American Union

FRIDAY, AUGUST 27, 1920

LOCAL ITEMS

Miss Alice Seeders, is camping with friends at Silver Bay.

If you want to sell your wheat or rye see L. B. Towers & Bro. 7-23

Mrs. India Todd of Cambridge is visiting her sister, Mrs. R. A. Lucas.

Mouments, tombstones and enclosures. SHORT & Co. Denton, Md. 1-30

Mr. Tharp Simons of Philadelphia, is visiting his cousin Mr. Elias Nuttle.

L. B. Towers & Bro.. have a large lot of both white and yellow corn for sale in large or small quanities.

Rev. A. P. Prettyman, a retired Methodist minister has bought a farm near Galena. The consideration was $25,000.

L. B. Towers & Bro., have just received a large consignment of Pacific Coast Red Cedar Shingles, which they will sell at reasonableprices.

Mrs. I. S. Hollingsworth will have ready for your inspection in the early weeks of September, an exclusive line of trimmed, tailored and untrimmed, hats, millinrey fabrics and trimmings.

The annual picnic of Sussex Co. Farm Bureau and Sussex County Pomona Grange was held at Rehoboth on Tuesday last. Mr. S. J. Lowell, National Grange Master was the leading speaker.

Lin. Eaton had the misfortune to overturn his car on the Greenboro road in attempting to avoid a collision. Marion Beck who was in the car with Mr. Eaton suffered severe bruises but Mr. Eaton and other occupants of the car escaped injury.

The Editor has been detained at his home in Salisbury most of the time during the past two weeks by sickness in his family and begs the indulgence of his patrons for neglect and delay in their Job printing and and in the limited news printed in the Union.

On The Square.

The cannery of L. B. Towers & Bro. began operations last week and is running at nearly capacity on tomatoes contracted at 50 cents. With the present outlook there is no prospect of profit for the firm, it is most probable that packing tomatoes this year at 50 cents will result in loss.

However, the Towers firm always plays the game and are cheerful losers when fortune is against them. Certainly their course is in pleasing contrast to that of several packing firms who contracted tomatoes at 50 cents last spring and now claim to be unable to operate because of can shortage or coal shortage or some other excuse that will save them risk of loss.

Denton 9—Harrington 2.

It may possibly have been an accident but you don't want to come around among the boys and say so—not if you are wise.

It was a good game anyhow and our boys put it over on their visitors in fine shape and they can do it again. The Denton team would be an all right base ball team if their courage is properly bolstered up by the loyalty and co-operation of our towns-people. The loss of a few games gives so many people cold feet that the boys don't hear anything but criticism and that don't help to win.

Give them another dollar and another chance and don't let anybody say the Denton team is a sorry lot without challenging the remark promptly and forcefully. Thats the spirit that puts pep in a ball team.

Colored People to Have Big Day at Harrington.

Sussex and Kent County Colored People's Day will be held at Harrington, at Sharp's Park, near the Fair Grounds, on September 2. Mayor Satterfield, of Harrington, has given Rev. Theodore Johnson the use of the city for the day. The Cambridge Band in their own new car, will be there for the last time. A real Indian Chief, with his folks, will lead the parade and give exhibitions in the grand stand. Another feature expected will be a colored woman looping-the-loop in an airplane. Floats, automobiles, bicycle and horse racing, base ball and other amusements will be indulged in.

Rev. Theodore Johnson,
Manager.

HELP WANTED

Hand compositor wanted on country weekly; man or woman, boy or girl. One who can feed job press preferred. Pleasant town, good living conditions. Light, pleasant shop 50-hour week, prompt pay every Saturday. AMERICAN UNION, Denton, Maryland.

FOLEY KIDNEY PILLS
FOR BACKACHE KIDNEYS AND BLADDER

Now more than ever a distressed world needs the uncling of Uncle Sam in every branch of uncling and will take him on almost any terms.

Bermondsey, England has employed a woman as "profiteer hunter," which indicates that there is to be no closed season for profiteers in England.

New figures, just compiled, show the debt of the world to be $200,000,000,000. Look, will you, at the twentieth century price of a dead horse.

We are informed that a frozen egg can be thawed out by placing it in cold water, but unless it happened to be a duck egg that might be murder.

A Boston doctor says: "In 50 years people will be too civilized to kiss." But some of us don't object to kissing the civilized ones—no matter how civilized they are.

There is to be further federal investigation of the high cost of living. Like all others, it will probably verify the suspicion of the consumer that living is high.

Just as soon as the smaller nations of Europe learn the world expects them to go to work, we may look for more revolutions.

As currency is now going in various parts of Europe, there is some excuse for the man who "does not know the value of money."

It has been said that men are prone to change their vices instead of actually reforming. Mexican bandits have taken to bootlegging.

The amount of platform material that can be thought up before national conventions assemble is already assuming formidable proportions.

The income of the ex-emperor of Austria has been cut from $3,500,000 to $750,000. Still many as good a man has to worry along on much less.

Hungary is casting about for material for a king. Happy at this time is the Hungarian over there who sees his chances bright for remaining a two-spot.

Considering the related facts that this is leap year and that rents are higher than ever, eligible bachelors may be forgiven for manifesting unusual timidity.

Lunatics in the Honolulu asylum are refusing to work without being paid for it. Clearly they are close to complete cure. They might as well be discharged at once.

People with plenty of diamonds and other jewels and jewelry will do well to strew a few eggs around where enterprising burglars may see them without eye strain.

Notice To Parents

Parents having children to begin school this fall should have them vaccinated now in order to be ready to start when school opens September 13th The State Board of Health in accordance with the State Law excludes from school children that have not been successfuly vaccinated.

Winter Cover Crop.

Now is the time to sow rye and vetch as a winter cover crop. This is a good combination and excellent results may be expected. About thirty pounds of vetch should be seeded to a bushel and a half of rye. Many local growers have this seed for sale already mixed. As there is so much of the valuable vetch seed in most of it one can afford to add at least one bushel of rye to one of the mixture.

Rye alone makes a very desirable winter cover crop, and the vetch makes a valuable addition because it is one of the few winter legumes. Getting a stand of vetch is much more certain than getting one of crimson clover.

A man with dairy cows could not ask for any earlier or better spring pasture than rye and vetch. After pastured it can then be turned under as a green manure crop and thus be substituted in part for high priced commercial fertilizers. To my mind some such procedure as this is at present an absolute necessity if agriculture is to be maintained on a profitable basis.

W. COLLINS THOMAS,
County Agent.

RIDGELY

Miss Dorthy Haymaker has returned from visit to Lewes, her friend Miss Scotton, accompanied her. Miss Helen Haymaker was also the guest of her parents over the week-end.

Mr. and Mrs. Iram Crouse, of Marcus Hook, have been visiting relatives here.

Mr. and Mrs. Davis Temple and children, of Philadelphia, were at the home of his sister, Mrs. John Swing. Mrs. Swing also entertained for the week end Mrs. James Howenstein, of Narbeth and Mrs. Ross Collins of Wilmington.

Mr. and Mrs. Robert Cook and children, of St. Petersburg, Florida, are visiting at the home of Mr. and Mrs. Gilbert Swann.

Mr. and Mrs. Frank Simon and Mr. James Simon are visiting in Altoona, Pa. During their absence the Simon residence is being occupied by Mrs. Otis Wharton and Mrs. Wesley Honey of Philadelphia.

HAS EYE ONLY FOR DEFECTS

Chronic "Knocker" Blind to Any Good Qualities Prominent in Either Friend or Enemy.

The knocker is a common wild animal you have all met. He is known by the loud noise which he makes all the time, which sounds like the strokes of a hammer on an anvil. I never knew of a place which did not have at least one confirmed knocker. One is enough to go around.

The knocker seems to be afraid of dying from shame if he should ever be caught saying something good about a person. He knocks the folks he works with. If you mention a good thing about a man, he is always ready with his "Yes, but—" and then he starts in with a long string of defects to offset the good qualities.

This animal has very keen eyes when he is looking for defects, but for good qualities he is stone blind. In nine cases out of ten he is envious or jealous, and when one has a feeling of inferiority, it is much easier to "run down" other people than to lift one's self up.

Many men do it who do not mean to do the harm they cause, but it is a habit they easily get into, and it not only does harm to other people, but it robs a man himself of the pleasure he might get out of the good things in other men.

An astronomer had been looking through a telescope at the sun for several hours one day, when someone said to him, "What a fine day we have had."

"I really hadn't noticed it," he answered, "I've been looking for the spots in the sun."

A man misses all the good things when he is on the outlook for spots.—H. E. Luccock in "Five Minute Shop Talks."

AMERICAN OF CLEAR VISION

John Willis Griffiths Revolutionized the Science of Merchant Shipbuilding and Naval Architecture.

John Willis Griffiths was the man who revolutionized the science of merchant shipbuilding and naval architecture. In 1841 he appeared before the American institute in New York and proposed a model for a new ship. He succeeded in interesting William Aspinwall, one of New York's China trade princes, who in 1842 signed a contract to build a ship of 750 tons according to Griffiths' designing.

The ship was completed in January, 1845, and named the Rainbow. The Rainbow sailed for China in February, and was back home again in September to reward her owners with 200 per cent over what she had cost.

John Willis Griffiths was born in New York in 1809, and died there in 1882. He was the inventor of the trap style of hull construction; the builder of the United States steamship Princeton, the first twin screw oceangoing vessel, and was the inventor of the process of bending ship timber in a vacuum. In 1851 he published privately a treatise on naval architecture which attracted comparatively little attention in this country, but its merits were recognized in England, and he became a lecturer in Edinburgh university on naval architecture.

Sheep-Raising Old Industry.

Sheep raising is perhaps the oldest of all industries, for it was practiced even before agriculture. Wool is a product of cultivation or domestication, for there are no wild animals which closely resemble the wool-bearing sheep, Floyd W. Parsons, in the Saturday Evening Post, says that with the discovery that cloth could be made from wool came an effort to improve the fleece by selection and breeding. The early Romans were most successful in this pursuit, and their endeavors along this line resulted in developing a fleece of great fineness. After the conquest of the Iberian peninsula, Roman sheep were introduced into Spain, where they so greatly improved the native flocks that even during Roman supremacy Spanish wool led the worlds markets, a prestige held for many centuries.

Dinner for Dyspeptics.

Sir Henry Holland, the late Lord Knutsford's father, gave what is not too common—a really pleasant piece of medical advice. He recommended his dyspeptic patients to go out to dinner and eat made dishes.

Herbert Spencer, one of the recipients of this advice, found it to a considerable extent justified.

"The effects of agreeable emotions are often surprising," says the valetudinarian philosopher. "I have had many experiences of the fact that dyspepsia, so far from being necessarily exacerbated by dining out, may even be cured, notwithstanding many dietetic imprudences, if the social surroundings are such as to yield great pleasure."—London Chronicle.

Bird Eats 1,000 Bugs.

A cliff swallow will eat a thousand flies, mosquitoes, wheat-midgets or beetles that injure fruit trees in a day and therefore is to be encouraged, says the American Forestry association of Washington.

This bird is also known as the cave swallow because it plasters its nest on the outside of a barn or other building up under the eaves. Colonies of several thousand will build their nests together on the side of a cliff.

These nests shaped like a flattened gourd or water bottle are made of bits of clay rolled into pellets and lined with straw or feathers. This bird winters in the tropics.

The interesting problem in arithmetic is now, if the canners have to pay $20 instead of $14 a ton for tomatoes this summer, how much will the ultimate consumer have to pay next winter.

According to one statistician $555 is sunk in worthless oil stock for every dollar that is earned from oil wells. The trouble is that so many inexperienced investors are sure they are going to win the dollar.

AMERICANS ABROAD IN RED CROSS WORK

United States Citizens Far Away Enthusiastic Members of the "Fourteenth" Division.

Among the most enthusiastic and energetic members of the American Red Cross are those citizens of the United States who live outside the continental boundaries of their country—sons and daughters of the Stars and Stripes residing at the far corners of the earth.

These people compose the Insular and Foreign Division of the parent organization, generally known as the "Fourteenth" Division, which has jurisdiction of all territory outside the country proper; that is, Alaska, Porto Rico, Hawaii, Virgin Islands, the Philippines, Guam, and even the island of Yap, which came under our flag as a result of the world war. For the year 1920 this division reported 30,808 paid up members.

The main object of this division is to give our citizens everywhere the opportunity to participate in the work of the organization which stands for the best national ideals. Americans in far places intensely loyal and patriotic, treasure their membership in the Red Cross as the outward expression of their citizenship. It is another tie to the homeland and to each other. There are chapters of this division in Argentine, Bolivia, Brazil, Canal zone, Chile, China, Costa Rica, Cuba, Dominican Republic, Ecuador, England, France, Guam, Guatemala, Haiti, Hawaii, Honduras, Japan, Manchuria, Netherlands, Nicaragua, Paraguay, Peru, Philippines, Porto Rico, Siberia, Spain, Sweden, Switzerland, Syria, Turkey, Uruguay, Venezuela and Virgin Islands.

During the war these scattered members of the Red Cross contributed millions in money, and millions of dollars' worth of necessary articles for the men in service, and sent many doctors and nurses to France. At the same time they carried on an excellent Home Service in their respective communities for the families of those who had gone to war, and in some regions gave large sums of money and immeasurable personal service to the relief of disaster and disease victims.

The division is now establishing service clubs in foreign ports for the benefit of sailors in the American Merchant Marine, making plans to aid Americans in trouble in foreign lands and completing arrangements for giving immediate adequate relief in case of disaster.

It is the Fourteenth Division's part in the great Peace Time program of the American Red Cross.

RED CROSS ASSISTS DISABLED VETERANS

The American Red Cross is carrying on a wide program of service for the disabled World War veterans receiving treatment in United States Public Health hospitals, and those being trained through agencies of the Federal Board for Vocational Education.

In each of the Public Health Service hospitals Red Cross workers devote their time to the general welfare of the service men from the day they enter the receiving ward until they are discharged. After the soldier's discharge the Red Cross continues its friendly service through the Home Service Section in his own community.

The Red Cross maintains a convalescent house at all of the hospitals, where patients can amuse themselves after they are well enough to be up and around. Parties and picture shows in the wards are also furnished, with occasional excursions when convalescence comes.

Great service has been rendered by the Red Cross in mental cases in identifying those who have appeared in state hospitals for the insane, and helping them secure compensation due from the Bureau of War Risk Insurance.

In the Federal Board's various district offices the Red Cross worker, acting with the Home Service Section, makes necessary loans to the men, arranges suitable living conditions, helps collect evidence and supply facts to the Board, assists in "appealing cases" and settles various personal difficulties for the men. The workers also follow up and aid all men who discontinue training.

The Red Cross agents find men "lost" to the Board, help clear up delayed cases and aid the college counselors in their friendly work with the men. Many Red Cross chapters have set up recreation facilities, and in some instances living clubs, so these victims of war may have attractive surroundings and the fun which must go with effective school work.

To the American Red Cross Institute for the Blind near Baltimore, Md., more than half of all the Americans blinded in the World War have come for training. The Institute, through the Red Cross, long ago conducted an exhaustive industrial survey to determine the vocations for which blind men could be fitted. As a result it is putting forth well trained men equipped to meet the social, civic and economic requirements of their respective communities.

Aid for Spanish Red Cross.

The Iberian chapter of the American Red Cross, composed of Americans resident in Spain, has just contributed $480 to a fund being raised by the Spanish Red Cross and the League of Red Cross Societies for the purpose of fighting malaria.

Sad News.

"Poor Godspur! His hands trembled when he opened that telegram from his wife."

"That showed genuine feeling. He probably feared she was ill or hurt in an accident."

"No. It was what he suspected, an urgent request for money coming as the finishing blow, just after he'd dropped $600 in a poker game. You know, the average married man simply can't understand why his wife has to have $50 or $60 at a time like that."—Birmingham Age-Herald.

State of Ohio, City of Toledo, Lucas County, ss.
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.
Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON, (Seal) Notary Public.
Hall's Catarrh Medicine is taken internally and acts through the Blood on the Mucous Surfaces of the System. Send for testimonials, free.

ENTRANCE EXAMINATIONS

State Scholarship In Engineering Courses.

INTRANCE EXAMINATIONS for the Department of Engineering, as well as for the College of Arts and Sciences will be held in the Civil Engineering Building, Homewood, Monday-Thursday Sept. 13-16, 1920, beginning at 9, a. m. each day, under the auspieces of the College Entranece Examination Board.

APPLICATIONS FOR SCHOLARSHIPS IN THE DEPARTMENT OF ENGINEERING, established under the provisions of the Laws of Maryland, chapter 90, 1912, will now be received. If there is more than one applicant for a particular scholarship, a competitive examination must be taken Friday September 17, 1920, beginning at 9 A M. Appointments will be made soon thereafter.

Each Legislative District of Baltimore City and each County of the State, with the exception of Harford, Talbot and Worcester Counties will be entitled to one or more schalarships for the year 1920-4921, in addition to those which have already been assigned. In the three counties mentionedabove, all of the available scholarships have been awarded.

Under the provisions of the Act of Assembly, the County and City Scholarships in the Department of Engineering are awarded only to deserving students whose financial circumstances are such that they are unable to obtain an education in Engineering unless free tution be granted them. The scholarships entitle the holders to free tuition free tution, free use of text books and exemption from all regular fees. One of the scholarships in each county and one in each Legislative District of the City carries also the sum of $200. The expense of attendanoe for those who do not receive scholarships is not greater than at other Maryland institutions.

Scholarships may be awarded to graduates of Loyola College, St. Johns College, Washington College, Western Maryland College, Maryland Agricultural College, Mt. St. Mary's College, Rock Hill College.

Two scholarships will be awarded "At Large."

Applicants should address The Johns Hopkins University, for blank forms of application and for catalogues giving information as to examinations, award of scholarships, and courses of instruction. The next session begins Tuesday September 28, 1920.

ROAD NOTICE

The County commissioners of Caroline County do hereby give notice that they have adopted the report of the examiners who were duly appointed to view the Willoughby Bridge Road, and in accordance with same have ordered the said road, Willoughby Bridge Road, running from its intersection with the Federalsburg-Smithville Road and the Chipman's Lane Road, in a southeasterly direction, to the Houston Branch Road, CLOSED AS A COUNTY PUBLIC ROAD.

THE COUNTY COMMISSIONERS of Caroline Cotnty.

Order of Publication

In Equity in the Circuit Court for Caroline County.

Elverta Rice vs. Charles Rice.

The object of this suit is to procure a divorce a vinculo matrimonii, from the defendant, and for general relief.

The bill states that on the 29th, day of September, 1910, she was married by the Reverend C. L. Corkran, to her husband Charles Rice, with whom she resided in the city of Baltimore, and Caroline County, Maryland, until the seventeenth day of May, 1912.

That though the conduct of your oratrix towards her husband, the said Charles Rice, has always been kind, affectionate and above reproach, the said Charles Rice has, without any just cause or reason abandoned and deserted her, and has declared his intentions to live with her no longer, and that such abandonment has continued for at least three years, and is deliberate and final and the separation of the parties is beyond any reasonable expectation of reconciliation.

That your oratrix and the said defendant Charles Rice, have had one child the issue of this marriage, a son Theodore Berkey Rice, now in the eighth year of his age.

That the said Charles Rice has not contributed anything toward the support of your oratrix since his said abandonment nor anything to the support of the infant son, the said Theodore Berkey Rice, since his release from service.

It is therefore, ordered by the Circuit Court for Caroline County on this 29th, day of July, 1920, that the plaintiff, by causing a copy of this order to be inserted in some newspaper published in Caroline County, Maryland, once in each of four successive weeks before the 31st day of August, 1920, give notice to the said absent defendant, Charles Rice, of the object and substance of this Bill, and warning him to be and appear in this Court, in person or by solicitor, on or before the 20th day or Sept. 1920, to show cause, if any she has, why a decree ought not to pass as prayed.

Messages to Seekers of Success

Miracles in Money

A city skyscraper seems a miracle in steel and stone. But it is only a vast number of girders painstakingly placed together—a vast quantity of bricks placed end to end and one above another.

Miracles in money are seeming miracles only. **You** can work miracles in your own life.

Saving Wins Success

You can have a big prosperous farm, own a car, or travel wherever you wish.

Men who have really succeeded spell it S-A-V-E. You can win the same success. You do not need a lot of money to do it. You need no great education.

You need only the determination to start now and continue. Let us help you.
