GEORGE HENNING,
R. D. No. 1. Denton, Md.

Road Foreman Timmons and his men are putting their section of the track of the M. D. & V. road in good condition. They have been working in the cut near town for about a week.

At the meeting of the W. C. T. U. held at the home of Mrs. J. H. Nichols on Tuesday evening, Mrs. H. A. G. Westerfield was chosen as delegate and Mrs. Nichols as alternate, to attend the Tri--County Convention to be held in Cambridge on the 15th and 16th of April.

The Liberty Bell in Independence Hall, Philadelphia, is to be repaired so that the famous crack will not spread any farther. An internal structure will be placed in the bell to remove the strain of its dead weight. It is planned to transport the historic bell to the Panama Pacific exposition at San Francisco.

A mad dog on Saturday went through the farming neighborhood near Concord, biting a cow belonging to Edgar Todd and a horse belonging to David Wright. The dog was killed on its way back toward Hickman by Mr. D. W. Davis. It is supposed to have bitten a number of dogs in the same neighborhood.

Another band of gypsies are camping on Reliance road, near Miles' branch. Though a $50 license is now required in Caroline county before they can lawfully encamp, we have every year as many bands of these rovers as we [illegible] before the fee was charged. We [illegible]sume the maid who learns her future pays the bill.—Federalsburg Courier.

Owing to the rain on Monday evening the attendance at the meeting of the Literary Club was small. The program for next Monday evening will be, Quotations from Byron; Juvenile Libraries, Mrs. Burnite; "The Toleration Act and the Scope of its Influence," Dr. M. B. Stephens; "The Peace Conferences and Their Results," Mr. E. T. Tubbs; Recitation, Miss Blanche Hobbs.

Some local growers have said recently that fruit buds are in a surprisingly good condition, and that the prospects are fine for a good crop this year. This is indeed good news. The impression was that the warm weather of the winter had doomed the buds. Caroline county is extensively interested in fruits, and the prospect of a fruit crop this year is cheering to many people.

Mr. Frank Mitchell, while driving from Hobbs to his home on Saturday night was thrown from his carriage and severely hurt in a collision with a team driven by Mr. Thomas Nichols. Mr. Nichols was driving a colt to a heavy dearborn, and Mr. Mitchells carriage was badly damaged and he was severely bruised about his side and ribs. The night was extremely dark, and Mr. Nichols did not see Mr. Mitchell's team.

Explosion Shocks Town.

Our town was shaken up and considerably excited on Friday morning by what was later found to be a most disastrous explosion of dynamite near Baltimore. Windows in the houses rattled and brick buildings seemed to tremble and rock, as if from an earthquake. People ran from stores and business places in all parts of the town and the streets were soon filled with questioners. A large window glass in the store formerly occupied by Thomas Wyatt fell to the pavement with a crash and flew into a thousand fragments. The front door in one store flew open but no damage was done. In Hillsboro several large windows were broken.

The explosion occured near Baltimore while a British tramp steamer was being loaded with 340 tons of dynamite in midchannel in the Patapsico river. The steamer and the barge from which the explosive was being loaded were completely destroyed, but singular to relate, many of the men were saved.

A stevadore who was helping to carry the boxes in which the dynamite was packed says that an explosion took place in a box he was carrying and set the box on fire and twenty minutes later this fire caused the explosion.

This same man is charged by his companions with sticking a bale hook into a box which took fire and it is now thought the box contained percussion caps instead of dynamite, as it would have been impossible for a box of dynamite to explode without causing an instant explosion of the whole load on the ship.

Thirty-three persons were killed and about sixty injured. Some of the persons killed were on other vessels near by. The U. S. N. collier Jason, a new boat, was swept to her decks and several men killed.

The shock was felt for more than 100 miles from the scene, and was the greatest ever known, with the exception of earthquakes, in this country.

Competition in Steamboats.

The recent application of the Eastern Shore Development Steamship Company for a wharf at Easton Point has resulted in what appears to be another competing line at this point. The determination of the company to get into Easton for freight and passengers with a regular line of steamers and to spend sufficient money to equip the old county wharf has led its competitor, the B. C. & A. Railroad Company it is said to offer the Eastern Shore Company the wharf built and used by the old Choptank Steamboat Company years ago. The company, whose Cambridge and Clairborne lines are so firmly established, is extending its operations to the towns upon the Tred Avon and Choptank rivers, and if the reported arrangement with the B. C. & A. Company is made, a passenger and freight line will make a daily trip to Easton Point and regular unfailing service with Baltimore will be assured.

SEVENTH DAY—SUNDAY

Program arranged in harmony with ideas of committee and ministers of town.

High School Notes.

Miss Myra Ramsdell of the 10th Grade is on the sick list this week.

The Senior Class are preparing to visit Annapolis on Saturday next. They go over the B. C. & A. R. R. from Preston to Claiborne. thence direct to Annapolis.

Maryland Day will be celebrated on the afternoon of the 25th. Col. A. W. Sisk, of Preston, will make the address. In the evening there will be a pay entertainment in the school. Proceeds to pay for fixing tennis courts.

At the call for boys interested in the Boy Scouts on last Friday night, thirty lads responded. Four patrols were formed with Harold Nuttle, leader, Henry Hollingsworth, assistant of 1st; Kingsley Mercer, leader, Bradford Shawn, assistant of 2nd; Benjamin Johnson, leader, Harry Beck, assistant of 3rd; Fred Bailey, leader, Charles Shawn, assistant of 4th. The youth of the town seem very much interested in the movement, hence, it would seem, if it can be properly carried forward, that it will partially solve the boy problem in this vicinity. The boys expect to go on a "hike" on the 22nd.

At the Teacher's Association luncheon served at the High School on Saturday, the salad dressing was made by the tenth grade girls, during their first lessons in foods. The success of the salad was in that dressing and the credit belong to this class.

The furnishings of the Domestic Science room are nearing completion and arrangement. The cupboard which Mr. Brown is making will be finished this week.

A cordial invitation is extended to friends and patrons to visit the "Kitchen" during any of the class exercises. There will be work in this department two days every week and there is a hearty welcome to all who are interested in the success of this work in Denton.

The Cause of Rheumatism

Stomach trouble, lazy liver and deranged kidneys are the cause of rheumatism. Get your stomach, liver, kidneys and bowels in healthy condition by taking Electric Bitters, and you will not be troubled with the pains of rheumatism. Charles B. Allen, a school principal, of Sylvania Ga., who suffered indescribable torture from rheumatism, liver and stomach trouble and diseased kidneys, writes: "All remedies failed until I used Electric Bitters, but four bottles of this wonderful remedy cured me completely." Maybe your rheumatic pains come from stomach liver and kidney troubles. Electric Bitters will give you prompt relief. 50c and $1.00. Recommended by All Druggists.

BEST LANGUAGE PAPERS.

Among the language papers sent in to the School Board the following have been given first and second place. The first is by Gertie Henning of the 7th grade at Central school, and the second is by Johnnie Williams, of the same grade at Burrsville school.

Last Thursday, February 20th, a Farmers' Institute was held at the court house in Denton.

There was also an exhibit of corn, corn muffins, and corn bread by the pupils of the nearby schools. Prizes were given to the one who baked the best corn bread or selected the best corn. Twenty-three pupils attended from our school. Three of our girls carried corn muffins.

Thursday morning several of us walked to town. We started seventeen minutes of nine o'clock and arrived there about twenty-five minutes of ten. We met our teacher on the street, went up to the court house and took our bread, it was placed with the other exhibits on tables in the hall, after which we went in the court room and secured seats. The room was crowded and a great many were obliged to stand.

The room was darkehed and they showed lantern pictures of the "Maryland Agricultural College" and some views of the games and work which they have there, they also showed pictures of orchards, a gentleman explaining the pictures as they were shown.

At noon we went around to the High School and ate our lunch. The principal very kindly showed us all through the building. We think it is fine.

At one o'oclock we returned to the court house, looked at the exhibits and passed our opinion upon them, they all looked very nice.

In the afternoon several gentlemen talked about the raising of tomatoes and sweet corn. They gave us many good points on the cultivation of these things. We also had lantern views in the afternoon showing the use of cement on farms.

About three o'clock all the boys and girls who had exhibits were called out and had their pictures taken in a group. We then went back to the court room and Mr. Noble distributed the prizes to the boys and girls who had the best exhibits. We then went out and got our corn bread and started for home reaching there about half-past five o'clock.

It is the first Farmers' Institute I ever attended. I enjoyed the day very much, and I am sure I gained quite a good deal of information from what I saw and heard.

One bright sunny day last fall I went over to one of our neighbors to get some corn to exhibit in December.

On arriving at Mr. C-s' I told him what I wanted. So he opened his cornhouse door and said, "go find what you want." I went in and began looking the pile over.

After I had picked about thirty of the best ears I placed them in a row on the floor with the butts even and compared them so that they were all about the same length. After looking them over and selecting the ten best ones out of the thirty with reference to length, circumference, butts, and tips filled close on the end little cob, the grains not mixed, and the long wedge shaped grains that fitted closely together.

I took them when the contest came off at Preston and won first prize. After the judging was over I wrapped them one by one in paper, then I put them in a creamery can to save them for another contest.

February 21, when the Farmers' Institute was held in Denton, a number of pupils from our School attended to see the pictures. I took my same ten ears to the contest. There the judges awarded me second prize which was a fountain pen.

After the judging was over I rewrapped my corn and put them away as before. I shall probably test the corn this spring and use it for seed as I expect to enter the corn growing contest next summer.

DENTON PROOF

Should Convince Every Denton Reader.

The frank statement of a neighbor telling the merits of a remedy,
Bids you pause and believe.
The same endorsement
By some stranger far away
Commands no belief at all.
Here's a Denton case.
A Denton citizen testifies.
Read and be convinced.

Mrs. A. V. Tull, Seventh St., Denton, Md., says:

"I cheerfully give my recommendation to Doan's Kidney Pills. This remedy has certainly proven effective in my case and deserves all the praise I give it. For several years I had attacks of kidney complaint and some times my back was very weak. For three years I have taken Doan's Kidney Pills when troubled in this way, and they have checked the difficulties. I know this remedy can be relied upon to keep my kidneys in a normal condition."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Orphans' Court Proceedings.

Orphans' Court was in session on Tuesday with Judges Clark, Rawlings and Stevens present, and the following business was transacted:

In the matter of the estate of Eliza J. Dukes, deceased, W. Brewster Deen, administrator, the Court passed an order to release the sureties.

Frank R. Short and Harry H. Long were appointed to appraise the personal estate of George E. Prince, deceased.

Edward E. Nuttle, administrator of Frank H. Webb, deceased, presented account of sales of the personal estate of said deceased; passed.

Jennie Towers, administratrix of Purnell Towers, deceased, presented inventory and appraisement of the personal property of said deceased; passed, and an order to sell at private sale granted. Account of sales presented, approved, and ordered to be recorded.

Mary E. Camper, guardian to Martha E., Sarah May and Minnie L. Camper, minors, presented first, second, third and fourth guardian accounts, which were examined, approved and ordered to be recorded.

Clinton B. Jarman, administrator of Matthew M. Andrew, deceased, presented account of sales of the personal property of said deceased, which was approved and ordered to be recorded.

Are You Constipated?

If so, get a box of Dr. King's New Life Pills, take them regularly and your trouble will quickly disappear. They will stimulate the liver, improve your digestion and get rid of all the poisons from your system. They will surely get you well again. 25c at All Druggists.

Rebuilding Rehoboth.

The Board of Public Works of Rehoboth has organized, electing B. F. Shaw, president, and Charles S. Horn secretary.

Hugh Downing, of Dover has been selected as engineer in charge of the construction of the new water plant.

Plans and specifications for the building of this plant have already been prepared and approved by the board and will shortly be submitted to the various bidders.

The members are leaving no stone unturned to secure the immediate erection and operation of this plant in order to avoid any more disastrous fires like that of February 22. The buildings will be of brick, with steel roofs, and a thorough system of mains and fire plugs will be maintained. Improved fire apparatus is now under consideration.

A special election will be held on March 22 for the purpose of bonding the town to pay for the erection of these works.

J. A. Lingo has commenced the construction of a large brick and cement fireproof store and dwelling upon the site of his former store. A. W. Dick has commenced the construction of a fine store and dwelling upon his burned site. The automobile garage of L. Carmine will be immediately rebuilt double the size of the one burned and of modern fireproof constretion. Several of the cottages burned will be rebuilt by larger and handsomer structures and the indications are that one of the greatest building and improvement booms that ever has struck Rehoboth is now in progress. That the people have confidence in the beach is shown by the large number of applications that have alredy been made to the local real estate agents for cottages for the coming season.

Best For Skin Diseases

Nearly every skin disease yields quickly and permanently to Bucklens Arnica Salve, and nothing is better for burns or bruises. Soothes and heals. John Deye, of Gladwin, Mich., says, after suffering twelve years with skin ailment and soending $400 in doctors' bills, Bucklen's Arnica Salve cured him. It will help you. Only 25c. Recommended by All Druggists.

Fine Sunday School House.

The reopening of the M. P. Church and the new Sunday School house took place on Sunday. Invitation cards were sent out by the pastor, Rev. A. N. Ward and there was a good attendance at all the services. Dr. F. T. Tagg, of Baltimore, spent the day here and preached and assisted at all the services. At the opening of the Sunday School house, many of the members of the M. E. Sunday School were present after a short session at their own school, including Rev. Mr. Westerfield and superintendent Lewis, both of whom made short addresses, complimenting the Methodist Protestants upon the splendid building and speaking of the great good it was possible to accomplish.

The building is not only a credit to those who have worked for its erection, but is a credit to the town. Very few towns upon the peninsula have so conveniently arranged and roomy a building for Sunday School purposes. The cost is about $6,000 and $4,900 has been raised and subscribed up to the present time.

CENTRAL SCHOOL.

A patrons meeting was held at our school last week and a Home and School club formed.

Mr. John K. Lynch, of near Ridgely, was severely injured on Monday by a mad bull which attacked him while being driven out to get water. The animal had been dehorned but trampled and mashed Mr. Lynch against the ground and the side of a brick wall. A child about four years old was with him and its screams attracted the attention of Mrs. Lynch who secured a pitchfork and drove the animal off. In attempting to get out of the barnyard, however, he was attacked the second time, and being so badly hurt was unable to get away and his wife was compelled to go to his rescue the second time. Two physicians were called in and found him in a serious condition.

SATURDAY

May Build Railroad.

At a meeting of the Cambridge board of trade information was laid before the members present which showed that the Pennsylvania Railroad Company has become seriously interested in the proposition to build what is known as the Fox Creek railroad; that is, a railroad to connect Cambridge with Church Creek, Madison, Taylor's Island, Golden Hill, Lakesville, Crapo, Wingate and Bishop's Head. Such a railroad will mean much to the section of county to be traversed and will open territory that has not hereto had railroad advantages.

FEDERALSBURG.
