SCHOOL NOTES.

An order was passed that the secretary advertise in the UNION and Journal the days upon which the School Board will hereafter meet, also the office days of the Examiner. Advertisement appears in another column.

Saturday, Sept. 10, was selected upon which to hold a teachers' examination for such applicants as may have been appointed as teachers without cirtificates.

Saturday, September 17, was selected for the holding of an examination for colored applicants.

Miss Gertrude Smith was appointed to the scholarship at St. Mary's and Mr. Clayton Carter to the scholarship at the Agricultural College.

Mr. Wm. Dennsmore resigned as trustee of Goldsboro school.

Mr. Handy, from Trinity, presented a petition from people of that vicinity for a new school house, which was referred to Commissioner Stevens for investigation and report.

Mr. Jones was instructed to accept a bid for $68 to paint the Academy at Ridgely.

Four vacancies in the Normal School now exist that must be filled by Aug. 31, or the School Board will be deprived of the privilege of appointing.

Additional Locals

Mr. M. G. Kains, a representative of the Agricultural Department, was in the county this week looking after the results from melon seeds distributed among the farmers last spring. The seed was selected in Europe and were planted by the farmers to whom it was sent here and some of the melons are now ripe. As far as we have been able to learn the results are not very satisfactory the melons being small and many of them of inferior flavor.

The true story of those 278 days of suffering by Greely's heroic little band of explorers in the Arctic region has been told by Gen. Greely himself, for the first time, for the October Ladies' Home Journal. For years Gen. Greely has kept an unbroken silence about his fearful experience and that of his companions, as they dropped dead one by one at his side, and it was only after the greatest persuasion that the famous explorer was induced to write the story.

Sunday was probably the pleasantest day experienced during Concord Camp and those who enjoy attending these meetings made good use of the opportunity, and a large crowd was in attendance all day. Rev. W. J. Duhadaway preached in the morning and Rev. W. W. Chairs in the afternoon. Rev. E. R. Sidell, of Federalsburg, preached in the evening. The tent holders, while made quite uncomfortable by the frequent rains, made the best of it and had quite a pleasant time during the encampment. There were over ninety tents this year.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement, that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her that she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking six bottles, found herself sound and well; now does her own housework and is as well as she ever was.—Free trial bottles of this Great Discovery at George & Redden's Drug Store. Large bottles 50 cents and $1.00. 6

Adamsville Items

Miss Nettie Davis is at home on the sick list.

Miss Ella Adams is visiting her sister Mrs. William Crowell.

The camp-meeting people returned to their homes on Monday felling sad that camp was over until next year.

Mr. M. M. Davis had the misfortune to cut off part of his thumb between the wheels of a corn-sheller on Saturday.

Two new dwellings are being erected for Mr. William Hawkins and Mr. John Jones.

Mrs. George Lucas is reported to be seriously ill. Dr. Barber, of Harrington is attending her.

The heavy rains of last week caused a washout on the road leading from Adamsville bridge to Woodenhawk, known as the Sand Road. The road will be closed until repaired.

Peninsula Methodist Sold.

Mr. Frank Davis, of Chestertown, has purchased of Rev. C. A. Grise and co-owners of the Peninsula Methodist, the official organ of the Methodist Church on the Eastern Shore of Maryland and Delaware, their newspaper plant, job fixtures and the entire outfit. The paper will still be edited and conducted by the ministers, the work of publishing being done at Mr. Davis' office in Wilmington. Mr. Davis left on Monday to assume charge of his new enterprise. Mr. Mill Davis, a brother, will be made foreman in of the printing department. Both gentlemen are experienced practical printers.

Entries for the Talbot Races.

The Entry Books for the Talbot Fair opened on Monday and close on August 25th, at the secretary's office in Easton. All exhibits entered free. Exhibitors are requested to enter their exhibits at as early a date as possible. The management offers a large and liberal premium list this year in all its departments and ask the co-operation of all interested in the work, whether on the farm or in the household, artists and artisans. No effort has been spared to make the Fair a grand success and it is prepared to accommodate all who will take part in it. New stalls have been erected and plenty of room for exhibit of horses and mules and all livestock.

Marydel Camp.

Sunday was the big day at the colored camp-meeting at Marydel, and those who attended estimated that there were about seven thousand visitors at the meetings.

According to its annual custom the Delaware railroad ran a special train to Marydel on Saturday. It was filled by the colored folk, who had been awaiting the day. The train was made up at Philadelphia, from which place the majority of the visitors came. Others boarded the train at Chester and Wilmington where there was a great crowd to see the fortunate ones off.

The train returned Sunday evening at 10 o'clock and there was no disorder on the way up. There were three fights at the camp, but no one was seriously hurt. This is regarded as peaceable, as there are usually at least a half dozen cutting affrays at the camp.

Fine Prices for Peaches.

A few farmers in this vicinity are among the lucky ones who have peaches. Mr. H. A. Roe probably has the most fruit, and his treatment of his orchard may be worth the attention of other growers It has been nicely worked and the ground is as mellow as many corn fields. In the spring Mr. Roe had his men take muslin sheets spread under the trees and shake off and kill the curculios. Whether this has anything to do with his fruit crop or not is worth inquiring into. Mr. Roe has been shipping his fruit in carriers holding six small baskets, about 1½ peck baskets of fruit. For these he has been receiving from $3.00 to $3.50 per carrier. Mr. T. Fred Garey has been picking some fine fruit, as have also J. Boon Dukes and G. W. Price.

Many of the growers sell their fruit at Ridgely where it brings from $1.00 to $1.50 per basket.

State Farmers' Institute.

A State Farmers' Institute will be held at the Agricultural College, on Wednesday, Thursday and Friday, August 24th, 25th and 26th, 1898. Reduced rates have been secured on railroads and steamboat lines. The purpose of the "Round-Up" is:

First—For the least possible cash expenditure, to give Maryland Farmers and their families an opportunity to see for themselves what the State and National Government are doing to aid all who are interested in Agriculture.

Second— That farmers of each county may meet and know those of the other counties, and thereby establish a sympathetic bond of fellowship, one with the other.

It is important for the comfort of all, for the director to know how many will avail themselves of this opportunity.

If you wish anything to eat, or place to sleep; if you wish to come in comfort and depart in comfort, please address a card with your name, postoffice and county, plainly written, giving this information, to WM. L. AMOSS, Director Department Farmers' Institutes, College Park, Maryland.

Lane Has a Hearing.

Robert Lane, who was arrested on Wednesday last as reported in the UNION charged with burglary at the depot on the night of July 31st was given a hearing on Thursday morning. Mr. W. H. Anderson, the agent at the depot testified that on the night mentioned entrance was gained to the office in the depot and $50.28 stolen from the money drawer. The window fastenings and lock on the money drawer were broken having been forced open. He had found an implement that exactly fitted the marks on the window; an ice pick used at the factory on the opposite side of the railroad.

Mr. Towers testified that the accused was at work for him at the ice factory on the night of July 31st. Engineer Smith, who is on duty at night, testified that he worked in a different department but saw Lane about the factory during the night, but could not swear as to his whereabouts at all times.

Testimony was also baought out showing that Lane had been spending money since funds were taken, but only small sums could be traced.

The accused was held for court by Justice Higgutt, and failing to furnish bail was kept in jail.

A. G. Towers appeared for Lane and W. H. Deweese for the State.

Robbed the Grave.

A startling incident, of which Mr. John Oliver of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying "Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50cts per bottle at George & Redden's Drug Store. 6

THE POSTOFFICE APPOINTMENT.

Mr. Howard Melvin was appointed postmaster in October '96, by President Cleveland, the office at that time having become presidential. In January '97, the Senate confirmed the appointment and he was commissioned for four years. The present administration does not recognize the validity of four-year commissions, and many changes have been recently made on political grounds.—Journal.

Where and what was the nature of the "political ground" referred to the Journal evidently thinks best not to attempt to explain. It is one of those matter that is best for the Journal not to do any more than mention as it passes by. As there is nothing wrong in the removal of this and other postmasters who have been serving on borrowed time, we will only add that the four year commission has long since expired, and that the present encumbent was serving under a commission that wasn't worth the paper it was written on. These self-appointing men are being worked to the back row, where they belong. It would have been the proper thing for Mr. Melvin to have resigned at the end of his four years and then the president could have re-appointed him or some one else, which would have been legal. They are four year terms and nothing else can be made of them.

G. A. R. Encampment.

For the thirty-second National Encampment of G. A. R., to be held at Cincinnati, O., September 5 to 10 the Penna. R. R. Co. will sell excursion tickets at the rate of a single fare for the round trip.

These tickets will be sold on September 3, 4, and 5, and will be good to leave Cincinnati returning not earlier than September 6 nor later than September 13, except that by depositing ticket with Joint Agent at Cincinnati on September 5, 6, 7, 8, and 9, and on payment of twenty-five cents, return limit may be extended so that passengers may remain at Cincinnati until October 2.

Figs on Grape Vines.

Antonie Wilhelm, an experienced German gardener, living in Easton, has not yet succeeded in raising grapes from thistles, but he has this year figs growing on grape vines and apparently as much at home there as on their native fig tree bough1s. Just how he accomplish the feat or the freak Mr. Wilhelm will not tell, but he says there was no process of grafting about it. In the garden where the figs and grapes grow there is a mass of them growing together in a confusing mixture. The figs on the grape vine grow from the angle made by the junction of a cluster of leaves with the vine, but they are attached to the vine itself and not to the foolstalks of the leaves.—Ex.

A Paying War.

The war revenue act will in all probability yield about $130,000,000 to $140,000,000. As the war is expected to cost about $150,000,000, the first year of war revenue will very nearly pay for the cost of the war. If this proves to be the case, the war will be the first "pay-as-you go" war in history. Nor will the war taxes be abolished. The stamp duties and other new taxes are being paid without hardship. They fall, as taxes should, on luxuries, property and capital, rather than on labor and articles of necessity, and the return of these taxes has brought the entire expenditure of the Government to a sound and stable basis, which puts the currency beyond challenge or peril.

ROBBED BY MASKED MEN.

James Porter, a farmer living near Brownsville, was assulted and robbed by three masked men Saturday night. The robbers after tying Mr. Porter, went through the house and secured all the money they could find.

Mr. Porter was robbed of $3,000 in a simular manner several years ago, since which time he has kept his money in bank. The robbers secured only about $5. This is the third time Mr. Porter has been robbed. Being an old man and living alone it seems to be an inducement to a set of scamps who want a living without work, to make their assaults on this old gentlemen. Mr. Porter lives a retired life and seldom goes away from home, except on business, it having been 43 years since he was in Denton, although he lives but nine miles from here when taken in a direct line. Delaware authorities should offer a reward that would lead to the arrest and conviction of the criminals.

Crop Bulletin.

The U. S. department of agriculture at Baltimore, says: The weather during the past week has been wet and rather cool. Copious showers were frequent and general over the entire section. The rains were very heavy in the southern counties, where the previous drought conditions prevailed so extensively, in fact the rains in these district were most too heavy for the best good.

Vegetation is now everywhere in good growing condition, with a tendency to rank growth in some districts. Pastures have been revived. Corn is very much improved, and gives promise for a good crop. Late potatoes and tomatoes are doing well excepting some reports of blight in tomatoes, and a tendency to top in potatoes. Truck crops have been benefited and are in fine condition. Peaches are being marketed, and are reported plentiful in the vincinity of Boonsboro, Washington County. Elsewhere they, with all other fruit except pears, are scarce. Considerable fall plowing and fallowing has been done, but during the past week it was too wet for much work of that kind.

A Precocious Heifer.

Mr. David Cooper, an enterprising farmer living near Whiteleysburg, is owner of a remarkable heifer calf of the Alderney breed. This calf is only nine months old, has not had a calf, and has been giving milk for two months. In May, shortly after she was turned on pasture, Mr. Cooper was informed by his little boy that the calf was giving milk. Mr. Cooper did not credit the statement, but upon examination found it to be true, and she has been milked regularly ever since. The flow has increased steadily, is of excellent quality, very rich; the yield being a pint each morning and a quart each evening.

This performance is unusual and has attracted the interest and attention of the entire neighborhood; many discredited the story until convinced by actual observation. Mr. Cooper is very justly proud of his prize. The future development of this prodigy will be watched with close interest. If there are any similar cases in the county we shall be glad to record them.
