"O. T.?"
"Yes; 'on tick.'"

THE RIGHT SOAP FOR BABY'S SKIN

In the care of baby's skin and hair, Cuticura Soap is the mother's favorite. Not only is it unrivaled in purity and refreshing fragrance, but its gentle emollient properties are usually sufficient to allay minor irritations, remove redness, roughness and chafing, soothe sensitive conditions, and promote skin and hair health generally. Assisted by Cuticura Ointment, it is most valuable in the treatment of eczemas, rashes and other itching, burning infantile eruptions. Cuticura Soap wears to a wafer, often outlasting several cakes of ordinary soap and making its use most economical.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston." Adv.

A Winner, If—

At an Easter breakfast John D. Rockefeller, Jr., once said:

"The road to success is called Perseverance. Perseverance conquers everything. But—"

Mr. Rockefeller, with a smile, took up an Easter egg.

"But," he added, "let us remember that a hen on an egg of porcelain perseveres."

Sure Enough.

"A dollar doesn't go very far these days."

"All depends. If you put it into railroad fare it will save you a long walk."

For SUMMER HEADACHES
Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

What a woman doesn't know about a neighbor is just what she wants to find out.

Many a man saves money by not using tobacco, but it is doubtful if the money has the same soothing effect.

Dr. Pierce's Pellets, small, sugar-coated, easy to take as candy, regulate and invigorate stomach, liver and bowels. Do not gripe. Adv.

Women may look good without being accused of good looks.

CONSTIPATION

Munyon's Paw-Paw Pills are unlike all other laxatives or cathartics. They coax the liver into activity by gentle methods, they do not scour; they do not gripe; they do not weaken; but they do start all the secretions of the liver and stomach in a way that soon puts these organs in a healthy condition and corrects constipation. Munyon's Paw-Paw Pills are a tonic to the stomach, liver and nerves. They invigorate instead of weaken; they enrich the blood instead of impoverishing it; they enable the stomach to get all the nourishment from food that is put into it. Price 25 cents. All Druggists.

Great Texas

A farm and urban home in the cream of the fertile highlands of Great Texas for $10.00 per month. Mild climate. No excessive heat or cold. Abundant rainfall. Markets the best. All conditions most favorable. Community well settled and cultured. Comfort, prosperity and independence await you. Write for full particulars.

REALLY GOOD RECIPES

WILL BE FOUND VALUABLE ADDITION TO THE MENU.

Tomato Soup in Most Approved Fashion—Excellent Sandwiches for Buffet Luncheon—Oatmeal Cookies Easy to Make.

Tomato Soup.—Take one quart can of tomatoes, cook and strain through colander to remove seeds and pulp; put juice in porcelain pan and as it heats slowly, add a pinch of soda, one teaspoon salt, a little pepper, lump of butter and sugar if desired. Stir this constantly until it boils, then add one quart of rich milk which has been heated to boiling point. Put one spoonful whipped cream on each dish of soup and serve hot with toasted crackers.

Delicious sandwiches for a buffet luncheon may be made by spreading thin slices of bread with melted cheese, then put in oven until light brown and serve hot.

A tempting salad is made of canned pears, cut in small pieces, mixed with pecan meats and served with mayonnaise dressing.

A good recipe for nut bread is: One cup sugar, one teaspoon lard or butter, one quart flour, three teaspoons baking powder, one teaspoon salt, one cup chopped nuts, enough milk to make a soft dough. Let rise twenty minutes and bake in moderate oven.

Oatmeal Cookies.—One cup sugar, one cup shortening, one and two-thirds lard, one-third butter, two eggs, two-thirds cup sour milk, one level teaspoon soda, one-half teaspoon baking powder, one teaspoon cinnamon, one cup currants, one scant cup oatmeal, add flour enough to make dough stiff enough to drop.

White Layer Cake.—Beat one-half cup butter to a cream, adding gradually one and one-half cups sugar; then add one cup milk; sift together two and one-half cups of flour with two teaspoons baking powder; add this to mixture and beat for five minutes, then add whites of six eggs, beating all together thoroughly.

Chocolate Gelatin.

Dissolve one-quarter box of gelatin in 1 pint of milk over the fire; add scant half-cup grated chocolate or cocoa. Cocoa makes less rich and more easily digested dessert. Using only one-quarter cup cocoa makes a palatable result, and still less rich than either of the other mixtures. When gelatin is dissolved add scant cup sugar and bit of salt and vanilla flavoring. Pour into mold and set aside to harden. Serve with plain cream, thin or thick. Or whip cream and flavor with vanilla. One-half cup of heavy cream whipped is usually enough for this amount of jell, which makes a generous serving for two extremely fond of chocolate.

A milk-thin boiled custard, lemon flavored, may be used instead of cream. Also a teaspoon of cocoa may be beaten into the cream, and when put on the jell dotted with tiniest beads of the jell.

Pond Lily Eggs.

Select nice oval eggs, boil in large kettle full of water for at least twenty minutes. Have water hot but not boiling when eggs are put in, then keep water simmering, but not boiling or they may crack. When time is up take up carefully and let cold water run over, to loosen shell, remove shell carefully and then split the whites into five or six petals—begin at small end and do not cut entirely to bottom. Now remove yolk carefully, mash well, add a little boiled dressing, salt and paprika, and replace enough of the mixture to simulate a half open lily, place on bed of lettuce and lay strips of green peppers so as to represent a stem.

Brown Hash.

Free cold, cooked beef or mutton from fat or gristle and chop fine, seasoning it very highly with salt and pepper. Add an equal quantity of cold potatoes, also chopped fine. Put in a frying pan, adding sufficient stock—water must be used if you have no stock—to moisten thoroughly. Heat slowly, stirring often until very hot. For one pint of hash spread over the top one tablespoonful of sweet beef dripping or butter, cover closely and draw to one side for twenty minutes, where it will crust on the bottom without burning. Fold over like an omelet and turn out on a hot platter.

Care of Machines.

Sewing machines should be treated with great care if you would have them last a long while and do perfect work. After every two days of steady work oil the machinery thoroughly, but be careful to wipe away all superfluous oil. Run the machine rapidly but steadily without any thread for five minutes after oiling. This will cause the oil to scatter, and the superfluous drops can be wiped away and none will be left to stain the material you are working.

Bavarian Cream.

Pour one-half cup of cold water over one box of gelatine, let stand until dissolved, which will be in about one hour; then add two tablespoons boiling water. Beat the yolks of four eggs with four tablespoons powdered sugar and stir into one pint of hot cream. To this add the gelatine, stir until smooth and set aside to cool. Whip one pint with four tablespoons powdered sugar and one tablespoon vanilla; when the custard is perfectly cold stir in the cream and set on ice.

To Set Colors.

To set blue and lavender, dissolve one ounce of sugar of lead in two and one-half gallons of hot water, stir with a wooden stick and let stand until lukewarm. Soak articles in this two hours and then hang up to drip dry. They should be washed thoroughly afterward. For pink and green add one-half cup strong vinegar to two and one-half gallons of water. Proceed as above.

BEEF STEW AND DUMPLINGS

Excellent and Substantial Dish That May Be Prepared at Comparatively Small Expense.

I use an "aitch" bone for this and reserve part for a roast, as the whole bone would make stew enough for 15 people. However, shinbone can be used if you prefer.

Take off enough of the fat to brown the meat and vegetables and let it be trying out while you are preparing the meat. If there is not fat use a little pork fat or drippings.

Cut your meat into dice about an inch large each way, dredge them well with salt, pepper and flour, and brown in hot fat. Put in your stewpan.

Cut two onions, one small turnip and half a carrot into dice and brown; add to the meat, cover with boiling water and cook until the meat is tender. Remove bone and skim off the fat; add six or eight small potatoes, which have been pared and parboiled. Add salt and pepper to taste. Cook until nearly done and then add dumplings.

Dumplings.—One pint of flour, ½ teaspoon of salt, 2 teaspoons baking powder. Mix thoroughly. Add enough milk to make a soft dough. Shape and cook ten minutes in the soft dough. Add salt and baking powder to the flour, and sift all so as to mix them thoroughly with enough milk to make a dough you can handle; it will take about a cupful; they can be dropped from the spoon or shaped a little with the hands.

The stew should be boiling rapidly when the dumplings are added, and continue to boil rapidly while they are in. Do not have so much water or broth in the stew that the dumplings cannot rest on the meat or on the potatoes. If they do not they will be heavy. And do not put in so many that they will crowd each other, for that makes them heavy also.—Boston Globe.

HOUSEHOLD QUESTIONS

Wood alcohol is excellent to clean a fine gold chain.

Hot vinegar will remove paint stains from glass.

The drooping fronds of a fern indicate that it is rootbound.

The paraffin paper which lines boxes is good to polish flatirons on.

Zinc can be polished by rubbing it with a cloth dipped in kerosene.

Cold water soothes the pain of any sudden inflammation of the eye.

Equal parts of milk and lukewarm water is excellent for sponging palms.

A torn umbrella can sometimes be mended by using black adhesive plaster.

When soaking mackerel or other salt fish see that the skin is uppermost.

Fill halved peaches with whipped cream and cover with grated macaroons.

Begin at the root of an onion, peeling it upward. The juice will not fly in your eyes.

When watering house plants, a little sweet milk added will often be a benefit to them.

Dried lemon peels sprinkled over the coals will destroy any disagreeable odor in the house.

When frying oysters, try adding a little baking powder to the crumbs in which they are rolled.

Curried Tripe.

Slice two onions, good sized ones, and drop them into a stewpan with two tablespoonfuls of butter and brown them over a quick fire. Then into this put a piece of tripe that has been cut into small pieces, pour over enough broth to cover and stew until tender. Into a teacupful of broth and half a teacupful of cream stir slowly a teaspoonful of flour, with the same amount of curry powder, and when smooth stir the mixture in with the tripe and onions, and boil a little longer, or until it has thickened as much as it will. When this is cooked turn into a hot dish and garnish with croutons.

Little Spice Cakes.

In three cups of flour sift 1½ level teaspoons of mixed spices and a saltspoon of salt. Add a level teaspoon of soda dissolved in one cup of boiling water and one cup of molasses mixed; add two tablespoons of melted butter and beat hard. Bake in greased iron gem pans in a moderate oven.—Alice E. Whitaker.

Grandma's Molasses Cake.

One cup of good molasses, one-half cup of sugar, one-half teaspoon each of cinnamon, nutmeg and cloves, three tablespoons of melted butter or lard; if lard is used put in one-half teaspoon of salt. One teaspoon of soda dissolved in one cup of hot water. Turn this into other ingredients; stir gently; flour to make a thin batter.

To Remove Teacup Stains.

Teacups, even when carefully kept, sometimes have dark stains at the bottom, caused by the action of the tannin in the tea. Salt, slightly moistened, will remove these, but in the case of very fine china sometimes scratches it a little. Powdered whiting will be found quite harmless and equally good.

Lobster Stew.

Put a pint of milk in the double boiler, two tablespoonfuls of butter, add two tablespoons of flour made smooth, and pour over hot milk and return to the boiler. Cook a little and put away to cool. Then add your lobster in small pieces and pour over it and put in the oven and brown. This is delicious.

German Cabbage Salad.

One-quarter of a head of cabbage cut as for sauerkraut; one small onion, sliced; one and one-half tablespoonfuls of olive oil or salad oil, salt and pepper to taste. Cover and let stand on back of stove for three hours, stirring or mixing occasionally. When ready to serve add one-half of a cupful of vinegar.

EFFECTIVE METHOD OF ERADICATING THE APHIS AND BARK LICE OF VARIOUS KINDS

Injurious Little Insects Safely Housed Underneath Scales, Adhering to Bark of Fruit Trees May Be Dislodged by Application of Lye and Soapsuds

Well Kept Orchard.

No coddling moth in this orchard. It was sprayed at exactly the right time. The worms hatch out just as the blossoms form and seek a hiding place in the blossom end of the apple. Spraying must be done just before the blossoms fall and before the calyx closes so that the poison will run down into the blossom and kill the worm. No use to spray after the buds have closed.

(By N. M. EDGERTON.)

Early spring is the time to get in effective work against the aphis and bark lice of various kinds. These are safely housed underneath the scales to be found adhering to the bark of fruit trees.

An effective way of getting rid of these is to wash the trunk and larger branches with a strong solution of lye or soapsuds. The application must be made before the buds begin to swell, or the trees will be injured by such strong washes.

This is the time, too, to apply the remedies for the scab of the apple and curl leaf of the peach. Spray thoroughly with copper sulphate while the wood is dormant, using one pound of sulphate to 15 gallons of water for the apple and one pound to 25 gallons for the peach. It is absolutely necessary that these applications be made before there is any swelling of the buds.

In the case of the scab, subsequent sprayings with the Bordeaux will be found necessary; the first to be applied after the appearance of the first leaves and before the blossoms open, the second after the blossoms fall.

Two or three more applications at intervals of two or three weeks may be necessary. Arsenites for leaf-eating insects and for the apple worm may be applied with the Bordeaux.

Going at a fruit tree with saw and ax, hammer-and-tongs fashion, is decidedly wrong. The removal of a large amount of top at any one time throws the top and root system out of balance. Nature seeks to remedy this condition by sending out numerous water sprouts.

It is better to remove a small amount of growth each season. The tree will then be able to maintain an even balance between its top and root system, and a large share of the energy that is wasted in the large limbs removed by the former practice will go toward building up a strong, symmetrical top.

Stormy days are the times for making up small fruit boxes and crates. If allowed to lie many weeks, however, they lose their fresh appearance, which is not a good thing.

Poultry confined to a small area in the orchard will destroy the pupae of the apple maggot.

A fruit tree in every fence corner would look better than weeds.

Is your orchard full of weeds and other litter, to provide a snug home for mice?

Beware of the irresponsible tree agent. Stick to the nursery firms that are known to be honest and have a reputation to sustain.

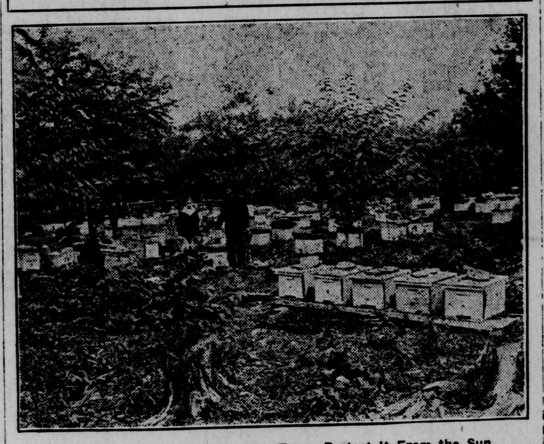

When the professional tree butcher comes along with his saws and hooks and axes tell him to go. These fellows ruin thousands of trees every year because they are ignorant of the correct principles of pruning.

A "dope" made of one part strychnine, one-third of one part borax, one part sirup and ten parts of water will knock out mice and rabbits. Sprinkle it over small sprouts and put them in the runway.

Among small fruits there is nothing the equal of the strawberry as a money-getter. Results in yields that would seem to the uninitiated visionary are possible where conditions are at all favorable.

It is none the less true, also, that yields from strawberry culture will vary with the seasons in greater extremes than any of the other small fruits. It is not every variety of strawberry that is equally at home on all soils and under every condition. The variety that is best adapted to the soil of my farm may not be the best variety for my neighbor's farm. In this respect the strawberry is a particular sort of plant.

EXCELLENT METHOD OF MANAGING THE BEES

Fine Location for Apiary, as the Trees Protect It From the Sun.

Mrs. Lillian Bowman of Neillsville, Wis., gives her method of managing bees in the Metropolitan Farm Journal, as follows:

My experience as to earning money in several different ways impresses me that beekeeping is the least work and gives the best income.

Since being married, six years ago, I have tried experiments in several ways, among which are gardening, dairying, raising chickens and keeping bees, all begun on a small scale, beginning with one cow, a dozen chickens, one swarm of bees, etc. Within four years my bees had increased to over 20 swarms—good, strong colonies.

They will increase faster, if they are allowed, with less clear profit; for each colony, large or small, needs a hive, and, of course, the small colonies will not make much surplus honey, and thus do not pay for their homes. These I rob of their queens and put them with other colonies. Each colony in the spring is worth from $7 to $10, according to the strength and breed. Each will throw out one large swarm which will make on an average 75 pounds of surplus honey, which sells at from 8 to 13 cents a pound, the expense being about $1.50 for a hive and place to store honey, etc. Now for the work part: They have to be watched patiently during the swarming season in order to keep the new swarms from going away; then it is necessary to go and hive them.

Protecting Young Trees.

Mulching in spring and summer is valuable for transplanted trees, but is dangerous in winter, as the straw furnishes a hiding place for the ground mice, which would ruin the trees by eating the bark. The winter protection of the young trees should be the mound of earth, a foot or so high and eighteen inches in diameter. In the fall, the mulching is to be drawn back from the tree a foot or more and the mound of earth raised around the trunk, with soil brought from eight feet or so distant. This is a complete protection from the mice.

Work for Horses.

If horses could talk they would advocate all kinds of improved machinery and would only ask that their collars fit and that the days be not too long and the loads too heavy. No good horse will object to doing his duty. He will not object when doing more than he should, but his owner should have the good judgment to do so for him.

THE KITCHEN CABINET

EVERYTHING is superficial and perishes, but love and truth only.

What is good is effective, generative; makes for itself room, food and allies.

A sound apple produces seed a hybrid does not. —Emerson.

DAINTIES WORTH REMEMBERING.

Don't forget when there is a sick one in the neighborhood to take in a little dish of some delicacy, which will mean a moment's thought to you but will bring hours of pleasant thoughts to you for your kindness. It is hard to realize how tired one becomes of everything and all kinds of food unless he has been on a bed of sickness.

A dish of soup or broth, in a dainty bowl with a pretty doily on a plate will brighten up the invalid for an hour. A rose or a violet, a postal card even, which means scarcely nothing to you, will be a source of delight to the shut-in one.

Here is a sweetmeat that most invalids will enjoy and be able to eat: Mix together a cup each of puffed rice, raisins, figs and dates, with a bit of orange and lemon peel dried; put all through the meat grinder, and make into small balls or squares. Wrap in waxed paper and allow the patient to nibble one occasionally. By the addition of nut meats and dipping the squares in chocolate one has a very elegant sweetmeat.

Drop whole figs in grape juice and let stand over night, stuff with nuts or a marshmallow, roll in sugar and serve as dessert with coffee and crackers.

Date Tapioca.—Stir frequently in a double boiler for half an hour three pints of milk, three tablespoonfuls of tapioca and half a cup of sugar. When cool stir in a cup of stoned raisins and dates chopped and half a teaspoonful each of lemon and vanilla. Bake in buttered baking dish. Dot with stoned dates.

Eastern Sandwiches.—Put through a meat chopper the following: A sour apple pared and quartered, one red Spanish pepper, one sweet green pepper, one Neufchatel cheese. Add a half teaspoonful of salt, a pinch of powdered sugar, and spread on slices of buttered bread.

Just at this season grated maple sugar, cream and chopped almonds are used as a dainty sandwich filling.

OVER their phantoms rise before us,
Our loftier brothers, but one in blood;
At bed and table they lord it o'er us,
With looks of beauty and words of good.

THE NUTRITIOUS CHOCOLATE.

Chocolate is so well liked by almost everybody and is such a valuable food in itself, that it should be often on our tables in various forms and in combination with other foods.

When using chocolate or cocoa for a beverage, it must be remembered that it needs boiling for a few minutes to bring out the flavor and make it more digestible.

Chocolate Ice Cream.—Take two well beaten eggs, a cup of sugar, a cup of milk and two ounces of chocolate cooked together until smooth; cool. Add a teaspoonful of vanilla and a pint of whipped cream; mix well and pour into the freezer and freeze.

Cup Custard With Chocolate Sauce.—Prepare cup custards as usual, using less sugar, and serve with the following sauce:

Chocolate Sauce.—Cut fine two squares of chocolate, add a cup of sugar, and cook together until smooth. Cool and flavor with vanilla and serve poured over the custard.

Chocolate Junket.—Heat a quart of milk until luke warm, add a teaspoonful of vanilla and a dissolved junket tablet. Stir until well mixed, and add a square of melted chocolate which has been cooked together with a half cup of warm milk and a half cup of sugar. Stir well and turn into cups to thicken. Serve with whipped cream, sweetened and flavored.

Fruit Jelly.—Soak half a box of gelatine in three-fourths of a cup of cold water. Heat one pint of milk, add a cup of sugar and one and a half squares of grated chocolate, a pinch of salt. Add the gelatine, and when it begins to thicken add half a teaspoonful of vanilla, a fourth cup each of raisins, chopped candied ginger, citron and a few currants. When firm serve with cream.

Nellie Maxwell.

John D. of Germany.

Germany is to have a petroleum monopoly, with 52 per cent. of the shares of the new company in control of the imperial government. In other words, the kaiser is to be as big an oil magnate in his own country as John D. Rockefeller has even been alleged to be in the United States.

Good With Ores.

Church—I see the School of Mines is going to have a boat-racing crew.

Gotham—They should turn out some good oresmen.

Short-Lived Bliss.

"What do you know about Jim?"

"Well, what about him?"

"He's married a girl worth a million dollars."

"Well, from what I know about Jim that coupie's going to be almost perfectly happy for about six months."

The Program.

"What would you do if a man got mad with you and told you to go to thunder?"

"If he was a bigger man than I, I would go at lightning speed."

Costly City Improvements.

If all the buildings torn down annually in the borough of Manhattan, in New York City could be assembled they would make a good-sized town. Last year the number of buildings demolished was 819, and a gas tank brought the total demolitions to 820. The front feet measurement of the houses pulled down was 24,875, or approximately four and three-quarter miles. Nine houses out of ten destroyed were four stories high.

Better Give Up Fish.

Some people are always prepared for trouble which may not materialize, like the man who carried a raw egg wherever he went.

"Why must you always carry about a raw egg?" asked a friend one day.

"Because it is such an excellent remedy for fishbone in the throat."

His Sarcastic Fling.

"I don't like to invite Mrs. Parvenu to my bridge party, and yet she's a sure loser and good pay?"

"I don't think you are going to get her money without her company," said the sarcastic husband. "What do you expect her to do, frame your invitation and mail you a check?"

Important to Mothers
Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it
Bears the Signature of Chas. H. Fletcher
In Use For Over 30 Years.
Children Cry for Fletcher's Castoria

In Delaware.

Black—I understand your father made money in the whaling industry.

Brown—That's right. He was sheriff, and was paid for doing stunts at the whippin-post.

An Instance.

"There is nothing in analogy."

"Why not?"

"Because if there was, if a colt is a little horse, wouldn't a Colt revolver be a little horse-pistol?"

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle. Adv.

There's nothing platonic about a man's love for himself.

SUCCESS Depends largely upon one's physical condition. No man or woman can do their best work if troubled with a weak stomach or a torpid liver. Don't be careless. Don't procrastinate.

Dr. Pierce's Golden Medical Discovery

promotes the flow of digestive juices, invigorates the liver and purifies and enriches the blood. It makes men and women strong in body and active in mind.

Ask Your Druggist

RESINOL RELIEVED ITCHING INSTANTLY

And Completely Cured Skin Humor.

If you have eczema or any other itching, burning skin trouble, the best evidence of what Resinol Soap and Resinol Ointment can do for you is the word of one who was cured by them after weeks of suffering. Adolph Schoen, 742 Shepherd Ave., Brooklyn, writes:

Nov. 1, 1912.—"At first little red spots were seen on my arms and body, which I noticed were getting larger every day. They itched me so much that I scratched myself until I bled. There were times when I stood up all night and scratched. I was troubled about three weeks, during which time I used ——, which seemed to do me no good whatever. Then, finally, I thought of trying Resinol Soap and Resinol Ointment. As soon as I applied Resinol Ointment I felt much relief. After using it a few times, I noticed the sore spots slowly fading away, and in about a month I was cured completely."

The soothing, healing balsams in Resinol Ointment and Resinol Soap, penetrate every tiny pore of the skin, clearing it of all impurities, driving away eczema, rashes, ringworm, psoriasis, and other eruptions, and making pimples and blackheads impossible. Prescribed by physicians for eighteen years. For free samples write to Dept. 2-K, Resinol, Baltimore, Md. Every druggist sells Resinol Ointment (50c) and Resinol Soap (25c), or sent by parcel post on receipt of price.
