There will be a meeting of the Local Council for Boy Scouts, held in the School Board office on Saturday evening, April 5th, at 8 o'clock p. m. The object of this movement is to improve in every way the condition of our boys, and it deserves the help of all our citizens. Will not those who are members of the Council make an effort to be present on Saturday evening? The boys are very much interested, and now is our opportunity to help them in a good work.

Mr. Richard Beaven, through his attorney, T. Alan Goldsborough has entered suit against the County Commissioners of Talbot county for injuries sustained on August 8, 1912. The plaintiff was traversing the public road of Talbot county in his automobile near the New Bridge when the front left wheel of his machine went down into a deep hole, throwing Mr. Beaven violently against the steering wheel, from the effects of which he suffered great pain and incurred heavy expense and suffered serious and permanent internal injury.

The entertainment given by Mrs. L. M. Pearsaul for the benefit of the Reformed Sunday School in Ridgely and Greensboro cleared $70. The Indian drill and statuary drill and pantomimes were planned by Mrs. Pearsaul. The Southern scene was written by Miss Irene Neff. The minature drama given at the Reformed Church Xmas entertainment was written by Miss Irene Neff. The plays were of high order and only shows what could be accomplished by the Misses Neff in this line if they had the opportunity. Credit is due to all for the success of the entertainments. — Caroline Sun.

Henry Medford, administrator of Abraham D. DeLong, deceased, presented list of sperate debts, and first and final account of administration, both of which were passed.

Order for the publication of notice to creditors of Jacob W. Dean, deceased, was granted to Isabella Dean, executrix.

Bruce G. Stevens and H. Earle Smith, administrators of B. Gootee Stevens, deceased, presented inventory and apprisement of personal estate of said deceased, which was ordered recorded, and order granted to sell the same at public sale.

In the matter of the real estate of Elbert C. Foster, deceased, Albert S. Handy and Thomas H. Chambers were appointed appraisers. Appraisers return filed; transcript of testimony taken before Court submitted; Albert G. Towers was appointed trustee, and decree for sale passed. Bond filed and approved.

Robert B. George, administrator of John H. George, deceased, presented list of debts sperate, rent account, account of money on deposit, first and final account of administration, and distribution, all of which were passed and ordered to be recorded.

The petition of Mrs. Josephine M. Downes, guardian to Robert W. Downes, minor, to invest certain moneys of said ward on mortgage was granted.

Kenton Stirred By Elopement.

The town of Kenton, on the Oxford branch of the Delaware railroad, second station below Clayton, has been thrown into a state of excitement over the elopement of Mrs. Lola Walker, wife of the station agent at Kenton, John Walker, a leading and respected citizen, with Alfred B. Reed, a tenant on the farm of C. P. Greers, near Smyrna.

That an elopement had really occurred was not definitely settled until late Monday evening, of last week when Mrs. Walker did not return to her home after having been gone since Saturday morning. She told her husband as she was leaving that she was going to Philadelphia. The absence of Reed, also, from his home since Saturday, and the known intimacy between the two, which has been of public knowledge for at least two years, confirmed the suspicions that an elopement had taken place.

Mrs. Walker leaves three interesting children ranging in ages from 16 down to five years, while Read leaves his wife and four children, ranging in ages from one year to 10 years. Mrs. Walker is about 37 years of age and Reed is about 32.

Station Agent Walker is badly broken up over the disappearance of his wife, as Mrs. Reed is deeply distressed over the disappearnce of her husband.

It is claimed that the intimacy between Mrs. Walker and Reed dates back two years ago, when Reed was a tenant on the Dr. Cooper farm, near Kenton. It is further alleged that the two have frequently met in Dover and in Philadelphia, as Mrs. Walker had a railroad pass and travelled quite a good deal.

Mr. Greer, owner of the farm on which Reed was a tenant, has begun legal proceedings against bim by having an execution issued on his personal property.—Delawarean.

Church Notes.

Rev. Robert K. Stephenson, superintendent of the Dover district, read his annual report at Thursday's session of the Wilmington Conference of the Methodist Episcopal Church.

Among the many items contained in the report the following will interest our readers:

It is with a feeling of gratification and pride we call attention to our educational institution, located at Dover, Del., our Conference Academy. Our new principal, Brother H. G. Budd, has not only raised the standard, but has sought in every way to maintain the good name and good work of the institution. The number of boarders this year has very materially surpassed that of last year, while the day students have more than doubled that of last year. The introdcution of the kindergarten has been a taking feature. The employment of a deaconess as a preceptress has proven to be a very helpful influence to the student body among our young ladies. The home life of the Academy is attractive and marked. The new gymnasium has been a source of pleasurable profit to the boys and girls of the school. The principal, being an athlete, has been of great service to the physical development of our boys, while the preceptress instructs the girls.

The religious life of the student body is marked. Many of the boys are studying for the ministry and there is maintained on Sunday morning a Young Men's Class, that is largely attended and deeply spiritual and the religious influence that is exerted by the young men, who are professed Christians, over those who are not, has been the means of bringing many of them into a saved condition.

Our school has a fine corps of professors and teachers, and if our people of the Peninsula did but it, they can find the largest measure, the largest and most healthful and helpful religious influence over their boys and girls, who go away from home, the most careful attention to teeir home life and other instruction along educational lines, and we bespeak for our Conference Academy the patronage of the people of the Peninsula.

The Epworth League on Dover district, I am glad to say, has made advanced steps during the year. The respective chapters have taken on new life. A most interesting convention was held in November at Denton, Md. Brother Leolan Jackson, the president together with his helpers, provided a most interesting programme. We found the people of Denton in the midst of a great revival. The convention caught the spirit and entered into the work. We were fortunate in securing the services of Rev. Wilbur F. Sherridan D. D., corresponding secretary of the Epworth League, who gave a stirring address and at once entered into the evangelistic services. Brother McWilliams of Chester occupied the second evening and likewise entered into the evangelistic services. Members of the Epworth League took part and many souls were converted.

New officers were elected, Rev. H. A. G. Westerfield as president and Rev. W. G. Koons as superintendent of the junior work.

The collections this year, as far as reports have come to the superintendent, indicate an advance along all lines. We can tell better in the final summing up, but the result represents many sacrifices and hard work and liberal giving on the part of the faithful pastor. Some layman give liberally to every cause presented, but the great body of Methodists are not generous.

Denton was visited by a gracious revival in the fall, and not only were there more than a half hundred souls saved, but they were added to the church and are being carefully looked after by the pastor and his coworkers.

The number of conversions as given to me by the reports of the pastors for the ensuing year is 1,118.

PASSING ON CANDIDATES.

John C B Hopkins, Melvin E Wheatley, Thomas J Sard, Harry E Reed and William F McCann were continued on trial and advanced to the studies of the fourth year.

Harry C. Shipley was continued in the studies of the third year.

John J Bunting, Blanchard L MacFarland and James T Price were graduated from the Conference course of study and elected to elder's orders.

Joseph A Buckson was continued in the studies of the fourth year.

Olie H Connely, George E Sterling, Ivanhoe Willis, Orem B Bice and George S Allen were advanced to the studies of the second year.

Ettori Di Stefano and Charles W Spry were continued in the studies of the first year.

O L Martin, who has been a supernumerary for five years, was granted a certificate of location, at his own request. Mr. Martin will engage in mercantile business.

SUPERNUMERARIES AND RETIRED.

Adam Stengle, W S H Williams, B F Jester and George E Wood were continued as supernumeraries.

The relation of George W Townsend, at his own request, was changed from effective to supernumerary. Mr. Townsend will reside at Ridley Park, Pa.

J A Arters, G W Bowman, G W Burke, James Carrell, G S Conway, J M Collins, James Esgate, W M Green, T H Harding, T S Holt, T B Hunter, J W Poole, P H Rawlins Robert Roe, W E Tomkinson, W M Warner, W W Warner, W W Redman, W O B Wallin and O S Walton were continued as retired ministers.

The Conference decided to raise $10,000 for Goucher College, Baltimore, and to apportion that amount among the various charges, the money to be raised within three years. Agents to the college also will come to this Conference territory to solicit larger sums.

PERSONAL PARAGRAPHS.

The Sussex Student, the school magazine, after many delays, has made its appearance and is receiving much favorable mention. The magazine contains the photographs of the football eleven of last season with a good write-up of the many games played. It also contains an excellent picture of the Georgetown public schools and the commercial department, showing the students of the latter at work. The next issue of the magazine is expected to be on the market by the middle of May. It is edited by members of the Georgetown High School.

Milford is rapidly becoming one of the largest shipping points for water melons on the Delaware-Maryland Virginia peninsula. Several of the largest of the growers of watermelons in this section have announced that they will increase their acreage this year in order that they may secure better prices for their crop. Last season the steamers from the Mispillion, Murderkill and Broadkiln rivers were overrun with watermelon shipments, and it is likely that the farmers this year will depend chiefly upon the railroad facilities for rapid shipment.

One of the most severe and sensational operations performed in Baltimore city in recent years occured Feb. 25, when little Edward Rothwell infant son of Mr. and Mrs. E. K. Rothwell, of Centreville, who has been undergoing treatment for burns received about Christmas of last year, was given the last resort cure by skin grafting. The child's father offered himself to the physicians and instructed them to take all the skin necessary to graft to the burned child. Both of Mr. Rothwell's limbs were entirely stripped of skin and grafted to the child. Mr. Rothwell has as yet suffered no ill effects, and the child's recovery is now expected.

Annoucement was made last week that the People's National Bank of Middletown, of which United States Marshall George L. Townsend is president, has a shortage in its accounts of $18,737,79, and while the shortage was discovered last fall the amount was not generally known. The bank is absolutely solvent. The capital stock will in no way be impaired. The $18,738.79 shortage will be paid in part out of the undivided profits to the extent of over $10,000, and the balance out of future earnings of the bank. The discrepancies he said, are between the discount ledger and the individual journal, and according to him there is some doubt in the minds of the government agents as to whether the bank ever received the money which the books indicate the bank is short.

Coughs and Consumption

Coughs and colds, when neglected, always lead to serious trouble of the lungs. The wisest thing to do when you have a cold that troubles you is to get a bottle of Dr. King's New Discovery. You will get relief from the first dose, and finally the cough will disappear. O. H. Brown, of Muscadine, Ala., writes: "My wife was down in bed with an obstinate cough, and I honestly believe had it not been for Dr. King's New Discovery, she would not be living today." Known for forty-three years as the best remedy for coughs and colds. Price 50c and $1.00. Recommended by All Druggists.

FACTS AND FICTION

Experiences of Denton Citizens Are Easily Proven to be Facts.

The most superficial investigation will prove that the following statement from a resident of Denton is true. Read it and compare evidence from Denton people with testimony of strangers living so far away you cannot investigate the facts of the case. Many more citizens of Denton endorse Doan's Kidney Pills.

C. K. Evans, Sixth St., Denton, Md., says:

"For two years I have seldom been without Doan's Kidney Pills, and I use them every once in a while. Being on my feet constantly tended to weaken my kidneys, and as a result my back became lame and painful. Sometimes it was hard for me to stoop. During the two years I have been using Doan's Kidney Pilles they have kept my kidneys in a normal condition and have never failed to rid me of attacks of backache. If Doan's Kidney Pills act as effectively in other cases as they have in mine, those needing a kidney remedy will not be disappointed with the results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

White Muscovy Ducks.

Eggs $1.00 per Dozen

White Muscovy Ducks are best for table use. They are large and dress away but very little. The flesh has flavor equal to wild duck. They are becoming very popular. Are easy to raise and, unlike other varieties, make no noise. They are good layers and splendid setters. Drakes weigh from 12 to 15 pounds, according to age. It takes five weeks to hatch white muscovy duck eggs. They require about half the amount of feed as other varieties of ducks. Will thrive well in small enclosures and need but little water. Give them a trial.
