The Story of Acetylene.

Many of our citizens who use the beautiful acetylene lights furnished by the Citizens Light and Fuel Co., will be interested in the following article.

Sir Hiram Maxim, C. E., M. E., writes in Harper's Weekly of the way in which cheap acetyelene gas was discovered. The discovery was made accidentally. Wilson, a scientific experimenter, believed that nearly all metalic oxides could be reduced to a metalic state by heating them to an extremely high temperature by the voltaic arc in the presence of free carbon. Mr. Wilson wished to obtain metalic calcium He therefore mixed a quantity of quicklime with pulverized coke, and brought the misture to a high temperature by the action of the voltaic arc He expected to obtain a white metal, but instead he appeared to produce nothing but slag. This was thrown into the yard, and one day at noon while the boys were having their luncheon they picked up these bits of slag and threw them at each other. One piece fell into a pail of water, and produced a bubbling effect and a strong odor. This attracted Mr. Wilson's attention, and upon investigation he found that the strong smelling gas was extremely inflammable. Further investigation revealed that it was pure acetylene gas.

Fire Marshal Condemns Gasoline Stoves.

The seventh annual report of the State Fire Marshal has just been issued by Fire Marshal R. M. Price. It contains a record of the number of fires during the past year and the cause of each. In addition, the losses are given and the amount of insurance on the buildings destroyed. Several pages are given to the law providing for the appointment of a State Fire Marshal and the duties of the office.

According to Marshal Price's report, the number of fires in Baltimore and the counties of Maryland from May 7, 1901, to May 7, 1902, May 7, 1903, was 1503. In the counties there were 950 fires, and the total loss therefrom was $2,219,992 96. The amount of insurance paid in the counties was $1,463,986 28.

Several paragraphs are devoted to a discussion of fires caused by gasoline stoves, which Marshal Price declares to be an "ever-increasing menace to the safety of our people throughout the State." The report says, "Inasmuch as there is possibly no way of abolishing this great contrivance of danger by legislation, there remains but one thing to do, and that is to surround the use of the gasoline stove with every safeguard that our law makers in their wisdom can discover."

Marshal Price suggests the establishment of a board whose members shall have authority to surround the use of gasoline stoves with such safeguards as common sense and technical knowledge of these dangers can suggest.

Levy Court Business.

A delegation of citizens of the 5th district, including H. B Messenger, Thomas H. Chambers, Rufus Noble and Robert Messenger, were before the commissioners asking for a small appropriation for shells to repair the shell-road between Federalsburg and Hynson.

Messrs. J. W. Kerr, J. Boon Dukes and J. T. Sylvester, also requested shells to repair the shell road leading south out of Denton.

A number of prominent citizens of the county having requested the commissioners to call a public meeting to discuss the public road question, they have set Tuesday, Feb 2, for the meeting and publish the call for the meeting in another column of this issue.

Conference Talk.

In more respects than one the approaching session of the Wilmington M. E. Conference, to be held in Dover, will be of unusual interest. In addition to the Annual Conference of ministers, there will be sessions of the Lay Conference to choose four delegates to the General Conference of the church, while the Annual Conference will also elect four delegates. Presiding Elders will be appointed by Bishop Fitzgerald to succeed Rev. Robert Watt on the Wilmington District, and Rev. C. S. Baker of the Dover District, and other important business will be transacted, foremost among which will be definite action in both Annual and Lay Conference on the amusement question.

In various parts of the country, particularly in New York city, the amusement question has been widely discussed by ministers and laymen, and a sentiment has been created favorable to a more liberal attitude of the church toward worldly amusements, such as dancing, the theatre and card playing.

Inasmuch as the present agitation presages that the amusement question will occupy a prominent place in the discussions of the next General Conference, both Annual and Lay Conferences of the Wilmington Conference will take a formal stand on the question in Dover next March. The subject will be brought to an issue by the presentation of resolutions instructing the ministerial and lay delegates to the General Conference to vote against any amendment to the amusement clause in the Discipline, or any change in the church laws that will tend to a more liberal stand on the amusement question. That such a resolution will be brought before both Annual and Lay Conferences now seems assured.

Naturally the most interest centers in the selection of Presiding Elders for the Wilmington and Dover Districts. From present indications Rev. A. S. Mowbray, of Port Deposit, is the most likely successor to Dr. Watt on Wilmington District. Several other ministers are spoken of for the Wilmington District Eldership, but Dr. Mowbray seems to be the choice of the ministers on the District. Among the other ministers mentioned in connection with the Wilmington District Eldership are Revs. T. A. H. O'Brien, W. L. S. Murray and C. T. Wyatt.

For the Dover District the men spoken of for the Presiding Elder are Revs. Robert Watt, Vaughan S. Collins, and several others now on the District. The most probable selection, viewed from the present, is that of Dr. Collins. This would leave Port Deposit open as a pastorate for Dr. Watt in event of Dr. Mowbray becoming Elder of the Wilmington District, or would leave Smyrna open for Dr. Watt should Dr. Collins become Presiding Elder for Dover District.

As to delegates to the General Conference, the slate makers are busy. Among the four ministers mentioned as most likely to be honored by being chosen delegates are Presiding Elder Robert Watt, Rev. A. S. Mowbray, Presiding Elder W. G. Koons and Presiding Elder Adam Stengle. Others mentioned in connection with delegate honors are Presiding Elder C. S. Baker, Dr. W. F. Corkran, Rev. C. T. Wyatt, Rev. S. M. Morgan, Dr. V. S. Collins and numerous others.

Samuel H. Baynard is also being mentioned by his friends.

Among other Laymen mentioned as delegates are R. P. Jones, Jas. E. Carroll, Dr. A. W. Harris, Senator Thomas A. Smith, Henry P. Cannon, Walter O. Hoffecker and United States Marshal Wm. R. Flinn.

Congratulations.

Mr. John H. Cullom, editor of the Garland, Texas, News, has written a letter of congratulations to the manufacturers of Chamberlain's Cough Remedy, as follows: "Sixteen years ago when our first child was a baby, he was subject to croupy spells and we would be very uneasy about him. We began using Chamberlain's Cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our babies really like it. Another is that it is not dangerous, and there is no risk from giving an overdose I congratulate you upon the success of your remedy." For sale by R. J. Colston, Denton; J. V. Davis, Druggist, Ridgely.

—A new Democratic newspaper is being talked of for Dover. It will undertake the work of uniting the Democratic factions and fighting Republicans and Addicks, instead of fighting Democrats. It is being planned for Benjamin F. Simmons, Jr., proprietor of one of the largest printing plants in the state of Delaware. Mr. Simmons and his associates think that both the leading Democratic papers of Dover are spending time which ought to be occupied in fighting the Addicks Republicans in petty quarreling for supremacy in their own party.

FATALITY OF PNEUMONIA.

Pneumonia is the most fatal of all acute affections, being second only to consumption in mortuary lists, all classes, rich and poor, young and old succumb to its ravages. Foley's Honey and Tar cures colds and prevents pneumonia and has cured many severe cases of this disease. "My wife had a severe attack of la grippe and I believe that Foley's Honey and Tar saved her life," writes James Coffee, of Raymond, Miss. Sold by C. H. PRESTON.

The "shut ins" have had much company this winter.

Mrs. John Collins has been visiting friends in Philadelphia.

Mrs. Annie E. Fluharty has been quite sick but is now convalescent.

Mrs. R. I. Lednum is visiting her parents, Mr. and Mrs C. H. Whitby, in Denton.

Dr. J. L. Noble, who has been confined to his home for several days by sickness, is able to be out again.

Mr. Geo. M. Whiteley met with a painful accident last week by badly cutting his foot, while hewing a log, but is now better.

Fruit and oysters have both been scarce articles here since Christmas. Ice bound rivers interfering with transportation the cause.

For culture clubs, or for individual use, we know of nothing better than "The Ridpath Library of Universal Literature." This work has been used in this neighborhood to a great extent for several years.

It is said that stock raising, this year, is to become a more important industry in this neighborhood. More creameries, say one or two about every six miles apart, would likely prove a great source of wealth to our county.

Mr. R. I Lednum joined the Denton-Easton tourist and prospecting party in Baltimore, last week, enroute to the sunny "Land of Flowers." It is said that Mr. Lednum contemplates the purchase of some timber land near the Gulf Coast.

Mr. Norman Lednum was in Federalsburg the first of the week. No doubt several of our young men who find Federalsburg an especially attractive town to visit in, would rejoice greatly when the Preston-Federalsburg sand road becomes a respectable turnpike, and who can blame them.

A Bargain For Farmers.
