No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Chicago, Ill.—"I was troubled with falling and inflammation, and the doctors said I could not get well unless I had an operation. I knew I could not stand the strain of one, so I wrote to you sometime ago about my health and you told me what to do. After taking Lydia E. Pinkham's Vegetable Compound and Blood Purifier I am to-day a well woman."—Mrs. WILLIAM AHRENS, 988 W. 21st St., Chicago, Ill.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Worms

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed four pieces of a tape worm. He then got a box and in three days he passed a tape-worm 45 feet long. It was Mr. Matt Freck, of Millersburg, Dauphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood."

How a Doctor Cured Scalp Disease.

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura Remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. Not A Bit Worse Off.

They had driven 14 miles to the lake, and then rowed six miles across the lake to get to the railroad station, when the Chicago man asked:

"How in the world do you get your mail and newspapers here in the winter when the storms are on?"

"Wa'al, we don't, sometimes. I've seen this lake thick up so that it was three weeks before we could get a Chicago paper," answered the man from "nowhere."

"Well, you were cut off," said the Chicago man.

"Ya'as, we were so," was the reply. "Still the Chicago folks were just as badly off."

"How so?"

"Wa'al," drawled the man, "we did't know what was going on in Chicago, of course. But then, neither did Chicago folks know what was going on down here."—Ladies' Home Journal.

SCIENTIFIC DEVELOPMENT

A Cincinnati man has patented an electric air heater for barbers' use, compressed air passing through a cylinder containing a resistance coil.

Pure iron is only a laboratory preparation. Cast iron, the most generally useful variety, contains about 5 percent of impurities, and the curious thing is that it owes its special value to the presence of these. Pure iron can be shaved with a pocket knife; impure iron can be made almost as hard as steel.—Newark, N. J., News.

It is reported that a student of the Electro-Technical Institute of St. Petersburg, named Freudinberg, has invented an apparatus for exploding mines by wireless telegraphy. Numerous experiments already made are said to have proved remarkably successful. The apparatus is also said to be suited for directing Whitehead torpedoes at long ranges.

A substance called paraphenylene-diamine is now much used in hair dyes instead of nitrate of silver. This drug appears to change to a poisonous substance called quinone di-idide upon exposure to the air and oxidation. Many cases of poisoning, the London Lancet says, have resulted from hair dyes containing the drug, alone or in combination with diamido-phenol and potassium bichromate, both in England and the United States. The Journal of the American Medical Association reports twenty-one such cases in its records.

Water, looked upon as the tamest of liquids, is as great an explosive as dynamite under certain conditions. In one day water breaks up more earth and rock than all the gunpowder, guncotton and dynamite in the world do in a year. These explosives can be controlled by human agency, but water does not hold itself accountable to man. It runs into the ground, freezes, expands and splits the soil into little pieces. Finding a crack in a huge rock it repeats the same process, forcing it asunder. If frozen in the pores of a tree it often explodes with a report like a gunshot and the force of a dynamite bomb.—Popular Mechanics.

The water produced by the melting of glacier ice in summer flows down through crevasses to the bottom of the glacier, and, forming a channel by erosion, emerges often as a large stream. In the Arctic regions these phenomena take place on a very large scale. The Danish expedition to the northeast coast of Greenland, conducted by Mylius and Erichsen, discovered and explored vast caverns thus formed by glacial streams. Some of these caves are 60 to 70 feet in height and more than a mile long. In winter the streams cease flowing, but the caverns or tunnels remain ready to receive the streams of the following summer.

MANY BRANCHES OF TRUCKING.

More Than 300 Such Firms in Business in New York City.

The extent of trucking in this city is shown by the fact that more than 300 firms and individuals are engaged in the business. Many of these employ from ten to fifty trucks, while not a few run over a hundred. Thousands of men and horses are therefore required to carry it on. By far the larger number of truckmen are engaged in what is known as the forwarding and transportation branch of the business, that is in handling merchandise for railroad and steamship companies and large mercantile houses. Still there are many other branches, some them separate and important. One of the chief of these is express trucking. Most of the big express companies onw their trucks, nevertheless a considerable part of the business is done under contract by trucking concerns. Another distinct branch of the business and not one of the least important in moving household and office furniture.

Then there is a branch devoted to moving heavy machinery, requiring the services of skilled mechanics and laborers. Safe and piano moving are also distinct branches requiring skilled labor. The handling of live stock is another distinct line. Many business houses find it expedient not to rey on the Street Cleaning Department for the removal of refuse and ashes, but to contract with truckmen for that purpose.—New York Sun.

Wages and Profits.

If increased wages could be taken out of excessive profits there would be relief for those gaining the increased wages. But extortionate prices, such as those of the beef trust, for example, are due to the combination's complete control of the business. So long as it is permitted to exercise that complete control it can prevent higher wages for its employes from coming out of excessive profits, for it arbitrarily fixes the prices that yield the profits.

If extortionate profits were reduced, however, without wage increases in that particular industry, then everybody would be better off, for everybody's wage or income of today would buy more meat.—New York Press.

Child Suicides.

Child suicides are numerous in Germany and are nearly as common in Russia. During 1907 some four hundred children under sixteen years of age are said to have taken their lives in Russia, nearly all of these, as with Germany's yearly six hundred, being pupils at secondary schools.

These secondary schools are modeled on those of Germany and the courses of study are severer, if anything. It is believed that overstrain must play a considerable part in producing the state of mind which leads a child to take its life.

In some cases the abnormal precociousness of the children was extraordinary.—Chicago News.

The maximum wage of brakemen on English railways has just been fixed at $7.78 a week.

BURDENS LIFTED FROM BENT BACKS

Weary is the back that bears the burden of kidney ills. There's no rest nor peace for the man or woman who has a bad back. The distress begins in early morning. You feel lame and not refreshed. It's hard to get out of bed. It hurts to stoop to tie your shoes. All day the ache keeps up. Any sudden movement sends a sharp twinge through the back. It is torture to stoop or straighten. At night the sufferer retires to toss and twist and groan. Backache is kidney ache—a throbbing, dull aching in the kidneys. To cure backache you must first cure the kidneys. Plasters or liniments won't do. You must get at the cause, inside.

DOAN'S KIDNEY PILLS CURE SICK KIDNEYS

BACKACHE, DIZZINESS, NERVOUSNESS

Completely Relieved by Doan's Kidney Pills in Two Tests.

Mrs. P. W. Bessinger, 1328 Taylor St., Columbia, S. C., says: "I heartily recommend Doan's Kidney Pills, knowing from experience that they are a valuable remedy. Several years ago I suffered severely at times from pains in the small of my back and often felt dizzy and nervous. The kidney secretions were irregular in passage and caused me much annoyance. Hearing Doan's Kidney Pills highly recommended I procured a supply, and after taking the contents of several boxes I was so greatly relieved that I considered it unnecessary to continue their use. Recently I felt a slight recurrence of my trouble, but I immediately began using Doan's Kidney Pills and was relieved."

HOW TO TELL WHEN THE KIDNEYS ARE DISORDERED.

PAINFUL SYMPTOMS — Backache, sideache, pains when stooping or lifting, sudden sharp twinges, rheumatic pains, neuralgia, painful, scanty or too frequent urination, dizzy spells, dropsy.

URINARY SYMPTOMS—Discolored or cloudy urine. Urine that contains sediment. Urine that stains the linen. Painful passages. Blood or shreds in the urine. Let a bottleful of the morning urine stand for 24 hours. If it shows a cloudy or fleecy settling, or a layer of fine grains, like brick-dust, the kidneys are disordered.

TWO YEARS CURED.
Backache, Kidney and Bladder Trouble Disappeared For Good.

J. A. Wirt, Russell St., Canisteo, N. Y., says: "I had kidney and bladder trouble for more than a year. My back was lame and I had an ache across my kidneys day and night. For days at a time I could not stoop or lift, and if I attempted to do so sharp shooting pains radiated through my body. The kidney secretions were unnatural and there was much sediment in them. The passages were also too frequent and caused me much annoyance. Having Doan's Kidney Pills brought to my attention I obtained a box. Their use brought relief in a few hours, and the contents of four boxes completely cured me. At that time I told of my experience in a public statement, and can now say that during the years which have since elapsed I have found Doan's Kidney Pills effective whenever I have taken them."

A Horrible Death.

Lou Chapin was on his way back from Kansas to Cincinnati. In his spare time Lou travels in the interest of humanity and soap. His road business is the collection and retailing of incidents and anecdotes. He could do a wholesale business just as well and perhaps with greater profit, especially if he organized a newspaper syndicate for the purpose, but he is one of those rare spirits who prefer self-sacrifice in the cause of the common people.

Stopping over in Louisville between trains and dairy lunches his usually cheerful countenance was so overcast as to prompt inquiry as to the cause of his melancholy.

"Just heard of the death of Joe Hinkle," was the lugubrious reply.

"Friend of yours' maybe?"

"Nope, just a lineman in Chicago."

"Owe you anything?"

"Nope."

"Well, then, what are you so cut-up about?"

"Oh, he died such a horrible death. It was simply awful. I never heard of anything like it."

"How was that?"

"Well, he was at work on the roof of the Masonic Temple, and—he got too close to the edge and—slipped off!"

Thinking of that sheer drop of 21 stories The Man Around Town repressed a violent shudder with both hands.

"Oh, but that wasn't the worst of it," "Chape" continued, his sympathetic face working overtime while great tears stood in his eyes. "The poo-poor du-du-devil had on his rub-ub-ber boo-boots!"

"Yes——," sympathetically.

"And he bu-bu-bounced up and du-du-down for three dud-days and nights and they had to shoot him to keep him from starving to death!"—Louisville Times.

CHANGE THE VIBRATION
It Makes For Health.

A man tried leaving off meat, potatoes, coffee, and etc., and adopted a breakfast of fruit, Grape-Nuts with cream, some crisp toast and a cup of Postum.

His health began to improve at once for the reason that a meat eater will reach a place once in a while where his system seems to become clogged and the machinery doesn't work smoothly.

A change of this kind puts aside food of low nutritive value and takes up food and drink of the highest value, already quickly digested and capable of being quickly changed into good, rich blood and strong tissue.

A most valuable feature of Grape-Nuts is the natural phosphate of potash grown in the grains from which it is made. This is the element which transforms albumen in the body into soft gray substance which fills brain and nerve centres.

A few days' use of Grape-Nuts will give one a degree of nervous strength well worth the trial.

An Observant Child.

Little Adelaide was inclined to be cowardly. Her father found that sympathy only increased this unfortunate tendency, and decided to have a serious talk with his little daughter on the subject of her foolish fears.

"Papa," she ventured, at the close of the lecture, "when you see a cow, aren't you afraid?"

"Why, certainly not, Adelaide. Why should I be?"

"Well, when you see a dog, aren't you afraid then?"

"No, indeed!" with marked emphasis on the "no."

"Aren't you afraid when it thunders, papa?"

"Why, no," and he laughed at the thought and added, "Oh, you silly child!"

"Papa," and Adelaide came closer and looked into her parent's eye, "aren't you afraid of nothing in the world but just mamma?"—Success Magazine.
