Query—would it not be both feasible and advantageous to represent our county in a particular and attractive way at the World's Fair at St. Louis this year? What with our fruit culture, agricultural, horticultural and manufactured goods, why should not the banner county of the Eastern Shore—Caroline—rival in its display that of even the richest county of far off California? Would not our canned goods alone, arranged in geometrical forms, in lovely settings of luscious peaches, golden pears, etc., be worth while?

To Maryland Fishermen.

We have received the following letter from C. L. Vincent, Fish Commissioner for the Eastern Shore, which we publish for the information of fishermen:

"As Fish Commissioner for the Eastern Shore of Maryland, appointed by His excellency, the Honorable John Walter Smith, I have introduced black bass into most of the fresh water rivers of the Eastern Shore to take the place of some of our most excellent food fishes that for some unknown reason are disappearing from their accustomed haunts.

"Bass were planted in the Potomac river by the United States Fish Commission just as I have placed them in your rivers, and the Potomac is now full of them. It ranks in price with the white perch, grows to be a much larger fish, weighing from one-half pound to four and five pounds, has beautiful, white flesh and when hungry takes the hook with avidity. As a game fish it has few superiors and it is my sincere hope to see the rivers of the Eastern Shore become so well stocked with them that it will be an easy matter for those inclined to angling to enjoy much profitable sport. The large mouthed black bass is a hardy fish and very productive and those I placed in your waters should mature and some of them spawn in two years.

"The distributions made were as follows and consisted of fingerlings, two to four inches in length, when planted: Pocomoke river, 1,000; Wicomico river, 1,200; Choptank river, 1,200; St. Martin's river, 1,000; Miles river, 500; White's Lake, 1,000.

"The special object of this circular is to request fishermen who should take any of the bass in their seines or with hook and line this year to liberate them and give them a chance to increase and become plentiful rather than to annihilate them at the very start. Already bass weighing one and a half pounds have been taken in the Pocomoke river. As soon as I came into possession of them I notified the fish raisers and they very willingly agreed to liberate bass taken by them for a time so that they might have opportunity later on to profit by the increase.

Very respectfully,
C. L VINCENT,
E. S. Fish Commissioner."

Catarrh Cannot be Cured

with local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years, and is a regular prescription. It is composed of the best tonics known combined with the best blood purifiers, acting directly on the mucous surfaces. Sworn by Holy Harem.

For the first time in years, perhaps ever, the oath of Mohammed was administered in the Court of General Sessions in New York on Thursday last, and its administration caused a flutter in the court room. The case was one of assault, in which George Elias, a Syrian, was charged by a compatriot named Hasib Mahass with the crime. The latter's counsel asked that they be sworn according to their religious belief. The court interpreter knew the text of the Mohammedan oath, and the Syrians were duly sworn. This was the oath: "Do you swear by the beard of your Prophet Mohammed, by the Holy Harem and women and their virtue, and the faith of your people, that you will tell the truth, the whole truth and nothing but the truth?" The Syrians said they did and the trial went on.

TREATMENT OF PNEUMONIA.

Pneumonia is too dangerous a disease for anyone to attempt to doctor himself, although he may have the proper remedies at hand. A physician should always be called. It should be borne in mind, however, that pneumonia always results from a cold or from an attack of grip, and by the proper treatment of these diseases a threatened attack of pneumonia may be warded off. There is no question whatever about this, as during the thirty years and more that Chamberlain's Cough Remedy has been used, we have yet to learn of a single case of a cold or attack of the grip having resulted in pneumonia when this remedy was used. It is also used by physicians in the treatment of pneumonia with the best results. Dr. W. Z. Smith, of Sanders, Ala., who is also a druggist, says of it: "I have been selling Chamberlain's Cough Remedy and prescribing it in my practice for the past six years. I used it in cases of pneumonia and have always gotten the best results." For sale by R. J. Colston, Denton; Davis, Druggist, Ridgely.

Easy Pill

Easy to take and easy to act is that famous little pill DeWitt's Little Early Risers. This is due to the fact that they tonic the liver instead of purging it. They never gripe nor sicken, not even the most delicate lady, and yet they are so certain in results that no one who uses them is disappointed. They cure torpid liver, constipation, billiousness, jaundice, headache, malaria and ward off pneumonia and fevers.
