TRACK AND TRAIN TALK.

The electrical railways of the United States have 24,000 ties of track. The motor has displaced 8,000 horses. But 281 miles of horse car lines remain.

During the last year the railways of South Africa have placed contracts in England for 1,750 steel cars, to be delivered at once. Some of the cars have a carrying capacity of over 35 tons.

The first electric railway in Peru, from Lima eight miles to the Pacific, and another contemplated from Lima ten miles to the seaport, Callao, will have American cars and dynamos.

Intercolonial (Canada) railway employes are making a concerted effort to get their pension scheme before parliament at the present session. The scheme originated with the Employers' Insurance association, and is designed to cover cases that are not included in the insurance scheme, as well as to promote greater efficiency in the various branches of the railway service.

One million dollars a mile is the estimated cost of constructing a tunnel, four miles in length, on the line of the new Moffat railroad, from Denver, Col., to Salt Lake City, Utah. Contractors hesitate about bidding for the work, because of the hardness of the granite through which the tunnel must be bored. Sticks of dynamite make little impression on the rock, and the railroad company, itself, may have to build the tunnel.

An appliance to lessen the danger from the derailment of trains has been patented by a German railway official. A rail is adjusted to the truck of the car parallel with the axle, so that it is in a position across, and about an inch above the rails. Should a derailment of the wheels take place these cross rails will lie upon the rails of the track without letting the wheels touch the ground. The car will then drag along upon the cross rails and slowly stop the whole train.

The Financial Chronicle gives the earnings of 158 electrical roads during 1902 and 1903. Those included in the tabulation are in all parts of the country and appear to be chosen only because full data were procurable. The total shows aggregate gross earnings of $213,320,625 in 1903, against $193,127,512 in 1902, and net earnings of $88,224,176, against $81,867,737. This encouraging showing does not cover many of the interurban roads dependent upon the patronage of sparsely settled regions, and these are the lines that report the least satisfactory business.

VARIOUS ODDITIES.

The bamboo has been known to grow two feet in 24 hours.

Sir Henry [illegible], the eminent English surgeon, who died recently at the age of 84, was one of the most earnest advocates of cremation.

Sallie J. S. White, Kentucky's first female negro lawyer, will receive her degree from the law school of the colored state university on May 10.

John E. Parsons, for 20 years president of the General Memorial hospital of New York has worked steadily during that time to find a cure for cancer.

Miss Alice Dunlap, of Peru, Ind., has been a telegrapher in the Western Union office at that town for 35 years and for 28 years has been the manager of the office.

ELECTRICAL ETCETERA.

The propellers of the fast auto boats revolve 1,250 times a minute, giving a speed of 25 miles an hour.

Municipally owned plants furnish two-thirds of the electric lighting in Great Britain and only about five per cent. in the United States.

Electricity plays a very important part on the new White Star liner Baltic. In addition to the numerous common electrical appliances which go to fit out such boats, the Baltic is equipped with an electrical device for preventing collisions. The moment another vessel enters the "magnetic field" of the Baltic the indicating needle of the instrument points to the approaching lines. Even the rhythmic beats of an unseen steamer's screws are registered by this delicate apparatus. An electric log for ascertaining the speed of the ship is another acquisition. Still another device is an electrical appliance for registering all signals, including steam sirens. Electric refrigerating as well as electrical cooking apparatus are still further addi-

SIFTINGS OF SCIENCE.

That coral reefs are made up entirely of the skeletons of animals and algae is proved by borings to a depth of more than 1,000 feet in the Pacific island of Funafuti.

The discovery is said to have been made in England of a new spirit, "unlike either petrol or alcohol," and "not unpleasant" in odor, which is cheap and will take the place of petrol in running automobiles.

"The chromophone" was exhibited recently to an invited audience in a London theater. It combines the cinematograph and gramophone. Conversations and vocal and instrumental music, synchronized with the movements of the figures, accompany the pictures.

That thought must have some definite vehicle, even when unexpressed, most psychologists agree. That this vehicle is the mental image of speech has been asserted by some, while others believe that it may be also the image of written language or some special combination of images that is neither of these.

Edouard Meyer finds that the vegetable organism, as well as the animal, gives off N-rays in varying quantities, as may be made evident by the feeble fluorescent screen. The most marked indications are given by the green parts, such as stems, and especially leaves, but the emanations are feebly detectable from the flower. On treating tissues in active growth with the vapor of chloroform, so as to slacken their vital functions, the N-ray indications were correspondingly lessened.

Uranium pitchblende ore, from which radium is derived, occurs mainly in mica slate. The places where it is found are the deep workings of the former levels of the silver mines of Joachimsthal. Prof. Becke, of Vienna, recently made experiments with uranium pitchblende ores at the Imperial Museum of Natural History, which have been in possession of the museum since 1806. The experiments demonstrated that, in spite of their age, they have lost absolutely nothing of their intensity of radio-activity and of the energy of their electric properties. They do not differ in any way from the ores now taken at Joachimsthal.

MEDICAL MATTERS.

Germany is ahead of the United States in point of medical legislation.

The use of Roentgen rays in the hospitals of Germany has opened up a new field of work for women. The service of nurse for patients treated by X-rays and as assistants at the use of them is of a very delicate nature, and in Berlin courses of instruction for X-ray nurses are to be instituted.

The prevalence of adenoid growths in the throat and difficulty of breathing through the nose are attributed by Dr. Campbell, of London, to the use of soft foods, which render chewing a lost art. Natural nursing and exercise in biting cracker are recommended for the proper development of the infant's throat.

Hysterical persons imagine diseases and deceive doctors in an astonishing number of cases, according to a French writer. In diseases requiring surgical treatment this is serious, and in one case of simulated tuberculosis peritonitis the patient was operated on three times, the peritoneum being found absolutely healthy. In another case a woman of 40 became dumb after an accident. Fortunately no operation was attempted, and she suddenly recovered her voice during an X-ray examination.

In a recent publication by the German central committee for tuberculosis some interesting statements are made relating to the results of the open-air treatment of consumptives. During a recent period 2,187 men and 4,302 women cases were treated in the open-air hospitals at the expense of the Imperial Workmen's Insurance office. Of this aggregate 78 per cent. recovered, so that there is no prospect of the disease rendering them incapable of work. Figures published by the Imperial statistical office show that the death rate from tuberculosis in German towns of 15,000 or more inhabitants is steadily diminishing.

WALL PAPER HINTS.

They are suitable for pretty parlors, drawing-rooms, reception rooms and boudoirs.

Papers of this kind, when used in a single gentle color, give an air of richness and luxury to an apartment.

For libraries and dining-rooms there come other fabric effects as burlaps, canvas weaves and gobelin tapestries.

Fabric effects are seen in some of the new wall papers, silks, satin and water or moire surfaces being faithfully represented.

Soft old rose, canary yellow, mandarin yellow, silver and green and robin's egg blue are delightful in silken surfaced papers.

The burlaps and canvas weaves make lively backgrounds for oil paintings, sepia sketches and etchings in their warm tones of reddish brown.

WORLD'S FAIR FEATURES.

There are more than a hundred buildings on the 40-acre Filipino reservation at the world's fair.

Automobiles are used in collecting the mail from 84 mail and package boxes on the world's fair grounds.

A fine collection of boomerangs from Australia is one of the latest aditions to the exhibits at the world's fair.

A working model of the Vienna filtering plant, said to be one of the most efficient in the world, is shown in the Model street at the world's fair.

The Vienna school of artists, as "Secessionists," has installed an exhibit in the Australian pavilion at the world's fair. The work of these artists, while being severely criticized by orthoox artists, presents many points of interest and is sure to attract much curious attention.

AS WOMAN VIEWS IT.

Bad tempers have destroyed as many homes as drink.

The modern woman feels obliged to "keep up" with so many things that she ends by breaking down.

Tea and coffee taken with late dinner are two liquid Macbeths that murder a deal of good wholesome sleep.

Folly pursuing wisdom is always a pathetic sight. Don't let the growing boys and girls kill themselves with overstudy.

The home woman, with the happy laughter of little children in her ears, considers the Temple of Fame a very much overrated bit of architecture.

Moral Support.

"My wife told me to discharge the cook last night. I went out to the kitchen to do it, and I got the worst tongue lashing I ever had in my life."

"Well, you discharged the impudent thing, didn't you?"

"Discharge her? I didn't say a word to her. She was entertaining a husky policeman."—Chicago Tribune.

A Promoter.

"You say that man you introduced me to is a promoter?"

"Yes," answered the cynic.

"What does he promote?"

"His own interests, chiefly."—Washington Star.

A Distinction in Distinction.

Sidney—Don't you admire style?

Rodney—Oh, yes; I admire style, but I adore good manners.—Cincinnati Commercial Tribune.

A Skillful Evasion.

"B—but I thought the cannibal king was banting and was not eating any meat," protested the shipwrecked sailor.

"So he is," responded the cannibal queen, grimly, "but he regards you as seafood."—Judge.

A Lovely Spot.

One of the loveliest spots I think
My vision ever saw,
Was when I wished an ace to fill,
And got it in the draw.
—Yonkers Statesman.

DIFFICULT UNDERTAKING.

Chef of bon vivant, who is about to give a dinner—The composition of the menu presents serious difficulties, sir. We couldn't get credit for anything except a basket of vegetables, eight herring, two boxes of caviar and a pineapple.—Fliegende Blaetter.

The Russo-Japanese War.

I won't enthuse for either clan
Who seeks the toe to trounce.
I can't hurrah for any man
Whose name I can't pronounce.
—Washington Star.

Very Expensive.

He—You are very dear to me, love.

She—Then what did you do before you married me?

"Saved money."—Yonkers Statesman.

A Natural Question.

Clara—I just heard that Sadie Simpkins married a genius.

Maud—How long has she been separated from him?—Brooklyn Life.

Before and After.

"A woman, I notice, always lowers her voice to ask a favor."

"Yes, and raises her voice if she doesn't get it."—Tit-Bits.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signatnre of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of
Chas. H. Fletcher.
The Kind You Have Always Bought
In Use For Over 30 Years.
THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

IT IS NOT EXPERIMENT.

Our reputation is Established for Building
THE BEST WAGONS
on the Eastern Shore.
Farm Wagons, Timber Wagons,
Duplex Fruit-Wagons,
One-horse Wagons, Timber Carts,
and Horse Carts.
Our facilities enable us to make Wagons better and cheaper than our Competitors.
IF YOUR WAGON NEEDS
REPAIRING AND REPAINTING,
We will do it right and reasonable. Our prices are low, but not cheap
Anklam Manufacturing Company,

$50,000.00
Cash Given Away to Users of
LION COFFEE

We are going to be more liberal than ever in 1904 to users of *Lion Coffee.* Not only will the Lion-Heads, cut from the packages, be good, as heretofore, for the valuable premiums we have always given our customers, but

In Addition to the Regular Free Premiums

the same Lion-Heads will entitle you to estimates in our *$50,000.00 Grand Prize Contests,* which will make some of our patrons rich men and women. You can send in as many estimates as desired. There will be

TWO GREAT CONTESTS

The first contest will be on the July 4th attendance at the *St. Louis World's Fair;* the second relates to *Total Vote For President* to be cast Nov. 8, 1904. *$20,000.00* will be distributed in each of these contests, making *$40,000.00* on the two, and, to make it still more interesting, in addition to this amount, we will give a

Grand First Prize of $5,000.00

to the one who is *nearest correct on both contests,* and thus your estimates have two opportunities of winning a big cash prize.

Five Lion-Heads cut from Lion Coffee Packages and a 2 cent stamp entitle you (in addition to the regular free premiums) to one vote in either contest:

Printed blanks to vote on found in every Lion Coffee Package. The 2 cent stamp covers the expense of our acknowledgment to you that your estimate is recorded.

WORLD'S FAIR CONTEST

What will be the total July 4th attendance at the St. Louis World's Fair? At Chicago, July 4, 1893, the attendance was 283,273. For nearest correct estimates received in Woolson Spice Company's office, Toledo, Ohio, on or before June 30th, 1904, we will give first prize for the nearest correct estimate, second prize to the next nearest, etc., etc., as follows:

1	First Prize	$2,500.00
1	Second Prize	1,000.00
2	Prizes—$500.00 each	1,000.00
5	Prizes— 200.00 "	1,000.00
10	Prizes— 100.00 "	1,000.00
20	Prizes— 50.00 "	1,000.00
50	Prizes— 20.00 "	1,000.00
250	Prizes— 10.00 "	2,500.00
1800	Prizes— 5.00 "	9,000.00
2139	PRIZES, TOTAL,	$20,000.00

PRESIDENTIAL VOTE CONTEST

What will be the Total Popular Vote cast for President (votes for all candidates combined) at the election November 8, 1904? In 1900 election, 13,959,651 people voted for President. For nearest correct estimates received in Woolson Spice Co.'s, office, Toledo, O., on or before Nov. 5, 1904, we will give first prize for the nearest correct estimate, second prize to the next nearest, etc., etc., as follows:

1	First Prize	$2,500.00
1	Second Prize	1,000.00
2	Prizes—$500.00 each	1,000.00
5	Prizes— 200.00 "	1,000.00
10	Prizes— 100.00 "	1,000.00
20	Prizes— 50.00 "	1,000.00
50	Prizes— 20.00 "	2,500.00
250	Prizes— 10.00 "	6,000.00
1800	Prizes— 5.00 "	9,000.00
2139	PRIZES, TOTAL,	$20,000.00

4279—PRIZES—4279

Distributed to the Public—aggregating $45,000.00—in addition to which we shall give $5,000 to Grocers' Clerks (see particulars in LION COFFEE cases) making a grand total of $50,000.00.

COMPLETE DETAILED PARTICULARS IN EVERY PACKAGE OF

LION COFFEE

WOOLSON SPICE CO., (CONTEST DEP'T.) TOLEDO, OHIO.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHELLE, GA., Jan. 30, 1902.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 50 per cent. better.
S. P. BROOKINGTON.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart troubles can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O., says: I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

Kodol Digests What You Eat

and relieves the stomach of all nervous strain and the heart of all pressure.

Bottles only. $1.00 Size holding 2½ times the trial size, which sells for 50c.

KIDNEY DISEASES CAUSE ONE-THIRD OF THE TOTAL DEATHS.

When the Kidneys fail to perform their functions properly by not straining out the poisonous waste matter from the blood as it passes through them, the poisons are carried by the circulation to every part of the body, deranging the different organs. This causes heart trouble, stomach trouble, sluggish liver and a host of other ills, all due to deranged Kidneys.

FOLEY'S KIDNEY CURE

corrects irregularities and cures Kidney and Bladder diseases in every form, tones up the whole system, and the diseases that have resulted *from* disordered Kidneys disappear, because the *cause* has been removed. Commence taking FOLEY'S KIDNEY CURE at the first sign of danger. Do not risk having Bright's Disease or Diabetes.

CURED OF BRIGHT'S DISEASE.

Mr. Robert G. Burke, Elizera, Saratoga Co., N. Y., writes—I am glad to have an opportunity of telling what magnificent results I have had from using FOLEY'S KIDNEY CURE after having tried other advertised medicines and several physicians. Before I began it I had to get up from 12 to 20 times each night to relieve my bladder. I was all bloated up with dropsy and my eyesight was so impaired that I could scarcely see one of my family across the room. In fact, I was so badly used up that I had given up hope of living when I was urged by a friend to try FOLEY'S KIDNEY CURE. One 25-cent bottle worked wonders, and before I had taken the third bottle the superfluous flesh had gone, as well as all other symptoms of Kidney trouble. My friends were surprised that I was cured, as they all thought I was going to die. Every few days some one comes from miles away to learn the name of the wonderful medicine that cured me of Bright's Disease, and not one that has tried it has failed to be benefitted.

Two Sizes, 50 Cents and $1.00.
