### Commencement Exercises.

The Commencement Exercises at the High School while always popular with the public, seem to have possessed unusually attractive features this year, if we are to judge by the attendance. ### Would Have a Special Decoration Day.

We have received the following letter from Rev. George H. Nock, State Superintenpent of the Maryland Sunday School Union.

"Recently the graves of those who fought and died for their country have been decorated with flowers, accompanied by strains of music and words of grateful and eloquent praise This was a fitting honor to the memory of brave men.

"In every cemetery in this commonwealth are the graves of men and women who have left behind records of heroic sacrifice in behalf of the truth. Through summer's heat and winter's cold they have wended their way to the Sunday School room to teach children the word of God, and on these children's lives they have impressed the sweetness and power of their own lives. These children should not be permitted to forget their spiritual benefactors, nor cease to be grateful to them for their labors in their behalf.

It is therefore urged that each of the Sunday Schools of the State of Maryland, some time during the month of June, assemble in the cemetery, and, with appropriate exercises, decorate the graves of deceased Sunday School officers and teachers, and other members. Aside from the immediate impressiveness of the occasion, such observance will have an uplifting influence on the school and community.

"Any school desiring a suggestive program will be thus aided by applying to the Superintendent at 316 N. Charles street, Baltimore."

### More Telephone Connections.

As mentioned last week the Diamond State Telephone Company is connecting up numerous new lines and one of them should especially benefit Denton and the upper part of the county. The linemen completed the work of stringing additional wires and making connections here on Saturday, and we now have direct communications with Dover, Camden, Wyoming, Willow Grove, Henderson and Goldsboro. This system now comprises 5,000 miles of wire and gives an opportunity of talking with persons in almost any town in Delaware on the Eastern Shore of Maryland. The ability to communicate with Baltimore, Philadelphia, New York or Boston, direct from towns on the peninsula, affords business opportunities the value of which can hardly be estimated.

### Peach Crop All Right.

Robert H. Wilson of Dover, gives the following opinion in regard to the peach crop:

"At the present moment the peach crop in Kent county at least is still safe and satisfactory and it is presumed the situation is the same all over the peninsula. These has been a very heavy drop of the young fruit which is far from being over. There has also been a peculiar rot which the veteran peach grower has not been able to account for. But with all these deductions there is still a full crop, averagely, left, and the grower has about made up his mind that we are in a peach year.

Of course a hail storm would do the business up in a few moments, but with the usual Providential favors and blessings our city friends will have peaches cheap and plentiful enough, and it is hoped they will get ready for them. There are some pears, and the apple crop will be fairly satisfactory.

### FOR A HUNDRED YEARS.

For a hundred years or more Witch Hazel has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co. of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits, and the public is advised to look for the name "DeWitt" on the package, and accept no other. Sold by A. L. Duffey, Hillsboro, Md.

### Barefoot in Church.

As an example to his congregation lest they should give themselve over to pride, vain-glory, and hypocrisy, the Rev. Robert Watson, pastor of First Prebyterian Church, of Oxford, one of the largest and most fashionable congregations in Chester county, Pa., sent his children to church without their shoes and stockings on Sunday morning.

His action has caused considerable comment among the members of his congregation, which includes some of the most influential citizens in the county. It is said that Dr. Watson is a zealous advocate of the simple life, and considers that entirely too much attention is paid to "Wherewithal shall ye be clothed." His sending his children barefooted to church is looked upon as a rebuke by many members of the church.

### Verdict for 13,800.

In the case of William J. Hamilton and Joseph Blair, of Philadelphia against George Warfield and the Chester River Steamboat Company, which was on trial in the United States Circuit Court for several days last week, the jury Saturday last returned a verdict in favor of the plaintiffs for $10,000 without interest. On May 31, 1902, Mr. Warfield, as President of the Chester River Steamboat Company, sold all the assets of the company to Charles H. Carritt, of Philadelphia, for $260,000, $10,000 to be paid upon the execution of the contract of sale, $40,000 within four months thereafter and $150,000 within six months from the date of contract, and the remaining $60,000 in the bonds of a railroad to be constructed from Chestertown to Rock Hall. The $10,000 was paid, it was alledged, upon an untrue statement made by Walter W. Hess of the earnings and operating expenses of the Chester River Steamboat Company from 1897 to 1901, whereupon the deal fell through and the repayment of $10 000 was demanded. Mr. Warfield, declined to pay back the money, claiming that the plaintiffs had no right to rely upon Hess' statement. In a second case—of H. N. Trimble against Mr. Warfield, personally, the two cases being tried together—the jury awarded the plaintiff a verdict for $3,800, without nterest. In this case, in consequence of the proposed sale of the Chester River Steamboat Company, Mr. Trimble alleged that he had spent over $5,000 in forming a corporation to be operated in connection with the steamboat company, and sued to recover the money thus expended.

### The Attractive Girl.

It is the girl who does things in this world who is attractive, both to men and to her own sex, which last counts a little in the long run. You may not be able to do great things, to paint great pictures or to sing in grand opera, but you can learn to make bright little things for yourself and your friends, and perhaps to play the light, cateny airs of the day so that your friends will enjoy them, and if you can't do anything else, cultivate the art of talking brightly. Every girl can do one thing well if she will only take the trouble to find out what that thing is. The difficulty is that she often looks in the opposite direction; she wants to do something showy or nothing at all. But there are other talents within reach if she will only look, and these talents may be such a comfort to her in her dark hours that they will make life better and happier both for her and those about her. How the world likes a cheerful, plucky girl who makes a brave fight and hides her skeleton in a closet instead of folding her hands and whining because things don't come her way.

### SUED BY HIS DOCTOR

"A doctor here has sued me for $12.50, which I claimed was excessive for a case of colera morbus," says R. White, of Coachella, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used as I had good reason to believe that it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by R J Colston, Denton; Davis, Druggist, Ridgely, Md.

### An Old Marriage Law.

How many of our readers are aware that there is a provision in the code which prohibits citizens of Maryland from being married in any other State. Such however is a stubborn fact. Article 23, Section 197 of the Code of Public General Laws, volume 1, says very specially: "Any resident of Maryland who goes out of the State to wed another resident of Maryland without obtaining the necessary license or giving public notice is guilty of misdemeanor and shall pay a fine of $100." The law was passed in 1860, and is almost like one passed in 1775 or earlier. The law was adopted to prevent elopements and has never been repealed.
