Farmers in this vicinity will be interested to learn that after a long search the Department of Agricultural, in Washington, has found an insect which it believes is an enemy to the San Jose Scale, and which, it also believes, will wipe the enemy of the peach tree off the face of the earth. The department will distribute this bug to peach growers, including Delaware, this fall, and if it turns out to be all that is claimed for it, will result in the saving of thousands of dollars each year in this State alone.

"The Hound of the Baskervilles"

Sherlock Holmes' greatest piece of detective work is done in the new story by Dr. A. Conan Doyle, "The Hound of the Baskervilles." Holmes himself says to Watson, his co-worker. "Here at last is a foeman worthy of our steel." The result is a story which, for thrilling interest stands by itself. From the first discovery of the hounds trail, when the dried up poung doctor brings to Sherlock Holmes the ancient manuscript, to the final scene where the great detective is brought face to face with the monster of the moorland, there is not a sentence that does not carry the reader breathlessly forward. It is a great novel with a great subject, by a master of the craft. This thrilling story began in "The Philadelphia Press" Sunday, July 6th.

BASE BALL.

Denton Shuts out Greenwood—Twelve Inning Game with Centreville.

The Denton ball team went over to Greenwood on the 4th and played the second game of the season and first game off the home grounds. Passenger agent Uhler, of the Queen Annes road allowed the club and those with them the privilege of going over on the early freight, in order to play the game in the morning. Regular excursion rates were allowed. The game proved quite interesting and a decided victory for Denton. Burris pitched a faultless game and was caught by Marine in faultless style. Davis a former Washington College pitcher was in the box for Greenwood and did excellent work but was given poor support in the field. The line up was as follows:

Greenwood--Satterfield c, Davis p, McCauley 1b, Lord ss, Collison cf, Spanish rf, Conaway 2b, Morris 3b, Todd lf.

Denton—Charles 3b, Goldsboro 2b Willey ss, Marine c, O'Meara cf, Smith rf, Evans lf, Alburger 1b, Burris p.

Score by innings:

	1	2	3	4	5	6	7	8	9	Tot'l
Denton,	0	0	1	0	2	0	0	0	5	8
Greenw'd	0	0	0	0	0	0	0	0	0	0

The game on Saturday was the most hotly contested and best all-around game played here for years.

Charles and Marine were the battery for Denton and not a word of fault could be found with their work Orem and Bontheron were the battery for Centreville, the former being a "left paw" man, of whom the home team were very shy in the first three innings. Before the game was over however they "got on to him" for all kinds of hits, and in the ninth inning tied the score. At the close of the eleventh inning the visitors proposed that the game be called with a tie score of 6 to 6, but it was thought best to play it out and in the next inning the Centreville club scored three runs, winning by a score of 9 to 6. The last five innings were very exciting. Fifteen cents admission was charged and more than 300 people payed to see the game. The grounds are not fenced except by a string of wire, yet very few persons were so devoid of honor as to try to sneak in without paying, and the receipts were sufficient for the expenses of the game.

The work of the battery and infield for Denton was excellent, but in the outfield the visitors had the advantage. The Centreville team is probably the strongest on the shore thus far this season. Six of its men, we are informed, are from Baltimore, and make "hot company" in a ball game. Denton will play a return game on Saturday. A special train has been secured and the round trip fare will be $1. It is thought there will be quite a company from Denton, and persons from points west can take the train at Downes and Queen Anne. The score for the game was so poorly kept that it was impossible to get anything reliable out of it.

The nine was Burris 3b, Charles p, Goldsboro 2b, Marine c, Smith lf, O'Meara cf, Davis rf, Willey ss, Alburger 1b.

A few minutes before going to press a game with Lewes on the grounds here was finished. Score 5 to 0 in favor of Denton.

Ridgely will play Centreville at Ridgely this afternoon.

"Is Life Worth Living?"

Is life worth livin'? I dunno,
Maybe so and maybe not,
Haven't time jes now, you know,
Fur to figure out my lot;
When the sky is free from storm
An' the birds begin to sing,
Then I think it most too warm
Fur to go to figgering.

I jes' haven't got the time,
Since the sun is kind o' hot,
Fur the solemn an' sublime,
I'm huntin' fur a spot,
Cool an' shady in the wood,
Where the buds are lookin' out,
Sort o' sets you feelin' good,
Nuthin' fur to think about.

Is life wuth livin'? I dunno,
Maybe so an' maybe not,
Haven't time to think, you know,
Since the weathes's got so hot,
An' I'm busy as a fly
Walkin' on a sinner's pate,
Goin' fishin,' that is why
I'm so busy--diggin' bait.

Is life wuth livin'? don't ask me,
Haven't time the truth to state,
I'm a-tryin' to keep free
From all serious debate.
When the summer days roll by
An' the weather's cool an' bleak,
Then perhaps I'll argufy,
Fur to heat up, so to speak.

Maryland Ranks Second.

"Several years ago the failure of the Delaware peach crop used to mean an awful lot to us," said a wholesale produce merchant the other day. "It meant practically that our early supply was cut off, for Maryland was not then competing so much with Delaware, and, anyway, the failure of one crop would virtually mean the failure of the other, both being very much in the same belt. Conditions are such now that we can get along very well without the Delaware crop, since Georgia has come to the front as a peach-raising State, and the Georgia peaches last pretty well up to the time the Jersey shipments commence. Delaware, according to statistics compiled last year, now occupies fourth place in the peach-growing States of the East. Georgia is first, with 7,660,000 fruit-bearing trees; Maryland is next, with 4,015,000 trees; New Jersey next, with 2,700,000, and Delaware fourth with 2,400,000."—Philadelphia Record.

Shark a Letter Carrier.

Mrs. George Cummings, of West Cape May, has received a letter which she highly prizes. A little over a year ago when she was Miss Beulah Bate, a school teacher, she wrote a message, put it in a rubber stoppered bottle and threw it into the waters of the Delaware Bay near her parents' home, Fishing Creek.

The letter received a few days ago was written by the captain of the British warship Thunder, as an answer to her message. The commander of the Thunder stated that while off the coast of Portugal, a shark was caught, and on cutting the fish open the bottle was found inside.

Independents Want Jackson.

A prominent Republican of Dorchester had a brief inprerview with Congressman W. H. Jackson at his Salisbury home last week. Mr. Jackson, we are told, was in good spirits, and not the least disturbed over recent events regarding federal patronage. He considered that he had not received proper treatment, but did not intend to let trifles of that sort sour him, or prevent him from attending to his regular duties both as a business man and a representative in Congress. In all probability he will be the party's nominee the coming fall, and while he regrets the differences that have caused division in the ranks of the party particularly in Dorchester and Talbot is not disposed to censure anybody, but expresses the hope that all dissentions will cease and all elements in the party come together and work for the success of the ticket in the approaching contest. He will not push his claims for the nomination, but it is understood that if the convention calls him, he will not decline. In our opinion, Mr. Jackson is the strongest man the party can name at this time, and really the logical candidate. He is the one man who can more surely unite the party in the First District and if the Republicans cannot win with him, the probabilities are that they cannot win at all. So far as we know there is no division in Dorchester as to his nomination, but some of us think he will show a mighty forgiving spirit if he does much to strengthen the chances of a certain individual in future contests. —Dorchester Era.

Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dullness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress. Hugh Duffy, Hillsboro.

A Handsome Steamer.

The new single screw steel steamer Queen Caroline, which was built by the Baltimore Shipbuilding and Drydock Company and which was launched on May 13 last, has been completed and was formally turned over to her owners, the Queen Anne's Ferry and Equipment Company last week.

The Queen Caroline will run between Lewes and Cape May in connection with the Queen Anne's railroad from Baltimore by way of Kent Island. She was designed by Mr. Charles Green. The vessel is a fine specimen of a modern passenger steamer of the average size in American waters. She will be handsomely and tastefully furnished. Her passenger accommodations and appointments are most beautiful, while the color schemes of woodwork and draperies are pleasing. On the main deck aft are the social hall, news stand, purser's office and the main dining saloon. Abreast the machinery space on the same deck are the gentlemen's toilet and engineers' rooms. The forward part of the main deck will be used for freight. All of the staircases are finished in oak and artistically designed. The main saloon is located on the promenade deck, where are also six state rooms and the ladies' toilet.

A Great Swimmer.

William J. Glover, Jr., the champion long distance swimmer of Maryland, who was prevented from carrying out his plans during the past week in undertaking to swim from Poole's Island, at the head of the Chesapeake Bay, to Baltimore, a distance of 30 miles, on account of the very rough condition of the water, will await for more favorable conditions and then attempt his thirty mile swim. No date has been set for the attempt. Glover expects to go to Narraganett some time in August. This will be the first time that Glover has ever swam any distance outside of the Maryland waters and he expects to gain a reputation in this way.

Manager Nagle said that he would make arrangements for Glover to swim in other towns and is seriously thinking of taking his champion to England and having him swim across the English Channel to equal the late Captain Webb's feat of going the distance across the English Channel in 21 hours and 45 minutes, and will, if he gets on the other side try to even reduce this record. Glover has the stuff in him and all he wants is the respect of the public as to his real ability. One of his most remarkable swims was when he was just 12 years old. He swam 13 miles without training and no care was taken of him while in the water. After leaving the water he walked from Sparrows Point to his home in Baltimore.

Reduced Rates to Tacoma.

—The Board of Pardons met in Dover on Tuesday and refused to recommend pardons for John Lynn and Henry M. White, convicted of obtaining money from New Castle county under false pretences. The board did not act upon the petition for pardons of John Bennett, John R. Mills, Jacob C. Wilson and Wilbur E. Mills, convicted of assaulting Bethnel W. Hall, of Milford Neck. There was a general belief in this town that fox hunters would be pardoned. The board will take the matter up again at its next meeting.—Milford News.
