She has been running the fruit train for the past few days. Chief Engineer Scott will have charge of her and she will be used for the summer excursion and passenger trains.

Easton is claiming to have appointed the first women trustees in the State, which is a little previous. Caroline, we are told, introduced the system and it worked so well Talbot and other Eastern Shore counties followed our example. We don't know the first county to introduce lady trustees, but we know it wasn't our sister county, Talbot.

The Queen Anne's Railroad has chartered the steamer B. S. Ford for the summer to aid in handling the contemplated large excursion business between Baltimore, Queenstown and points along the road to Rehoboth Beach. The steamer has been handsomely fitted up for this service, and will make her first trip today. The new steamer is expected to be ready for service in six weeks.

A report comes from Queen Anne's county that wheat is being damaged by blackheads. The heads alone are affected, the stalk remaining healthy but where the grain should be there is nothing but a black husk. Farmers say this is not smut, nor is it due to rust, and the only cause to which they can attribute its existence is the unusually cold and wet spring, which prevented the grain from forming, particularly in low land.

H. C. Layman, a traveling salesman of Baltimore, is said to have been one of the first passengers over the Queen Anne's railroad two years ago. Last Thursday the road issued mileage books and Mr. Layman was the first purchaser of a book, and the first to use one on the road. The book was purchased at this depot and Mr. Wm. H. Anderson, our accommodating agent, is entitled to the credit of making the first sale of a mileage book for the road.

"Queen Anne" will be the name of the new side-wheel steamer now being built by Chas. Reeder & Sons for the Queen Anne's Ferry and Equipment Company. It is expected the new steamer will be launched in two or three weeks. Her guaranteed speed is 18 knots an hour, and as the distance from Queenstown to Baltimore is 32 miles, the new steamer is expected to make the run in two hours, allowing for slackened speed at starting and arriving points.

An exchange very pertinently if not elegantly, says: "Men are just like hogs, however distasteful this may sound to hogs. When a hog gets an ear of corn, every other hog will trot along behind him, and squeal, and whine and beg and toady for a bite, but just let the hog get caught in a crack, and every hog will jump on him and help tear him to pieces. Just so with men. As long as a man is prosperous and has money he can't keep friends off with a base ball bat. The moment he is unfortunate and his money is gone he is not only snubbed by his former alleged friends, but they at once begin to do him all the harm possible. When a man starts up grade the world falls behind and pushes. When he starts down grade the world steps to one side and greases the track."

### Discovered by a Woman.

Another great discovery has been made, and that to, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severe tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discoved a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottles free at George & Redden's Drug Store. Regular size 50c and $1.00. Every bottle guaranteed. 4

The Delaware railroad is being very much annoyed by tramps just now. About twenty-five were arrested last week by Detective Hutchins and committed to jail at Dover.

### New Steamboat Schedule.

The Chester River Steamboat Company will inaugurate their summer schedule today, June 1st. The Emma A. Ford will leave Chestertown daily at 7 a. m., arriving in Baltimore at 11.45; leave city at 2.45 p. m. and reach Chestertown about 7.20. The Gratitude will leave Centreville at 7 a. m.; Rock Hall, 9.30, reaching Baltimore at 11.30; returning will leave Baltimore at 3 p. m., reaching Rock Hall at 5, Centreville at 7.30. The B. S. Ford will run to Queenstown. See ad.

### More Telephone Business.

Mr. Harvey S. Smith, of Clayton, who has just finished putting in a telephone system at Snow Hill, Worcester county, was in Denton on Monday evening in consultation with the directors of the Bee Line Telephone Company. Mr. Smith was here for the purpose of closing a contract for the erection of the telephone lines. The directors thought the price named rather high and are holding the matter over for a few days.

Mr. A. W. Sisk was authorized to contract for poles for the line from Preston to Denton, and Mr. W. H. Dewease is to contract for the poles for Denton. Several bids for furnishing poles have been received.

Mr. Sisk will make a trip to Baltimore this week in the interest of the company and the contracts will probably be closed within the next week.

### Ocean Grove's Rival—Rehoboth.

An exchange says a conference of ministers and laymen of the Church of Disciples embracing the demoninations in New York, Pennsylvania, New Jersey, Delaware, Maryland, Virginia and the District of Columbia, was held last week in Philadelphia. One of the thing determined upon was to establish a college for the training of young men for the ministry. A committee was appointed to raise funds for the institution and to decide upon the location. There was also appointed a committee to obtain a site on the seashore, which would be a mecca in the summer for the ministry and laity of the denomination, like Ocean Grove, N. J., is for Methodists. The committee, which is headed by the Rev. F. D. Power, of Washington, is considering a site at Rehoboth Beach. A number of contributions have already been received.

### Another Fire Averted.

The people of town were startled about 8.30 o'clock on Satuaday morning by the cry of fire. The engine was hastily hauled out but it was discovered that it could not be used, as the fire was at the Satterthwaite property and there are no fire plugs in that part of town. Several painters were at work at the residence of Mr. F. W. Redden and their ladders were quickly run up on the roof where the fire had caught and a few buckets of water were sufficient to put it out. Much credit is due Mr. Mason and his men for their prompt action, as it is quite probable that the house could not have been saved if they had not been near with their ladders, and it is quite probable that the Alex. Smith property would have gone also. Much good could have been accomplished with a good set of ladders during the recent fire, and the town board would act wisely in providing an outfit of this kind. If mounted on light wheels they could be easily moved and if arranged to lock to the wheels they could not be borrowed.

### ENJOYABLE COMMENCEMENT.

The commencement exercises of the Denton High School came off on Wednesday night of last week after the UNION had gone to press. It was thought that as many of the Grammar Schools had already held their exercises there would not be as large a crowd as usual, but the interest of the people in educational affairs seems to have been misjudged, as standing room was at a premium before the exercises had fairly begun.

The class colors were white and green, and the stage and different parts of the room were tastefully draped with these colors, while a banner of these colors bearing the words "Class of '99," spanned the platform. The young ladies wore handsom costumes of white.

Rev. Geo. S. Fitzhugh, of Christ Church offered the opening invocation. Prof. Crouse announced the program and remarked that the advantages of the High School were intended to be embraced by scholars from all parts of the county. The essays were well written and delivered in an admirable manner denoting diligent study in the application of words and their delivery.

School Commissioner H. C. Fisher presented the diplomas which are handsomely engraved and bear the name of the graduate and the names of the members of the School Board, Examiner Stephens and Prof. Crouse.

The graduating class is the first graduated from the High School and it is hoped the scholars from all parts of the county will embrace the opportunities offered for the higher course of studies.

### FEDERALSBURG DEFEATED.

The game of ball between the Denton and Federalsburg clubs on Tuesday resulted in a defeat for the Federalsburg champions as will be seen by the score. The game opened with Denton at the bat. The boys were promptly retired in one, two, three order, and Federalsburg came in and knocked out five runs. This of course elated the rooters and they made good use of their opportunity. It was well that they did for the next seven innings showed only a long dreary line of goose eggs. Our boys shook themselves together and got down to business and for the next eight inning "played ball." Slowly but surely that lead of five disappeared until the score was tied in the 7th inning. Our boys kept serving up eggs to the champions and in their half of the 9th inning scored three more runs. It was now necessary that something be done or the game was lost to Federalsburg, and from all reports the players, umpire and rooters commbined to "do" the Denton club. They flocked around the home plate and even into the infield, until umpire Beauchamp called time in order to get the crowd back. Before play was again called a Federalsburg runner stole to second and was promptly declare out. This decision was objected to by Federalsburg until the ruling was shown to be corect according to the rule book. As there were two men out already the Denton club agreed to continue the game if the man was returned to first. This was not agreed to by Federalsburg and the game stopped. The score showed that Denton was playing the better ball as Federalsburg failed to score for seven innings, and only six hits were made of Downes during the game. The features of the game were the battery work of Downes and Davis, and the catch of a long fly by Fitzhugh, for Denton, and the fielding of the Federalsburg club.
