The hoes was soon connected up and the new water plant put into service on a fire for the first time. The fire spread to adjoining houses on each side, but was kept in check so that only the one house was burned down. A shed with an iron roof, on the property belonging to Mrs. Elizabeth Jewell, gave the firemen the most trouble and holes had to be cut through the sides before the fire conld be reached. The supply of water and the pressure were both satisfactory; but the fact was fully demonstrated that more hose is needed.
