PERSIA HOME OF TURQUOISE

Ninety-nine Per Cent. of World's Supply Is Mined Near the Famous City of Nishapur.

Ninety-nine per cent. of the world's turquoise comes from the mines of Nishapur, in Khorassan, a Persian city, by the way, in which Omar Khayyam was born and buried. The mines are situated in a range of hills consisting entirely of porphyries, greenstone, limestone and sandstone. The turquoise are found in veins in the rocks. This ridge of hills runs to a height of 8,655 feet; the highest point at which turquoise have been found is 8,800 feet above sea level; the lowest point, 4,800 feet. One mine is entered through a natural cave opening out on to the side of the mountain, and is worked by means of rough shafts and levels. The most highly prized turquoise are of a deep azure. A turquoise may have this color when it is first mined, but may fade after it has been exposed to light and air. For this reason great care is necessary when buying stones on the spot, as some of apparently good color are often kept in damp earthenware pots until the moment of selling; then, of course, they fade later. The finest turquoise should have, in addition to its deep azure color, an indefinable property called the "zat," which may be likened to the so-called "water" of the diamond or the "luster" of the pearl. The superstitious may care to note that the turquoise is believed to wax and wane in color according to the degree of the beloved's affection retained by the lover.

NEW SHARK.

A variety of fish new to science was captured by the Australian fisheries investigation vessel Endeavor during a recent cruise. This novelty in sea dwellers apparently belongs to the shark family, and is eighteen inches long. H. V. Dannevig, the fisheries director, describes it as the most curious fish he has seen.

Instead of scales the skin of the fish is covered with small plates presenting the appearance of a coarse rasp. Its body is triangle shaped, the flat under part being so formed as to enable the fish to rest on the soft mud. It has serrated teeth and very tiny eyes, in contrast with other fish found at considerable depths, which usually have very large optics.

SHORT ON COAL.

John Gufligan, a Muncie policeman, was on his way home a few nights ago, and took a short cut through the Lake Erie and Western railroad yards. He saw a negro, with a wheelbarrow and a shovel, preparing to take coal from a car, but none had been placed in the wheelbarrow.

"Come along, now, and don't make any trouble," said the policeman. "I've got the evidence on you, this time."

"Yassah, yassah, Mistah Guffigan," said the negro. "You got de evidence, but I ain't got de coal."—Indianapolis News.

LENGTH OF CHINESE WALL.

Dr. W. E. Geil, who in 1903 journeyed from end to end of the Chinese wall, says that with its extension its total length is really 2,550 miles, and that originally forty thousand stone towers guarded it.

Great Gains in Equal Suffrage

STATES—Oregon, Arizona and Kansas

CONVENTIONS which have endorsed equal suffrage---National, Progressive, Prohibition and Socialist Parties.

New Jersey - -	Republican

White, equal suffrage. Grey, partial suffrage. Black, no suffrage.

GOVERNORS who have recommended equal suffrage:

New York, Pennsylvania, Connecticut, Iowa, Montana, Michigan, Nevada, Indiana and West Virginia.

LEGISLATURES that have passed constitutional amendments providing for the enfranchisement of women:

Michigan, Montana, South Dakota, Nevada, North Dakota, Amendments passed by one session awaiting action by second, New York, New Jersey and Iowa.

THE CASE FOR WOMAN'S SUFFRAGE IS BASED ON CHANGED CONDITIONS

100 YEARS AGO

Government was principally concerned with war and the protection of property; comparatively few women were wage earners; married women had no property rights; education was denied to girls.

TODAY

Government concerns itself with the special interests and environment of home and children, and with all the social and industrial problems of life. 96,000 Maryland women are wage earners, the law recognizes women as property owners, the average woman is as well educated as the average man.

Women need the Vote because Votes alone decide all questions connected with government.

VOTERS OF MARYLAND!

It is un-American and un-democratic to refuse what a majority of the People demand and it is un-American and un-democratic to withhold from the People the *opportunity* to make such a decision therefore;

We want the Democratic and Republican parties to endorse, at their conventions, the submission of a constitutional amendment providing for the enfranchisement of women.

SUFFRAGISTS OF MARYLAND---We Need Your Help

1. Volunteer to secure 100 voters' signatures to our petition asking for the submission of equal suffrage to the voters for decision. Send your name to the Just Government League, 817 N. Charles St., Baltimore, and we will send you petition blanks.
2. Come to Baltimore and march in the Suffrage Parade starting from Washington Monument, 5 P. M., Rain or Shine, Saturday afternoon, May 31st, 1913.
