# FARMERS DO WELL

## Record Prices Paid Wheat Growers of Western Canada.

**Will Get Above 40 Cents Over the Fixed Scale Set—World Looking to the Dominion for Its Grain.**

It will be of interest to many readers to learn that their farmer friends in Canada will do so well out of the wheat they grew on western Canada's prairies last year.

There was a fixed price of $2.15 per bushel paid for their wheat last season.

Not knowing the price at which it would be possible to market the crop, the Canadian grain board, which organization handled the whole of the crop last summer, fixed $2.15 as a minimum price for No. 1 wheat, and arranged that each farmer should be given certificates for the quantity of wheat he delivered. The amount received over and above the fixed price which was paid to the farmers when selling their wheat was to be divided pro rata at the end of the season, and the holders of these certificates will, therefore, participate in the extra price received according to the quantity of wheat sold.

The latest advices are that the wheat board will pay at least 40 cents a bushel over the fixed rate of $2.15 a bushel for their wheat of last season. This means that about $40,000,000 will be distributed among the farmers of Alberta, Saskatchewan and Manitoba. This sum represents the difference in the price at which the wheat crop was sold and the price that was fixed for last season's crop.

**Canadian Wheat in Demand.**

A declaration that Canadian wheat would in all probability sell this year at between $3 and $5 per bushel, was made recently before a conference of western supporters of the government by Dr. Robert Magill, who was one of a deputation from the Winnipeg grain exchange. Dr. Magill argued in favor of open trading from the aspect of world conditions. He stated that no wheat could be exported from Russia owing to internal troubles.

Roumania would have absolutely none to export, India was prohibiting export, while Australia's acreage would fall from 12,000,000 to 7,000,000. The result would be that Australia would scarcely have enough to feed herself, and there would be absolutely no wheat for Europe, except from the Argentine and North America.

Dr. Magill, according to formal announcement, though it would be impossible to secure as good a price for the producer by control as by the open market. The United States market was now open, and, according to present prospects, there would be mighty little to spare from that quarter. The net result would be that Canadian wheat would undoubtedly go to a record figure.—Advertisement.

**Harmonious Episode.**

"Did you notice any unanimity of sentiment during the earlier sessions of the convention?"

"On one point only," answered Senator Sorghum. "Everybody stood up when the band played 'The Star Spangled Banner.'"

# INVENTIVE GENIUS ROBS CALOMEL OF NAUSEA AND DANGER

**Doctors' Favorite Medicine Now Purified and Refined from All Objectionable Effects. "Calotabs"—the New Name.**

What will human ingenuity do next? Smokeless powder, wireless telegraphy, horseless carriages, colorless iodine, tasteless quinine,—now comes nausealess calomel. The new improvement called "Calotabs" is now on sale at drugstores.

For biliousness, constipation and indigestion the new calomel tablet is a practically perfect remedy, as evidenced by the fact that the manufacturers have authorized all druggists to refund the price if the customer is not "perfectly delighted" with Calotabs. One tablet at bedtime with a swallow of water—that's all. No taste, no nausea, no griping, no salts. By morning your liver is thoroughly cleansed and you are feeling fine, with a hearty appetite. Eat what you please—no danger—go about your business.

Calotabs are not sold in bulk. Get an original package, sealed. Price, thirty-five cents.—(adv.)

**Uncomplimentary**

A man who possesses a corpulent figure takes a Sunday-school class. Recently he gave a lesson upon how sin affected the future life.

"Well, boys," he asked, in conclusion, "what would happen to me when I die if I had led a bad life?"

"The fat would be in the fire," replied one lad, after some reflection.

One dose of Dr. Peery's "Dead Shot" expels Worms or Tapeworm. Its action upon the Stomach and Bowels is beneficial. No second dose or after purgative necessary.—Adv.

**Chickens and Chickens.**

"Do your neighbor's chickens bother you any?" asked an East Side gentleman of his neighbor, who lived near a large family.

"No," replied the other, thinking that reference was made to the neighbor's three comely daughters. "They go down town every day, so we don't see much of them.—Columbus Dispatch.

## The SANDMAN STORY

### FOX'S HOUSEWARMING

MR. FOX had been so much disturbed by Mr. Dog and his master that he decided to try living somewhere besides on the ground floor of the woods.

One night he took a look around in the moonlight and to his delight he discovered the very place for him to live.

It was a house built in the branches of a big tree that some boys very likely had made the year before. "Now, with a very little repairing this

will be the finest house in the woods," said Mr. Fox.

So over the hill he ran to Mr. Man's and brought away all that was needed to make his house comfortable.

He even found an old piece of stovepipe to make his stove draw well, and in a few days Mr. Fox told all his friends of his new home and invited them to a housewarming.

Mr. Coon and Mr. Possum and Mr. Squirrel were not at all upset by finding out that Mr. Fox's new home was in the big tree, but Mr. Rabbit and Mr. Badger looked very sad and said it was out of the question for them to accept Mr. Fox's kind invitation, much as they would like to be present.

Mr. Fox had borrowed a ladder from Mr. Man and when Mr. Rabbit and Mr. Badger said they could not come Mr. Fox remembered that he was not much of a climber himself, and that if he did not keep that ladder he might have a hard time getting into his home when he was in a hurry.

So he decided that Mr. Man would not need it as much as he would and that it would also make a nice addition to his home.

When he told Mr. Badger and Mr. Rabbit about the ladder they decided to come, and one night when the moon was shining the animals were all to go to Mr. Fox's house to dinner.

Mr. Fox thought it would be the cheapest way to fill his guests with soup, so he took all the bones that he had collected and put them in a pot on the stove to boil.

Up curled the smoke from his chimney and out through the windows went the nice-smelling odor of soup, and Mr. Dog who happened to be running through the woods saw and smelled as well.

He wagged his tail and looked up at the house in the tree; then he whined and scratched the tree, and as he danced about it, with his eyes fixed upon the house all the time, he bumped into the ladder.

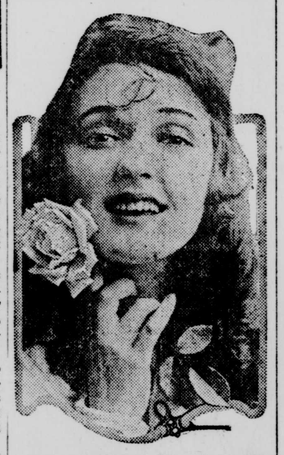

"Ah, how fortunate," he said, and up he went and into Mr. Fox's house he went, too, and took the cover off the pot.

It did not take him a second to remove the pot from the stove and pour out the soup in the sink and cool those bones, and then such a feast he had.

He ate until he became sleepy; then he lay down on the floor and went to sleep.

### FRUIT MAKES BEAUTY

HERE'S another menu, which will not add an ounce of flesh to the plump woman—

Boiled fish,
Roast mutton, sauce vinaigrette,
Cauliflower,
Sliced peaches or stewed peaches,
Black coffee, or clear tea.

There is plenty of nourishment in this meal, yet no fat. Starches like potatoes, gravy, fat soup, cream, sugar, are not included at all, the bread to be eaten with the meal is gluten bread, which is not fattening, and sweetening for coffee is saccharine, not sugar.

A good luncheon for the woman who wants to reduce would be—

Sliced cold meat,
Stuffed olives,
Fruit salad.

And all the gluten bread desired. Of course butter is not included in

The Acids in Fruit Will Make You Pretty and Healthy.

any way in a course of diet that is to reduce, for butter is pure fat.

A woman who weighs 190 pounds and who is trying to reduce by taking this scientific diet along with Turkish baths and exercise, complains that she feels hungry between meals. Eating little and often tends to fatten, yet when the system demands food, it is best to give it. An apple eaten between times will not hurt.

I see, upon a printed slip,
On my hotel room door,
What would betide were I to skip
Nor pay my little score.

But nowhere in that quoted law,
As I can see, b'jing,
I'm told to bust that mainhost's jaw
When he inserts his sting.

It does not say that if the food
Is quite unfit to eat,
I straight may trounce that robber good,
With willing fists and feet.

It does not promise if the bed
Is harder than the pave,
That I may swat him o'er the head
And fit him for his grave.

It does not say that when the clerk
Deceives me as to trains,
I am to smash him in the smirk
For being shy of brains.

No, all the law is, is to
Protect the hotel man.

**Mr. Gap Johnson Brought to a Realization of His Ignorance of His Surroundings.**

"It must be wonderful to live all your life long in the midst of the 'Land of a Million Smiles,' where the silvery waters purl and plash and the nymphs frolic all the day!" prattled one member of a party of city motorists who had invaded the Ozarks.

"To live in the—p'tu!—which?" surprisingly returned Gap Johnson of Rumpus Ridge.

"Here among the hills and dells of 'The Playground of America.' Look at the advertisement in the newspaper and—"

"Well, I'll be—p'tu—dogged! I never would 'a' b'lieved it in the living world if I hadn't seed it in the paper! **Popular—Indeed.**

"Um huh," Mr. W. nodded his approval. "But if you wanted this hat to be popular, Mary, why didn't you have them change this wheat on your hat to rye?"

**Boys and Dog Dig Up $2,000.**

Four schoolboys, while spending the Whitsuntide holidays in Mulhuddert, a village outside Dublin, ratting with a terrier, discovered a hoard of more than £400 in sovereigns (normally $2,000) in a rat hole. The news quickly spread, and a local postman claimed the money as his. He says about £400 was left to him by his father, a blacksmith, who had inherited it from his father, and to keep it safely in these troublous times the postman buried it in a field where it would still have remained but for the inquisitive terrier.

The postman's claim was admitted unanimously and the parents of the boys returned him sums amounting to about £150. Local volunteers are making inquiries with a view to having the balance of the money restored. —Edinburgh Scotsman.

## NO MERCY FOR THE FLIRT

**According to Dream, Modern Girl Met With Deserved Condemnation at St. Peter's Hands.**

Cortlandt Bleeker was talking at Piping Rock about the modern girl.

"I had a dream last night," he said. "I dreamed that a modern girl died and appeared before St. Peter.

"She wore a gown of filmy, almost transparent tissue. She was very beautiful, and she had a conquering air.

"'Let me in, please,' she said. 'My sweethearts were numberless, but my virtue remained unspotted. Though I skated over miles of thin ice, I never once fell through. I am a modern girl.'

"But St. Peter frowned and said, pointing downwards with his forefinger:

"'I condemn you to the same flames to which you condemned your foolish lovers.'"

**Bamboo for Paper Making.**

According to Sir Harry Johnston, the famous African explorer, the inexhaustible supply of grasses, reeds and rushes of tropical Africa can be utilized in making paper.
