacanceis, and nothing more. The fact that the present incumbent bonded for more time than his term of office, is no reason why his term should be extended and is only a dodge to get that which don't belong to him. What is true of Chestertown is true of many other places. Mr. Cleveland fully realized that his administration had been a failure and that the next one would be Republican, used every means to retain his party friends in power under the guise of Civil Service Reform. The term of office of the present encumbent at the Denton postoffice expired months ago, but he still holds on. Just before his lawful term of office expired, he and his friends induced the President to make it a presidential office. That was just and proper, but to have a four years' term stretched out to eight, is not right or just. All postmasters who are holding over on such flimsy pretexts should be asked to resign and if they refused to do so should be bounced.
