DENTON, MARYLAND.

THURSDAY, JUNE 26, 1902.

THE platform of the Republicans of Pennsylvania adopted at their State Convention pledges the party to exert itself to renominate President Roosevelt in 1904, stands for reciprocity with Cuba, and approves the action of the attorney-general in instituting proceedings "to check the growth of unlawful combinations intended to raise the price of commodities at the expense of the consumer," and recommended similar action "in all cases where the people are oppressed by trusts or combinations through the illegal manipulation of fuel or food." This is an up-to-date platform and the recommendation in regard to fuel might be profitably put into effect at once.

IT IS very easy to find fa lt, says the Tacoma News, one of the oldest Democratic papers on the Pacific Coast, 'but it would be a difficult matter to improve on the record that has been made by the army and civil authorities in the Philippines in the last four years. The harsh criticism of the army will prove no more effective with the American people than was the campaign in favor of the scuttle policy which was fought to a decisive conclusion in 1900 by the anti-imperialists. The army has done wonderfully well in the Philippines, and every American ought to be proud of its record. The flag will 'stay put.'"

KING EDWARD is prostrated by illness and his coronation has been postponed for two months. In the opinion of many medical men it will never take place. His ailment is appendicitis, for which a successful operation has been performed, but the King is 62 years of age, and his health is already impaired therefore grave doubts of his ultimate recovery are expressed on all sides. The British Empire is shocked and has the sympathy of all christian people. The King will not be out of danger for two o three days at least.

GENERAL KITCHENER is now on his way to London. He is declared to be the most cold-blooded soldier of his time. He is not credited with a single sentiment save in so far as it relates to fighting. He makes no personal friendships and he does not win the love of his men He is simply a fighter and does not care to know anything else.

BRADSTREET'S reports business failures during May the smallest of any month in the year, and also less than those of May a year ago. They numbered 767, against 783 for May of 1901, and 1,049 for May of 1893, a year in which prosperity was a minus quantity. The failures for the first week in June were only 153.

MUDD AND MCCOMAS are at daggers point and the breach between them is widening more and more. McComas' fate is sealed whether the Democrats or Republicans win. He is the biggest Boss in this State.—Kent News.

IT WAS announced last week that a plot to assassinate King Edward had been discovered. Whether this is true or not, that individual is being closely guarded and now rides in a closed carriage.

JAPAN is to spend a million dollars at the St. Louis fair now that it has been decided to allow another year in which to make preparations. The little nation evidently does not mind spending money.

THE Boer farms are to be restocked with American cattle. With beef prices still skyward, the British government appropriation of $15,600,000 will only buy a few hundred head.

Frosts are reported in Western Maryland. This may be accounted for by the coldness prevailing between the political leaders of both parties in that part of the state.

THE country breathed great sighs of relief to learn that Mr. Bryan had returned safely from Cuba to look after the United States.

—Another rural mail delivery route has been established in Dorchester county, Cambridge post-office being the stating point. Joseph Mayne has been appointed regular carrier, with Albert H Mayne as substitute, to go into service on July 1. This makes four routes that go from Cambridge, with the possibilty of another one being established shortly.

—The County Commissioners of Dorchester, have given orders to the road supervisors to stop work on the public roads in the county.
