The first frost of the season fell Thursday night and ice formed in several places near town. In New Jersey and Pennsylvania late truck and tobacco are reported to be badly injured. The tomatoes do not appear to be injured here and farmer expect to deliver some good fruit yet.

Cider is unusually plentiful this fall, owing to the results of the recent storm. Nearly all of the apple trees of this county were stripped of fruit by the high wind and the farmers are trying to save what they can by having the fruit made into cider. Much of the fruit was not salable, and late apples will no doubt be very scarce.

Owing to a temporary illness Rev. Dr. Watt failed to arrive to deliver his lecture in the M. E. Church on Tuesday evening of last week. John Wanamaker is considered an authority on advertising, but he might yet get some pointers from the cunning Jap if he is correctly translated. Here is the way he puts it: "Our wrapping paper is as strong as the hide of an elephant. Goods forwarded with the speed of a cannon ball. Our silk and satins are as soft as the cheeks of a pretty woman and as beautiful as a rainbow. Our parcels are packed with as much care as a young married woman takes of her husband."

The season is now at hand when the young partridges and rabbits are getting large enough to be easy marks for the pot hunter and the breaker of the game laws. It is now the business of the authorities to be on the alert. The game laws give ample power and they should exercise it. The shooting in this section is usually good, but it cannot remain so unless the game laws are properly observed. In the enforcement of these laws the authorities of town and county should cooperate cordially.

Prominent Physician Arrested.

Sheriff George Whitely, of Queen Anne's county, left Centreville on Wednesday morning for Ridgely with a warrant for the arrest of Dr. Henry N. Rickards, on a charge of criminal practice. Dr. Rickards and his friends indignantly deny that he is guilty of any criminal offense, and claim that he will be able to establish these facts beyond all doubt, if the case should ever come to a trial.

When the officers arrived in Ridgely they found that Dr. Rickards was on his way to Wilmington and after communicating with State's Attorney Goldsborough, a telegram was sent to that city and the Doctor was arrested. The Queen Annes officials went on to the city and the Doctor agreed to return with them the next day. In the evening they attended the th eater and on Thursday returned to Ridgely when Dr. Rickards gave bail for his attendance at court.

The warrant for the arrest is said to have been founded on a written, signed confession made by Blan che Chance, of Chestertown, and the offense is alleged to have been committed last December, and the confession, which implicates a well-known young man of Queen Annes county, is said to have been the result of a family quarrel. Miss Chance is being held in the jail here as a witness.

If it is found that the offense, if there be any, was committed in this county the case may come up at the session of court next week. Dr. Rickards has retained attorneys Albert G. Towers and William H. Deewese. States Attorney Goldsborough may be assisted by Mr. Keating, the States Attorney of Queen Annes county.

WHAT IS LIFE?

In the last analysis nobody knows but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation Headache or Liver trouble. Dr. King's New Life Pills quickly readjust this. It's gentle, yet thorough. Only 25c at Colston's.

Protection from Fire.

Much is being said these days in regard to protection from fire. Buildings are built with this view. Fire limits are created and extended in towns where certain restrictions are laid. Metal and other fireproofing materials are used, and insurance companies not only require this, but insist upon it.

The press of Baltimore and other large cities has recently been recommending roofing materials and paint known as the "Gibraltar" manufactured by the Maryland Fire Proofing and Paint Company, of Towson, Md., which possesses to a remarkable degree these qualities. Quite an interesting test was given in this place a little over a week ago. A small house or shack, built of pine boards and painted with Gibraltar paint, was surrounded with inflamable material and an attempt made to burn it. The exhibition was a good one, although hardly satisfactory to the agent, owing to the fact that the house had been tested twice before and the boards had become warped so that they could not be covered with the paint. At Lewes it was surrounded by flames for an hour and eleven minutes. The advertisement of this company can be found in another column.

ONLY DID HIS DUTY.

"I deem it my duty to add a word of praise for Chamberlain's Colic, Cholera and Diarrhoea Remedy," says J. Wiley Park, the well known merchant and postmaster at Wiley, Ky. "I have been selling it for three or four years, and it gives complete satisfaction. Several of my customers tell me they would not be without it for anything. Very often to my knowlege, one single dose has cured a severe attack of diarrhoea, and I positively know that it will cure the flux (dysentary). You are at liberty to use this testimonial as you please." For sale by R. J. Colston, Denton; Davis Druggist, Ridgely.

Boy Shoots his Sister.

Norman Baynard, an eleven year old colored boy, shot and killed his younger sister near Concord on Wednesday of last week. The boy claims the shooting was accidental, but there seems to be some doubt of this. He bears an unenviable reputation as a bad boy, and something over a year ago caused the death of another sister, by throwing a burning oil can at her, setting her clothing on fire from the effects of which she died. The children were alone at the time of the shooting and the boy claims that while handling the gun it was accidently discharged. The charge of shot took effect in the child's neck, causing instant death. The verdict of a coroners jury charges the boy with the shooting, but ascribes no malice.

Sheriff Hignutt arrested the boy and brought him to jail on Friday and he was given a hearing before Justice Trice on Saturday, and held for the action of the grand jury.

The editor of this paper is gratified to learn in a recent letter from the proprietors, the Bobbitt Chemical Co, Baltimore, Md., that the new scientific remedy for Rheumatism —"Rheumacide"— has more than doubled its sales the past year.

The strong testimonials we published from time to time show the thousands of stubborn cases cured by this remedy—and these together with liberal advertising in such papers as the American Union have made "Rheumacide" a favorite household remedy in this section. If you have an article of real merit big advertising always brings big returns.
