To Improve Streets and Roads.

Apropos of the the movement for good roads and streets, now becoming very general throughout the State, Salisbury is making great strides in this direction, as is evidenced by a recent act of the Mayor and City Council. The committee appointed by Mayor C. R. Disharoon on December 12, to investigate ways and means for paving a portion of Salisbury's streets with more substantial material than shells, held a meeting and are now ready to make their report, except that they have invited A. N. Johnson, of the road division of the Maryland Geological Survey, to inspect the streets and go over their plans. If their conclusions receive his approval the report as adopted will be laid before the city council. Subject to Mr. Johnson's approval the committee has decided on vitrified brick with a cement foundation. The cost is estimated to be $2 per square yard. According to the existing law the city pays one half the expense per running foot and the property owners on either side of the street one-quarter. The cost of $2 per square yard is estimated to be about $8 per running foot. The total expense will be about $27,800, of which the city would pay $13,900. For this amount bonds will be issued.

Dr. Grise Sleeps in a Tent.

Dr. Grise had been in poor health for some time, caused by an aggravated case of catarrh. Last summer he consulted an eminent physician, who told him that the best way to affect a cure was to sleep out of doors as much as he could.

Maryland Game Laws.

Three bills affecting the game laws of the State were endorsed by the Executive Committee of the Maryland State Game and Fish Association at the recent meeting at the Eutaw House, which will make radical changes in the laws if passed by the Legislature. The bills have reference to the general game laws, to the law regulating the shooting of ducks on the Susquehanna flats and the Game Warden law. The second was drawn by Mr. J. M. Chamberlain, of Havre de Grace, and the other two by Mr. Oregon Milton Dennis, Secretary of the Association.

The first bill provides that all residents of the State who desire to shoot game shall be required to take out a license, paying $1 for the license and 25 cents to the Clerk of the Court of the county as a fee. Nonresidents are required to pay $10 and 50 cents fee to the Clerk of the Court.

No gunner is allowed to kill more than 15 quail or 100 reedbirds on any one day. The numbers fixed in the original draft of the bill by Mr. Dennis were 12 quail and 50 reedbirds, but were changed to the numbers given. All game is declared the property of the State, and game birds are defined. Marsh blackbirds were put in the original list, but were afterward stricken out.

The open season for quail and rabbit is to be from November 1 to January 1. For other game it remains as in the present law. It is unlawful to kill birds or game when the ground is covered with snow, on election day or Sunday, or to have any game in one's possession on those days. The provisions of the bill are stringent in regard to the killing of non-game birds or the destroying the nests or eggs of birds, and the provisions against trapping or netting are also stringent. It is provided that eggs may be collected for strictly scientific purposes, but the person so collecting must hold a certificate from the State Game Commission.

It is also provided that no game shall be killed except with a gun which is habitually raised at arm's length from the shoulder. No game is to be killed one hour after sunset or one hour before sunrise. No ferrets or weasels are to be used in hunting. The bill provides that dogs unaccompanied by the owner found pursuing game may be killed by any person.

The original bill contained a provision prohibiting the importation of game into this State or offering it for sale during the open season, but this was stricken out and the bill merely prohibits the exportation of game from the State.

The Game Warden bill provides for the appointment by the Governor of five citizens of the State, no two of whom are to be from the same county, and the designation of one of them to act as President or State Game Warden, the board to be known as the Board of Game Commissioners. The duties of the board are defined and they are given jurisdiction over all matters relating to the preservation of game and are to report annually to the Governor.

The board is given authority to appoint one deputy game warden from each county, and to appoint such other deputies as may be necessary, not to exceed ten from any county and thirty from Baltimore city, as he may deem necessary for the enforcement of the law. The deputy wardens are given police powers in regard to searching for game or weapons.

The President of the Board of Game Commissioners is required to give a bond of $10,000 and his salary is fixed at $1,200 a year and expenses not to exceed $800, and is entitled to a commission on all license fees collected over and above expenses for salaries and other expenses provided in the bill. The board is also allowed to appoint three assistant game wardens at a salary of $300 each. The deputy wardens are to receive $2 a day for the time they are actually employed.

An appropriation of $5,000 a year is made for the purpose of carrying out the provisions of the act, but this is not to be used unless the receipts from licenses and other sources should fail to meet the expenses of the board. The members of the board other than the President are to serve without compensation.

Foley's Honey and Tar never fails to give instant relief and quickly cures the worst forms of croup. Mrs P. L. While solid sheets of ice on our sidewalks, smooth as glass, made walking dangerous last week for "grown ups," a carnival of skating was enjoyed on Linchester lake by the "grown folk" where daily scores of happy, if not scientific skaters, might be seen.

An express train passed through here Friday last, about midnight. It was learned later that Dr. Glasscock, of St. Michaels, had chartered a car for his wife, who had diphtheria in a virulent form, and took her to the Cambridge Hospital, where to save her life a surgical operation was performed at once upon her throat.

Quite a colony of gypsies has been encamped since Christmas near Linchester in Wright's woods. They were reported to comprise some eight or ten families, and had with them thirty horses. We have heard of no depredations committed, and very few fortunes told during their stay. They probably had all they could do to keep warm. The last remnant of these wanderers forsook these parts last week.

Congratulations.

Mr. John H. Cullom, editor of the Sherland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy, as follows: "Sixteen years ago when our first child was a baby, he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose I congratulate you upon the success of your remedy." For sale by R. J. Colston, Denton; J. V. Davis, Druggist, Ridgely.

A Bargain For Farmers.

The New York Tribune-Farmer, a national illustrated agricultural weekly of twenty large pages, has no superior as a thoroughly practical and helpful publication for the farmer and every member of his family, and the publishers are determined to give it a circulation unequaled by any paper of its class in the United States.

Knowing that every enterprising, up to-date farmer always reads his own local weekly newspaper, The New York Tribune-Farmer has made an exceedingly liberal arrangement which enables us to offer the two papers at so low a price that no farmer can afford to lose the opportunity.

The price of The New York Tribune-Farmer is $1.00 a year, and THE AMERICAN UNION is $1.00 a year, but both papers will be sent for a full year if you forward $1.25 to THE AMERICAN UNION, Denton, Md.

Send your name and address to The New York Tribune-Farmer, New York City, and a specimen copy of that paper will be mailed to you.

WHAT'S IN A NAME.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co., of Chicago, discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding itching, or protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitts salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold by A. L. Duffy, Hillsboro, Md.
