**For Burns' Bruises and Sores**

### Summer School At Easton.

A summer school, which will draw its enrollment from Talbot, Queen Annes and Caroline, will be held in Easton from the 26th of August to the 11th of September. This is the announcement made by Secretary to the School Board, Nicholas Orem, which has evoked much favorable comment in school circles. Fourteen sessions will be held in the High School building and the work will be organized along the lines of approved summer schools. Courses in various school subjects will be offered and teachers will have the privelege of selecting those best adopted to their needs. Credits for work done at this school session will likely count towards requirements at approved schools. Dr. W. C. Bagley, director of education at the University of Illinois and one of the best known educators in the United States, will offer courses in education and Psychology; Miss Roxanna A. Steele, a critic teacher in the Horace Mann School, Columbia University, N. Y., will have charge of the primary work; Prof. S. M. North, head of the English Department of the Baltimore Polytechnic Institute, will offer courses in the English language. The object of organizing the summer school is to afford such teachers as may be unable to attend distant summer schools of like advantages. After several years' experience with the one week school institute is has been deemed sufficient to the demands of the teacher. The same financial encouragement will likely be extended to those who can attend distant schools in the way of meeting part expenses as formerly.

## M. P. CONFERENCE.

The Methodist Protestant Conference which has been in session since the 3rd at Lynchburg, Va., adjourned Tuesday evening. The session was a very pleasant and profitable one and few changes in pastors were made.

The question of a meeting place for next year was brought up when Rev. L. A. Bennett, pastor of the Milford (Del.) charge, said he would like to know if the Conference would accept the invitation he had extended As there was no other invitation on the table, the Milford invitation was voted on, and was accepted by a unanimous standing vote. Mr. Bennett said that they had just completed a handsome new church at a cost of $26,000. As the result of a recent great revival, more than 1,000 souls had been converted, and the church had a membership of over 500, all this success coming to them within the last two years and bringing the charge up from an obscure one to one of the most influential in the Conference. The Conference will meet on the first Wednesday in April, 1914.

In the report on the superannuate relations the following names were added to the list of beneficiaries for the present year: J. E. Maloy, D. W. Anstine, Mrs. R. S. Rowe, Mrs. H. F. Wright, Mrs. W. S. Phillips and Mrs. S. J. Smith.

The ministers were enthusiastic over the proposed summer conference to be held at Westminister one week, beginning on August 4. Rev. A. Norman Ward is the president.

The statistical report of the Conference showed a healthy condition in all departments. There are 143 ministers and 28,566 members, an increase of 129 over last year. Members received during the year, 2,160; conversions, 3,358, an increase of 1,104 over last year; Sunday school pupils enrolled, 31,216, an increase over last year of 704; members of the Christian Endeavor societies, 5,540. Mr. Marbury arrived in town on Monday and during the evening and Tuesday morning mingled with the crowd. His reception, on the part of a number of leading Democrats, was not as cordial as the one accorded Mr. Smith a few days ago, but there was no lack of enthusiastic supporters, showing that the regulars will have some trouble to hold the county in line for Smith at the primaries.

**White Muscovy Ducks.**

**Eggs $1.00 per Dozen**

White Muscovy Ducks are best for table use. They are large and dress away but very little. The flesh has flavor equal to wild duck. They are becoming very popular. Are easy to raise and, unlike other varieties, make no noise. They are good layers and splendid setters. Drakes weigh from 12 to 15 pounds, according to age. It takes five weeks to hatch white muscovy duck eggs. They require about half the amount of feed as other varieties of ducks. Will thrive well in small enclosures and need but little water. Give them a trial.
