Archduke Joseph of Austria is building a splendid palace at Buda-Pesth. He is in sympathy with the Hungarians and has mastered their language.

One of the wealthiest heiresses in the world is Lady Mary Hamilton, only daughter of the late duke of Hamilton. She is a charming girl of 19, and in two years will be mistress of £200,000 a year.

Emperor Menelik has written a letter to the king of Italy informing him that he will no longer celebrate the anniversary of Adowa by military demonstrations, and will in future commemorate it only by a religious festival in honor of the Abyssinians and Italians who fell on the field of battle.

Empress Alix of Russia recently had her portrait painted by Fritz von Haulbach. She retains her love for her old German home at Darmstadt, and loves to spend a few weeks there whenever she can. She dislikes politics and public ceremonies, and is of a decidedly domestic disposition.

On May 17 Alfonso of Spain was 18 years old, and he has been every year a king. In that respect he differs from Christian of Denmark who, although he celebrated the eighty-sixth anniversary of his birth last month, did not become a king till he was 45 years old. Indeed, Alfonso is perhaps the only donarch known to history who was born a king.

The crown prince of Germany and his younger brother, Prince Eitel Fritz, are much dissimilar in character and disposition, the latter being extremely retiring and greatly impressed with the necessity for complying with parental authority. The crown prince, on the contrary, on several occasions has suffered through disobeying his august father. The headstrong heir apparent once told a friend that Prince Eitel was "a very good boy, but not the stuff that kings are made of."

The present czar is the first of his race to recognize the legitimate claims of the press. At the outbreak of the present war he granted an interview to Melville E. Stone, formerly of Chicago, and now general manager of the Associated Press. Soon thereafter he received a deputation of St. Petersburg newspaper men.

It is no use praying for the preacher when you will not pay for the preaching.

Many men are bulls in regard to their own merits, but persistent bears in regard to others.

A man in criticism, is inclined to lay the stress on the art quality; a woman on the heart interest.

From the way some people use "typical" they must think it refers to divergence from rather than conformity with type.

MEN AND MATRIMONY.

In real life, a woman's ideal man is either a sycophant or an actor.

How supremely happy a man seems the week before his marriage.

Married women, no matter how young, like to talk about their courting days.

When a man strikes bad luck he indulges in the most glowing of good resolutions.

The engaged girl takes delight in telling how long she will be away on her bridal tour.

Men are extravagant to the verge of recklessness for at least three months after the marriage ceremony.

INVENTION AND INDUSTRY.

Municipally owned plants furnish two thirds of the electric lighting in Great Britain and only about five per cent. in the United States.

The importation of raisins, which formerly amounted to about 2,000,000 boxes a year, has been reduced to almost nothing by the California crop.

Immense quantities of sand equal to that imported from Turkey especially for glass makers have, according to the Westminster Gazette, been discovered in Kent, near London.

Steps are being taken to develop valuable deposits of fullers' earth, near Buelah, Pueblo county, and near Akron, Washington county, in Colorado. The few deposits of this substance already located in the Centennial state are said to be among the purest found anywhere in the world.

One of the largest and most expensive mineral collections in existence, owned by John F. Campion, Leadville, Col., forms part of Colorado's mineral exhibit at the St. Louis world's fair. The collection is valued at $250,000, the bullion value alone being $80,000. It has never before been placed on exhibition.

A method of producing soft zinc has been patented in France. Equal parts of zinc and aluminum are melted, to which a small amount of bismuth is added to molten zinc until volatilization ceases. The zinc is heated to a temperature of from 900 degrees to 1,200 degrees Fahrenheit. It is stated that the soft zinc so produced is of 90 per cent. purity.

FLOATING FACTS AND FIGURES.

The wolves of the Russian forests devour about 300 human beings yearly.

Twelve years ago there were 2,000 Japanese in the United States. To-day there are 24,300.

Every square mile of the sea is, approximately speaking, inhabited by 120,000,000 living creatures.

During the next six months the coal barons will graciously permit the law of supply and demand to operate automatically.

In 1882 the deaths from typhoid fever in Paris were 142 per 100,000 inhabitants; to-day the proportion is only ten per 100,000.

The aggregate weight of snuff consumed in the United States for one year is 18,000,000 pounds. Snuff-taking is increasing at the rate of six per cent. per annum.

Russia wouldn't have believed in January that a war with Japan could go on for more than two months without a single Japanese coast city being bombarded.

Russia has the most rapidly increasing population of any country in the world. The growth during the last 100 years has been a fraction less than 1,000,000 annually.

The most costly tomb in existence is that which was erected to the memory of Mahomet. The diamonds and rubies used in the decorations alone are valued at $10,000,000.

In one of the states of the Argentine Republic bachelors have to pay a fine of five dollars a month up to the age of 30, ten dollars a month from 30 to 35, and $30 a month after they reach the age of 50.

FRESH FEMININE FINERY.

Old English embroidery is to have an all-summer run.

Hyacinthine blue looks well on both blondes and brunettes.

Some of the new jackets have two graduated tucks up the back.

Very many evening dresses have long sleeves, full at the elbow.

Silk lace grenadines in lovely colors are the most attractive of new fabrics.

The most gorgeous plume of all is all red one side the quill and all creamy yellow the other.

Coats to the linen and pique costumes vary from the three-quarter Norfolk to the very short eton.

It's a comfort to know that walking skirts at least will be exempt from the craze for skirt fullness.

Delightful 1830 possibilities hover in those soft muits, lawns and organdies, of which the shops are full.

A new trimming is a braid which is made of punched velvet with satin ribbons run through the openings.

Evening gowns do not have the lace falling far enough down to interfere with the movements of the hand.

The woman who went without furs all winter is now reaping her reward in the big fur reductions in all the shops.

If you happen to have some mink edging or some sort of fur trimming by you you can make a chaming short skating frock with corduroy velvet.

An ecru batiste, heavily hand-embroidered with big red and brown poppies, is edged with a ruche of red chiffon peeping from beneath the skirt.

SOME HORSE LORE.

Never examine a harness horse to halter, or one kept for saddling purposes in harness.

Don't pass final judgment on a high-spirited horse fresh from the stable, or one thoroughly tired out.

Don't fail to size up the owner or driver, and draw your own deduction from their statements, substantiated by your own observations of the horse.

NOTES ABOUT ANIMALS.

There is nothing odd or peculiar about the sleep of the lions and tigers. In captivity they show the same indifference to danger that they manifest in the jungles, and by day or night will slumber through an unusual tumult, unmindful or unconscious of the noise. Their sleep is commonly heavy and peaceful.

Since the Indians have been thinned out the gila (heela) monster is overrunning the southwest territory. The only antidote known for the gila's poison, which is fatal in about 30 minutes, is a secret of the Hualipis Indians, in Mexico, who think it Godgiven, and never have divulged it, although government officials and scientists have lived among them for the purpose of discovering it.

That ants perceive and avoid rays of ultra violet light much higher in the scale of vision than the human eye is able to detect, has been shown by Sir John Lubbock. Now a writer in the Electrical World suggests that those who are trying to determine the wave length of the X-rays experiment with ants. The X-rays are invisible to man, but it has not been determined whether they are too long or too short for his eye to see. The ultra violet waves are too short.

The whales that swim about the islands which lie off the coast of Norway and Finland, in March and April, travel immense distances. In May they appear at the Azores or even at the Bermudas, and sometimes pay a visit to the Antilles. They swim fast, for in June they are back again off Norway. Some of these whales have been known to bring back evidences of where they have been, for harpooners of the peculiar kind used off the coast of South America have been found stuck in them.

Cases of death of animals from "nervous upset" are not uncommon, and are found among very different classes of mammals. Last year a couple of otters were caught, apparently quite uninjured, on the River Eamont, and sent by train, each in a roomy box. Both died almost immediately after their arrival at their destination. A female elephant in the London zoo died from the effects of a thunderstorm. Some of the larger apes are said to be so [illegible] ture that they always die within a few days, the system being so upset that they cannot eat. That is why we only see young specimens brought to Europe.

GENERAL GLEANINGS.

Cash Given Away to Users of
LION COFFEE

We are going to be more liberal than ever in 1904 to users of *Lion Coffee.* Not only will the Lion-Heads, cut from the packages, be good, as heretofore, for the valuable premiums we have always given our customers, but

In Addition to the Regular Free Premiums

the same Lion-Heads will entitle you to estimates in our *$50,000.00 Grand Prize Contests,* which will make some of our patrons rich men and women. You can send in as many estimates as desired. There will be

TWO GREAT CONTESTS

The first contest will be on the July 4th attendance at the *St. Louis World's Fair;* the second relates to *Total Vote For President* to be cast Nov. 8, 1904. *$20,000.00* will be distributed in each of these contests, making *$40,000.00* on the two, and, to make it still more interesting, in addition to this amount, we will give a **Grand First Prize of $5,000.00** to the one who is *nearest correct on both contests,* and thus your estimates have two opportunities of winning a big cash prize.

Five Lion-Heads cut from Lion Coffee Packages and a 2 cent stamp entitle you (in addition to the regular free premiums) to one vote in either contest:

Printed blanks to vote on found in every Lion Coffee Package. The 2 cent stamp covers the expense of our acknowledgment to you that your estimate is recorded.

WORLD'S FAIR CONTEST

What will be the total July 4th attendance at the St. Louis World's Fair? At Chicago, July 4, 1903, the attendance was 260,978. For nearest correct estimates received in Woolson Spice Company's office, Toledo, Ohio, on or before June 30th, 1904, we will give first prize for the nearest correct estimate, second prize to the next nearest, etc., etc., as follows:

222 South Peoria St.,
CHICAGO, ILL., Oct. 7, 1902.

Eight months ago I was so ill that I was compelled to lie or sit down nearly all the time. My stomach was so weak and upset that I could keep nothing on it and I vomited frequently. I could not urinate without great pain and I coughed so much that my throat and lungs were raw and sore. The doctors pronounced it Bright's disease and others said it was consumption. It mattered little to me what they called it and I had no desire to live. A sister visited me from St. Louis and asked me if I had ever tried Wine of Cardui. I told her I had not and she bought a bottle. I believe that it saved my life. I believe many women could save much suffering if they but knew of its value.

Sergia Dunbar

Don't you want freedom from pain? Take Wine of Cardui and make one supreme effort to be well. You do not need to be a weak, helpless sufferer. You can have a woman's health and do a woman's work in life. Why not secure a bottle of Wine of Cardui from your druggist today?

THE FAMOUS LITTLE PILLS.

For quick relief from Biliousness, Sick Headache, Torpid Liver, Jaundice, Dizziness, and all troubles arising from an inactive or sluggish liver, DeWitt's Little Early Risers are unequalled.

They act promptly and never gripe. They are so dainty that it is a pleasure to take them. One to two act as a mild laxative; two or four act as a pleasant and effective cathartic. They are purely vegetable and absolutely harmless. They tonic the liver.

KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

FOLEY'S KIDNEY CURE

corrects irregularities and cures Kidney and Bladder diseases in every form, tones up the whole system, and the diseases that have resulted *from* disordered Kidneys disappear, because the *cause* has been removed. Commence taking FOLEY'S KIDNEY CURE at the first sign of danger. Do not risk having Bright's Disease or Diabetes.

CURED OF BRIGHT'S DISEASE.

Mr. Robert G. Burke, Elnora, Saratoga Co., N. Y., writes—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began it I had to get up from six to ten times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. In fact, I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One 25-cent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefitted.
