Gen. F. A. Bond and wife and the General's friend Mr. Silkman, of the Western Shore, are spending a few days with Mr. R. B. Bond. The gentlemen have their guns and dogs along and will try their luck at the birds and rabbits.

A Church Hill, Queen Anne's Co. farmer, boasts of the largest hog on the Eastern Shore, if not the State. The hog is an Ohio improved Chester breed and weighs between 1000 and 1100 pounds. He is 8 feet 4 in. in length and measures about 9 feet around him.

The building boom in Denton and vicinity will continue until the first [illegible] least. Almost [illegible]'s been be-[illegible]s busy un-[illegible] are several new houses to go up that have not yet been commenced.

Prof. W. G. Johnson, state entomologist, has sent his equipment to the Eastern Shore, where he will begin a series of experiments upon the San Jose scale, using boxes constructed of raw hide paper instead of tents for generating gas. If this method of treatment is found feasible, the cost of equipment will be reduced to less than one-half the cost of tents.

A writer who seems to know where of he writes says: A good plan for storing chestnuts for winter use is to place a small quantity of salt in the bags with the nuts. They become soft and sweet and any worms which happen to be among them will be driven out. The bags will become covered with sweat caused by the salt, but this will not impair the quality of the nuts in any way.

Mr. J. Ed. Nichols has purchased of N. Flowers & Co., of Hillsboro their entire stock of merchandise and will take charge of the business in a few days. The invoicing of the goods is now being done. Mr. Nichols has grown up in the store and since the beginning of the year has been associated with his father in the business as a partner. Mr. Nichols' many friends wish him success and Hillsboro's citizens will find him a most popular merchant.

Write it November.

The saw mills are busy.

The ammunition trade is lively.

The phosphate agent's harvest is over for this year.

Indications are that apples will be scarce and high this winter.

Baltimore business men are working up an exposition for that city.

The interior of the Brick Hotel is now being repainted and papered.

Mr. Willoughby Nowell is quite ill at the home of his parents near the depot.

The President has proclaimed Thursday, 24th, a day of national thanksgiving.

Miss May Dunn, of Dover, spent a few days this week with her aunt, Mrs. N. A. Hutson.

A change in the schedule of the Chester River Steamboat Company will be found elsewhere.

The white frost of Thursday morning last has killed the tomato vines and many kinds of vegetation.

The Directors of the Denton National bank will meet on Monday, instead of Tuesday, of next week.

Miss Katie Trice and Miss Nannie Nichols have returned from a week's visit with friends at Grove.

Mrs. G. M. Russum and Mrs. Z. P. Steele returned on Thursday from a visit to friends in Washington and Annapolis.

The second semi-annual meeting of the Maryland Public Health association, will be held at Easton, November 10 and 11.

Carpenter Carmine has been putting the finishing touches on the front porch at Judge Russum's new residence this week.

Easton is to have a $1000 clock on the new court house. $700 has been subscribed by citizens of the town toward paying for it.

A street lamp has been suspended from the framework on the draw and will soon shine so that the public may not meet with teams on the bridge any more. A convenience that will be appreciated. The lamp posts have been painted green.

The 70th anniversary of the M. P. church will be held at Ridgely and Thawley's Sunday morning, November 13. In the afternoon and evening of the same day it will be observed in Denton. The following Sunday the anniversary will be held at Burrsville and Ames.

On Wednesday next the Queen Annie's railroad company will put on a new steamer to take the place of the Favorite which has been running during the summer. The new boat is 160 feet long, an iron vessel, recently built, with ten state rooms to accommodate passengers who may want to visit the city for a day and spend the evening at the theatres. The new boat is faster than the present steamer.

All the barns and outbuildings on the farm where Mr. Garrison Smith resides, near Queen Anne, Queen Anne's county, were destroyed by fire on Saturday, together with their contents. There were three seperate burns, and they contained 200 bushels of wheat, 15 tons of hay, 80 bushels of corn and 40 bushels of oats. The buildings were insured for $2,000. Mr. Smith is well known in this section, having resided near Denton for several years.

An accurate reader of the ancient goose's breast bone prophecy says: The coming winter is going to be a snorter. It is going to start with a snow storm, which will come in November, and the snow will stay on the ground for the purpose of catching and holding other snow storms that will arrive frequently and with great vigor until about the middle of March. Mixed with the output of snow will be hail, wind and consequent periods of zero weather.

Astronomers, professional and amature, are anticipating a wealth of interesting phenomena with the coming of November. Hundreds of thousands of "shooting stars" will be seen. Hundreds, thousands of these wandering waifs of the sky will flash into brilliancy from radiant points high in the Eastern heavens, and will sweep in brief beauty horizonward, to vanish, seemingly gone out, but in fact to go on, in unseen brilliancy, through their appointed orbits, until again with passing years they come to beautify November skies.

SCHOOL NOTES.

The school board was in session on Tuesday all the commissioners being present.

Miss Carrie Deen was re-appointed to the Scholarship at Maryland Institute for the two years term and Miss Lola Wood for the 1898 scholarship and Miss Ruth Tyler to the one year scholarship.

The dates for the County Teachers Institute to be held in Denton will be as follows: beginning on Monday Dec. 19th and ending Friday Dec. 23 in compliance with law passed at last session of legislature. The Secretary was directed to confer with Dr. Foreman, Institute Conductor relative to program, and also notify the teachers that the law makes it obligatory on them to attend. Salaries to be allowed the teachers for the week.

An order was passed that not more than 75 cents be allowed for scrubbing and cleaning each school room.

The order passed one year ago, limiting the amount of coal to be used by the schools using coal for fuel to four tons, was re-enacted.

The bid of John R. Wyatt to furnish wood for Central school prepared ready for the stove for $10 was accepted.

The School Board has put in a library of 150 volumes, on pedagogy, cycology, and various subjects intended for the instruction of the teachers, who are at liberty to read the books free of charge.

Water and Light Plants Together.

The proposition to put our town on an equal footing with other progressive towns by the building of water-works is meeting with general approval. The prospect of a reduction in the exhorbitant insurance rates is very gratifying, and the conveniences to be derived from a supply of water in the house is doubtless looked forward to with pleasure by the housekeepers of our town. A light and cheap motive power, that can be furnished by water motors, can also be utilized in many business places and the building of the proposed plant should not be long delayed or this need may be supplied in some other way. When the water supply becomes an established fact the lighting of the streets, business places, churches, etc., by electricity, will probably be the next improvement contemplated, and the water company might do well to keep this fact in mind in constructing and equipping their plant. The town is moving ahead, and improvements and enterprise of this kind must sooner or later attract the attention of men interested in other business enterprises that will benefit our people. Keep the ball rolling.

REPUBLICAN RALLY TODAY.

The mass meeting to be held in Denton this afternoon, beginning at 1 o'clock, will be one of the grandest political rallies ever held in the county, and should be attended by every voter, irrespective of party affiliation. Some of the ablest stump speakers in the State will be present and address the voters of Caroline county on the leading issues of the day. Such noted speakers as Senator Wellington, Hon. Geo. R. Gaither, Jr., Hon. Thomas Parran, and other men of acknowledged ability will surely be present. This meeting will be one that will long be remembered. The great issues of the day will be thoroughly discussed, thereby giving all an opportunity to inform themselves and by so doing vote intelligently on Tuesday. The speakers are men the public have confidence in and will therefore speak the truth. Don't fail to be present. All are welcome. Let every Republican be present. Bring your Democratic friends with you.

The following telegram has been received and explains itself:

Hon. George M. Russum,
Denton, Md.

Letter received on my return from Cambridge. I will be with you on 3d without fail. Gaither and Parran will go with me.

GEO. L. WELLINGTON.

Adamsville News.

George Outten is on the sick list.

Miss Mamie Dawson of Federalsburg is visiting her friend, Miss Gertrude White.

M. M. Davis has so far improved, as to be able to ride out.

R. T. Cahall has sold his farm to a Mr. Spence of near Burrsville. Mr. Cahall will move to Greenwood next year.

Warrants are out for the arrest of Norman Breeding and Thomas Reynolds for stealing a dog from Malone Gardener.

A crowd of roughs, made an attack on James Breeding in William Peters store at Hickman one night last week. A fight ensued and Mrs. W. Peters, who was in the store at the time fainted. Warrants are out for the arrest of these men.

Sunday evening, a large number of people came to Todd's Chapel and waited until eight o'clock and as the minister did not come they went home.

Revival services will close Saturday evening.

The Gunning Season Opened.

The gunning season for rabbits and partridges opened on Tuesday under favorable circumstances. The day was a model one for such sport. Every gun and dog available were pressed into service. Gunning parties from two to six, and even more, filled fields and woods, and the dog and gun was heard on all sides. Old sports say they never saw more interest shown on the first day, and all join in saying there is an abundance of game. The "big day's work men" had their say that evening and claim large game—the rabbits claimed being from ten to forty by each party. Gunning for partridges will receive more attention in a few days. Notices prohibiting gunning was posted on all sides but gunners claim not to have seen them, as game was the only thing they were looking for.

Greenwood Gleanings.

Mr. Hugh Morris who was graduated from Delaware College last June has returned to that institution to take a post graduate course.

The little son of Mr. Thos. Hammond near town is quite ill with diphtheria.

The addition to our school building has been completed and the Primary department will open this week.

The house of Mr. Hicks Johnson was visited by burglars last Wednesday evening. They took from it clothing, money, and Mrs. Johnson's watch. Mrs. Johnson's machine drawer was found next day on the Queen Anne R. R.

Revival services are still in progress at Chaplin.

Queenstown to have a Bank.

The third meeting of our business men who are interested in starting a banking house in our town, was held on Thursday evening last. Mr. DeCoursey W. Thom, the promoter of the new enterprise, is well pleased with the outlook and hopes to be able to commence business by the first of the year 1899. Over seventeen hundred dollars of the stock has been taken and the remaining eight hundred dollars will be taken at the next meeting. The bank will be a great convenience for the people of the town, Wye Neck, Piney Neck and Kent Island, and we truly hope that those who feel an interest in the future of Queenstown will do all they can toward the starting of the enterprise.—Queenstown News.

Queen Anne's Railroad Improvements.

An article in the Baltimore Sun of Monday indicates that the Queen Anne's railroad equipments are to be greatly improved. The businss of the road during the season just closed has demonstrated to the managers the necessity of providing better facilities for handling both passengers and freight. A contract will be awarded this week for a new steamer to be delivered by May 15th, 1899, which when fitted out and ready for service is expected to cost about $100,000. The steamer is to be a side-wheeler with a guaranteed speed of 18 miles an hour. The dining room is to seat about seventy persons and the meal service is to be made a special feature of the trip. There will be about ten staterooms for the accommodation of theatre parties, who can retire after the play on board the boat, be called for breakfast on the way to Queenstown and arrive at home in time for the day's business.

The new steamer will make the trip from wharf to wharf in two hours where it now takes three, and important improvements in the train service is also contemplated. It is proposed to run a vestibuled train between Queenstown and Rehoboth to make the run in about one hour and forty five minutes. Recently the distance of sixty miles including two stops for water and slowing down to cross two railroads, was made in one hour and thirty minutes. With these advantages it is expected that the run from Baltimore to the ocean can be made in one hour and forty-five minutes.

During the height of the freighting season this summer an extra steamer was necessary to carry the country produce. The transportation of the tomato crop alone increased this year about three hundred per cent. over that of last year. A phenominal increase in the tonage of the strawberry crop is also shown it having increased about five hundred per cent. and the corn crop and considerable of the wheat crop are yet to move.

An Enterprising Druggist.

There are few more wide awake and enterprising than George & Redden, who spare no pains to secure the best of everything in their line for their many customers. They now have the valuable agency for Dr. King's New Discovery for Consumption, Coughs and Colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness and all affections of the Throat, Chest and Lungs. Call at above drug store and get a trial bottle free or a regular size for 50 cts. and $1.00. Guaranteed to cure or price refunded. 5

Improvements For Rehoboth.

Those who are interested in the campmeetings and summer school at Rehoboth will be much pleased at the improvements which are to be made during the coming season. The camp meeting has been successful for the past few years and the tabernacle has long been too small to accommodate the crowds which attend the services. If the present plans are carried out there will be a new tabernacle erected.

Mr. Clarence Bebee, who is much interested in the work of the campmeetings is also expected to erect a summer hotel, which will be intended especially for those who attend the meetings and the summer school conducted there. It will be a temperance hotel and it is expected that it will secure considerable business at other times, as well as when the two meetings are in progress. The lots where the tabernacle and other property of the campmeeting association now stand will be sold for building lots and another site which is better located for campmeeting purposes will be selected. A number of Dentonians already own lots and cottages at Rehoboth and next summer will doubtless find many more summering at the seashore.

Winter Excursion Tickets.

On November 1 the Pennsylvania Railroad Company placed on sale at its principal ticket offices excursion tickets to all prominent Winter resorts in New Jersey, Virginia, North and South Carolina, Georgia, Florida, and Cuba. The tickets will be sold at the usual low rates, with the usual return limits.

The magnificent facilities of the Pennsylvania Railroad, with its many connections, make this the favorite line for Winter travel

An illustrated book, descriptive of Winter resorts, and giving routes of travel and rates for tickets, will be furnished free on application to ticket agents.

Sound Money Democrats.

As the canvass proceeds distinguished sound money Democrats all over the country are announcing their purpose to vote for Republican candidates for Congress so as to make sure of the defeat of free silver. Here are a few of them:—

Ex-Senator John M. Palmer, of Illinois; General E. S. Bragg, of Wisconsin; John K. Cowen, of Maryland; ex-Governor Waller, of Connecticut.

The list could be greatly extended if necessary. These are, however, representative names and indicate that the intelligent sound money Democrats see that it is as necessary now as it was in 1896 to have a majority in Congress in favor of honest currency.

The Republicans should certainly be as ernest as these sound money Democrats are to see that free silver has no chance to claim encouragement from the November election.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver is inactive, you have a billions look; if your stomach is disordered you have a dyspeptic look; if your kidneys are affected you have a pinched look. Secure good health and you will secure good looks "Electric Bitters" is a good alterative and Tonic. Acts directly on the stomach, liver and kidneys, purifies the blood, cures pimples and gives a good complexion. Every bottle guaranteed. Sold at George & Redden's drug store. 50 cents per bottle. 5

What Advertising Is.

"Advertising is giving information to possible buyers about the goods you have to sell," says the Shoe and Leather Gazette. "It is telling a plain story in a simple, direct way. If advertisers would all realize this and learn to do without making overstatements or understatements, or filling their space with a lot rubbish that has no business there, how much more successful advertising would be! The more nearly an advertisement describes the goods it is trying to sell, the more successful it will be. We don't mean by this that you must explain every point. Let your customers get some of them for themselves. They will think more of the goods and more of a salesman, the advertisment and themselves. But a good hint and a few of the main points are always allowable."

Civil Engineer Hill's Report.

About three years ago by an act of assembly, the town commissioners of Denton were authorized to erect waterworks and issue bonds to pay for same. The commissioners never exercised the power. There is now talk of several prominent citizens beginning the work, and at a recent meeting of the town board, the exclusive right to lay water mains and pipes for the next two years was given to five citizens of the town. It may result that the town will subscribe to a portion of the stock and the other go to individuals. Civil Engineer Hill, of Baltimore, has made a survey of the town. He estimates the cost at $12,500. It is generally believed that the town cannot afford to have a plant at that cost. On account of the system of drive wells, from which excellent water is obtained, the town commissioners apprehend that but a small percentage of families would use the water, and consequently the burden of cost fall on the town, which would double the tax rate now imposed on property.
