Mr. A. G. Gelletley, of near Williston, brought the first home-grown strawberries of the season to this market on Tuesday. They were of the "Excelsior" variety and sold at 10 cents per quart.

Quite a number of people from town and the country around improved the opportunity to visit the city on Wednesday and Thursday on account of the cheap railroad fare. Many of those who went over attended the big circus.

The new Centreville National Bank, which has been in construction for the last ten months, was completed last week. Like the new bank in this place the structure is intended exclusively for banking purposes and is but one story in height. The cost was $35,000.

Mr. E. S. Gunby, of Crisfield, has been in town this week endeavoring to organize a lodge of the Knights of the Maccabees. In the cities this is one of the strongest fraternal orders known, having in all a membership of 371,000. It has a cash invested, or reserve fund of $3,500,000. The increase in membership in 1901 was 56,000 members; in 1902, 74,800; in 1903, 92,280.

Potato beetles are easily destroyed by the use of paris green, and they also have many natural enemies. It is surprising, therefore, how they come every year in large numbers, which may be due, however, to the delay in destroying them. If a few beetles appear no consideration is given to the fact, and they are thus allowed an opportunity to multiply. Every beetle destroyed early in the season, or as soon as it puts in an appearance, will reduce the work necessary another season.

All national banks whose surplus and undivided profits are greater than their capital stock are classed as "Roll of Honor Banks." The "Financier," of New York, has just issued one of these "Rolls of Honor" and we find The Denton National Bank, Denton, Md., has the distinction of being 290th out of 684 roll of honor banks in the United States; 8th out of 19 in the state of Maryland, and second out of four on the Eastern Shore of Maryland. We take just pride in making this statement for our local institution.

He immediately left for Hillsboro and on the following morning he was married to a young lady of that place and left with her for Philadelphia. He had hardly quitted the town when the telegraph brought the news of his theft, but he was out of the State. On Tuesday morning he was arrested by Deputy Sheriff Dukes at Hillsboro, having returned from his wedding tour, and was locked up in the jail at this place. During the afternoon he attempted to escape by crawling through a hole in the door of his cell, 9x9½ inches. He succeeded in getting through to his hips and then got stuck, being unable to get back he called for help and was released from his uncomfortable position. Sheriff Waldron, of Wicomico county, came to Denton and took the prisoner to Salisbury yesterday.

Republican State Convention.

Nothing occured to mar the harmony of the Republican State Convention in Baltimore on Wednesday of last week. A platform was adopted endorsing President Roosevelt, and four delegates-at-large and two electors at large were chosen without a hitch.

Senator McComas presided, and he, with Congressman William H. Jackson, Gen Felix Agnus, and Mr. Stevenson A. Williams, were elected delegates-at-large. The alternates were Messrs. James H. Baker, of Kent; Gist Blair, of Montgomery; Wm. B. Baker, of Harford, and M. M. Mulhall, of Baltimore City.

Chas. J. Bonapart, of Baltimore, and Carlton L. Bentz, of Cumberland, were nominated as candidates for electors-at-large.

The resolutions passed arraign the Democratic party for the mismanagement of National affairs, which policy "created a deficit in the treasury, paralyzed the industries of the country, decreased wages and reduced the home market of the farmer, disbanded the armies of labor, sent capital into hiding, closed our mills and brought panic and hard times upon our country.

"With William McKinley," the resolution continues, "came honest finance, a protective tariff, good wages and full employment to labor, a thriving home market to the farmer, capital emerged from its hiding, manufactures revived and the Nation attained its highest prosperity. Industrial advancement has been steady and permanent."

The delegates were instructed to vote for the nomination of President Roosevelt at Chicago.

An Exhibit of Famous Pictures.

Through the courtesy of Horace K. Turner, of Boston, who has kindly agreed to allow his traveling exhibit of famous pictures to be brought here, the people of this county will have a very rare opportunity to examine this fine collection in detail.

The entire exhibit, consisting of 150 famous subjects, which have been shown only in the large towns and cities of this country, will be at the Caroline High School from June 1st to 4th, inclusive, for the inspection of the public. The object of the exhibit is to raise money with which to buy works of art for the school, while the collection gives an opportunity never before had here, of seeing the finest reproductions of famous works of art. The entire fund received through the sale of tickets comes back into the school in the purchase of pictures, and citizens cannot better perpetuate their good-will and interest in the education of children than by helping this movement in school-room decoration.

As an evidence of the educational value of the exhibit, some opinions from the press may be given:

"The finest collection ever gathered in this country."–Boston Transcript.

"I regard this exhibition as one of the greatest mediums for educating pupils that has been attempted in recent years. The photographs are marvelous works of art, and, in my estimation, have never been surpassed in beauty and merit."--Louis Soldan, Supt. of Schools, of St Louis.

"The finest opportunity ever given the Dayton, Ohio, public to study a representative collection of reproductions of the world's best pictures."—Dayton Evening Herald.

"There is history, poetry, nature, religion, and all that is lovely in life, represented by masters of old and modern times."—Detroit Journal.

The Eastern Shore.

Southern travelers rushing along the strip sliced off by the Chesapeake Bay from the shores of Maryland and Virginia, little realize the importance of the country. The monotonous succession of flat, sandy fields, marshy inlets, and unpretending railway stations hardly tempts the eye from the newspaper, while the through passenger is perhaps unaware that to this strip and its invading tides, his city table whether set for him in Philadelphia or New York, Boston, San Fransisco, or even London, has long been indebted for many of its choicest luxuries; for there are soft-shell crab and caviare‡ quail and ptarmigan reed-bird,, canvass-back duck and diamond-back terrapin, or the early dainties of sea and shore, orchard and garden, too numerous to catalogue.

This backbone railroad and its branches have carried northward in one year over 10,000 carloads of peaches and small fruits, as many more being shipped by boat or preserved in the canneries and evaporating plants. Ten million bushels of oysters are taken yearly, giving employment to over thirty thousand persons. In the northern half of the two-hundred mile strip is a fine wheat and grass growing section, while figs and pomgranites come to perfection at its southern extremity. To enjoy these kindly fruits of the earth and sea, six million consumers wait within twenty hours distance from the lowest point of the peninsula, and wheels and keels bring its farmers, fruit raisers and fishermen into quick contact with the markets of the world. Well may this narrow sand strip be called the Land of the Epicure.—Philadelphia Record.

A "Jim Crow" Store.

The members of the "Nazarites," a colored fraternal organization, have started up a cooperative grocery store in Centreville, which will cater to colored trade exclusively. Henry Nichols is manager.

Last Friday was opening day. The store is two doors below Kenton's on Water street, and a fair supply of canned goods, meats, crackers, coffee, etc., was on display. DEAFNESS CONNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube, when this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

I'm married. ROBERT M. McLANE.

The Mayor's bride was Mrs. Mary Van Bibber, widow of the late John Van Bibber, of Baltimore. The Mayor had been paying attention to her for a long time, but the fact that he was to be married to her on Saturday was not known even to his closest friends. The ceremony was performed by Rev. Geo. C. Carter, in Washington at noon. The Mayor and his bride arrived in Baltimore on Monday.
