THE WOMAN BEAUTIFUL.

The Daily Bath an Infallible Recipe for Clear Skin and a Fresh Complexion.

Cleanliness goes hand in hand with beauty, not mere cleanliness of face and hands, but that which promotes the health of the whole body, keeping the circulation active and the complexion clear. The hot bath twice weekly, with the use of flesh brushes and such toilet aids as tend to improve and restore the nervous system and give vigor to all functions, will be found a necessary groundwork for beauty building. Cleanliness of the skin has a great effect on the proper assimilation of food by the body, for the tonic of a good bath reaches much farther than the skin, and the flesh is purified by the process and becomes smooth and firm as wax. Aromatic baths, which are begun with hot water and graduated to tepid and cold, are very invigorating. Perfumed tablets are sold by the druggists, one of which dissolved in the water of the bath gives it a delicious and refreshing odor. Sometimes an ounce of ammonia added to a gallon of water will be found helpful. When the sponge bath or immersion does not agree with the system the sponge bath, with friction, is a good substitute. The hair mitten, loofah and flesh brush answer the purpose of the modern method of massage, especially where there is a lack of strength on the part of the subject or an objection to manipulation of strange hands. The sponge bath should never be hot, but should be begun with tepid water, ending with a cool tone, not cold. If there is danger of taking cold the brisk rub with diluted alcohol will prevent it. The dry bath, where there are serious objections to water, consists of dry rubbing, after which the flesh is rubbed with flannel dipped in toilet water, after which it is dried with Turkish toweling. Then there are the professional baths, the Russian bath, Turkish bath, vapor bath, mineral water or sulphur bath, all good in their way and of value as health renewers. Any or all might be classed under the head of the beauty bath.—Chicago Chronicle.

WOULDN'T STAND IT.

Little Girl Objects to Having Her Face Washed with a Saliva-Dampened Rag.

The naive simplicity of childhood often recalls conditions that parents would fain conceal. One Chicago woman relates an incident which occurred the

other day while she was calling on a friend. The maid ushered her into the parlor and announced that "Mrs. —— would be in in just a moment." Seating herself in a chair that chanced to be by the curtain separating the parlor from the next room, the visitor waited. The adjoining room attracted her attention. There were sounds of a struggle, then the voice of the little daughter of the lady of the house was heard saying, in a tone of firm determination:

"Tompany or no tompany, mamma, I will not have my fathe wathed with a rag made wet on your tongue."—Chicago Daily News.

Best Way to Make Jelly.

The only way one can be sure each time to have satisfactory results in jelly making is to keep trying the juice. Take a little out on a saucer, let it cool, and then examine it. It is a safer way than to trust to a given number of minutes. The condition of fruit is hardly ever twice alike. If possible, when making jelly, put the fruit after it is cooked into a flannel bag and let it drain slowly. It is much more likely to be clear than if squeezed or pressed out hastily. In making elderberry jelly cook the berries till soft, then strain through a jelly bag. A thicker and better flavored jelly is obtained by adding one-third grapes or apples. To every pint of juice add one pint of white sugar.

To Make Glassware Shine.

Tumblers and wine glasses should be washed in hot water and rinsed in cold, and should be dried with a clean cloth as soon as possible, and when perfectly dry rubbed with tissue paper. For cruets, decanters, etc., tear up some clean newspapers into pieces about as big as ten-cent pieces, put into bottles, half-filled with warm water; give bottles a rotary motion. When clean, decant and a little practice throws out the paper. They will be as bright as new. To clean glasses—wine glasses especially — which have become discolored on edges, use cigar ashes, friction and a damp cloth.

A Reliable Home Tonic.

Once a woman has become a convert to the lemon cure, many uses of this valuable toilet accessory suggest themselves to her. She will discover that nothing is so purifying to her complexion as lemon juice taken as a tonic. The juice of a lemon, taken without sugar in a large cup of very hot water, immediately upon rising, is the best of medicines.

Matter of Economy.

"Why do you carry your purse in your hand instead of in your pocket?" he asked.

"For economy," she replied. "If a pickpocket ever got into my pocket he'd more than likely tear my gown, while if he grabs the purse out of my hand the loss would be only three cents, some samples and a postage stamp."—Chicago Post.

TWO NEW COIFFURES.

its complicated arrangement for its beauty.

The lower portion resembles in effect the popular figure eight twist, while the upper part is a clever combination of the Psyche and puff arrangement.

COOKING VEGETABLES.

A Few Rules Whose Observance Will Add Materially to the Pleasures of the Table.

It is a well-known fact that beans, lentils and split peas do not boil soft in hard water. The sulphate of gypsum, the salts of lime, coagulate the casein which these seeds contain. In some cases, however, the solvent power of pure soft water is so great that it destroys the firmness, color and skin of green vegetables and allows their juices to be extracted in the process of boiling. It is especially true of beans and green peas. Therefore, hard water, instead of soft, should be employed in these cases. A tablespoonful of salt added to a gallon of soft water hardens it immediately. Eminent French authorities say use one tablespoon of carbonate of ammonia for producing the same results.

If green vegetables are wilted, soak them for more than an hour in pure cold water.

String beans usually need to boil for 45 minutes. The addition of a small bit of salt pork will generally minimize any rank flavor and will improve them. When done, drain thoroughly, season with salt, pepper and butter.

Turnips, carrots, cabbage and onions should be boiled in a great deal of water and taken up immediately and drained when sufficiently done; overcooking destroys the taste, and too little water will allow them to turn dark in color.

New potatoes are the best baked.

A very little sugar added to tomatoes, squash, peas, corn, beets and turnips will improve them.

Turnips will cook more quickly when cut into thin slices — otherwise they will need to cook a long time.

Cauliflower should be tied in a net to prevent boiling to pieces.

Summer squash should be steamed and not boiled.

Put a piece of bread the size of an egg into a cheesecloth bag and drop into a pot of boiling greens to absorb the odor.

A little pinch of cayenne dropped into boiling cabbage, green beans, onions, etc., will lessen the disagreeable odor.

All dried leguminous vegetables, such as dried beans, peas, etc., should be put on in cold water, and when they reach the boiling point should be allowed to simmer until done.—Philadelphia Press.

New Pottery.

Some new jugs of American manufacture are modeled after the old English "Toby" jugs. They are to be had in fine china, and also in heavier opaque ware, in all sizes, from the jug that may be used for a family water pitcher to a tiny size that may be used as a cream pitcher. These jugs all have the same form, are short and squat, and represent Napoleon in high-topped boots, waistcoat and breeches, with a dark chapeau upon his head. Dark amber, green or gray, are colors of the most desirable jugs. Other "Toby" jugs and mugs made of jolly German and Irish faces would promote good cheer even if only filled with water. This kind of pottery is much liked for the mantel or buffet in bachelor "dens."

Family Reunion.

Last week F. L. Hardesty's family and G. P. Hardesty, of Felton, attended a family reunion at their father's home near Burrsville. Besides the above there were present Mr. Wm. G. Hardesty and family, of Frederica; C. E. Hardesty and family, of Wilmington; Mr. T. M. Harrington, and family, of Houston; Mr. John C. Hardesty and family and Mr. H. E. Hardesty, of Bridgeville. A picture of the group (29 in number) was taken by Miss Edith Hardesty, of Wilmington, who will present each family represented with a copy.

His Life Was Saved.

Mr. J. E. Lily, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvellous medicine is thesurest and quickest cure in the world for all Throat and Lung trouble. Regular sizes 50 cents and $1.00. Trial bottles free at George & Redden's drug store; every bottle guaranted. 2

An Aged Man's Death.

Louder Sirman, formerly a well-known citizen of Williamsburg, and a resident of our town for a few years, died at the residence of Geo. W. Smith, near Nichols early Monday morning. Mr. Sirman recently fell, breaking his thigh, which coupled with his old age, was the cause of his death. He was about eight years old. Four daughters mourn his loss. Funeral services were held Tuesday afternoon at Williamsburg M. E. Church, Revs. J. M. Lindale and Harry Taylor officiating. Interment in Washington Cemetery.—Courier.

No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents at George & Redden's Drug Store. 2

The Tomato as A Tonic.

According to the North American Practitioner, Dr. True, of Philadelphia, has made quite an extensive experiment with the juice of the red tomato for the purpose of discovering its virtues as a medicine. Dr. True's investigation have led him to adopt the juice of the tomato in cases in which the blood needs toning up. The United States government and the German government have also made experiments and many facts of interest have been discovered. During the recent war with Spain the juice of the tomato was utilized extensively as a health preservative among certain bodies of troops, with results which were eminently satisfactory.

Prepare for Death in Life,

That is the outward part of it in this case so far as stated here. The following is taken from an exchange, but says nothing of these men's hereafter. John Boyer, an old citizen of Rock Hall, Kent county, enjoys the novelty of having a coffin made of one and a half inches of white oak awaiting his occupancy. The coffin was plained off and strongly put together last week by Carpenter Jefferson Ayres, who worked under the special instruction of Mr. Boyer. The coffin is perfectly plain, not even handles being allowed on it. Mr. Boyer is 84 years, and is in perfect health; all his mental faculties are active and he takes a lively interest in local and State affairs. He lives with his daughter and insisted that the coffin be taken directly to his home when finished, stating that he wanted to get accustomed to it, and would get in it and take a smoke sometimes. The daughter objected to this of kind furniture in the house and refused to have it taken in, so it remains at the shop of Carpenter Ayres, subject to the order Mr. Boyer or his heirs.

Another resident of Rock Hall has for 18 years had the walnut lumber for his coffin sawed and in the hands of Undertaker Blackiston, ready to be put together at a moment's notice. He last week made calculations for the bricks to be used in living his grave, stating he proposed to have it dug, bricked up and all ready at a near date in the future. The undertaker says the walnut lumber for the coffin is without a flaw and indeed it is the finest he has ever seen in his experience as a cabnet maker.

The Mosquito Question.

The Baltimore World of last week says: "In Chestertown and Centreville the question is being discussed wheather or not mosquito power would furnish an available substitution for road traction engines and automobiles. A young man in Millington, it is said, has succeeded in hitching eight large mosquotoes to his bicycle and glides over smooth country roads with the grace and rapidity of a Venetian gondola in the Grand canal."

Highway Robbery.

A highway robbery occured last week near Harrington, when Robert Thomas, a colored man who has been employed at the fisheries near Lewes, while returning to Harrington, was held up by four highwaymen and robbed of his watch and $20; he was badly beaten by the thieves and left in the road. He was afterward discovered and taken to a farm house and cared for. The farmers of the neighborhood turned out to hunt for the highwaymen, and traced them to woods the between the scene of the rob bery and Dover. The people are much excited over the assault and robbery of a peaceful man on the public road and are disposed to deal harshly with the desperadoes if they are caught.

Nigara Falls Excursions.

September 7 and 21 and October 5 and 19 are the dates of the remaining Pennsylvania Railroad popular ten-day excursion to Nigara Falls from Philadelphia, Baltimore, and Washington, and intermediate points.

Excursion tickets, good for return passage on any regular train, exclusive of limited express trains, within ten days, will be sold at $10.00 from Philadelphia, Baltimore, Washington and all points on the Delaware Division. A stop-over will be allowed at Buffalo, Rochester, Canandaigua, and Watkins within the limit returning.

A special train of Pullman parlor cars and day coaches will be run with each excursion. An extra charge will be made for parlor car seats.

An experienced tourist agent and chaperon will accompany each excursion.

Tickets for the side trip to the Thousand Islands (Alexandria Bay) will be sold from Rochester in connection with excursions of September 7 and 21, good to return to Rochester or Canandaigua via Syracuse within five days, at the rate of $5.50.

Tickets for side trip to Toronto will be sold at Niagara Falls for $1.00 on September 7, tickets will be sold to Toronto and return at reduced rates, on account Toronto Fair.

Should Hold the Phillippines.

Ex-Gov. Robert E. Pattison, of Pennsylvania, who has been spoken of as a Presidential possibility in 1900, returned last Monday from the extensive tour he has made to the West and Northwest to confer with the various Democratic leaders said:

"I think when the Democratic managers get down to business you will find they will take conversative action. Issues which have been gone over and settled in one campaign and have not been strengthened since by events nor by conditions are not likely to be fought over again. We can expect to win only on new issues.

"The people are too busy to stop to consider whether silver should be 16 to 1 or coinage free. They know that intercourse with the outer world in financial matters must be based on the coin of commerce, whether it be gold, silver, nickle or any other thing of fixed intrinsic value.

"I found everywhere in the West unparalleled prosperity, not in manufactures only, but in agricultural pursuits. Farmers are getting good prices for their products. As they constitute the great mass of the the voters of this country, they form an important part in all political calculations.

"No matter what was thought about everybody knows the result. We are now approaching another campaign, this time with prosperity everywhere. I do not think the farmers and wageworkers, with wages increasing, others coming in from all over the world, and every workingman and every dollar of capital put to the severest tension to keep up with the demands of trade, will stop long to discuss or even consider obsolete issues.

"Yes, you may call it expansion or imperialism. There are seventy-five millions of people in this country to day. So far as I learned from Democrats of prominence and influence everywhere the overwhelming major ity is in favor of pushing ahead.

"After becoming possessed of those outlying countries as the result of a victorious war, we cannot abandon them. If we gave up the Phillippines Germany, France, or England would take them up gladly. They would never revert to Spain, and they certainly would not be left in the hands of native population.

"In addition to this we have $20,000,000 of the people's money invested in these islands, besides the money expended in the war with Spain.

"I believe in making short work with the insurrection in the Phillippines. That is what it is. Settle that part of the question at once; then let Congress arrange the details.

"In Cuba we should hold to our position. Give the island a stable government if the people are adapted to such a responsibility, and, if not, educate, them up to this point. We did that in the Louisiana purchase. See what a magnificent array of states we have there!"

PROCLAMATION.

WHEREAS at a session of the General Assembly of Maryland begun and held in the City of Annapolis on the Fifth day of January, 1898, a Bill was psssed proposing an Amendment to the Constitution of the State by adding a new section to Article Four thereof, to be known as section 31 A, which said Bill and Amendment are in the words following, to wit:

CHAPTER—193.

AN ACT TO AMEND THE CONSTITUTION OF MARYLAND BY ADDING A NEW SECTION TO ARTICLE FOUR.

SECTION I. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND, three-fifths of all the members of both houses concurring, that the following section be and the same is hereby proposed as an amendment to the Constitution of the State of Maryland, and if adopted by the legal and qualified voters thereof, as hereinafter provided, the same shall stand as an additional section to Article 4. of said Constitution, to follow section 31 and to be known as Section 31 A.

31 A. In addition to the sum of five hundred dollars, which by the preceding section the Mayor and City Council of Baltimore is authorized to pay to each of the Judges of the Supreme Bench of Baltimore City, the said Mayor and City Council of Baltimore is further authorized to pay to each of said Judges annually, a sum not exceeding fifteen hundred dollars; provided that the same or any part thereof, being once granted, shall not be diminished during the continuance of said Judges in office.

SECTION II. AND BE IT FURTHER ENACTED, by the authority aforesaid, that the said foregoing section hereby proposed as an amendment to the Constitution shall be, at the next general election to be held in this State, submitted to the legal and qualified voters thereof, for their adoption or rejection, in pursuance of the directions contained in Article 14 of the Constitution of the State; and at the said general election the vote on said proposed amendment to the Constitution shall be by ballot, and upon each ballot, there shall be written or printed the words, "For the Constitutional Amendment," and "Against the Constitutional Amendment," so that the voter may elect; and immediately after said election due return shall be made to the Governor of the vote for and against said proposed amendment, as directed by the said fourteenth Article of the Constitution.

Approved April 9th., 1898.

NOW, THEREFORE, I, LLOYD LOWNDES, Governor of the State of Maryland, in pursuance of the provisions of Section 1 of Article fourteen of the Constitution of the State, do hereby order and direct that a copy of said Bill proposing said Constitutional Amendment be published in at least two newspapers in each county, where so many may be published, and where not more than one may be published, then in that newspaper, and in three newspapers in the City of Baltimore, one of which shall be in the German language, once a week for at least three months preceding the next ensuing general election, (which said general election will be held on Tuesday, the seventh day of November, eighteen hundred and ninety-nine,) at which election the said proposed amendment shall be submitted, in the form and manner prescribed by the General Assembly, to the qualified voters of the State for adoption or rejection.

Given under my hand and the Great Seal of Maryland.
