He says there has been very few changes since he has been in America, and improvements are at a standstill. Griffin, a debating question, "Resolved that the community would be benefited by the Pennsylvania Railroad buying and operating the Queen Anne's", Stanley Deakyne was for the affirmative and Will Bradley for the negative. The question was decided in favor of the affirmative. This was followed by an address by Ernest Porter, who spoke in the interest of the society. WHAT IS LIFE?

In the last analysis nobody knows but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation Headache or Liver trouble. Dr. King's New Life Pills quickly re-adjust this. It's gentle, yet thorough. Only 25c at Colston's.

Severe September Storm.

A severe storm swept over this section of the country on Wednesday night doing considerable damage to shipping along the coast and to buildings and timber in the country.

In Denton a large poplar tree blew down upon the telephone lines, breaking a pole off and putting about half the phones in town out of service. On Thursday morning it was impossible to get any news either by telegraph or telephone. The streets were strwn with tree limbs and old trees were blown down in all parts of the town. A new dwelling being built by F. W. Redden was blown five feet off the foundation, and another new one belonging to F. A. Redden was blown over ten or twelve inches out of plumb, the top part of the house leaning over that much. Both of these buildings have been pushed backed in place and are apparently no worse for the accident. Signs were blown down and limbs from trees smashed windows in many dwellings.

The steamers on the bay had a rough trip all being much behind time in arriving in Baltimore. Several of them had to seek harbor in the rivers until the storm abated. The steamer Joppa, which left Denton at noon on Wednesday, returned to the mouth of the rivers and anchored. The passengers were up all night wearing life preservers, and only retired when the steamer resumed her trip at 6 o'clock in the morning.

The general opinion prevails that the storm was the most severe since the storm of 1876 or 1877.

Judge Pearce Charges Grand Jury.

When the September term of the Circuit Court for Cecil county began Monday with Chief Judge Jas. Alfred Pearce, Associate Judges William R. Martin and Edwin H. Brown on the bench, the Chief Judge charged the grand jury, among other things saying:

"You will have before you two cases which give alarming proof of the insecurity of life in your midst. One of these is the brutal and nearly fatal assualt upon an aged citizen, Robert Gardner, when engaged in work upon his own premises in broad daylight, near the town of Port Deposit. Fortunately this man has been identified and apprehended, and he cannot, therefore, escape punishment. The other, one of the most shocking crimes ever committed in this State, is the cruel and cowardly murder of the late Albert Constable, one of the most useful and honored citizens of the State, shot down by a robber while taking his accustomed daily walk upon a peaceful highway within sight of his own home.

"We do not know what evidence you will have of the guilty party or parties, but it is certain you will have all which it is in the powar of the State to furnish. This horrid crime cries to Heaven for the vengeance of Heaven and to you for the protection of life through the infliction upon the criminal of the penalty of human law. But if you are unable for want of legal evidence to fix this crime upon any person, its punishment must be left to Heaven, whose judgments are as unerring as they are dreadful and eternal."

Four bottles of this wonderful remedy cured me entirely of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by A. L. Duffey, Hillsboro.

Dr. Baker Moves.

The Rev. Dr. Charles S. Baker and family on Saturday removed from the parsonage of Asbury Methodist Episcopal Church, and will live near Philadelphia until the session of the next conference. The Rev. Dr. and Mrs. Thomas L. Poulson will soon occupy the parsonage of Asbury, now that Dr. Baker has arranged his affairs so that it would be convement for him to leave the parsonage.

Thomas B. Ridgaway, president of the trustees of Asbury Church, in conversation about the parsonage incident, said "The position of the trustees was that we did not bring this trouble on the church, and therefore we were very careful and slow to try and move Dr. Baker from the parsonage, if there had been any disposition to move him on the part of a majority of the trustees.

"In fact, the trustees never at any time asked the Rev. C. S. Baker to vacate the parsonage. Now he is moving away of his own free will and accord. He will locate in the vicinity of Philadelphia where he will take up some other line of work until conference time. Possibly in a few days Dr. T. L Poulson will move into the parsonage, where he will finish out the remainder of this conference year as Pastor of Asbury Church."

"Dr. Poulson repeatedly stated that he did not wish Dr. Baker disturbed on his account. What trouble that existed has adjusted itself and everything is now in sweet harmony at old Asbury."

The Birds Know Best.

The doves are hatching out a second brood, the robins are hatching out a third brood, the barn swallows are building to hatch out a second brood. This is unusual, what does it mean? If these birds could not raise their young so that they would be strong enough to fly south before cold weather they would not go on with their housekeeping. It means a long, hot dry spell and a late fall. The weather department doesn't know it, but the birds know, and they never go wrong.—Ex.

Queen Anne's System and Weems Line.

Negotiations looking to a consolidation of the Queen Anne's Railroad Company and the Weems Steamboat Company, which were broken off sometime ago, have been resumed and the indications are that the deal will be consummated. The negotiations are being conducted by Messrs. Nicholas P. Bond, of Baltimore, and Henry P. Scott, of Wilmington, Delaware. The negotiations have progressed favorably so far, but as yet nothing final has been concluded. The deal involves about $1,500,000. The Queen Anne's Railroad Company is now being operated by Frank Ehlen, as receiver, the company having defaulted its interest

When asked relative to the deal Mr. Bond said: "All of our plans are necessarily subject to the approval of counsel representing certain financial institutions who are willing to become interested in the matter, provided their counsel are satisfied of the legality of the pro-organization, and we cannot, at this time, either proceed further with the negotiations or give out any detailed statement of the proposed organization for the reasons which are apparent.

"I take this occasion to say that the rumors which found their way into the press some time ago, connecting the Pennsylvania Railroad with the proposed transaction, were not justified by the facts at present."

Jap's Good Idea.

The Japanese government has found a novel use for post cards. A writer in the Manchester Guardian says: "Realizing that for various reasons the soldier on campaign may not have leisure or oppotunity to write home to his family, the military authorities have supplied to each army a sufficient number of post cards, ready printed, to which the soldier has only to affix his name, or more exactly, his seal, each Japanese soldier carrying one with him as part of his outfit. On all the cards the same message is printed: "This is to let you know that I am alive and well. I cannot give you my address, not knowing where I shall be tomorrow; but your letters will reach me some time or other if you reply to the place the name of which is printed in the postmark. Greetings to my family and friends." This is an idea which might be copied by other nations. At once practical and humane, it would cost little and save many thousand of people from unnecessary anxiety and pain."
